[Text of former (c) redesignated (1) and new headnote added to (c) by Am. 8, 8 F.R. 16088, effective 12-1-43]

(2) *Tolerance for items made of buna-S (GR-S).* A minus tolerance of 15 percent or 0.005, whichever is greater, is permitted on any compound gauges containing buna-S (GR-S), providing that such gauges shall not be reduced to less than 0.015 inch and that after such reduction the item of footwear will give fairly equivalent serviceability. The minimum weight of the item of footwear may be reduced by an amount equal to the reduction in the weight of the buna-S compound used as compared with the compound used before the change-over to buna-S.

(3) *Other deviations for items made of buna-S (GR-S).* A manufacturer may deviate from these specifications on footwear made in part of buna-S (GR-S) to improve the serviceability of the footwear, or to avoid an impediment to production or distribution. If a manufacturer deviates from the specifications for any type of footwear made in part of buna-S (GR-S), he shall report to the Office of Price Administration, Washington, D. C., prior to delivery of such footwear, the exact nature of the departure from the specifications, the reasons therefor, and the anticipated period of such departure. If upon examination of the report submitted by the manufacturer, the Office of Price Administration determines that the departure does not improve the serviceability of the footwear, or does not avoid an impediment to production, the Office of Price Administration will notify the manufacturer that the footwear in question, after the date of notification, will not meet these minimum specifications.

[Paragraphs (2) and (3) added by Am. 5, 8 F.R. 16060, effective 12-1-43]

(d) *General specifications.* The following minimum requirements are applicable to all footwear covered by these specifications, except that subparagraphs (2) and (3) are not applicable to any compound containing buna-S (GR-S).

(1) *Workmanship.* The footwear shall be free from any defects in workmanship which might impair its serviceability.

(2) *Rubber Compounds.* The rubber compounds shall show on analysis the amount of rubber hydrocarbons by volume, tensile strength and elongation indicated below:

Compounds	Minimum percent of total rubber hydrocarbons by volume	Minimum pounds tensile strength per square inch	Minimum percent elongation
Outsole	42	1200	
Friction	56	1100	350
Lining	63	1100	350
Upper	65	1500	300
Inner-parts	60	1000	
Heel (molded)	55	900	

The above minimum percent of total rubber hydrocarbons by volume includes the rubber hydrocarbons contained in reclaim rubber. If any change in the method of measurement of rubber hydrocarbons in reclaim rubber is adopted, the equivalent figures may be used.

(3) *Accelerated aging test.* After being subjected to a temperature of 158° F, plus or minus 2°, in air for seven days, the tensile strength shall not be less than 75 percent of its original value.

(4) *Resistance to abrasion.* When tested, as described in paragraph 8 under caption II, Physical Tests, Federal Specification ZZ-R-601a, the abrasive index of the sole compound shall be not less than 25 and the abrasive index of the molded-heel compound shall be not less than 21.

(5) *Lasts.* All footwear shall be made over each manufacturer's standard last equipment for the particular type of footwear.

(6) *Vulcanization.* All footwear shall be vulcanized under pressure to insure a compact unit.

(7) *Packaging.* All footwear shall be packed in standard commercial containers, so constructed as to insure acceptance by common or other carriers for safe transportation at the lowest rate to the point of delivery.

(8) *Brand name.* The manufacturer's brand name may be placed on the footwear.

(e) *Detailed specifications for men's 14" short boots.* In addition to the general specifications already set forth, men's 14" short boots must include the component parts or alternatives listed below, except where the phrase "when used" is employed, and must equal or exceed the following minimum specifications:

(1) *Height.* The height of the boot inside of the back shall be at least 13¾ inches.

(2) *Leg and toe lining.* The leg and toe lining shall be made of a cotton fabric which weighs at least 5.3 ounces a square yard. This cotton fabric shall be either frictioned on one side with the friction compound or spreader coated and calender coated with the lining compound to a thickness of at least 0.006 inch at the face of the calender.

(3) *Leg form.* The leg form shall be made of a cotton fabric which weighs at least 3.2 ounces a square yard and is frictioned on both sides with the friction compound. The leg form may be omitted if the leg lining is frictioned on one side with the friction compound or spreader coated and calender coated with the lining compound to a thickness of at least 0.020 inch at the face of the calender.

(4) *Vamp form.* The vamp form shall be made of a cotton fabric which weighs at least 5.3 ounces a square yard. This cotton fabric shall be frictioned on both sides with the friction compound and calender coated with the lining compound to a thickness of at least 0.015 inch at the face of the calender. The calender coating of the vamp form to a thickness of at least 0.015 inch at the face of the calender may be omitted if either a gum inner-vamp or a toe-cap is used. If a gum inner-vamp is used, it shall be made of the inner-parts compound and shall be at least 0.015 inch thick. If a toe-cap is used, it shall be made of a cotton fabric which weighs at least 5.3 ounces a square yard. This cotton fabric shall be frictioned on both sides with the friction compound and calender coated with the lining compound to a thickness of at least 0.006 inch at the face of the calender.

(5) *Counter form.* The counter form shall be made of a cotton fabric which weighs at least 5.3 ounces a square yard and is frictioned on both sides with the friction compound.

(6) *Friction back stay or friction back strip.* (When used). The friction back stay or friction back strip shall be made of a cotton fabric which weighs at least 3.2 ounces a square yard and is frictioned on both sides with the friction compound.

(7) *Insole.* The insole shall be made of a cotton fabric which weighs at least 3.2 ounces a square yard and is coated on one side with a good grade of stiffening compound.

(8) *Binder sole and filler sole.* A filler sole may be used with or without a binder sole. The filler sole shall be made of a good grade of stiffening compound. When the filler sole is used with a binder sole, and the two are produced separately, the binder sole shall be made of a cotton fabric that weighs at least 3.2 ounces a square yard, and is frictioned on both sides with the friction compound. When the filler sole is used with a binder sole, and the two are produced together, the binder sole shall be made of a cotton fabric which weighs at least 1.8 ounces a square yard and is frictioned on one side with the friction compound and coated on the other side with a good grade of stiffening compound. The total combined thickness of the insole, filler sole and binder sole shall be at least 0.175 inch, but it shall be at least 0.190 inch if the filler sole is used without a binder sole.

[Paragraph (8) as amended by Am. 5, 8 F.R. 16059, effective 12-1-43]

(9) *Stiffening counter.* The stiffening counter shall be made of a good grade of stiffening compound and shall be at least 0.045 inch thick.

(10) *Gum leg cover.* The gum leg cover shall be made of the upper compound and shall be at least 0.020 inch thick.

(11) *Gum vamp.* The gum vamp shall be made of the upper compound and shall be at least 0.030 inch thick.

(12) *Gum counter.* The gum counter shall be made of the upper compound and shall be at least 0.025 inch thick.

(13) *Gum ankle.* (When used). The gum ankle shall be made of the inner-parts compound and shall be at least 0.015 inch thick. The gum ankle may be incorporated in the gum leg running.

(14) *Gum heel stay.* (When used). The gum heel stay shall be made of a compound which meets the minimum re-

quirements for the inner-parts compound and shall be 0.025 inch thick.

(15) *Gum back strip.* (When used). The friction back strip shall be covered by a gum back strip which shall be made of the upper compound and shall be at least 0.020 inch thick.

(16) *Top-bind.* The top-bind, which shall be placed at the top of the boot, shall be at least 5/16 inch wide and 0.030 inch thick. It shall be made of a compound which meets the minimum requirements for the inner-parts compound. A black enamel rivet and cap or an eyelet may be placed at the top of the boot in the back, through or below the top bind.

(17) *Heel and toe foxing.* A heel and toe knurled outside foxing or a plain inside foxing shall extend completely around the edge of the outsole. The knurled outside foxing shall be made of a compound which meets the minimum requirements for the outsole compound and shall be at least 0.030 inch thick. The plain inside foxing shall be made of a compound which meets the minimum requirements for the inner-parts compound and shall be at least 0.020 inch thick.

(18) *Outsole.* The outsole shall be made of the outsole compound. It shall be at least 0.250 inch at the ball and shall extend under the heel to a thickness of at least 0.100 inch.

(19) *Heels.* The heels shall be at least ½ inch thick at the thinnest point.

(20) *Finish.* Boots shall have a natural heater or lacquer finish.

(21) *Weight.* The weight of a pair of size nine finished boots shall be at least 3 pounds 6 ounces.

(f) *Detailed specifications for men's 4-buckle cloth farm-weight arctic.* In addition to the general specifications already set forth, men's 4-buckle cloth farm-weight arctics must include the component parts or alternatives listed below, except where the phrase "when used" is employed, and must equal or exceed the following minimum specifications:

(1) *Height.* The height of the arctic, inside at the back and following the contour of last, shall be at least ten inches for size 9.

(2) *Leg and toe lining.* The leg and toe lining shall be made of a cotton fleece which weighs at least 6.5 ounces a square yard. This cotton fleece shall have a minimum Scott bursting strength of at least 45 pounds and shall be coated on one side with the lining compound. (See subparagraph (4)).

(3) *Pocket lining.* The pocket lining shall be a cotton fabric which weighs at least 3.2 ounces a square yard. This cotton fabric shall be coated on one side with the lining compound to a thickness of at least 0.006 inch at the face of the calender.

(4) *Cloth quarter, vamp and gore.* The cloth quarter, vamp and gore shall be made of either cotton and reprocessed wool cashmerette which weighs at least 8.5 ounces a square yard, or a twill weave cotton fabric, which weighs at least 9.0 ounces a square yard. The total thickness of lining compound between lining and outer fabric shall be at least 0.016 inch. See subparagraph (2).

(5) *Fabric quarter stay and fabric heel piece.* The fabric quarter stay and fabric heel piece shall be made of a cotton fabric which weighs at least 3.2 ounces a square yard and is frictioned on both sides with the friction compound.

(6) *Buckle straps.* The buckle straps shall be made of a cotton fabric which weighs at least 5.0 ounces a square yard. This cotton fabric shall be frictioned on both sides and coated with a compound, which meets the minimum requirements of the upper compound, to a thickness of at least 0.006 inch at the face of the calender. The buckle straps shall be folded and shall include two reinforcement cords of 10/2/3 Type A Hawser cord or an equivalent construction. The breaking strength of the cords shall be at least 12 pounds. The folded buckle straps shall be in such width as to suitably thread the manufacturer's standard types of buckle.

(7) *Buckles.* The buckles shall be the manufacturer's standard hook and ladder type.

(8) *Friction or gum inner-vamp.* Either a friction or a gum inner-vamp shall be used. If a friction inner-vamp is used, it shall be made of a cotton fabric which weighs at least 3.2 ounces a square yard and is frictioned on both sides with the friction compound. If a gum inner-vamp is used, it shall be at least 0.015 inch thick and shall be made of a compound which meets the minimum requirements for the inner-parts compound. When a gum inner vamp is used a collaret shall also be used. This collaret shall be made of a cotton fabric which weighs at least 2.7 ounces a square yard and is frictioned on both sides with the friction compound.

(9) *Gum or friction binding.* (When used.) If a gum binding is used it shall be made of a compound, which meets the minimum requirements for the inner-parts compound, and shall be at least ¼ inch in width and 0.020 inch thick. If a friction binding is used, it shall be made of a cotton fabric which weighs at least 2.7 ounces a square yard, is frictioned on both sides with the friction compound and is folded to form a bind.

(10) *Gum or fabric back stay.* Either a gum or fabric back stay shall be used. This gum back stay shall be made of a compound which meets the minimum requirements for the inner-parts compound and shall be at least 0.020 inch thick. The fabric back stay shall be made of a cotton fabric which weighs at least 3.2 ounces a square yard and is frictioned on both sides, with the friction compound. The cotton fabric may also be coated on one side to a thickness of at least 0.006 inch at the face of the calender. All back stays shall be made in the manufacturer's standard shape.

(11) *Insole.* The insole shall be made of a cotton fabric which weighs at least 3.2 ounces a square yard and is coated on one side with a good grade of stiffening compound.

(12) *Binder sole and filler sole.* A filler sole may be used with or without a binder sole. The filler sole shall be made of a good grade of stiffening compound. When the filler sole is used with a binder sole, and the two are produced separately, the binder sole shall be made of a cotton fabric that weighs at least 3.2 ounces a square yard, and is frictioned on both sides with the friction compound. When the filler sole is used with a binder sole, and the two are produced together, the binder sole shall be made of a cotton fabric which weighs at least 1.8 ounces a square yard and is frictioned on one side with the friction compound and coated on the other side with a good grade of stiffening compound. The total combined thickness of the insole, filler sole and binder sole shall be at least 0.125 inch, but it shall be at at least 0.135 inch if the filler sole is used without a binder sole.

[Paragraph (12) as amended by Am. 5, 8 F.R. 16059, effective 12-1-43]

(13) *Stiffening counter.* The stiffening counter shall be made of a good grade of stiffening compound and shall be at least 0.045 inch thick.

(14) *Heel and toe foxing.* The heel and toe foxing shall be made of a compound which meets the minimum requirements for the upper compound and shall be at least 0.025 inch thick.

(15) *Outsole.* The outsole shall be made of the outsole compound and shall be at least 0.190 inch thick at the ball and 0.250 inch thick at the back part of the heel.

(16) *Finish.* Arctics shall have a natural heater or lacquer finish.

(17) *Weight.* The weight of a pair of size nine finished arctics shall be at least 2 pounds 9 ounces.

(g) *Detailed specifications for men's 4-buckle, boys' 3-buckle and youths' 3-buckle light-weight arctics.* In addition to the general specifications already set forth, men's 4-buckle, boys' 3-buckle and youths' 3-buckle light-weight arctics shall include the component parts or alternatives listed below, except where the phrase "when used" is employed, and must equal or exceed the following minimum specifications:

(1) *Height.* The height at the back of the arctic and following the contour of the last shall be at least 9⅛ inches for men's size 9, 7⅝ inches for boys' size 5, and 7⅛ inches for youths' size 1.

(2) *Leg and toe lining.* The leg and toe lining shall be made of a cotton fleece which weighs at least 5.5 ounces a square yard. This cotton fleece shall have a minimum Scott bursting strength of 45 pounds and shall be coated on one side with the lining compound to a thickness of at least 0.006 inch at the face of the calender. See subparagraph (4).

(3) *Pocket lining.* The pocket lining shall be a cotton sheeting which weighs at least 3.2 ounces a square yard and is coated on one side with the lining compound to a thickness of at least 0.006 inch at the face of the calender.

(4) *Cloth quarter, vamp and gore.* The quarter, vamp and gore shall be made of either a cotton net or a square woven fabric. If a cotton net is used, it shall weigh at least 5.9 ounces a square yard. This cotton net shall have a minimum Scott bursting strength of 85 pounds and shall be coated on one side with the lining compound to a thickness of at least 0.006 inch at the face of the calender. If a square woven fabric is used, it shall weigh at least 6.4 ounces a square yard. This square woven fabric shall be coated on one side with the lining compound and the total thickness of the lining compound between the lining and the outer fabric shall be at least 0.016 inch. See subparagraph (2).

(5) *Fabric heel piece.* The fabric heel piece shall be made of a cotton fabric which weighs at least 3.2 ounces a square yard and is frictioned on both sides with the friction compound.

(6) *Fabric quarter stay.* The quarter stay shall be made of a cotton fabric which weighs at least 3.2 ounces a square yard and is frictioned on both sides with the friction compound.

(7) *Buckle straps.* The buckle straps shall be made of a cotton fabric which weighs at least 4.1 ounces a square yard, and is frictioned on both sides to an over-all gauge of at least 0.025 inch thick. The buckle straps shall be folded and when so constructed shall include two reinforcement cords of 10/2/3 Type A Hawser cord or its equivalent. The breaking strength of the cords shall be at least 12 pounds. When 6.0 ounces a square yard or heavier cotton fabric is used it is not necessary to reinforce with cord. The folded buckle straps shall be in such widths as to suitably thread the manufacturer's standard type of buckle.

(8) *Buckles.* The buckle shall be of the manufacturer's standard hook and ladder type.

(9) *Friction or gum inner-vamp.* Either a friction or a gum inner-vamp shall be used. If a friction inner-vamp is used, it shall be made of a cotton fabric which weighs at least 3.2 ounces a square yard and is frictioned on both sides with the friction compound. If a gum inner-vamp is used it shall be at least 0.015 inch thick and shall be made of a compound which meets the minimum requirements for the inner-parts compound. When a gum inner-vamp is used, a collaret shall also be used. This collaret shall be made of a cotton fabric which weighs at least 5.0 ounces a square yard and is frictioned on both sides with the friction compound.

(10) *Gum or friction binding.* (When used). If a gum binding is used it shall be made of a compound which meets the minimum requirements for the inner-parts compound and shall be at least ¼ inch in width and 0.020 inch thick. If a friction binding is used, it shall be made of a cotton fabric which weighs at least 2.7 ounces a square yard, is frictioned on both sides with the friction compound and is folded to form a bind.

(11) *Gum or fabric back stay.* Either a gum or a fabric back stay shall be used. The gum back stay shall be made of a compound which meets the minimum requirements for the inner-parts compound and shall be at least 0.020 inch thick. The fabric back stay shall be made of a cotton fabric that weighs at least 3.2 ounces a square yard and is frictioned on both sides with the friction compound. When the filler sole is used with a binder sole, and the two are produced together, the binder sole shall be made of a cotton fabric which weighs at least 1.8 ounces a square yard and is frictioned on one side with the friction compound and coated on the other side with a good grade of stiffening compound. The total combined thickness of the insole, filler sole and binder sole shall be at least 0.085 inch, but it shall be at least 0.095 inch if the filler sole is used without a binder sole.

[Paragraph (13) as amended by Am. 5, 8 F.R. 16059, effective 12-1-43]

(14) *Stiffening counter.* The stiffening counter shall be made of a good grade of stiffening compound and shall be at least 0.045 inch thick.

(15) *Heel and toe foxing.* The heel and toe foxing shall be made of a compound, which meets the minimum requirements for the upper compound, and shall be at least 0.020 inch thick.

(16) *Outsole.* The outsole shall be made of the outsole compound. It shall be at least 0.120 inch thick at the ball and at least 0.200 inch thick at the back of the heel.

(17) *Finish.* Arctics shall have natural heater or bright finish.

(18) *Weight.* The weight of a pair of finished arctics shall be no less than the following:

Age and size:	Weight
Men's size 9	1 pound, 12 ounces.
Boys' size 5	1 pound, 7 ounces.
Youths' size 1	1 pound, 3 ounces.

(h) *Detailed specifications for men's work rubbers, semistorm and storm.* In addition to the general specifications already set forth, men's work rubbers, semistorm and storm, must include the component parts or alternatives listed below except where the phrase "when used" is employed, and must equal or exceed the following minimum specifications:

(1) *Height.* The height at the back of the rubber, following the contour of the last shall be at least 3⅝ inches for men's size 9.

(2) *Lining.* The lining shall be made of a cotton net which weighs at least 6.3 ounces a square yard. This cotton net shall have a minimum Scott bursting strength of 85 pounds and shall be coated on one side with the lining compound to a thickness of at least 0.006 inch at the face of the calender.

(3) *Counter and heel piece.* The counter shall be made of a good grade of stiffening compound and shall be at least 0.045 inch thick. The heel piece shall be made of a cotton fabric which weighs at least 2.7 ounces a square yard and is frictioned on both sides with the friction compound. If the manufacturer so desires both parts may be combined and made from a cotton fabric, which weighs at least 1.8 ounces a square yard. This cotton fabric shall be frictioned on one side with the friction compound and coated on the other side with a good grade of stiffening compound to an over-all gauge of at least 0.040 inch thick. When the combination counter and heel piece is placed on the outside of the upper, a gum heel piece not less than 0.025 inch thick shall be used. The combination counter and heel piece may be placed between the lining and the upper.

(4) *Insole.* The insole shall be made of a cotton fabric which weighs at least 3.2 ounces a square yard and is coated one one side with a good grade of stiffening compound.

(5) *Binder sole and filler sole.* A filler sole may be used with or without a binder sole. The filler sole shall be made of a good grade of stiffening compound. When the filler sole is used with a binder sole, and the two are produced separately, the binder sole shall be made of a cotton fabric that weighs at least 3.2 ounces a square yard, and is frictioned on both sides with the friction compound. When the filler sole is used with a binder sole, and the two are produced together, the binder sole shall be made of a cotton fabric which weighs at least 1.8 ounces a square yard and is frictioned on one side with the friction compound and coated on the other side with a good grade of stiffening compound. The total combined thickness of the insole, filler sole and binder sole shall be at least 0.120 inch, but it shall be at least 0.130 inch if the filler sole is used without a binder sole.

[Paragraph (5) as amended by Am. 5, 8 F. R. 16059, effective 12-1-43]

(6) *Toe-cap.* Either a friction or a gum toe-cap shall be used. If a friction toe-cap is used, it shall be made of a cotton fabric which weighs at least 2.7 ounces a square yard and is frictioned on both sides with the friction compound. If a gum toe-cap is used, it shall be made of a compound which meets the minimum requirements for the upper compound and shall be at least 0.030 inch thick.

(7) *Upper.* The upper shall be made of the upper compound and shall be at least 0.030 inch thick.

(8) *Foxing.* The foxing shall be made of a compound, which meets the minimum requirements for the sole compound, and shall be at least 0.030 inch thick.

(9) *Gum bind.* The gum bind shall be made of a compound, which meets the minimum requirements for the sole compound and shall be at least $\frac{1}{4}$ inch wide and 0.030 inch thick A separate bind shall not be required if the bind is engraved in the gum upper.

(10) *Outsole.* The outsole shall be made of the outsole compound and shall be at least 0.190 inch thick at the ball and 0.25 inch thick at the back part of the heel.

(11) *Finish.* Men's work rubbers shall have a natural heater, starch or lacquer finish.

(12) *Weight.* The weight of a pair of finished men's size 9 work rubbers shall be at least 1 pound 9 ounces.

(13) *Alternate construction.* The manufacturer may use the following alternate constructions if he uses all of the constructions listed below:

(i) The lining shall be made of a fabric which weighs at least 6.7 ounces a square yard and is coated on one side with the lining compound to a thickness of at least 0.006 inch at the face of the calender. (See subparagraph (2)).

(ii) Both fabric and gum toe-caps shall be used. (See subparagraph (6)).

(iii) When both the combination counter and gum heel piece are used (See subparagraph (3)), then the gauge for the upper (See subparagraph (7)), the gum toe-cap (See subparagraph (6)) and the gum heel piece (See subparagraph (3)) shall be at least 0.025 inch thick.

(j) *Detailed specifications for men's and boys' dress rubber, storm and over (soft back only); youths', growing girls, misses' and children's storm rubber and women's over.* In addition to the general specifications already set forth, men's and boys' dress rubber, storm and over (soft back only); youths', growing girls', misses' and children's storm rubber and women's over must include the component parts or alternatives listed below and must equal or exceed the following minimum specifications:

(1) *Height.* The height at the back, following the contour of the last, shall be at least 3⅜ inches for men's size 9. Other ages or genders and heel heights shall vary from this height in accordance with each manufacturer's usual grading.

(2) *Lining.* For men's, boys' and youths' sizes, the lining shall be made of a cotton net which weighs at least 5.4 ounces a square yard and has a minimum Scott bursting strength of 85 pounds. For women's, growing girls', misses' and children's sizes, the lining shall be made of a cotton net which weighs at least 4.0 ounces a square yard and has a minimum Scott bursting strength of 45 pounds. For all genders, the fabrics shall be coated on one side with the lining compound to a thickness of at least 0.006 inch at the face of the calender.

(3) *Counter and heel piece.* The counter shall be made of a good grade of stiffening compound and shall be at least 0.045 inch thick. The heel piece shall be made of cotton fabric which weighs at least 2.7 ounces a square yard and is frictioned on both sides with the friction compound. If the manufacturer so desires, both parts may be combined and made from a cotton fabric which weighs at least 1.8 ounces a square yard. This cotton fabric shall be frictioned on one side with the friction compound and coated on the other side with a good grade of stiffening compound to an over-all gauge of at least 0.030 inch thick. The stiffening counter, either singly or in combination, may be omitted if a cotton fabric which weighs at least 5.0 ounces per square yard is used and is frictioned on both sides with friction compound. When the combination counter and heel piece is placed on the outside of the upper, a gum heel piece must be used. This gum heel piece shall be made of a compound which meets the minimum requirements for the upper compound and shall be at least 0.020 inch thick for men's, boys' and youths' sizes and 0.017 inch thick for women's, growing girls', misses' and children's sizes. The combination counter and heel piece may be placed between the lining and the upper.

[Paragraph (3) as amended by Am. 5, 8 F.R. 16059, effective 12-1-43]

(4) *Insole.* The insole shall be made of a cotton fabric which weighs at least 2.7 ounces a square yard and is coated on one side with a good grade of stiffening compound.

(5) *Heel plug.* A heel plug shall be used on women's heels of 12/8 or higher. This heel plug shall be made of a cotton fabric which weighs at least 1.8 ounces a square yard and is frictioned on one side and coated on the other side with a good grade of stiffening compound to a thickness of at least 0.035 inch. A fibre or hard rubber heel plug at least 0.040 inch thick may be used in place of the fabric heel plug.

(6) *Binder sole and filler sole.* A filler sole may be used with or without a binder sole. The filler sole shall be made of a good grade of stiffening compound. When the filler sole is used with a binder sole, and the two are produced separately, the binder sole shall be made of a cotton fabric that weighs at least 3.2 ounces a square yard, and is frictioned on both sides with the friction compound. When the filler sole is used with a binder sole, and the two are produced together, the binder sole shall be made of a cotton fabric which weighs at least 1.8 ounces a square yard and is frictioned on one side with the friction compound and coated on the other side with a good grade of stiffening compound. The total combined thickness of the insole, filler sole and binder sole shall be at least 0.070 inch, exclusive of the heel plug, but it shall be at least 0.080 inch if the filler sole is used without a binder sole.

[Paragraph (6) as amended by Am. 5, 8 F.R. 16059, effective 12-1-43]

(7) *Toe-cap.* Either a friction or a gum toe-cap shall be used, except that a gum toe-cap must be used on boys', youths', misses' and children's sizes. If a friction toe-cap is used, it shall be made of a cotton fabric which weighs at least 2.7 ounces a square yard and is frictioned on both sides with the friction compound. If a gum toe-cap is used, it shall be made of the upper compound and shall be at least the gauge of the upper.

(8) *Upper.* The upper shall be made of the upper compound and shall be at least 0.020 inch thick for men's, boys' and youths' sizes and shall be at least 0.017 inch thick for women's, misses', growing girls' and children's sizes.

(9) *Gum bind.* The gum bind shall be made of a compound which meets the minimum requirements for the sole compound. The gum bind shall be at least ⅛ inch wide and shall be at least the same gauge as the upper. A separate bind shall not be required if a bind is engraved in the gum upper.

(10) *Toe strip or foxing.* The toe strip or the foxing shall be made of a compound which meets the minimum requirements for the soling compound and shall be at least the same gauge as the upper. Neither a toe strip nor a foxing need be used where the manufacturer's process makes allowances for either of them in the upper itself.

[Paragraph (10) as amended by Am. 5, 8 F.R. 16059, effective 12-1-43]

(11) *Outsole.* The outsole shall be made of the outsole compound and shall be at least of the following thicknesses:

Age or gender	Inch thick at ball	Inch thick at back part of heel
Men's	0.100	0.100
Boys'	.120	.170
Youths'	.120	.170
Women's	.075	.100
Growing girls'	.075	.100
Misses'	.110	.160
Children's	.110	.160

(12) *Finish.* The finish shall be bright or lacquer.

(13) *Weight.* The weight of a pair of men's size 9 finished rubbers shall be at least 13 ounces. The minimum weight of other ages and genders shall vary in accordance with the manufacturer's grading.

(j) *Detailed specifications for rubber gaiters for women, misses and children.* The specifications are intended to cover the type of rubber gaiter commonly known as the "two snap rubber gaiter." However, because of the metal shortage no specific type of fastening has been required. In addition to the general specifications already set forth, such gaiters must include the component parts or alternatives listed below, except where the phrase "when used" is employed, and must equal or exceed the following minimum specifications:

(1) *Height.* The height of the gaiter inside at the back shall be at least 6½ inches for women's low heel, size 5, 6½ inches for misses' size 13 and 5½ inches for children's size 10.

(2) *Leg lining.* The leg lining shall be made of a cotton fleece which weighs at least 5.5 ounces a square yard. This cotton fleece shall have a minimum Scott bursting strength of 45 pounds and shall be coated on one side with the lining compound to a thickness of at least 0.003 inch at the face of the calender, providing that the combined thickness of the lining coat and upper is at least 0.023 inch. The leg lining shall be either a one or two piece construction, shall be properly lapped or butted at the seam joining and shall be properly cemented to insure good adhesion. See subparagraph (12).

(3) *Fastener post stay.* The fastener post stay shall be made of a cotton fabric which weighs at least 3.2 ounces a square yard and is frictioned on both sides with the friction compound.

(4) *Front stay lining.* The front stay lining shall be made of a cotton fabric which weighs at least 4.0 ounces a square yard and is coated on one side with the lining compound to a thickness of at least 0.006 inch at the face of the calender.

(5) *Fabric front stay.* The fabric front stay shall be made of a cotton fabric which weighs at least 3.2 ounces a square yard and is frictioned on both sides with the friction compound. The front stay may be omitted if the front stay lining is made of a cotton fabric which weighs at least 6.3 ounces a square yard.

(6) *Fabric front stay hinge.* The fabric front stay hinge shall be made of a cotton fabric which weighs at least 3.2 ounces a square yard and is frictioned on both sides with the friction compound. The fabric front stay shall be properly placed at the lower front stay and the quarter joint.

(7) *Fabric counter.* The fabric counter shall be made of a cotton fabric which weighs at least 2.7 ounces a square yard and is frictioned on both sides with the friction compound.

(8) *Fabric reinforcement strip.* The fabric reinforcement strip shall be made of a cotton fabric which weighs at least 2.7 ounces a square yard and is frictioned on both sides with the friction compound. If the lining is of a one piece construction the fabric reinforcement strip may be omitted.

(9) *Insole.* The insole shall be made of a cotton fabric which weighs at least 2.7 ounces a square yard and is coated on one side with a good grade of stiffening compound.

(10) *Heel plug.* A heel plug shall be used on women's heels of 12/8 or higher. The heel plug shall be made of a cotton fabric which weighs at least 1.8 ounces a square yard and is frictioned on one side and coated on the other side with a good grade of stiffening compound to a thickness of at least 0.035 inch. A fibre or hard rubber heel plug of at least 0.040 inch thick may be used in the place of the fabric heel plug.

(11) *Binder sole and filler sole.* A filler sole may be used with or without a binder sole. The filler sole shall be made of a good grade of stiffening compound. When the filler sole is used with a binder sole, and the two are produced separately, the binder sole shall be made of a cotton fabric that weighs at least 3.2 ounces a square yard, and is frictioned on both sides with the friction compound. When the filler sole is used with a binder sole, and the two are produced together, the binder sole shall be made of a cotton fabric which weighs at least 1.8 ounces a square yard and is frictioned on one side with the friction compound and coated on the other side with a good grade of stiffening compound. The total combined thickness of the insole, filler sole and binder sole shall be at least 0.070 inch, exclusive of the heel plug, but it shall be at least 0.080 inch if the filler sole is used without a binder sole.

[Paragraph (11) as amended by Am. 5, 8 F.R. 16059, effective 12-1-43]

(12) *Gum upper and gum reinforcement back stay.* The gum upper and gum reinforcement back stay shall be made of the upper compound, shall be embossed with a plain, pebble, grosgrain, or similar design roll and shall be at least 0.017 inch thick. If the lining is of a one piece front join construction, the gum reinforcement back stay may be omitted. See subparagraph (2).

(13) *Gum front stay, gum back stay and gum counter.* The gum front stay, gum back stay and gum counter shall be made of the upper compound, shall be embossed with a plain, pebble, grosgrain or similar design roll, and shall be at least 0.017 inch thick. The gum back stay and gum counter may be combined into one unit.

(14) *Gum binding.* The gum binding shall extend from the top of the front stay to the top of the gaiter and shall extend completely around the gaiter upper at the top. The gum binding shall be made of the upper compound, and shall be at least 0.017 inch thick and $\frac{1}{4}$ inch wide.

(15) *Gum foxing.* The gum foxing shall be made of the upper compound, shall be plain or embossed and shall be at least 0.017 inch thick. The gum foxing shall extend completely around the forepart of the outsole from shank to shank.

(16) *Gum toe-cap.* The gum toe-cap shall be made in the manufacturer's standard shape and shall be made of a compound which meets the minimum requirements for the upper compound, shall be plain or embossed and shall be at least 0.017 inch thick. The gum front join or piping strip extending over the toe edge may be considered as a gum toe-cap.

(17) *Outsole.* The outsole shall be made of the sole compound and shall be at least of the following thicknesses: women's, 0.075 inch at the ball and 0.150 inch at the heel; misses', 0.110 inch at the ball and 0.160 inch at the heel; and children's, 0.110 inch at the ball and 0.160 inch at the heel.

(18) *Fasteners.* Fasteners shall be of the manufacturer's standard type.

(19) *Finish.* The finish shall be natural heater or lacquer.

(20) *Weight.* The weight of a pair of women's size 5 finished gaiter shall be at least 7.5 ounces. The weight of other ages shall vary from this weight in accordance with the manufacturer's grading.

(k) *Detailed specifications for men's 4-buckle rubber midweight arctic.* In addition to the general specifications already set forth, men's 4-buckle rubber midweight arctics shall include the component parts or alternatives listed below, except where the phrase "when used" is employed, and must equal or exceed the following minimum specifications.

(1) *Height.* The height at the back of the arctic following the contour of the last, shall be at least 10 inches for men's size 9.

(2) *Leg and toe lining.* The leg and toe lining shall be made either of a cotton net which weighs at least 7.3 ounces a square yard, or of a cotton fleece which weighs at least 6.5 ounces a square yard. If the cotton net is used, it shall have a minimum Scott bursting strength of 85 pounds and shall be coated on one side with lining compound to a thickness of at least 0.006 inch at the face of the calender. If the cotton fleece is used, it shall have a minimum Scott bursting strength of 45 pounds and shall be coated on one side with lining compound to a thickness of at least 0.006 inch at the face of the calender.

(3) *Pocket lining.* The pocket lining shall be a cotton net which weighs at least 5.0 ounces a square yard and is coated on one side with lining compound to a thickness of at least 0.006 inch at the face of the calender.

(4) *Fabric backstay or optional back strip.* The fabric backstay or back strip shall be made of a cotton fabric which weighs at least 3.2 ounces a square yard. This cotton fabric shall be frictioned on both sides with friction compound, or shall be frictioned on one side with friction compound and coated on the other side with lining compound to a thickness of at least 0.006 inch at the face of the calender.

(5) *Fabric front stay.* The fabric front stay shall be made of a cotton fabric which weighs at least 3.2 ounces a square yard. This cotton fabric shall be frictioned on one side with friction compound and coated on the other side with lining compound to a thickness of at least 0.003 inch at the face of the calender.

(6) *Stiffening counter and fabric heel piece.* The stiffening counter shall be made of a good grade of stiffening compound and shall be at least 0.040 inch thick. This stiffening counter shall be used in conjunction with either a separate fabric heel piece, or a cotton fabric which weighs at least 5.0 ounces a square yard. If the heel piece is used, it shall be made of a cotton fabric which weighs at least 5.0 ounces a square yard and is frictioned on both sides with the friction compound.

(7) *Fabric buckle stay cover.* The fabric buckle stay cover shall be made of a cotton fabric which weighs at least 5.0 ounces a square yard, and is frictioned on both sides with friction compound.

This cotton fabric either shall be covered with gum buckle stay covers made of upper compound of a thickness of at least 0.015 inch, or shall be coated with lining compound to a thickness of at least 0.010 inch at the face of the calender. It is optional to use a one-piece construction or separate buckle covers.

(8) *Fabric buckle-strap.* The buckle-strap shall be made of a cotton fabric which weighs at least 5.0 ounces a square yard. This cotton fabric shall be frictioned on both sides with friction compound and coated on one side with lining compound to a thickness of at least 0.003 inch at the face of the calender. The buckle straps shall be folded and when so constructed shall include two reinforcement cords of 10/2/3 type A Hawser cord, or its equivalent. The breaking strength of the cords shall be at least 12 pounds. The folded buckle-straps shall be in such width as to suitably thread the manufacturer's standard type of buckle.

(9) *Buckles.* The buckles shall be the manufacturer's standard hook and ladder type.

(10) *Fabric or optional gum front chaffing stay or pocket stiffener.* The front chaffing stay or pocket stiffener shall be made either of a cotton fabric which weighs at least 3.2 ounces a square yard or of the inner parts compound. If a cotton fabric is used, it shall be frictioned on one side with friction compound, or coated on one side with the lining compound to a thickness of at least 0.003 inch at the face of the calender. If the inner parts compound is used, it shall be at least 0.015 inch thick.

(11) *Friction or optional gum inner-vamp.* Either a friction or a gum inner-vamp shall be used. If a friction inner-vamp is used, it shall be made of a cotton fabric which weighs at least 3.2 ounces a square yard, and is either frictioned on both sides with the friction compound, or coated on both sides with the lining compound to a thickness of at least 0.003 inch at the face of the calender. If a gum inner-vamp is used, it shall be at least 0.025 inch thick and shall be made of a compound which meets the minimum requirements for the inner-parts compound.

(12) *Insole.* The insole shall be made of a cotton fabric which weighs at least 3.2 ounces a square yard, and is coated on one side with a good grade of stiffening compound.

(13) *Binder sole and filler sole.* A filler sole may be used with or without a binder sole. The filler sole shall be made of a good grade of stiffening compound. When the filler sole is used with a binder sole, and the two are produced separately, the binder sole shall be made of a cotton fabric that weighs at least 3.2 ounces a square yard, and is frictioned on both sides with the friction compound. When the filler sole is used with a binder sole, and the two are produced together, the binder sole shall be made of a cotton fabric which weighs at least 1.8 ounces a square yard and is frictioned on one side with the friction compound and coated on the other side with a good grade of stiffening compound. The total combined thickness of the insole, filler sole and binder sole shall be at least 0.120 inch, but it shall be at least 0.130 inch if the filler sole is used without a binder sole.

[Paragraph (13) as amended by Am. 5, 8 F.R. 16059, effective 12-1-43]

(14) *Gum quarter.* The gum quarter shall be made of the upper compound and shall be at least 0.025 inch thick.

(15) *Gum pocket.* The gum pocket shall be made of the upper compound and shall be at least 0.020 inch thick.

(16) *Gum heel piece.* The gum heel piece shall be made of a compound which meets the minimum requirements of the outsole compound and shall be at least 0.025 inch thick.

(17) *Gum front stay.* The gum front stay shall be made of compound which meets the minimum requirements of the outsole compound, shall be embossed with a plain, pebble, grosgrain or similar design on the outer surface, and shall be at least 0.025 inch thick.

(18) *Gum vamp.* The gum vamp shall be made of the upper compound and shall be at least 0.025 inch thick.

(19) *Gum toe cap (When used).* The gum toe cap may be omitted if a fabric inner vamp is used. If the gum toe cap is used, it shall be made of a compound which meets the minimum requirements for the outsole compound, and shall be at least 0.025 inch thick.

(20) *Gum bind.* The gum bind shall be made of a compound which meets the minimum requirements for the outsole compound, shall be placed at the top of the arctic, and shall be at least 0.025 inch thick and 5/16 inch wide. A separate bind shall not be required if the bind is engraved in the gum upper.

(21) *Gum foxing; heel and toe.* The heel and toe foxing shall be made of a compound which meets the minimum requirements of the outsole compound, shall have a design on its surface and shall be at least 0.030 inch thick at its thinnest point.

(22) *Gum outsole.* The outsole shall be made of the outsole compound and shall be at least 0.190 inch thick at the ball and 0.250 inch thick at the back part of the heel.

(23) *Finish.* Arctics shall have a natural heater or lacquer finish.

(24) *Weight.* The weight of a pair of men's size 9 finished arctics shall be no less than two pounds nine ounces.

(l) *Detailed specifications for men's 4-buckle, boys' 3-buckle and youths' 3-buckle light-weight rubber arctics.* In addition to the general specifications already set forth, men's 4-buckle, boys' 3-buckle and youths' 3-buckle light-weight arctics shall include the component parts or alternatives listed below, except where the phrase "when used" is employed, and must equal or exceed the following minimum specifications:

(1) *Height.* The height at the back of the arctic following the contour of the last shall be at least 9⅝ inches for men's size 9, 7¾ inches for boys' size 5, and 7⅛ inches for youths' size 1.

(2) *Leg and toe lining.* The leg and toe lining shall be made of a cotton fleece which weighs at least 5.5 ounces a square yard. This cotton fleece shall have a minimum Scott bursting strength of 45 pounds, and shall be coated on one side with the lining compound to a thickness of at least 0.003 inch at the face of the calender.

(3) *Pocket lining.* The pocket lining shall be made of a cotton net which weighs at least 4.0 ounces a square yard, and is coated on one side with the lining compound to a thickness of at least 0.003 inch at the face of the calender.

(4) *Fabric back stay or optional back strip.* The fabric back stay or back strip shall be made of a cotton fabric which weighs at least 2.7 ounces a square yard and is frictioned on both sides with the friction compound.

(5) *Fabric front join stay.* The fabric front join stay shall be made of a cotton fabric which weighs at least 5.0 ounces a square yard, and is either frictioned on both sides with the friction compound, or frictioned on one side with the friction compound and coated on the other side with lining compound to a thickness of at least 0.003 inch at the face of the calender.

(6) *Fabric counter.* The fabric counter shall be made of a cotton fabric which weighs at least 3.2 ounces a square yard and is either frictioned on both sides with the friction compound, or frictioned on one side with friction compound and coated on the other side with a good grade of stiffening compound to a thickness of at least 0.040 inch.

(7) *Fabric buckle stay cover.* The fabric buckle stay cover shall be made of a cotton fabric which weighs at least 5.0 ounces a square yard. This cotton fabric shall be frictioned on both sides with the friction compound and either covered with gum buckle stay covers made of upper compound of a minimum thickness of 0.015 inch or coated with lining compound to a thickness of at least 0.010 inch at the face of the calender. If a minimum 4 strand tire cord fabric or a square woven fabric weighing at least 5.3 ounces a square yard and coated with lining compound, or frictioned with friction compound and doubled to itself, is used for the buckle strap, this strap need be covered only with a gum buckle stay cover which is made of the upper compound and is at least 0.015 inch thick. It is optional to use a one-piece construction or separate buckle covers.

(8) *Fabric buckle strap.* The fabric buckle strap shall be made of a cotton fabric which weighs at least 5.0 ounces a square yard. This cotton fabric shall be frictioned on both sides with friction compound and coated on one side with lining compound to a thickness of at least 0.003 inch at the face of the calender. The buckle strap shall be folded and when so constructed shall include two reinforcement cords of 10/2/3 Type A Hawser cord or its equivalent. The breaking strength of the cords shall be at least 12 pounds. When 5.3 ounces a square yard or heavier cotton fabric is used, it is not necessary to reinforce with cord. The folded buckle strap shall be in such width as to suitably thread the manufacturer's standard type of buckle.

(9) *Buckles.* The buckle shall be of the manufacturer's standard hook and ladder type.

(10) *Fabric or optional gum front chaffing stay or pocket stiffener.* The front chaffing stay or pocket stiffener shall be made either of a cotton fabric which weighs at least 2.7 ounces a square yard or of the inner parts compound. If the cotton fabric is used, it shall be either frictioned on one side with friction compound, or coated on one side with lining compound to a thickness of at least 0.003 inch at the face of the calender. If the inner parts compound is used, it shall be at least 0.020 inch thick.

(11) *Insole.* The insole shall be made of a cotton fabric which weighs at least 2.7 ounces a square yard and is coated with a good grade of stiffening compound.

(12) *Binder sole and filler sole.* A filler sole may be used with or without a binder sole. The filler sole shall be made of a good grade of stiffening compound. When the filler sole is used with a binder sole, and the two are produced separately, the binder sole shall be made of a cotton fabric that weighs at least 3.2 ounces a square yard, and is frictioned on both sides with the friction compound. When the filler sole is used with a binder sole, and the two are produced together, the binder sole shall be made of a cotton fabric which weighs at least 1.8 ounces a square yard and is frictioned on one side with the friction compound and coated on the other side with a good grade of stiffening compound. The total combined thickness of the insole, filler sole and binder sole shall be at least 0.070 inch, but it shall be at least 0.080 inch if the filler sole is used without a binder sole.

[Paragraph (12) as amended by Am. 5, 8 F.R. 16059, effective 12-1-43]

(13) *Gum quarter.* The gum quarter shall be made of the upper compound and shall be at least 0.020 inch thick.

(14) *Gum pocket.* The gum pocket shall be made either of the upper compound or of a knitted fabric. If the upper compound is used, it shall be at least 0.020 inch thick. If a knitted fabric is used, it shall weigh at least 4.0 ounces a square yard, and shall be coated with lining compound to an over all thickness of at least 0.030 inch.

(15) *Gum heel piece.* The gum heel piece may be one or two pieces. It shall be made of a compound which meets the minimum requirements of the outsole compound and shall be at least 0.020 inch thick.

(16) *Gum front stay.* The gum front stay shall be made of a compound which meets the minimum requirements of the outsole compound and shall be at least 0.020 inch thick.

(17) *Gum top bind.* The gum top bind shall be made of a compound which meets the minimum requirements of the outsole compound, shall be placed at the top of the arctic and shall be at least 0.025 inch thick and at least ¼ inch wide.

(18) *Gum foxing.* The foxing shall be made of the outsole compound and shall be at least 0.020 inch thick.

(19) *Gum outsole.* The outsole shall be made of the outsole compound and shall be at least 0.120 inch thick at the ball and at least 0.195 inch thick at the back of the heel.

(20) *Finish.* Arctics shall have a natural heater or lacquer finish.

(21) *Weight.* The weight of a pair of finished arctics shall be no less than the following:

Age and size:	Weight
Men's—Size 9	1 pound, 12 ounces.
Boys'—Size 5	1 pound, 7 ounces.
Youths'—Size 1	1 pound, 3 ounces.

[§ 1315.72 added by Am. 3, 8 F.R. 12302, effective 10-2-43]

§ 1315.73 *Appendix D: Maximum prices for canvas footwear—(a) Maximum prices for canvas rubber footwear named in Table II.* (1) This paragraph is applicable to canvas rubber footwear named in Table II, but only if such footwear is produced after December 14, 1943, and it does not fall below the manufacturer's minimum specifications filed with the Rubber Price Branch, Office of Price Admihistration, before December 31, 1943.

(2) In order to determine his maximum price for canvas rubber footwear subject to this paragraph, the manufacturer shall deduct from the price for the canvas rubber footwear in question set forth in the following table, all discounts, allowances and other deductions from the list price that he had in effect to a purchaser of the same class on December 3, 1941, for comparable quality canvas footwear, or if he was not selling canvas footwear of comparable quality on December 3, 1941, on the most recent date prior thereto, not earlier than January 1, 1941, on which he was selling such canvas footwear. If a manufacturer had no discount policy for comparable quality canvas footwear in effect at any time between January 1, 1941, and December 3, 1941, he shall deduct all discounts, allowances and other deductions from the list price that his most closely competitive seller of comparable quality canvas footwear had in effect to a purchaser of the same class on December 3, 1941.

[Table II as amended by Am. 9, effective 2-26-44]

(b) *Maximum prices for canvas rubber footwear which is not covered by paragraph (a).* The maximum price for canvas rubber footwear not covered by paragraph (a) shall be a price, in line with the level of maximum prices established by this regulation, determined by the seller after specific authorization from the Rubber Price Branch of the Office of Price Administration. A seller who seeks such authorization shall file the report required by paragraph (b) of § 1315.65a with the Rubber Price Branch of the Office of Price Administration, Washington, D. C., before first offering to sell the canvas rubber footwear or on December 31, 1943, whichever is the later date. Within thirty days after mailing the required report to the Rubber Price Branch of the Office of Price Administration, the Rubber Price Branch of the Office of Price Administration will either approve the maximum price proposed in the report or designate in writing a different maximum price in line with the level of prices established by this regulation. If thirty days have elapsed after the mailing of the required report, without the Rubber Price Branch of the Office of Price Administration either approving the proposed maximum price or designating in writing a different maximum price, the price proposed by the manufacturer shall be the maximum price. The manufacturer may not accept payment for the canvas rubber footwear until the proposed maximum price is approved by the Rubber Price Branch of the Office of Price Administration or thirty days have elapsed after the mailing of the required report by the manufacturer to the Rubber Price Branch of the Office of Price Administration. If the Rubber Price Branch of the Office of Price Administration designates a maximum price in writing, payment may not be received at a price in excess of the price so designated.

[§ 1315.73 added by Am. 6, 8 F.R. 16685, effective 12-18-43]

NOTE: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the provisions of the Federal Reports Act of 1942.

Issued this 22d day of February 1944.

PART 1340—FUEL

[MPR 120, Amdt. 84]

BITUMINOUS COAL DELIVERED FROM MINE OR PREPARATION PLANT

Correction

In F. R. Doc. 44-1614, appearing on page 1454 of the issue for Friday, February 4, 1944, the first two figures in the last column of the table under paragraph (b) (5) should be "315" and "340."

PART 1340—FUEL

[RMPR 122,[1] Incl. Amdt. 18]

SOLID FUELS SOLD AND DELIVERED BY DEALERS

Sections 1340.254 (b), Rule 4, 1340.255 (a), (3), 1340.266 (a) (4) amended; §§ 1340.259 (a) (2), (3) and (4), and 1340.266 (a) (8) revoked; § 1340.266 (a) (9), (10) and (11) redesignated (a) (8), (9) and (10) by Amendment 18, effective February 28, 1944, so that Revised Maximum Price Regulation 122 shall read as follows:

The Price Administrator has ascertained and given due consideration to the prices prevailing on sales of such solid fuels between October 1 and October 15, 1941 and has made adjustments for such relevant factors as he has determined to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this revised regulation.

In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

A statement of the considerations involved in the issuance of Revised Maximum Price Regulation No. 122, issued simultaneously herewith, has been filed with the Division of the Federal Register.[2]

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, issued October 2, 1942, and in accordance with Revised Procedural Regulation No. 1,[3] issued by the Office of Price Administration, Revised Maximum Price Regulation No. 122 is hereby issued.

§ 1340.251 *Where this regulation applies.* (a) This regulation shall apply to all sales and deliveries of solid fuel from or to any point in the forty-eight states, the District of Columbia, and the territories of Alaska and Hawaii, unless:

(1) Made at or from a mine, a preparation plant operated as an adjunct of any mine, a coke oven or briquette plant, or

[Subparagraph (1) as amended by Am. 10, 8 F.R. 11143, effective 8-14-43]

(2) Subject to Maximum Price Regulation No. 189[4]—Bituminous Coal Sold for Direct Use as Bunker Fuel.

(b) Where the dealer has more than one business establishment, each establishment shall be considered a separate dealer. (Under Supplementary Order No. 13[5] (7 F.R. 6523) retail sellers operating more than one establishment and having had a uniform pricing practice as to two or more of them may apply for authorization to determine and use uniform maximum prices.)

(c) If a dealer's business, assets or stock in trade are sold or otherwise transferred subsequent to April 1, 1943, and the transferee continues to operate such business, in an establishment separate from any other establishment previously owned or operated by him, the maximum prices of the transferee shall be the same as those to which his transferor was or would have been subject if no such sale or transfer had taken place. The transferee shall have the same obligation as his transferor to keep books and records sufficient to verify such prices. The transferor shall either preserve and make available, or turn over to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the provisions of § 1340.262 of this regulation.

[Paragraph (c) added by Am. 3, 8 F.R. 4510, effective 4-12-43]

§ 1340.252 *What this regulation prohibits.* Regardless of any contract or other obligation, no person shall:

(a) Sell, or, in the course of trade or business, buy solid fuel at prices higher than the maximum prices fixed by this regulation, or

(b) Obtain a higher than ceiling price by:

(1) Changing his customary allowances, discounts, or other price differentials, or

(2) Increasing any service charge or any interest rate on debts over that charged in December 1941.

[Subparagraph (2) as amended by Am. 11, 8 F.R. 11690, effective 8-21-43]

(3) Using any other device by which a higher than ceiling price is obtained, or

(c) Use any tying agreement or make any requirement that anything other than the fuel requested by the buyer be purchased by him, except that a dealer may comply with requirements or standards with respect to deliveries which have been or may be issued by an agency of the United States government.

[Paragraph (c) as amended by Am. 8, 8 F.R. 8754, effective 6-30-43]

§ 1340.253 *Less than maximum prices may be charged.* Less than maximum prices may be charged, paid, or offered.

[§ 1340.253 as amended by Am. 11, 8 F.R. 11690, effective 8-21-43]

§ 1340.254 *How maximum prices are calculated under this regulation*—(a) *How to use the maximum price rules in paragraphs* (b) *and* (c). Rule 1 is intended to be used generally, but a dealer, if he wishes, may instead calculate his maximum price by optional Rule 1A or Rule 1B. If a dealer cannot calculate his price by using Rule 1, and does not wish to use Rule 1A or 1B, he must use Rule 2. If he cannot use Rule 2, he must use Rule 3 or Rule 4, depending on which covers his situation. Supplemental rules covering four special situations (dock sales for railroad fuel use; sales by bid; sales of lake cargo coal; dealers granted adjustments of maximum prices by order under Maximum Price Regulation No. 122)[6] are stated in § 1340.255. Rules 5 and 6 are to be used for calculating the maximum prices for services rendered by the dealer in connection with his sales of fuels. The meanings of terms printed in quotation marks when first used in this section are given in § 1340.255 which follows this section.

[Paragraph (a) as amended by Am. 10, 8 F.R. 11143, effective 8-14-43]

(b) *The maximum price rules for fuels.*

Rule 1. The maximum price for any solid fuel shall be:

(1) The highest price charged by the dealer in December 1941 for the same fuel, plus

(2) Any increase in his supplier's maximum price for the same fuel over the highest of all prices charged the dealer on the same fuel supplied to him during the last calendar month of 1941 in which the dealer took deliveries of such fuel from a supplier.

The maximum price of a solid fuel received from a supplier who is the same person as the dealer shall be: The highest price charged by the dealer in December 1941 for the same fuel; plus the difference between the highest price charged by the supplier during the same month to an independent dealer and the same supplier's maximum price for sales of the same fuel to the same independent dealer or any other of the same class.

If the dealer did not deliver a solid fuel to a certain class of purchasers during December 1941, his maximum price for sales to that class shall be based upon the maximum price for sales of the same solid fuel to other classes of purchasers, adjusted to reflect his customary price differentials between or among the classes of purchasers.

If the dealer did not deliver a certain size of a kind of fuel to any class of purchasers during December 1941, his maximum price for sales of that size shall be based upon his maximum price for a like sale of that kind of fuel adjusted to reflect his customary price differential between that size and the size of the same kind of fuel most nearly similar thereto.

[Above paragraph added by Am. 10, 8 F.R. 11143, effective 8-14-43]

The maximum price for Pennsylvania anthracite yard screenings shall be the highest price charged by the dealer in December 1941 for the same fuel plus $1.00 per net ton.

[Above paragraph added by Am. 4, 8 F.R. 5632, effective 4-28-43 and amended by Am. 16, 8 F.R. 17184, effective 12-27-43]

Rule 1A. The maximum price of a dealer who chooses to set his maximum price by his highest offering price for delivery during December 15–31, 1941, inclusive, shall be such highest offering price for a like sale if, either advertised by him after October 1, 1941 in a medium of general circulation, such as "a newspaper, in his locality, or listed in the last price circular, list or schedule he issued and made available to the purchasing public in 1941.

Rule 1B. The maximum prices of any dealer who chooses to use the maximum prices which he has calculated by using the weighted average price formula (§ 1340.261 (c)) of Maximum Price Regulation No. 122 and which he has posted as it requires (§ 1340.261 (j)) before the effective date of this revised regulation are the maximum prices so calculated and posted for a like sale.

Unless calculated by Rule 1A or Rule 1B, a dealer's maximum price shall precisely reflect any decrease in his supplier's maximum price occurring on or after January 9, 1943.

[Above paragraph added by Am. 7, 8 F.R. 8179, effective 6-19-43]

Rule 2. The maximum price shall be the maximum price of the most closely competitive dealer of the same class for a like sale and shall, of course, precisely reflect any increase or decrease in such competitor's maximum price.

[Rule 2 as amended by Am. 7.]

Rule 3. The maximum price shall be the sum of: First, the per net ton cost to the dealer, f. o. b. supplier's shipping point; Second, the actual transportation cost to the dealer's yard, dock or other terminal facility; and Third, the margin over delivered cost on the dealer's similar sale of solid fuel most nearly like the sale of solid fuel for which a maximum price is calculated under this Rule 3, taking into account similarity in size, kind, quality, use and quantity of fuel, class of purchasers, method of delivery (e. g., by truck, rail, etc.) and terms of delivery (e. g., delivered price, f. o. b. dealer's yard, etc.). But a dealer eligible for compensatory adjustment under Compensatory Adjustment Regulation No. 1[7] shall, in place of the item marked Second in this Rule 3, substitute the lowest transportation cost he would have incurred during December 1941 in bringing the fuel to his terminal facility.

[Rule 3 as amended by Am. 10, 8 F.R. 11143, effective 8-14-43]

Rule 4. If Rule 3 cannot be applied because the dealer made no similar sale, his maximum price shall be the price set by the regional office of the Office of Price Administration in line with the level of maximum prices set by this regulation. The dealer shall apply to the regional office, stating in writing:

First: the size, kind, quality and possible use or uses of the solid fuel to be priced;

Second: the name of its producer and its origin and, for bituminous coal, its price classification and group, size group, and mine index number in the minimum price schedules of the Bituminous Coal Division, as in effect midnight August 23, 1943.

[Above paragraph as amended by Am. 11, 8 F.R. 11690, effective 8-21-43]

Third: the per net ton price, f. o. b. supplier's shipping point;

Fourth: the actual transportation cost to the dealer's yard, dock, or other terminal facility;

Fifth: a proposed schedule of prices for each class of purchaser involved, stating price variations for different quantities, methods and terms of delivery;

Sixth: his margin over delivered cost on sales of solid fuel serving the same purpose;

Seventh: any other pertinent information which the regional office may request.

The dealer shall reflect in his maximum price set under this Rule 4 the exact amount of any increase or decrease in his supplier's maximum price as established by any amendment or order issued by the Office of Price Administration after November 28, 1943, unless the dealer's price under this Rule 4 is changed by the Regional Office to reflect such increase or decrease.

[Above paragraph added by Am. 15, 8 F.R. 16427, effective 12-4-43; and amended by Am. 18, effective 2-28-44]

(c) *The maximum price rules for services.*

Rule 5. The maximum price for any service rendered by a dealer in connection with a sale or handling of solid fuel shall be the highest price charged by the dealer during December 1941 for the same service. If, during December 1941, the dealer rendered any service without charge, he shall continue to do so. Although a dealer may have, during December 1941, rendered other services than those here enumerated, dealers customarily render these services subject to this regulation: carry, wheel, trimming and storing in the bin, bagging, shovel and dust treatment of coal.

Rule 6. If a dealer did not render a service during December 1941, his maximum price for such a service shall be the price set by the regional office of the Office of Price Administration. The dealer shall apply to the regional office stating in writing:

First: a description of the services to be rendered;

Second: the classes of purchasers to whom it will be rendered;

Third: a proposed price for the service which shall be shown to the satisfaction of the Regional Administrator to be reasonably computed in relation to charges for similar services by other dealers in the locality and to be reasonable in relation to the actual costs the dealer will incur in rendering the service.

Fourth: any other pertinent information the regional office may request.

[Paragraph (c) added by Am. 10, 8 F.R. 11143, effective 8-14-43]

§ 1340.255 *The meanings of certain terms used in the maximum price rules.* (a) The following quoted words, when used in this regulation, have the meanings given below:

(1) "A like sale" means one sale of solid fuel is like another if the same solid fuel is delivered under the same terms and by the same method to a purchaser of the same class as in the sale to which comparison is made.

(2) "The highest price charged by the dealer" means the highest price he charged for a like sale of fuel delivered during December 1941 and, in the case of a service, means the highest price he charged for the same service he rendered during the same month.

[Subparagraph (2) as amended by Am. 10, 8 F.R. 11143, effective 8-14-43]

(3) "Same fuel" or "same solid fuel" means one solid fuel shall be deemed to be the same as another if the first is the same size and kind as the second, is of the same quality, has the same use, affords the purchaser equivalent serviceability, and is interchangeable with the second. In the case of bituminous coal, if the two coals compared are in the same or equivalent price classification and group and size group number as set forth in Maximum Price Regulation No. 120[8]—Bituminous Coal Delivered from Mine or Preparation Plant, they are the same; this is the basic test although it is possible bituminous coals may be the same if they do not meet this test. In the case of Pennsylvania anthracite, size need not be a consideration if the maximum prices f. o. b. the mine are the same for both coals. Furthermore, if the maximum price of any size of any producer's anthracite is higher than any other producer's maximum price for the same size, the first producer's size of anthracite shall not be deemed by the dealer, in calculating his maximum price, to be the same fuel as the other producer's.

[Subparagraph (3) amended by Am. 2, 8 F.R. 3524, effective 3-10-43; and Am. 18, effective 2-28-44]

(4) "A supplier" means any person who in 1941 or 1942 sold the dealer solid fuels for resale. Any person who sells to the dealer after 1942 is also a supplier if he performs the same functions in the selling of the same solid fuels at the same level of distribution and sells to dealers of the same class as did the suppliers who sold to the dealer in 1941 or 1942.

(5) "A supplier's maximum price" means the maximum price of an independent or affiliated supplier for deliveries to the dealer (before deducting any allowance or discount or adding any special service charge), f. o. b. supplier's shipping point. Maximum prices of suppliers are established by one or more of these regulations: Maximum Price Regulation No. 112—Pennsylvania Anthracite,[9] Regulation No. 120—Bituminous Coal Delivered from Mine or Preparation Plant; Regulation No. 121—Mis-

cellaneous Solid Fuels Delivered from Mine or Preparation Plant;" and this regulation.

(5) "The highest of all prices charged the dealer on the same fuel supplied to him" means the highest of all prices charged the dealer before the deduction of any discount or allowance or the addition of any special service charge.

(7) "The margin over delivered cost" means the difference between (i) the maximum price of the solid fuel under this Regulation, and (ii) the sum of (a) its most recent cost per ton to the dealer, f. o. b. supplier's shipping point, and (b) the actual transportation cost to the dealer's yard, dock, or other terminal facility.

(8) "Dealer of same class" means (i) a dealer performing the same function (trucking from a mine, yard or dock, a yard or dock operator), (ii) dealing in the same solid fuels, and (iii) selling to purchasers of the same class.

(9) "Most closely competitive dealer of the same class" shall be a dealer of the same class who (i) is selling the same solid fuel, (ii) is closely competitive in the sale of solid fuel, and (iii) is located nearest to the dealer.

(10) "Purchaser of the same class" refers to the practice adopted by the dealer in setting different prices for sales to different purchasers or kinds of purchasers or for purchasers located in different areas or for different quantities or under different conditions of sale, including methods and terms of delivery.

(b) *Other definitions.* Meanings of the following words and phrases are given in § 1340.265: "person", "producer", "distributor", "solid fuel", "f. o. b.", "sell", "dealer", "affiliated supplier", "Bituminous Coal Division."

§ 1340.256 *Maximum prices required for certain special sales.* The dealer's maximum price for the sales covered by this section shall be a price calculated as required in the paragraphs following:

(a) *Maximum dock prices for railroad fuel.* (1) If solid fuel is sold for railroad fuel use at or from a dock on the west bank of Lake Michigan or the United States side of Lake Superior, its maximum prices shall be the sum of (i) the purchase price per ton, f. o. b. the mine for sales to the dealer, (ii) the dealer's actual transportation cost to the same dock, and (iii) fifty-five (55) cents per net ton.

[Subparagraph (1) as amended by Am. 2, 8 F.R. 3524, effective 3-19-43]

(b) *Maximum prices for sales by competitive bidding.* If solid fuel is sold under contract awarded the dealer in public competitive bidding, the maximum price shall be the dealer's maximum price calculated by the rules in § 1340.254 for like sales to business purchasers.

(c) *Certain lake cargo coal.* Notwithstanding the provisions of Rule 1 of § 1340.254 of this regulation, the maximum price of solid fuel received via water transportation facilities at, and sold from, a dock on the United States bank of Lake Superior or on that part of the west bank of Lake Michigan north of and including Waukegan, Illinois shall be a price for like sales calculated by Rule 1A of § 1340.254, plus:

(1) in the case of bituminous coal prepared at the dock as double-screened or lump sizes, the amount per net ton specified for the solid fuels following:

From mines in Districts Nos. 1, 2, 4, or 6	$0.55
From mines in District No. 3 (except medium volatile in Price Classification A)	.55
From mines in District No. 3 and in Price Classification A: medium volatile	.80
From mines in Districts Nos. 7 or 8: low volatile	1.10
From mines in Districts Nos. 7 or 8: medium or high volatile	.80

The maximum price for each size and kind of dock-run bituminous coal shall be 50 cents per net ton lower than the maximum price for the same size and kind of coal when rescreened at the dock.

(2) in the case of bituminous coal in all other sizes, the amount per net ton specified for the solid fuels following:

From mines in Districts No. 7 or 8: low volatile screenings and run-of-mine	$0.50
From mines in Districts Nos. 1, 2, 3, 4, 6, 7, or 8: high volatile screenings and run-of-mine	.40
From mines in Districts Nos. 1, 2, 3, 4, or 6: high volatile stoker size	.40
From mines in Districts Nos. 7 or 8: high volatile stoker size	.70
From mines in Districts Nos. 7 or 8: low volatile stoker size	.50

(3) in the case of Pennsylvania anthracite, the amount specified for the sizes following:

Size:	
Egg, stove and nut	$0.55
Pea	.50
Buckwheat and rice	.45
Barley	.35
Sizes smaller than barley	.30

(All other lake cargo coal is priced under § 1340.254.)

[Paragraph (c) amended by Am. 2, 8 F.R. 3524, effective 3-19-43 and Am. 4, 8 F.R. 5032, effective 4-28-43]

(d) *Dealers previously granted adjustments of maximum prices.* The maximum price of a dealer granted an adjustment of his maximum prices by order of adjustment issued under Maximum Price Regulation No. 122 shall be the higher of the following prices:

(1) The maximum price for a like sale established by this regulation, or

(2) The dealer's maximum price for a like sale as adjusted by order plus the difference between (i) the current delivered cost to him of the same fuel and (ii) the cost of the last delivery of such fuel to him prior to the effective date of the order of adjustment of his maximum price.

§ 1340.257 *How the railroad freight rate increase is treated.* The Ex Parte 148 freight rate increase, effective March 18, 1942, was rescinded as of May 15, 1943 by the Interstate Commerce Commission. Dealers in solid fuel received in whole or in part by rail shall treat the amount thereof as follows:

(a) It shall not be added to maximum prices computed under § 1340.254 (b).

(b) It shall be deducted from maximum prices computed under Rule 2 or Rule 3 of § 1340.254 (b) or under § 1340.256 (d) (2).

[§ 1340.257 as amended by Am. 5, 8 F.R. 6543, effective 6-1-43]

§ 1340.258 *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

[§ 1340.258 as amended by Am. 6, 8 F.R. 7198, effective 6-2-43]

§ 1340.259 *Petitions for amendment and applications for adjustment.* (a) The Office of Price Administration, or any duly authorized representative thereof, may adjust any maximum price established under this regulation in the following cases:

(1) *Local shortages.* In the case of any dealer or group of dealers when it appears:

(i) That there exists or threatens to exist in a particular locality a shortage in the supply of a solid fuel which aids directly in the war program or is essential to a standard of living consistent with the prosecution of the war; and

(ii) That such local shortage will be substantially reduced or eliminated by adjusting the maximum prices of such dealer and of like dealers for such solid fuel; and

(iii) That such adjustment will not create or tend to create a shortage, or a need for increase in prices, in another locality, and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

Each Regional Administrator is authorized to make adjustments or act upon applications for adjustment under this subparagraph (1).

[Subparagraph (5) revoked by Am. 2, 8 F.R. 3524, effective 3-19-43]

Applications for adjustment shall be filed in accordance with Revised Procedural Regulation No. 1.

(b) Any person seeking an amendment of any provision of this Revised Maximum Price Regulation No. 122 may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

§ 1340.260 *Provision for specific ceiling prices.* The Office of Price Administration, or any regional office thereof after clearance with the Solid Fuels Branch in Washington, D. C., may by order establish specific maximum prices in line with those established by this regulation for deliveries of solid fuels made, or for services rendered in connection therewith, or both, by a dealer or group of dealers in an area or locality. In connection with such prices, appropriate reporting, record keeping or other requirements may be made of the dealer or dealers involved.

[Above paragraph as amended by Am. 8, 8 F.R. 8754, effective 6-30-43]

However, in particular cases, the specific maximum prices established under this section may be such as to restore the December 1941 margins over delivered cost generally prevailing in the area or locality.

If, after such specific maximum prices are established by order, the maximum prices of the dealers' suppliers are increased or decreased by the Price Administrator, the Office of Price Administration or the regional office which issued the order may, after clearance with the Solid Fuels Branch in Washington, D. C., adjust the specific maximum prices so established to correspond generally with such increase or decrease.

[Above paragraph added by Am. 9, 8 F.R. 10858, effective 7-28-43]

[§ 1340.260 amended by Am. 1, 8 F.R. 1200, effective 1-25-43 and as otherwise noted]

§ 1340.261 *Applicability of other regulations.* (a) No provision of the General Maximum Price Regulation [11] shall apply to this regulation.

[Paragraph (a) as amended by Supplementary Order No. 72, 8 F.R. 13244, effective 10-1-43]

(b) The minimum price established by the Bituminous Coal Division and in effect midnight August 23, 1943 and applicable to members of its Bituminous Coal Code shall be the maximum price for sales of solid fuels by such members if such minimum is greater than the maximum price otherwise established by this regulation: *Provided*, That no sale of solid fuel shall be made after December 31, 1943, at more than the maximum price established by this regulation.

[Paragraph (b) amended by Am. 11, 8 F.R. 11690, effective 8-21-43 and Am. 13, 8 F.R. 15317, effective 11-10-43]

§ 1340.262 *Records and reports.*—(a) *Base period records.* Each dealer in solid fuels shall preserve for examination by the Office of Price Administration all his existing records relating to:

(1) The prices he charged on deliveries made by him during December 1941;

(2) His offering prices (as defined in Rule 1A of § 1340.254 of this regulation) for delivery during the period December 15-31, 1941;

(3) His customary allowances, discounts and other price differentials;

(4) His charges for all special services and rates of interest on all forms of debts during December 1941;

(5) The prices charged to him by all of his suppliers during the last month of 1941 in which he received each different size, kind and quality of solid fuel.

(b) *Current records.* Every dealer in solid fuels for whom a maximum price is established by this Regulation shall keep and make available for examination by the Office of Price Administration records of his sales and purchases of the same type as he has customarily kept.

(c) *Reports.* Each dealer in solid fuels shall report to his District Office of the Office of Price Administration his maximum prices for sales of solid fuel within ten days after he determines or redetermines his maximum prices under any pricing rule of this revised regulation. It will not, however, be necessary for a dealer whose price for a solid fuel is established by an area ceiling order issued under § 1340.260 of this regulation to file his maximum price for that solid fuel. When any dealer reports maximum prices determined under Rule 1 of § 1340.254 of this regulation, he shall report by filling out the following form in detail:

Column 1. Define by type of customer and method of sale; i. e., "domestic delivered to bin," "domestic 'yard'," "industrial delivered," "reseller," etc. If yard sales to dealers carry a uniform discount, so indicate on reverse side of this sheet under "Additional Information."

Column 2. State whether solid fuel is anthracite, low volatile or high volatile bituminous coal, coke, or other. (Specify L. V. or H. V.)

Column 5. Enter for each kind of solid fuel the highest purchase cost during December 1941 before discounts, allowances, or service charges.

If no such solid fuel was purchased in December 1941, use the next preceding month in which the solid fuel was purchased.

Columns 6, 7, 8. Enter, for each price, the price *before* discounts, allowances or service charges.

PART 1364—FRESH, CURED AND CANNED MEAT AND FISH PRODUCTS

BEEF AND VEAL CARCASSES AND WHOLESALE CUTS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Revised Maximum Price Regulation No. 169 is amended in the following respects:

1. The following sentence is added to § 1364.452 (n) (1) to read as follows:

"The prices established for boneless processing beef shall apply only on sales of boneless processing beef to processors and no person shall sell or deliver any boneless processing beef unless the buyer of such boneless processing beef is a bona fide processor of processed products."

2. The effective date provision of Amendment No. 36 to Revised Maximum Price Regulation No. 169 is amended to read as follows:

Amendment No. 36 shall become effective March 1, 1944, except that it shall remain effective as of December 1, 1943, in any case where, prior to February 22, 1944, an adjusted quota has been authorized pursuant to the provisions of Amendment No. 36, or in any case where a previously established quota is increased by the provisions of Amendment No. 36.

This amendment shall become effective February 22, 1944.

PART 1301—MACHINE TOOLS

[MPR 1,[2] Amdt. 2]

SECOND-HAND MACHINE TOOLS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

In section 3 (c) the last sentence is revoked and three new sentences are added to read as follows:

In the event of either a sale by a government agency, or a sale for the benefit of creditors where a government agency is the largest creditor, a written certificate may be substituted for the warranty, the invoicing and the guaranty of satisfactory operation. The certificate must be signed by a qualified person who is not in the business of selling second-hand machine tools and who is approved by the purchaser. This certificate must state that such person has inspected the second-hand machine tool, that all worn or missing parts have been replaced or reworked, and that the second-hand machine tool has been tested under power so as to prove that it has a substantially equivalent performance to that of the machine when new.

This amendment shall become effective February 23, 1944.

(ii) *Provided,* That if the hauling service is performed by a common or a contract carrier, the maximum price for such hauling service shall be the appropriate published rate of such carrier.

(iii) An assembler who, either with his own truck or by other means, performs the hauling service from the factory to the assembling warehouse, may not pay the allowable hauling charge or any portion thereof to any person not actually performing the service; and no person, including factory, cheesemaker, trustee, or any agent thereof, may charge or accept any payment for such service which is in fact performed by the assembler or his agent.

(4) *Assembling costs.* (i) Whenever assembling operations are performed by an "authorized cheese assembler", ¾ cents per pound may be added to the maximum prices established in subparagraphs (1) and (2) of this paragraph for each pound of cheddar cheese so assembled. An "authorized cheese assembler" means a cheese assembler authorized by the War Food Administration of the United States Department of Agriculture pursuant to Food Distribution Order No. 15—Cheddar Cheese, issued by the United States Department of Agriculture.

(ii) *Provided, however,* That where the assembled cheddar cheese is cheese which has been set aside for sale to the United States Government pursuant to Food Distribution Order No. 15, or similar Orders issued by the War Food Administrator, the assembly allowance which may be added shall be 1 cent per pound.

(iii) For the purpose of this paragraph, no person shall be entitled to the additional assembling allowance unless he performs the following functions: accumulates cheese; grades it in accordance with legal requirements, or, in the absence of such requirements, in accordance with customary industry practices; paraffins it; weighs it; stores it in a refrigerated space; and customarily ships it in carload lots. For the purpose of this subparagraph paraffining means a covering of all surfaces of the cheese by dipping in paraffin having a temperature of not less than 240° Fahrenheit. The cheese, before paraffining, must have dry, clean surfaces free of mold and be not less than 3 days old at time of dipping.

(iv) This assembly allowance shall include transportation costs, if any, from the cheese factory to the assembling warehouse, whether the assembling warehouse is located inside or outside the State of Wisconsin.

(b) *Processed cheddar cheese sold by manufacturers*—(1) *In Wisconsin.* The maximum price for the sale of "Processed cheddar cheese" by a manufacturer delivered at any place in Wisconsin shall be as set forth in Table D below.

(ii) *Outside Wisconsin. And provided further,* The maximum price for the sale of any "cheese item" made to, and delivery made to the physical premises of, an individual army post or naval base, or a federal hospital, school, or penal institution located at any place outside Wisconsin shall be the appropriate price in either Table I or Table J above, whichever is applicable, plus a "transportation factor".

(3) *Reference to assembling allowance and food distribution order.* (i) The maximum prices established in subparagraphs (1) and (2) of this paragraph (d) for "sales to the United States Government" are for cheddar cheese which has been assembled by an "authorized cheese assembler" in accordance with the requirements of paragraph (a) (4) of this section and which has been set aside for sale to the United States Government pursuant to Food Distribution Order No. 15, or similar orders issued by the War Food Administrator.

(ii) The maximum price for the sale to the United States Government of any cheddar cheese which has not been assembled by an "authorized cheese assembler" in accordance with the requirements of paragraph (a) (4) of this section shall be the appropriate maximum price established in subparagraphs (1) and (2) of this paragraph (d) minus 1¢ per pound.

(iii) The maximum price for the sale to the United States Government of any cheddar cheese which has not been set aside for sale to the United States Government pursuant to Food Distribution Order No. 15 of similar orders issued by the War Food Administrator shall be the appropriate maximum price established in subparagraphs (1) and (2) of this paragraph (d) minus ¼¢ per pound.

(c) *Calculations.* All maximum prices established by this Section shall be calculated on a cents per pound basis and all calculations shall be carried to the second decimal point. All calculations of any "transportation factor" shall be made on a cents per pound basis and shall be carried to the second decimal point. Any final calculation of a maximum price resulting in a fraction of a cent per pound shall be adjusted to the nearest tenth of a cent.

(d) *Discounts and allowances.* The maximum prices established in the foregoing paragraphs of this section must be reduced by the customary discounts or allowances for cash or prompt payment. However, any change in customary discounts, allowances, or other price differentials may always be made when it results in a lower price than would the customary discounts or allowances.

(e) *Evasive practices prohibited*—(1) *Used cheese boxes.* The maximum prices established for sales by cheese factories or cheesemakers in paragraphs (a) (1) and (a) (2) of this section shall not be evaded by the selling or furnishing to any cheese factory or cheesemaker or any agent or affiliate thereof, of used wooden cheese boxes at less than their true economic value by any purchaser of cheese from such cheese factory or cheesemaker, or by any agent or affiliate of such purchaser. Any sale of used cheese boxes by such purchaser, his agent, or affiliate to a cheese factory, cheesemaker, or agent or affiliate thereof, at any price less than the prices established in Table K below shall be considered prima facie evidence of an evasion of paragraph (a) (1) and (a) (2) of this section.

TABLE K

	Cents	Cents
Twins and Cheddars	29	30
Single Daisies	18	19
Longhorns	26	27

(2) *Supplies.* No purchaser from a cheese factory or cheesemaker or agent or affiliate of such purchaser shall sell, lend, or otherwise transfer supplies or equipment, except cheese hoops, to such cheese factory, cheesemaker, or agent or affiliate thereof at less than the true value of such supplies and equipment. Any sale or transfer contrary to the provisions of this subparagraph is an evasion of paragraph (a)(1) and (a)(2) of this section and is hereby prohibited.

(3) The practices described in subparagraphs (1) and (2) of this paragraph as evasions of this regulation are in addition to any evasive practices prohibited by § 1351.1506 of this regulation.

(f) *Definitions*—(1) *Cheddar cheese.* "Cheddar cheese", frequently called "American cheese", means "Cheddar cheese" as defined in the "Standards of Identity for Cheddar cheese, cheese, washed curd cheese, Colby cheese" promulgated by the Food and Drug Administration and published in the FEDERAL REGISTER of January 9, 1941, Page 195. It contains not more than 39% of moisture and its solids contain not less than 50% of milk fat.

(2) *Processed cheddar cheese.* "Processed cheddar cheese" is cheddar cheese which has been graded, cleaned, blended, ground, pasteurized, and packaged. It shall contain not more than 40% of water and in the water free substance not less than 50% of milk fat.

(3) *Transportation factor.* A "Transportation factor" means the lowest published railroad carlot freight rate per pound gross weight from Plymouth, Wisconsin, to the place of delivery multiplied by 1.15. In calculating transportation charges referred to in the foregoing paragraphs, the 3% transportation tax imposed by section 620 of the Revenue Act of 1942 shall be included.

(4) *Cheese item.* "Cheese item" means any of the particular styles and sizes of cheddar cheese and of processed cheddar cheese listed in Tables D, E, F, G, and H of this section.

(5) *"Delivered at any place".* The phrase, "delivered at any place" comprehends all sales whether made on the basis of actual delivery to the point of shipping destination or on the basis of F. O. B. shipping point or some other point. Any cheese item sold F. O. B. any point shall be considered "delivered" at that point.

(6) *Place.* "Place" means any city, town, village or hamlet within the United States.

(7) *Retailer distributing warehouse.* "A retailer distributing warehouse" is a place where cheese is received and held for disposition to retail stores. Chain store warehouses and retailer owned cooperative warehouses are included in the

meaning of "retailer distributing warehouse".

This amendment shall become effective February 29, 1944.

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice of issuance of special certificates for the employment of learners under the Fair Labor Standards Act of 1938.

Notice is hereby given that special certificates authorizing the employment of learners at hourly wages lower than the minimum rate applicable under section 6 of the Act are issued under section 14 thereof and part 522.5 (b) of the regulations issued thereunder (August 16, 1940, 5 F.R. 2862) to the employers listed below effective as of the date specified in each item below.

The employment of learners under these certificates is limited to the terms and conditions as designated opposite the employer's name. These certificates are issued upon the employers' representations that experienced workers for the learner occupations are not available for employment and that they are actually in need of learners at subminimum rates in order to prevent curtailment of opportunities for employment. The certificates may be cancelled in the manner provided for in the Regulations and as indicated on the certificate. Any person aggrieved by the issuance of the certificates may seek a review or reconsideration thereof.

FEDERAL POWER COMMISSION.

[Docket Nos. G-507, G-508, G-510, G-516, G-519]

HOPE NATURAL GAS CO., ET AL.

ORDER PROVIDING FOR ORAL ARGUMENT

FEBRUARY 21, 1944.

In the matters of Hope Natural Gas Company, Docket No. G-507; New York State Natural Gas Corporation, Docket No. G-508; The Manufacturers Light and Heat Company, Manufacturers Gas Company, and Pennsylvania Fuel Supply Company, Docket No. G-510; United Fuel Gas Company, Docket No. G-516; Home Gas Company, Docket No. G-519.

It appearing to the Commission that:

(a) In the session of hearing in the above-entitled proceedings (consolidated for hearing) held on February 18, 1944, the parties, including the several applicants and interveners, through their respective trial counsel in open hearing agreed that oral argument before the Commission sitting *en banc*, with the trial examiner sitting with the Commission, may be substituted for the usual course of filing briefs, following the expected early conclusion of the hearing now in progress and in connection therewith stated their respective resquests for allotments of time for such oral argument;

(b) The suggested procedure thus agreed to by the parties would, while preserving all necessary safeguards, save considerable time and enable the Commission earlier to dispose finally of the proceedings; and

(c) Early final action is, in the circumstances, desirable and probably essential.

The Commission finds that:

The suggested substitute procedure would be fair and adequate and in the circumstances particularly advantageous.

And the Commission orders that:

(1) Oral argument on the issues be had before the Commission sitting *en banc*, the trial examiner sitting with the Commission, on March 3, 1944, beginning at 9:30 a. m., in the Hearing Room of the Commission at 1800 Pennsylvania Avenue NW., Washington, D. C.,

(2) The several counsel representing the applicants and interveners as well as counsel of the Commission's staff have respectively the allotments of time for argument requested by them as reported in the transcript of the session of hearing held on February 18, 1944; and

(3) Any of such counsel who may choose to do so, may file with the Commission at the time of argument, a memorandum of points and authorities.

By the Commission.

OFFICE OF DEFENSE TRANSPORTATION.

[Supp. Order ODT 3, Rev. 177]

COMMON CARRIERS

COORDINATED OPERATIONS BETWEEN UTICA AND LAKE PLACID, N. Y.

Upon consideration of a plan for joint action filed with the Office of Defense Transportation by the persons named in Appendix 1 hereof to facilitate compliance with the requirements and purposes of General Order ODT 3, Revised, as amended (7 F.R. 5445, 6689, 7694; 8 F.R. 4660, 14582; 9 F.R. 947), a copy of which plan is attached hereto as Appendix 2,[1] and

It appearing that the proposed coordination of operations is necessary in order to assure maximum utilization of the facilities, services, and equipment, and to conserve and providently utilize vital equipment, materials, and supplies, of the carriers, and to provide for the prompt and continuous movement of necessary traffic, the attainment of which purposes is essential to the successful prosecution of the war, *It is hereby ordered*, That:

1. The plan for joint action above referred to is hereby approved and the carriers are directed to put the plan in operation forthwith, subject to the following provisions, which shall supersede any provisions of such plan that are in conflict therewith.

2. Each of the carriers forthwith shall file a copy of this order with the appropriate regulatory body or bodies having jurisdiction over any operations affected by this order, and likewise shall file, and publish in accordance with law, and continue in effect until further order, tariffs of supplements to filed tariffs, setting forth any changes in rates, charges, operations, rules, regulations, and practices of the carrier which may be necessary to accord with the provisions of this order and of such plan; and forthwith shall apply to such regulatory body or bodies for special permission for such tariffs or supplements to become effective on the shortest notice lawfully permissible, but not prior to the effective date of this order.

3. Whenever transportation service is performed by one carrier in lieu of service by another carrier, by reason of a diversion, exchange, pooling, or similar act made or performed pursuant to the plan for joint action hereby approved, the rates, charges, rules, and regulations governing such service shall be those that would have applied except for such diversion, exchange, pooling, or other act.

4. The provisions of this order shall not be so construed or applied as to require any carrier subject hereto to perform any service beyond its transportation capacity, or to authorize or require any act or omission which is in violation of any law or regulation, or to permit any carrier to alter its legal liability to any shipper. In the event that compliance with any term of this order, or effectuation of any provision of such plan, would conflict with, or would not be authorized under, the existing interstate or intrastate operating authority of any carrier subject hereto, such carrier forthwith shall apply to the appropriate regulatory body or bodies for the granting of such operating authority as may be requisite to compliance with the terms of this order, and shall prosecute such application with all possible diligence. The coordination of operations directed by this order shall be subject to the carriers' possessing or obtaining the requisite operating authority.

5. All records of the carriers pertaining to any transportation performed pursuant to this order and to the provisions of such plan shall be kept available for examination and inspection at all reasonable times by accredited representatives of the Office of Defense Transportation.

6. The plan for joint action hereby approved and all contractual arrangements made by the carriers to effectuate the plan shall not continue in operation beyond the effective period of this order.

7. Communications concerning this order should refer to it by the Supplementary Order number which appears in the caption hereof, and, unless otherwise directed, should be addressed to the Division of Motor Transport, Office of Defense Transportation, Washington, D. C.

This order shall become effective February 28, 1944, and shall remain in full force and effect until the termination of the present war shall have been duly proclaimed, or until such earlier time as the Office of Defense Transportation by further order may designate.

Issued at Washington, D. C., this 23d day of February 1944.

COMMON CARRIER

COORDINATED OPERATIONS BETWEEN BAY CITY AND SAGINAW, MICH.

Upon consideration of a plan for joint action filed with the Office of Defense Transportation by the persons named in Appendix 1 hereof to facilitate compliance with the requirements and purposes of General Order ODT 3, Revised, as amended (7 F.R. 5445, 6689, 7694; 8 F.R. 4660, 14582; 9 F.R. 947), a copy of which plan is attached hereto as Appendix 2,[1] and

It appearing that the proposed coordination of operations is necessary in order to assure maximum utilization of the facilities, services, and equipment, and to conserve and providently utilize vital equipment, materials, and supplies, of the carriers, and to provide for the prompt and continuous movement of necessary traffic, the attainment of which purposes is essential to the successful prosecution of the war, *It is hereby ordered*, That:

1. The plant for joint action above referred to is hereby approved and the carriers are directed to put the plan in operation forthwith, subject to the following provisions, which shall supersede any provisions of such plan that are in conflict therewith.

2. Each of the carriers forthwith shall file a copy of this order with the appropriate regulatory body or bodies having jurisdiction over any operations affected by this order, and likewise shall file, and publish in accordance with law, and continue in effect until further order, tariffs or supplements to filed tariffs, setting forth any changes in rates, charges, operations, rules, regulations, and practices of the carrier which may be necessary to accord with the provisions of this order and of such plan; and forthwith shall apply to such regulatory body or bodies for special permission for such tariffs or supplements to become effective on the shortest notice lawfully permissible, but not prior to the effective date of this order.

4. The provisions of this order shall not be so construed or applied as to require any carrier subject hereto to perform any service beyond its transportation capacity, or to authorize or require any act or omission which is in violation of any law or regulation, or to permit any carrier to alter its legal liability to any shipper. In the event that compliance with any term of this order, or effectuation of any provision of such plan, would conflict with, or would not be authorized under, the existing interstate or intrastate operating authority of any carrier subject hereto, such carrier forthwith shall apply to the appropriate regulatory body or bodies for the granting of such operating authority as may be requisite to compliance with the terms of this order, and shall prosecute such application with all possible diligence. The coordination of operations directed by this order shall be subject to the carriers' possessing or obtaining the requisite operating authority.

5. All records of the carriers pertaining to any transportation performed pursuant to this order and to the provisions of such plan shall be kept available for examination and inspection at all reasonable times by accredited representatives of the Office of Defense Transportation.

6. The plan for joint action hereby approved and all contractual arrangements made by the carriers to effectuate the plan shall not continue in operation beyond the effective period of this order.

7. Communications concerning this order should refer to it by the Supplementary Order number which appears in the caption hereof, and, unless otherwise directed, should be addressed to the Division of Motor Transport, Office of Defense Transportation, Washington, D. C.

This order shall become effective February 28, 1944, and shall remain in full force and effect until the termination of the present war shall have been duly proclaimed, or until such earlier time as the Office of Defense Transportation by further order may designate.

OFFICE OF PRICE ADMINISTRATION.

Regional and District Office Orders.

[Region II Order G–2 Under RMPR 269]

Kosher Killed Poultry Except Ducks in New York City Metropolitan Area

Order No. G–2 under § 1429.14 under Revised Maximum Price Regulation No. 269. Maximum base prices of kosher-killed poultry except ducks in the New York City Metropolitan Area.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Office of Price Administration for Region 2 by § 1429.14 of Revised Maximum Price Regulation No. 269, this order is hereby issued.

Section 1. *What this order does.* This order establishes temporary maximum base prices for kosher-killed poultry items, except ducks, in the New York City metropolitan area. For so long as it remains in effect it supersedes Revised Maximum Price Regulation No. 269 insofar as it establishes maximum base prices for kosher-killed poultry, except ducks, in that area. The base prices established by this order are to be used in determining maximum selling prices in the New York City metropolitan area instead of the base prices established by Revised Maximum Price Regulation No. 269. All other provisions of Revised Maximum Price Regulation No. 269 continue in effect. (Maximum base prices for all other poultry items, except ducks, in the New York City metropolitan area and elsewhere in Region 2 are established by Order No. G–1 under § 1429.14 of Revised Maximum Price Regulation No. 269, which is issued simultaneously herewith.

Sec. 2. *Where this order applies.* This order applies in the City of New York and the Counties of Nassau, Suffolk and Westchester in the State of New York, and the Counties of Essex, Hudson and Union in the State of New Jersey.

Sec. 3. *Maximum base prices for kosher-killed poultry items in the New York City Metropolitan Area*—(a) *Maximum base prices for Grade A kosher-killed poultry items, except ducks, for sales to bona fide buyers of kosher-killed poultry.*

Type	Weight	Maximum base price (cents per pound)
Broilers and fryers	Under 3½ lbs.	36.0
	3½ and over	36.0
Roosters	Under 5½	36.0
Capons, light	5½ and over	39.0
Capons, heavy	All	32.0
Fowl	All	27.0
Stags and old roosters	All	31.0
Geese		
Young turkeys:		
Light	Under 16	44.0
Medium	16–20	42.0
Heavy	20 and over	40.5
Old turkeys:		
Light	Under 16	42.0
Medium	16–20	40.0
Heavy	20 and over	38.5

(b) *Base prices of grades other than Grade A.* The maximum base prices established by this section are for Grade A poultry items. The maximum base prices for lower grades and for poultry items which would otherwise be eligible for Grade A base prices except for the provisions of Revised Maximum Price Regulation No. 269 shall be determined by deductions from the base prices established by this order as required in § 1429.19 of Revised Maximum Price Regulation No. 269.

(c) *Base prices for sales to persons other than bona fide buyers of kosher-killed poultry.* (1) The base prices established by paragraphs (a) and (b) of this section may only be used in determining maximum selling prices for sales to a bona fide buyer of kosher-killed poultry (that is, to a person who maintains a selling establishment at or through which he regularly and generally sells kosher poultry as such, or a person who is a purveyor of kosher meals) located within a radius of 50 miles from the point of slaughter.

(2) For sales to any person who is not a bona fide buyer of kosher-killed poultry located within a radius of 50 miles from the point of slaughter, the base prices established by paragraphs (a) and (b) of this section shall be reduced one cent per pound.

Sec. 4. *Effective date.* This order shall become effective at 12:01 on February 14, 1944, and shall expire at the termination of existing § 1429.19 (b) (1) (i) (c) of RMPR 269.

[Region III Order G–12 Under RMPR 122]

Solid Fuels in Paducah, Ky.

Order No. G–12 under Revised Maximum Price Regulation No. 122. Solid fuels sold and delivered by dealers. Maximum prices for specified solid fuels in the City of Paducah in the State of Kentucky.

For the reasons stated in an opinion issued simultaneously herewith and under the authority vested in the regional administrator of Region III of the Office of Price Administration by § 1340.260 of Revised Maximum Price Regulation No. 122, it is hereby ordered:

(a) *What this order does.* This order establishes maximum prices for sales of specified solid fuels made within the corporate limits of the City of Paducah in the State of Kentucky. These are the highest prices that any dealer may charge when he delivers such fuel at or to a point in the City of Paducah in the State of Kentucky; they are also the highest prices that any buyer in the course of trade or business may pay for them.

(b) *What this order prohibits.* Regardless of any obligation, no person shall:

(1) Sell or, in the course of trade or business, buy solid fuels at prices higher than the maximum prices set by this Order No. G–12; but less than maximum prices may at any time be charged, paid or offered;

(2) Obtain a higher than ceiling price by:

(i) Charging a price higher than the scheduled price for a service or making a charge for a service not authorized by this order,

(ii) Making a charge higher than the scheduled charge authorized for the extension of credit,

(iii) Using any other device by which a higher than maximum price is obtained, directly or indirectly.

(iv) Using any tying agreement or requiring that the buyer purchase anything in addition to the fuel requested by him, except that a dealer may comply with requirements or standards with respect to deliveries which have been or may be issued by an agency of the United States Government.

(c) *Schedule for sales of coal.* This schedule sets forth maximum prices for cash sales of specified sizes, kinds and quantities of solid fuels. Column I describes the coal for which prices are established; Column II shows maximum prices for cash sales on a "direct delivery" basis; Column III shows maximum prices for "yard sales" to dealers reselling coal and for "yard sales" to consumers. All prices are for cash sales on a net ton basis.

Column I	Column II	Column III
High volatile bituminous coals from producing district No. 9 (Western Kentucky):		
A. Lump and egg—Size Group Nos. 1 through 6 (all single-screened lump coals and all double-screened raw, washed or air-cleaned egg coals, top size larger than 2″):		
1. From the 6th Seam Mines	$5.95	$5.45
2. From the 9th and 11th Seam Mines	5.25	4.75
B. Stove, nut and pea:		
1. Raw, Size Group Nos. 8 through 12 (all double-screened raw or washed stove coals, top size larger than 1½″ but not exceeding 2″ and bottom size larger than ¾″. All raw double-screened nut, stoker, and pea top size not exceeding 2″ and bottom size larger than 10 mesh or 3/32″		
a. From the 6th Seam Mines	5.50	5.00
b. From the 14th Seam Mines	4.75	4.25
2. Washed or air-cleaned, Size Group Nos. 17 through 22 (all washed or air-cleaned, double-screened nut, stoker and pea top size not exceeding 2″; dedusted washed screenings bottom size larger than 1 millimeter and top size not exceeding 2″):		
a. From the 9th and 11th Seam Mines	4.85	4.35
b. From the 14th Seam Mines	4.75	4.25

All terms used herein to describe size, volatility and producing district are those established and defined by the Bituminous Coal Division and in effect as of midnight, August 23, 1943.

(d) The maximum prices for all sales by dealers of solid fuel not provided for by this Order No. G–12 shall be the maximum prices established by Revised Maximum Price Regulation No. 122.

(e) *Schedule of service and credit charges.* This schedule sets forth maximum prices which a dealer may charge for special services rendered in connection with all sales under paragraph (c). These charges may be made only if the buyer requests such service of the dealer and only when the dealer renders the service. Every service charge shall be separately stated in the dealer's invoice.

	Per ton
Carry or wheel-in from curb	$0.25
Extra charge for credit after 30 days	.25
Trimming in the bin	.25

(f) *The transportation tax.* The transportation tax imposed by section 620 of the Revenue Act of 1942 may be collected in addition to the maximum prices set by this order, provided the dealer states it separately from the price on his invoice or statement. However, he need not so separately state this tax on a sale to the United States or any agency thereof, the District of Columbia, any state government or any political subdivision thereof.

(g) *Addition of increase in suppliers prices prohibited.* The maximum prices set by this order may not be increased by a dealer to reflect increases in purchase costs or in supplier's maximum prices occurring after the effective date hereon; but increases in the maximum prices set hereby to reflect such increases are within the discretion of the regional administrator.

(h) *Petitions for amendment.* Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, except that the petition shall be filed with the Regional Administrator and acted upon by him.

(i) *Applicability of other regulations.* Every dealer subject to this order is governed by the licensing provisions of Supplementary Order No. 72, effective October 1, 1943.

(j) *Right of amendment or revocation.* The regional administrator or price administrator may amend, revoke, or rescind this order, or any provisions thereof, at any time.

(k) *Records.* Every dealer subject to this order shall preserve, keep and make available for examination by the Office of Price Administration, the same records he was required to preserve and keep under § 1340.262 (a) and (b) of Regulation No. 122.

(l) *Posting of maximum prices: sales slips.* (1) Each dealer subject to this order shall post all the maximum prices set by it for all his types of sales. He shall post his prices in his place of business in a manner plainly visible to and understandable by the purchasing public. He shall also keep a copy of this order available for examination by any person inquiring as to his prices for solid fuel. No report of the maximum prices established by this order need be made by any dealer under § 1340.262 (c) of Regulation No. 122.

(2) Every dealer selling solid fuel for sales of which a maximum price is set by this order shall, within thirty days after the date of delivery of the fuel, give to the buyer a statement showing: the date of the sale, the name and address of the dealer and of the buyer, the kind, size and quantity of the solid fuel sold, the price charged and separately stating any item which is required to be separately stated by this order.

(m) *Enforcement.* (1) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this order are urged to communicate with the Louisville District Office of the Office of Price Administration.

(n) *Definitions and explanations.* (1) "Person" includes an individual, corporation, partnership, association, any other organized group of persons, legal successor or representative of any of the foregoing, and includes the United States, any agency thereof, any other government, or any of its political subdivisions, and any agency of any of the foregoing.

(2) "Sell" includes sell, supply, dispose, barter, exchange, lease, transfer, and deliver, and contracts and offers to do any of the foregoing. The terms "sale," "selling," "sold," "seller," "buy," "purchase," and "purchaser" shall be construed accordingly.

(3) "Dealer" means any person selling solid fuel except producers or distributors making sales at or from a mine, a preparation plant operated as an adjunct of any mine, a coke oven, or a briquette plant.

(4) "Direct delivery" means dumping or chuting the fuel from the seller's truck directly into the buyer's bin or storage space; but, if this is physically impossible, the term means discharging the fuel directly from the seller's truck at a point where this can be done and at the point nearest and most accessible to the buyer's bin or storage space.

(5) "Yard sales" shall mean deliveries made by the dealer in his customary manner at his yard or at any place other than his truck.

(6) Except as otherwise provided herein or as the context may otherwise require, the definitions set forth in §§ 1340.255 and 1340.266 of Revised Maximum Price Regulation No. 122, as amended, shall apply to terms used herein, and in full force and effect.

(o) *Applicability of this order.* To the extent applicable, the provisions of this order supersede Revised Maximum Price Regulation No. 122.

This Order No. G–12 under Revised Maximum Price Regulation No. 122 shall become effective February 15, 1944.

Note: The reporting and record keeping provisions of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(56 Stat. 23, 765; Pub. Law 151, 78th Cong.; E.O. 9250, 7 F.R. 7871, and E.O. 9328, 8 F.R. 4681)

[Region III Order G–21 Under RMPR 122]

Solid Fuels in Alliance, Ohio

Order No. G–21 under Revised Maximum Price Regulation No. 122. Solid fuels sold and delivered by dealers. Maximum prices for specified solid fuels in the City of Alliance in the State of Ohio.

For the reasons stated in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of Region III of the Office of Price Administration by § 1340.260 of Revised Maximum Price Regulation No. 122, it is hereby ordered:

(a) *What this order does.* This order establishes maximum prices for sales of specified solid fuels made within the corporate limits of the City of Alliance in the State of Ohio. These are the highest prices that any dealer may charge when he delivers such fuel at or to a point in the City of Alliance in the State of Ohio, and they are also the highest prices that any buyer in the course of trade or business may pay for them.

(b) *What this order prohibits.* Regardless of any obligation, no person shall:

(1) Sell, or, in the course of trade or business, buy solid fuels at prices higher than the maximum prices set by this Order No. G–21; but less than maximum prices may at any time be charged, paid or offered;

(2) Obtain a higher than ceiling price by:

(i) Charging a higher price than the scheduled price for a service or making a charge for a service not authorized by this order,

(ii) Making a charge higher than the scheduled charge authorized for the extension of credit,

(iii) Using any other device by which a higher than maximum price is obtained, directly or indirectly,

(iv) Using any tying agreement or requiring that the buyer purchase anything in addition to the fuel requested by him, except that a dealer may comply with requirements or standards with respect to deliveries which have been or may be issued by an agency of the United States Government.

(c) *Schedule for sales of coal*—(1) *Price schedules.* This schedule sets forth maximum gross prices for sales of specified sizes, kinds and quantities of solid fuels on a "direct delivery" basis. All prices are for credit sales on a net ton basis subject to discounts hereinafter set forth.

(d) The maximum prices for all sales by dealers of solid fuel not provided for by this Order No. G–21 shall be the maximum prices established by Revised Maximum Price Regulation No. 122.

(e) *Schedule of service charges.* This schedule sets forth maximum prices which a dealer may charge for special services rendered in connection with all sales under paragraph (c). These charges may be made only if the buyer requests such service of the dealer and only when the dealer renders the service. Every service charge shall be separately stated in the dealer's invoice.

Service Schedule

Carrying or wheeling from curb.	$0.50 per ton.
Carrying up or down one flight of stairs.	$0.75 per ton.
One-half ton deliveries	½ of the ton price plus $0.25.

(f) *The transportation tax.* The transportation tax imposed by section 620 of the Revenue Act of 1942 may be collected in addition to the maximum prices set by this order, provided the dealer states it separately from the price on his invoice or statement. However, the dealer need not so separately state on the sale to the United States or any agency thereof, the District of Columbia, any state government or any political subdivision thereof.

(g) *Addition of increase in suppliers prices prohibited.* The maximum prices set by this order may not be increased by a dealer to reflect increases in purchase costs or in supplier's maximum prices occurring after the effective date hereon; but increases in the maximum prices set hereby to reflect such increases are within the discretion of the regional administrator.

(h) *Petitions for amendment.* Any person seeking an amendment of any provisions of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, except that the petition shall be filed with the regional administrator and acted upon by him.

(i) *Applicability of other regulations.* Every dealer subject to this order is governed by the licensing provisions of Supplementary Order No. 72, effective October 1, 1943.

(j) *Right of amendment or revocation.* The regional administrator or price administrator may amend, revoke, or rescind this order, or any provision thereof, at any time.

(k) *Records.* Every dealer subject to this order shall preserve, keep and make available for examination by the Office of Price Administration, the same records he was required to preserve and keep under § 1340.262 (a) and (b) of Regulation No. 122.

(l) *Posting of maximum prices; sales slips.* (1) Each dealer subject to this order shall post all the maximum prices set by it for all his types of sales. He shall post his prices in his place of business in a manner plainly visible to and understandable by the purchasing public. He shall also keep a copy of this order available for examination by any person inquiring as to his prices for solid fuel. No report of the maximum prices established by this order need be made by any dealer under § 1340.262 (c) of Regulation No. 122.

(2) Every dealer selling solid fuel for sales of which a maximum price is set by this order shall, within thirty days after the date of delivery of the fuel, give to the buyer a statement showing: the date of the sale, the name and address of the dealer and of the buyer, the kind, size and quantity of the solid fuel sold, the price charged and separately stating any item which is required to be separately stated by this order.

(m) *Enforcement.* (1) Persons violating any provisions of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this order are urged to communicate with the Cleveland District Office of the Office of Price Administration.

(n) *Definitions and explanations.* (1) "Person" includes an individual, corporation, partnership, association, any other organized group of persons, legal successor or representative of any of the foregoing, and includes the United States, any agency thereof, any other government, or any of its political subdivisions, and any agency of any of the foregoing.

(2) "Sell" includes sell, supply, dispose, barter, exchange, lease, transfer, and deliver, and contracts and offers to do any of the foregoing. The terms "sale," "selling," "sold," "seller," "buy," "purchase," and "purchaser" shall be construed accordingly.

(3) "Dealer" means any person selling solid fuel except producers or distributors making sales at or from a mine, a preparation plant, operated as an adjunct of any mine, a coke oven, or a briquette plant.

(4) "Direct delivery" means dumping or chuting the fuel from the seller's truck directly into the buyer's bin or storage space; but, if this is physically impossible, the term means discharging the fuel directly from the seller's truck at a point where this can be done and at the point nearest and most accessible to the buyer's bin or storage space.

(5) "Yard sales" shall mean deliveries made by the dealer in his customary manner at his yard or at any place other than his truck.

(6) Except as otherwise provided herein or as the context may otherwise require, the definitions set forth in §§ 1340.255 and 1340.266 of Revised Maximum Price Regulation No. 122, as amended, shall apply to terms used herein, and in full force and effect.

(o) *Applicability of this order.* To the extent applicable, the provisions of this order supersede Revised Maximum Price Regulation No. 122.

This order No. G–21 under Revised Maximum Price Regulation No. 122 shall become effective February 15, 1944.

NOTE: The reporting and record keeping provisions of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[Region I Order G-52 Under RMPR 122]

SOLID FUELS IN PUTNAM, CONN., AREA

Order No. G-52 under Revised Maximum Price Regulation No. 122. Solid fuels sold and delivered by dealers. Specified solid fuels; Putnam, Connecticut, Area.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of Region I of the Office of Price Administration by § 1340.260 of Revised Maximum Price Regulation No. 122 and the Emergency Price Control Act of 1942, as amended, it is hereby ordered:

(a) *Maximum prices established by this order.* The maximum prices established by §§ 1340.252, 1340.254, 1340.256, 1340.257 and 1340.265 of Revised Maximum Price Regulation No. 122 for sales of specified kinds of solid fuels in the Putnam, Connecticut, Area by dealers, and for specified services rendered by dealers in connection with the sale or handling of said specified solid fuels, are hereby modified, so that the maximum prices therefore shall be the prices hereinafter set forth.

Maximum prices are established for (1) sales of various quantities of the specified solid fuels to various classes of purchasers under various conditions of delivery; and (2) charges which may be made, in addition to such maximum prices for the specified solid fuels, for specified services.

The geographical applicability of this Order G-52 is explained in paragraph (i) and the terms used herein are defined in paragraph (g).

Except as otherwise specifically provided herein, the provisions of Revised Maximum Price Regulation No. 122 apply to all transactions which are the subject of this Order G-52. Specifically, but without limiting the generality of the foregoing, the prohibitions contained in § 1340.252 apply except to the extent that this Order G-52 provides uniform allowances, discounts, price differentials, service charges, and so forth. Nothing contained in this order shall be so construed as to permit non-compliance with any statutes of the State of Connecticut, or any rules or regulations promulgated under any such statutes, concerning sales or deliveries of solid fuels.

(b) *Price Schedule I: Sales on a delivered basis.* (1) Price Schedule I sets forth maximum prices for sale of specified kinds, sizes and quantities of solid fuels on a "direct delivery" basis at any point in the Putnam, Connecticut, Area.

Kind and size	Per net ton	½ ton	¼ ton	100 lbs.
Pennsylvania anthracite:				
Broken, egg, stove and chestnut	$16.75	$8.90	$4.70	$1.00
Pea	15.70	8.35	4.45	.95
Buckwheat	13.05	7.05	3.80	.80

Egg, stove & chestnut	17.75	9.40	4.95	1.05
Coke—Koppers or Providence:				
Egg, stove and chestnut	16.50	8.75	4.65	.95

(2) *Quantity and other special discounts.* (a) The foregoing per net ton prices shall be reduced by one dollar ($1.00) per ton on sales of railroad carload lots when the entire contents of a railroad car are sold to one purchaser at one time. On such sales, the number of tons sold shall be considered to be the number of tons shown on the railroad's freight bill for the car, regardless of the actual number of tons that may be shown by reweighing or unloading.

(b) The foregoing per net ton prices, including the per net ton prices as reduced in accordance with subparagraph (a) of this paragraph (b) (2), shall be reduced by fifty cents per ton on all sales to religious and charitable organizations and institutions.

(3) *Maximum authorized service and deposit charges.* (a) The maximum prices per 100 pounds include carrying or wheeling to buyer's bin or storage space. If the buyer requests such service of him, the dealer may make the following charges for carrying or wheeling of quarter-ton and larger quantities to the buyer's bin or storage space:

	Per net ton	Per ½ ton	Per ¼ ton
For any carry or wheeling from a "direct delivery" point, exclusive of charges for carries up or down flights of stairs	*Cents* 50	*Cents* 25	*Cents* 15
For any carry up or down flights of stairs, per flight	50	25	15

(b) If the buyer requests that fuel delivered in burlap bags furnished by the dealer be left in the bags, the maximum amount which may be required by the dealer as a deposit on, or as predetermined liquidated damages for failure to return, the bags shall be 25 cents per bag.

(c) *Price Schedule II: Yard sales to consumers.* (1) Price Schedule II sets forth maximum prices for sales of specified kinds, sizes and quantities of solid fuels delivered at the yard of any dealer in the Putnam, Connecticut, Area to consumers.

Kind and size	Per net ton	½ ton	¼ ton	100 lbs.
Pennsylvania anthracite:				
Broken, egg, stove and chestnut	$15.75	$8.40	$4.45	$0.90
Pea	14.70	7.85	4.20	.85
Buckwheat	12.05	6.55	3.55	.70
Rice	10.95	6.00	3.25	.65
Yard screenings	2.50			
Jeddo Highland:				
Egg, stove and chestnut	16.75	8.90	4.70	.95
Coke—Koppers or Providence:				
Egg, stove and chestnut	15.50	8.25	4.40	.90

The maximum price for yard sales of 55 pound bags of coke to consumers shall be 65 cents per bag.

(2) *Quantity and other special discounts.* The provisions of subparagraph (2) of paragraph (b) shall be applicable to the foregoing maximum prices for yard sales to consumers.

(3) *Maximum authorized bagging and deposit charges.* (a) The maximum prices per 55 and 100 pounds are for 55 or 100 pounds bagged, exclusive of deposit charges on bags furnished by the dealer. If the buyer requests such service of him, the dealer may make the following charges for bagging tons, one-half tons and one-quarter tons, exclusive of deposit charges on bags furnished by the dealer:

	Cents
Per net ton	50
Per half-ton	25
Per quarter-ton	15

(b) The maximum amount which may be required by the dealer as a deposit on, or as predetermined liquidated damages for failure to return, burlap bags furnished by the dealer shall be 25 cents per bag.

(d) *Terms of sale; sales to consumers.* If payment is made by the buyer within 10 days after receipt of the fuel, the maximum prices set forth in paragraphs (b) and (c) above, including those prices as reduced by any discounts required by subparagraph (2) of paragraph (b) and subparagraph (2) of paragraph (c), shall, except in the case of Pennsylvania anthracite yard screenings, be reduced by $1.00 per ton or by 50 cents per half-ton, or by 25 cents per quarter ton, which reductions are "cash discounts". No further discount is required for cash on delivery, and no "cash discount" is required on sales of Pennsylvania anthracite yard screenings or on any sales of less than a quarter-ton. If payment is not required or made at the time of delivery or (except in the cases of yard screenings and less than quarter-ton lots) within 10 days thereafter, terms shall be net 30 days.

(e) *Price Schedule III: Yard sales to dealers.* (1) Price Schedule III sets forth maximum prices for sales of specified kinds, sizes and quantities of solid fuels delivered at the yard of any dealer in the Putnam, Connecticut, Area to dealers in fuels who resell them.

Kind and size	Per net ton	½ ton	¼ ton
Pennsylvania anthracite:			
Broken, egg, stove and chestnut	$13.75	$6.90	$3.45
Pea	12.70	6.35	3.20

Jeddo highland:			
Egg, stove and chestnut	14.75	7.40	3.70
Coke—Koppers or Providence:			
Egg, stove and chestnut	13.50	6.75	3.40

(2) *Quantity discount.* The provisions of subparagraph (2) (a) of paragraph (b) shall be applicable to the foregoing maximum prices for yard sales to dealers.

(3) *Terms of sale.* Terms of sale may be net cash, but no additional charge shall be made for the extension of credit terms of net 30 days or net 10 days E. O. M.

(4) *Maximum authorized bagging and deposit charges.* (a) If the buyer requests such service of him, the seller may make the following charges for bagging, exclusive of any deposit charges on bags furnished by the seller;

	Cents
Per net ton	50
Per half-ton	25
Per quarter-ton	15

(b) The maximum amount which may be required by the seller as a deposit on, or as predetermined liquidated damages for failure to return, burlap bags furnished by the seller shall be 25 cents per bag.

(f) *Temporary price increase, Pennsylvania anthracite.* The provisions of Region I Supplementary Order No. 4 under Revised Maximum Price Regulation No. 122 shall apply to the prices for Pennsylvania anthracite contained in this order, as long as said Supplementary Order No. 4 remains in effect.

(g) *Definitions.* When used in this Order G-52, the term:

(1) "Putnam, Connecticut, Area" shall include the following cities and towns in the State of Connecticut: Ashford, Brooklyn, Eastford, Killingly, Hampton, Pomfret, Putnam, Thompson, Union and Woodstock.

(2) "Specified solid fuels" shall include all Pennsylvania anthracite and Koppers and Providence coke.

(3) "Pennsylvania anthracite" means coal produced in the Lehigh, Schuylkill and Wyoming regions in the Commonwealth of Pennsylvania.

(4) "Jeddo Highland" means that Pennsylvania anthracite which is prepared at Jeddo #7 breaker and Highland #5 breaker of the Jeddo Highland Coal Company, Jeddo, Pennsylvania, and marketed by said company under the trade names "Jeddo Coal," "Highland Coal," or "Hazle Brook Coal."

(5) "Broken," "egg," "stove," "chestnut," etc. sizes of Pennsylvania anthracite refer to the sizes of such coal prepared at the mine in accordance with standard sizing specifications adopted by the Anthracite Emergency Committee, effective December 15, 1941.

(6) "Koppers coke" means the by-product coke produced by the Koppers Coke Company at its plant in New Haven, Connecticut.

(7) "Providence coke" means the retort gas coke produced by the Providence Gas Company, Providence, Rhode Island.

(8) "Dealer" means any person selling solid fuel except producers or distributors making sales at or from a mine, a preparation plant operated as an adjunct of any mine, a coke oven, or a briquette plant.

(9) "Direct delivery" means dumping or chuting the fuel from the seller's truck or wagon directly into the buyer's bin or storage space; but, if that is physically impossible, the term means discharging the fuel directly from the seller's truck at the point where this can be done which is nearest and most accessible to the buyer's bin or storage space.

(10) "Carry" and "wheel" refer to the movement of fuel to buyer's bin or storage space by wheelbarrow, barrel, bag, sack or otherwise from the dealer's truck or wagon, or from the point of discharge therefrom, to buyer's bin or storage space.

(11) "Yard sales" shall mean deliveries made by the dealer in his customary manner at his yard.

(12) Except as otherwise specifically provided, and unless the context otherwise requires, the definitions set forth in §§ 1340.255 and 1340.266 of Revised Maximum Price Regulation No. 122 shall apply to the terms used herein.

(h) *Transportation tax.* Any dealer subject to this order may collect, in addition to the specified maximum prices established herein, provided he states it separately, the amount of the transportation tax imposed by section 620 of the Revenue Act of 1942 actually paid or incurred by him, or an amount equal to the amount of such tax paid by any of his prior suppliers and separately stated and collected from the dealer by his supplier; *Provided, however,* That no part of that tax may be collected in addition to the maximum price on sales of lesser quantities than one-quarter ton; and *Provided, further,* That the dealer need not state separately from his selling price the amount of said tax on a sale to the United States or any agency thereof, any state government or any political subdivision thereof.

(i) *Geographical applicability.* The maximum prices established by this order for "yard sales" shall apply to all such sales of the specified solid fuels at a yard located in the area covered by this order, regardless of the ultimate destination of the fuel. The maximum prices established by this order for sales on a delivered basis shall apply to all such sales of the specified solid fuels to purchasers who receive delivery of the fuel within the area covered by this order, regardless of whether the dealer is located within said area.

(j) *Quality standards; Pennsylvania anthracite.* The specific maximum prices set forth in this order for broken, egg, stove, chestnut, pea, buckwheat and rice sizes of Pennsylvania anthracite may be charged only for Pennsylvania anthracite of those sizes the ash content of which does not exceed that specified in Regulation No. 9 of the Solid Fuels Administration for War for the particular size. No Pennsylvania anthracite of the said sizes which has an ash content in excess of the foregoing shall be sold or delivered in the area covered by this order until the Regional Administrator of Region I has established a specific maximum price therefor in line with the level of maximum prices established by this order. Any dealer who wishes to sell or deliver any such coal shall apply to the Regional Administrator for the establishment of a price, setting forth in his application:

(i) The size of the coal and the ash content upon a dry basis, by weight;

(ii) The tonnage;

(iii) The name and address of the dealer's supplier;

(iv) The price paid, f. o. b. supplier's shipping point;

(v) The cost of transportation to the dealer's yard, dock or other terminal facility (net after compensatory adjustment if the dealer is eligible for such adjustment under Revised Compensatory Adjustment Regulation No. 1);

(vi) Any other pertinent information which the Regional Office may request.

The price will be established either by an amendment of this order or by a letter to the applicant.

(k) *Lower prices permitted.* Lower prices than those set forth herein may be charged, paid or offered.

(l) *Posting of maximum prices; sales slips and receipts.* (1) Every dealer subject to this order shall post all of the maximum prices established hereby which apply to the types of sales made by him in his place of business in a manner plainly visible to and understandable by the purchasing public, and shall keep a copy of this order available for examination by any person during ordinary business hours. In the case of a dealer who sells directly to consumers from a truck or wagon, the posting shall be done on the truck or wagon. All postings shall include the relevant terms of sale. The prices established hereby need not be reported under § 1340.262 (c) of Revised Maximum Price Regulation No. 122.

(2) Every dealer selling solid fuel for sales of which a maximum price is set by this order shall give to each purchaser an invoice or similar document showing (a) the date of the sale or delivery, the name and address of the dealer and of the buyer, the kind, size and quantity of the solid fuel sold, and the price charged; and (b) separately stating any special services rendered and other charges made and the amount charged therefor. This paragraph shall not apply to sales of quantities of less than one-quarter ton unless the dealer customarily gave such a statement on such sales.

(3) In the case of all other sales, every dealer who during December 1941, customarily gave buyers sales slips or receipts shall continue to do so. If a buyer requests of a seller a receipt showing the name and address of the dealer, the kind, size and quantity of the solid fuel sold to him or the price charged, the dealer shall comply with the buyer's request as made by him.

(m) *Records.* Every person making a sale of solid fuel for which a maximum price is set by this order shall keep a record thereof, showing the date, the name and address of the buyer (if known), the per net ton price charged and the solid fuel sold. The solid fuel shall be identified in the manner in which it is described in this order. The record shall also separately state each service rendered and the charge made for it.

(n) *Petitions for amendment.* Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, except that the petition shall be filed in the Boston Regional Office of the Office of Price Administration. No appeals from a denial in whole or in part of such petition by the Regional Administrator may be made to the Price Administrator.

(o) This order may be revoked, amended or corrected at any time.

NOTE: The reporting and record keeping provisions of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This Order No. G-52 shall become effective February 23, 1944.

More than 10	1.80

(3) *Quantity discount.* The foregoing per net ton prices shall be reduced by 50 cents per ton when the purchaser orders 20 or more net tons for immediate delivery or for delivery at one specified time and the dealer may properly, under any orders of the Solid Fuels Administration for War which are then in effect, deliver at least 20 tons to the purchaser at the time specified by the purchaser.

(4) *Maximum authorized service and deposit charges.* (a) The maximum prices per 100 pounds include carrying or wheeling to buyer's bin or storage space. If the buyer requests such service of him, the dealer may make the following charges for carrying or wheeling of quarter-ton and larger quantities to the buyer's bin or storage space:

	Per net ton	Per ½ ton	Per ¼ ton
For any carry or wheeling from a "direct delivery" point exclusive of charges for carries up or down flights of stairs	Cents 30	Cents 25	Cents 15
For any carry up or down flights of stairs, per flight	20	25	15

(b) If the buyer requests that fuel delivered in burlap bags furnished by the dealer be left in the bags, the maximum amount which may be required by the dealer as a deposit on, or as predetermined liquidated damages for failure to return, the bags shall be 25 cents per bag.

(c) *Price Schedule II: Yard sales to consumers.* (1) Price Schedule II sets forth maximum prices for sales of specified kinds, sizes and quantities of solid fuels delivered at the yard of any dealer in the Bellows Falls Area to consumers.

Kind and size	Per net ton	½ ton	¼ ton	100 lbs.
Pennsylvania anthracite:				
Broken, egg, stove and chestnut	$15.00	$8.45	$4.50	$0.90
Pea	13.60	7.30	3.90	.80
Buckwheat	11.90	6.45	3.50	.70
Rice	10.80	5.90	3.20	.65

Jeddo Highland or Greenwood:				
Egg, stove and chestnut	16.15	8.60	4.55	.90
Coke:				
Egg, stove, and chestnut	15.15	8.10	4.30	.85

(2) *Quantity discount.* The provisions of subparagraph (3) of paragraph (b) shall apply to the foregoing maximum prices for yard sales to consumers.

(3) *Maximum authorized bagging charges.* (a) The maximum prices per 100 pounds are for 100 pounds bagged, but do not include the bag. If the buyer requests such service of him, the dealer may make the following charges for bagging tons, one-half tons, and one-quarter tons, exclusive of any charges for bags furnished by the dealer:

	Cents
Per net ton	50
Per half-ton	25
Per quarter ton	15

(b) The maximum amount which may be charged by the dealer as a deposit on, or as predetermined liquidated damages for failure to return, burlap bags furnished by him shall be 25 cents per bag.

(d) *Terms of sale; sales to consumers.* If payment is made by the buyer within 15 days after receipt of the fuel, the maximum prices set forth in paragraphs (b) and (c) including those prices as reduced by the quantity discount required by subparagraph (3) of paragraph (b) and subparagraph (2) of paragraph (c), shall, except in the case of Pennsylvania Anthracite yard screenings, be reduced by $1.00 per ton, or by 50 cents per half-ton, or by 25 cents per quarter-ton, which reductions are "cash discounts." No further discount is required for cash on delivery, and no "cash discount" is required on sales of Pennsylvania Anthracite yard screenings or on any sales of less than a quarter-ton. If payment is not required or made at the time of delivery or (except in the cases of yard screenings and less than quarter-ton lots) within 15 days thereafter, terms shall be net 30 days.

(e) *Price Schedule III: Yard sales to dealers.* (1) Price Schedule III sets forth maximum prices for sales of specified kinds, sizes and quantities of solid fuels delivered at the yard of any dealer in the Bellows Falls Area to dealers in fuels who resell them.

Kind and size	Per net ton	½ ton	¼ ton
Pennsylvania anthracite:			
Broken, egg, stove, and chestnut	$14.40	$7.20	$3.60
Pea	12.10	6.05	3.05

Jeddo Highland and Greenwood:			
Egg, stove, and chestnut	14.65	7.35	3.70
Coke:			
Egg, stove, and chestnut	13.65	6.85	3.45

(2) *Maximum authorized bagging charges.* (a) If the buyer requests such service of him, the seller may make the following charges for bagging tons, one-half tons and one-quarter tons, exclusive of any charges for bags furnished by the seller:

	Cents
Per net ton	50
Per half-ton	25
Per quarter-ton	15

(b) The maximum amount which may be charged by the seller as a deposit on, or as predetermined liquidated charges for failure to return burlap bags furnished by him shall be 25 cents per bag.

(3) *Terms of sale.* Terms of sale may be net cash, but no additional charge shall be made for the extension of credit terms of net 30 days, or net 10 days E. O. M.

(f) *Temporary price increase; Pennsylvania anthracite.* The provisions of Region I Supplementary Order No. 4 under Revised Maximum Price Regulation No. 122 shall apply to the prices for Pennsylvania anthracite contained in this order, as long as said Supplementary Order No. 4 remains in effect.

(g) *Definitions.* When used in this Order G-53, the term:

(1) "Bellows Falls Area" shall include the entire area of the following cities, towns and townships in the states of New Hampshire and Vermont:

In New Hampshire: Alstead and Walpole.
In Vermont: Athens, Grafton, Rockingham and Westminster.

(2) "Specified solid fuels" shall include all Pennsylvania anthracite and coke.

(3) "Pennsylvania anthracite" means coal produced in the Lehigh, Schuylkill and Wyoming regions in the Commonwealth of Pennsylvania.

(4) "Jeddo Highland" means that Pennsylvania anthracite which is prepared at Jeddo #7 breaker and Highland #5 breaker of the Jeddo Highland Coal Company, Jeddo, Pennsylvania, and marketed by said company under the trade names "Jeddo Coal," "Highland Coal," or "Hazle Brook Coal."

(5) "Greenwood" means that Pennsylvania anthracite which is produced by Lehigh Navigation Coal Company, Philadelphia, Pennsylvania, and marketed under the trade name "Old Company's Lehigh Greenwood Premium Anthracite."

(6) "Broken," "egg," "stove," "chestnut," etc., sizes of Pennsylvania anthracite refer to the sizes of such coal prepared at the mine in accordance with standard sizing specifications adopted by the Anthracite Emergency Committee, effective December 15, 1941.

(7) "Dealer" means any person selling solid fuel except producers or distributors making sales at or from a mine, a preparation plant operated as an adjunct of any mine, a coke oven, or a briquette plant.

(8) "Direct delivery" means dumping or chuting the fuel from the seller's truck or wagon directly into the buyer's bin or storage space; but, if that is physically impossible, the term means discharging the fuel directly from the seller's truck at the point where this can be done which is nearest and most accessible to the buyer's bin or storage space.

(9) "Carry" and "wheel" refer to the movement of fuel to buyer's bin or storage space by wheelbarrow, barrel, bag, sack or otherwise from the dealer's truck or wagon, or from the point of discharge therefrom, to buyer's bin or storage space.

(10) "Yard sales" shall mean deliveries made by the dealer in his customary manner at his yard.

(11) Except as otherwise specifically provided, and unless the context otherwise requires, the definitions set forth in §§ 1340.255 and 1340.266 of Revised Maximum Price Regulation No. 122 shall apply to the terms used herein.

(h) *Transportation tax.* Any dealer subject to this order may collect, in addition to the specified maximum prices established herein, provided he states it separately, the amount of the transportation tax imposed by section 620 of the Revenue Act of 1942 actually paid or incurred by him, or an amount equal to the amount of such tax paid by any of his prior suppliers and separately stated and collected from the dealer by his supplier: *Provided, however,* That no part of that tax may be collected in addition to the maximum price on sales of lesser quantities than one-quarter ton: *And provided further,* That the dealer need not state separately from his selling price the amount of said tax on a sale to the United States or any agency thereof, any state government or any political subdivision thereof.

(i) *Geographical applicability.* The maximum prices established by this order for "yard sales" shall apply to all such sales of the specified solid fuels at a yard located in the area covered by this order, regardless of the ultimate destination of the fuel. The maximum prices established by this order for sales on a delivered basis shall apply to all such sales of the specified solid fuels to purchasers who receive delivery of the fuel within the area covered by this order, regardless of whether the dealer is located within said area.

(j) *Quality standards; Pennsylvania anthracite.* The specific maximum prices set forth in this order for broken, egg, stove, chestnut, pea, buckwheat and rice sizes of Pennsylvania anthracite may be charged only for Pennsylvania anthracite of those sizes the ash content of which does not exceed that specified in Regulation No. 9 of the Solid Fuels Administration for War for the particular size. No Pennsylvania anthracite of the said sizes which has an ash content in excess of the foregoing shall be sold or delivered in the area covered by this order until the Regional Administrator of Region I has established a specific maximum price therefor in line with the level of maximum prices established by this order. Any dealer who wishes to sell or deliver any such coal shall apply to the Regional Administrator for the establishment of a price, setting forth in his application:

(i) The size of the coal and the ash content upon a dry basis, by weight;

(ii) The tonnage;

(iii) The name and address of the dealer's supplier;

(iv) The price paid, f. o. b. supplier's shipping point;

(v) The cost of transportation to the dealer's yard, dock or other terminal facility (net after compensatory adjustment if the dealer is eligible for such adjustment under Revised Compensatory Adjustment Regulation No. 1);

(vi) Any other pertinent information which the Regional Office may request.

The price will be established either by an amendment of this order or by a letter to the applicant.

(k) *Lower prices permitted.* Lower prices than those set forth herein may be charged, paid or offered.

(l) *Posting of maximum prices: Sales slips and receipts.* (1) Every dealer subject to this order shall post all of the maximum prices established hereby which apply to the types of sales made by him in his place of business in a manner plainly visible to and understandable by the purchasing public, and shall keep a copy of this order available for examination by any person during ordinary business hours. In the case of a dealer who sells directly to consumers from a truck or wagon, the posting shall be done on the truck or wagon. All postings shall include the relevant terms of sale. The prices established hereby need

not be reported under § 1340.262 (c) of Revised Maximum Price Regulation No. 122.

(2) Every dealer selling solid fuel for sales of which a maximum price is set by this order shall give to each purchaser an invoice or similar document showing (a) the date of the sale or delivery, the name and address of the dealer and of the buyer, the kind, size, and quantity of the solid fuel sold, and the price charged; and (b) separately stating any special services rendered and other charges made and the amount charged therefor. This paragraph shall not apply to sales of quantities of less than one-quarter ton unless the dealer customarily gave such a statement on such sales.

(3) In the case of all other sales, every dealer who during December, 1941, customarily gave buyers sales slips or receipts shall continue to do so. If a buyer requests of a seller a receipt showing the name and address of the dealer, the kind, size and quantity of the solid fuel sold to him or the price charged, the dealer shall comply with the buyer's request as made by him.

(m) *Records.* Every person making a sale of solid fuel for which a maximum price is set by this order shall keep a record thereof, showing the date, the name and address of the buyer (if known), the per net ton price charged and the solid fuel sold. The solid fuel shall be identified in the manner in which it is described in this order. The record shall also separately state each service rendered and the charge made for it.

(n) *Petitions for amendment.* Any person seeking an amendment of any provision of this Order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, except that the petition shall be filed in the Boston Regional Office of the Office of Price Administration. No appeals from a denial in whole or in part of such petition by the Regional Administrator may be made to the Price Administrator.

(o) This order may be revoked, amended or corrected at any time.

NOTE: The reporting and record keeping provisions of this Order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This Order No. G–53 shall become effective February 24, 1944.

[Region III Order G–18 Under RMPR 122]

SOLID FUELS IN PARKERSBURG, W. VA., AREA

Order No. G–18 under Revised Maximum Price Regulation No. 122. Solid fuels sold and delivered by dealers. Maximum prices for specified solid fuels in the Parkersburg, West Virginia, Area.

For the reasons stated in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of Region III of the Office of Price Administration by § 1340.260 of Revised Maximum Price Regulation No. 122, it is hereby ordered:

(a) *What this order does.* This order establishes maximum prices for sales of specified solid fuels made within the City of Parkersburg, West Virginia, and within a radius of five miles from the corporate limits thereof. These are the highest prices that any dealers may charge when he delivers such fuel at or to a point in such area; they are also the highest prices that any buyer in the course of trade or business may pay for them.

(b) *What this order prohibits.* Regardless of any obligation, no person shall:

(1) Sell or, in the course of trade or business, buy solid fuels at prices higher than the maximum prices set by this Order No. G–18; but less than maximum prices may at any time be charged, paid or offered;

(2) Obtain a higher than ceiling price by:

(i) Charging a price higher than the scheduled price for a service or making a charge for a service not authorized by this order,

(ii) Making a charge higher than the scheduled charge authorized for the extension of credit,

(iii) Using any other device by which a higher than maximum price is obtained, directly or indirectly,

(iv) Using any tying agreement or requiring that the buyer purchase anything in addition to the fuel requested by him, except that a dealer may comply with any requirements or standards with respect to deliveries which have been or may be issued by an agency of the United States Government.

(c) *Schedule for sales of coal.* This schedule sets forth maximum prices for cash sales of specified sizes, kinds and quantities of solid fuels. Column I describes the coal for which prices are established; Column II shows maximum prices for cash or credit sales on a "direct delivery" basis; Column III shows maximum prices for cash or credit "yard sales" to other dealers or to consumers. All prices are on a net ton basis.

Column I	Column II	Column III

1 ton	5.90	5.10
2 tons	5.70	5.10
3 tons	5.60	5.10
4 tons	5.50	5.10

There are no quantity discounts except those set forth above in this price schedule.

All terms used herein to describe size, volatility and producing district are those that were established and defined by the Bituminous Coal Division and in effect as of midnight, August 23, 1943.

(d) The maximum prices for all sales by dealers of solid fuel not provided for by this Order No. G–18 shall be the maximum prices established by Revised Maximum Price Regulation No. 122.

(e) *Schedule of services and credit charges.* This schedule sets forth maximum prices which a dealer may charge for special services rendered in connection with all sales under paragraph (c). These charges may be made only if the buyer requests such service of the dealer and only when the dealer renders the service. Every service charge shall be separately stated in the dealer's invoice.

	Per ton
Shovelling as herein defined	$0.50
Carrying or wheeling from curb	1.00
Carrying up or down stairs	1.00

(f) *The transportation tax.* The transportation tax imposed by section 620 of the Revenue Act of 1942 may be collected in addition to the maximum prices set by this order, provided the dealer states it separately from the price on his invoice or statement. However, it need not be so separately stated on a sale to the United States or any agency thereof, the District of Columbia, any state government or any political subdivision thereof.

(g) *Addition of increase in suppliers prices prohibited.* The maximum prices prices set by this order may not be increased by a dealer to reflect increases in purchase costs or in supplier's maximum prices occurring after the effective date hereon; but increases in the maximum prices set hereby to reflect such increases are within the discretion of the Regional Administrator.

(h) *Petitions for amendment.* Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1 except that the petition shall be filed with the Regional Administrator and acted upon by him.

(i) *Applicability of other regulations.* Every dealer subject to this order is governed by the licensing provisions of Supplementary Order No. 72, effective October 1, 1943.

(j) *Right of amendment or revocation.* The Regional Administrator or Price Administrator may amend, revoke, or rescind this order, or any provision thereof, at any time.

(k) *Records.* Every person making a sale of solid fuel for which a maximum price is set by this order shall keep a record thereof showing the date, the name and address of the buyer, if known, the per net ton price charged and the type and kind of solid fuel sold. The solid fuel shall be identified in the manner in which it is described in the order. The record shall also separately state each service rendered and the charge made for it.

(l) *Posting of maximum prices; sales slips.* (1) Each dealer subject to this order shall post all the maximum prices set by it for all his types of sales. He shall post his prices in his place of business in a manner plainly visible to and understandable by the purchasing public. He shall also keep a copy of this order available for examination by any person inquiring as to his prices for solid fuel. No report of the maximum prices established by this order need be made by any dealer under § 1340.262 (c) of Regulation No. 122.

(2) Every dealer selling solid fuel for sales of which a maximum price is set by this order shall, within thirty days after the date of delivery of the fuel, give to the buyer a statement showing: the date of the sale, the name and address of the dealer and of the buyer, the kind, size, and quantity of the solid fuel sold, the price charged and separately stating any item which is required to be separately stated by this order.

(m) *Enforcement.* (1) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violations of this order are urged to communicate with the Charleston District Office of the Office of Price Administration.

(n) *Definitions and explanations.* (1) "Person" includes an individual, corporation, partnership, association, any other organized group of persons, legal successor or representative of any of the foregoing, and includes the United States, any agency thereof, any other government, or any of its political subdivisions, and any agency of any of the foregoing.

(2) "Sell" includes sell, supply, dispose, barter, exchange, lease, transfer and deliver, and contracts and offers to do any of the foregoing. The terms "sale", "selling", "sold", "seller", "buy", "purchase", and "purchaser" shall be construed accordingly.

(3) "Dealer" means any person selling solid fuel except producers or distributors making sales at or from a mine, a preparation plant operated as an adjunct of any mine, a coke oven, or a briquette plant.

(4) "Direct delivery" means dumping or chuting the fuel from the seller's truck directly into the buyer's bin or storage space; but, if this is physically impossible, the term means discharging the fuel directly from the seller's truck at a point where this can be done and at the point nearest and most accessible to the buyer's bin or storage space.

(5) "Yard sales" shall mean sales and deliveries made by the dealer in his customary manner at his yard.

(6) "Shoveling" is defined to mean the unloading of the truck by shovel, rather than by dumping.

(7) Except as otherwise provided herein or as the context may otherwise require, the definitions set forth in §§ 1340.255 and 1340.266 of Revised Maximum Price Regulation No. 122, as amended, shall apply to the terms used herein, and in full force and effect.

(o) *Applicability of this order.* To the extent applicable, the provisions of this order supersede Revised Maximum Price Regulation No. 122.

NOTE: The reporting and record keeping provisions of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This Order No. G–16 under Revised Maximum Price Regulation No. 122 shall become effective February 15, 1944.

PAYMENT FOR TREES

By virtue of the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, as amended, and in the War Food Administrator by Executive Order No. 9322, as amended by Executive Order No. 9334, the 1944 Naval Stores Conservation Program is amended, as follows:

1. Section 706.505 (l) is amended to read as follows:

§ 706.505 *Conditions of payment; performance required.* • • •

(l) *Repayment for faces removed from small trees.* Payment shall be made on faces removed from small trees under the provisions of the 1941, 1942, and 1943 programs; provided such faces (1) were first installed during the 1940 turpentine season, (2) have not been worked since removal, (3) are located in drifts that contain working faces which are continued in operation, (4) are not worked during this program, and (5) have been under the producer's control for turpentine purposes continuously from the time of removal to the end of the turpentine season under this program.

2. Section 706.506 (a) (3) is amended as follows:

(a) *Rates of payment.* • • •

(3) 5 cents per face for any one face of one or more faces on trees less than 9 inches d. b. h., and for any one face of two or more faces on trees 9 to 14 inches d. b. h. which were taken out of operation during the 1941, 1942 or 1943 programs, and kept out of operation during succeeding programs, including this program, for which payment was made in a previous program, or on such faces which are removed from operation during the 1944 turpentine season, provided such faces were first installed during the 1940 turpentine season.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–492]

BANKS AND BREZEL

Abraham Banks and Max Brezel are co-partners doing business as Banks and Brezel at 91 Gold Street, New York, New York, as jobbers of leather. On or about April 16, 1943, Messrs. Banks and Brezel violated General Preference Order M–80 by cutting into strips and centers and selling to finders in the trade about 2,000 bends of manufacturers whole stock of military weight and quality; the approximate weight of this leather was 16,670 pounds. The company was familiar with the provisions of the order, and its violation must be deemed wilful.

This misuse of leather of military weight and quality has hampered and impeded the war effort of the United States by diverting military leather to civilian use. In view of the foregoing, it is hereby ordered, that:

§ 1010.492 *Suspension Order No. S–492.* (a) Abraham Banks and Max Brezel, individually or doing business as Banks and Brezel or otherwise, their successors and assigns, shall not directly or indirectly, receive, accept delivery of, cut, or otherwise process any leather bends, backs or crops, unless hereafter specifically authorized in writing by the War Production Board. Nor shall any person, firm, or corporation sell or deliver to Abraham Banks or Max Brezel, individually, or as partners under any name, or for their account or order, directly or indirectly, any leather bends, backs or crops, unless hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Abraham Banks or Max Brezel from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on February 23, 1944, and shall expire on March 23, 1944.

Issued this 21st day of February 1944.

Recording Secretary.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Regulation 18 as Amended Feb. 24, 1944]

FROZEN SCHEDULES

§ 944.39 *Priorities Regulation 18*—(a) *Definitions.* (1) "Producer" means any person whose production, delivery or shipping is subject to a "frozen schedule" as defined below. The term includes all divisions, branches, and plants of a corporation, association or other legal entity, but does not include any parent, subsidiary or affiliated company which is itself a separate legal person.

(2) "Frozen schedule" means a production, delivery, or shipping schedule approved or prescribed pursuant to any order listed in Appendix A of this regulation, or pursuant to any other order of the War Production Board which states expressly that schedules thereunder are to be deemed frozen schedules within the meaning of Priorities Regulation 18, whether or not the schedules are filed with the War Production Board. When any such order provides that the filing of a schedule is equivalent to approval or that a filed schedule may not be varied without approval, the term "frozen schedule" means the schedule as filed with any modifications approved or prescribed by the War Production Board. When any such order requires the approval by the War Production Board of every purchase order for a particular type of item before the producer accepts the purchase order or delivers the item, the term "frozen schedule" includes all purchase orders on the producer's books which have been so approved, unless such order expressly states otherwise.

(b) *Protection of frozen schedules.* (1) Notwithstanding any contrary provisions of any other regulation, order or other instrument issued by or under authority of the War Production Board (including AAA's and other preference rating instruments and CMP allotments), no producer shall interfere with any frozen schedule by eliminating, displacing or altering the precedence of any purchase order (unless removed from the schedule as provided in paragraph (d), (e), or (f) below) listed for production, delivery or shipment thereon in favor of any other purchase order unless he is specifically authorized or directed to do so by an order or direction of the War Production Board which identifies the frozen schedule and states on its face that it is an amendment of that schedule.

(2) An amendment of a frozen schedule may be requested of the War Production Board by the producer, by the person to whom shipment is to be made, or by the claimant agency sponsoring the program, by letter or, at the election of the person making the request, on the form required for filing shipping schedules. The request may relate to one or more purchase orders or may constitute a proposed revision of the frozen schedule.

NOTE: Paragraph (c), formerly (d), redesignated Feb. 24, 1944.

(c) *Automatic scheduling of certain components.* (1) The following definitions shall apply for the purposes of this paragraph (d):

(i) "Product" of a producer means the final product manufactured or assembled by that producer. It may be a complete end product or merely a part or subassembly which some other producer will incorporate into the end product.

(ii) "Component" means any part of a product which is physically incorporated in it except a controlled material as defined in CMP Regulation 1.

(iii) "Principal component" means the component which performs the principal function of the product. In the case of transportation equipment of any kind or equipment which generates electric energy, the principal component is the prime mover. In other types of motive equipment, the main driven component is the principal component.

(iv) "Auxiliary component" means any component which is physically incorporated in the principal component or is attached to the principal component by a shaft, gears, bolt, chain or cable.

(2) When a producer's product is subject to a frozen schedule, all components of that product which are being made by the same producer shall automatically become part of that frozen schedule.

(3) When a producer's product is not subject to a frozen schedule, but the principal component of the product is made by the same producer and is subject to a frozen schedule, then all auxiliary components of that principal component which are being made by the same producer shall automatically become part of that frozen schedule.

(4) When neither the producer's product nor the principal component of the product is subject to a frozen schedule, but some other component, made by the same producer, is subject to a frozen schedule, then all components which are being made by the same producer for physical incorporation into the scheduled component shall automatically become part of that frozen schedule.

(5) This automatic scheduling shall obtain in all cases, whether or not the components which are automatically scheduled would otherwise be subject to scheduling. A schedule which has been automatically frozen shall enjoy the same protection as any other frozen schedule, except that an amendment of the schedule pursuant to paragraph (b) (1) need not identify the frozen schedule if the schedule has not been filed with the War Production Board.

(6) If any order is removed from a frozen schedule then all components of the product covered by the order cease to be part of that frozen schedule.

NOTE: Paragraph (7), formerly (6), redesignated Feb. 24, 1944.

(7) Producers are not excused from including in reports or schedules required to be filed with the War Production Board any information which is required concerning the components which they are producing. When any of the components has been automatically scheduled under this regulation, a notation to that effect must be made on the report or schedule.

(d) *Cancellation and requests to hold up work on orders subject to a frozen schedule.* When a person who has placed an order which has become part of a frozen schedule cancels his order, it ceases to be part of the frozen schedule. If the person does not cancel his order which has become part of a frozen schedule but merely instructs the producer to hold up work on it, the producer must remove it from the frozen schedule. If requested to do so within ten days the producer must reinstate the order as near as possible to its former place in the frozen schedule without causing loss of production or delay in the previously scheduled delivery on any other order in the schedule. If, however, in requesting reinstatement of the order, the person makes a substantial change, the order must not be reinstated but treated as a new order as explained in paragraph (e) below.

(e) *Other changes in purchase orders already placed.* When a person who has placed an order which has become part of a frozen schedule makes a substantial change in the order, the general rule is that the order must be considered a new order placed on the date of the change. Unless the producer has received specific authorization for the change from the War Production Board, the order must be removed from the frozen schedule. The change is substantial if (1) it involves an alteration of the manufacturer's production schedule so as to interfere with production; or (2) it involves an alteration in the product classification of the item. If the change is not substantial, it may be made without notifying the War Production Board.

(f) *Notification to the War Production Board.* Whenever an order is removed from a frozen schedule, a manufacturer should make his shipments under later scheduled orders as nearly as practicable in the prescribed sequence, moving up the shipping dates of other orders. In any case where the producer foresees an appreciable acceleration of production, he must notify the War Production Board of the reason for the acceleration and the revised dates on which he expects to be able to make shipment under each purchase order affected.

(g) *Reinstatement of cancelled orders.* In any case, except where an order is reinstated as required under paragraph (d) above, an order which has been removed from a frozen schedule which is subsequently reinstated by the purchaser is to be treated as a new order. In such a case, and in cases where a change in the order involves the placing of a new order under paragraph (e), the acceptance or rejection of the new order and its place on the manufacturer's schedule shall be governed by conditions existing at the time the order is reinstated.

Issued this 24th day of February 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 1, Direction 47]

ACCEPTANCE OF ORDERS FOR STEEL FOR DELIVERY FROM MILL STOCK

The following direction is issued pursuant to CMP Regulation 1:

(a) Paragraph (t) (2) (iii) of CMP Regulation No. 1 provides that a steel producer must reject orders for shipment in any month in excess of 110 percent of his current production directive or (if he has no production directive) 105 percent of his expected production for that month. However, to the extent that the additional material is available in mill stock, a producer may accept orders for such material in excess of the above percentages, provided such orders are such as he is permitted to accept under the provisions of paragraph (t) (3).

(b) This direction does not apply to Tin Plate, Terne Plate, and Tin Mill Black Plate.

PART 3270—CONTAINERS

[Limitation Order L–197, Direction 1]

STEEL SHIPPING DRUMS

The following direction is issued pursuant to Limitation Order L–197:

Limitation Order L–197 contains a prohibition against the use of any steel shipping drum, new or used, for packing molasses. This direction makes an exception to that rule in the case of used drums owned by farmers.

Notwithstanding the prohibition contained in Order L–197, packers of molasses may pack it in used steel drums owned by a farmer and packed on his order for his use for ensilage. The packer may rely upon a signed statement by the purchaser that he is a farmer, that he owns the steel drum which is to be filled and that the molasses is for his own use for ensilage. If he has knowledge of these facts, he may waive the signed statement.

PART 3291—CONSUMERS DURABLE GOODS

[Supplementary Limitation Order L–65–a]

ELECTRIC IRONS

§ 3291.316 *Limitation Order L–65–a*—(a) *What this order does.* This order controls the manufacture and delivery of electric irons. It provides for the resumption of production of these items on a limited basis. Notwithstanding the provisions of Limitation Order L–65, no person shall manufacture any electric irons except under the terms of this order.

(b) *Definition.* For the purpose of this order: "Electric iron" means any portable iron designed primarily to be used in ironing or pressing wearing apparel and having a self-contained heating element in which heat is generated by the passage of electricity.

(c) *Production of electric irons.* (1) No person shall make any electric irons except in models and quantities specifically authorized by the War Production Board on Form CMPL–150–b. Application should be made by filing Form WPB–3550 with the field office of the War Production Board for the district in which the plant where the irons are to be made is located.

(2) Each person who has a production quota assigned on Form CMPL–150–b may make in addition to that quota, electric irons in approved models to fill purchase orders or contracts calling for delivery to or for the account of the U. S. Army, Navy, Maritime Commission or the War Shipping Administration. Irons may not be made to fill even these orders by any person who has not been assigned a production quota.

(3) Manufacture of electric irons will be permitted only if labor is available and if such production can be made without interference with existing or potential war contracts. Wherever practical, each manufacturer will be permitted under paragraph (c) (1) to make his pro rata share of the total production authorized, based on his production during 1940. However, to insure full production of approved requirements, the War Production Board may assign additional quotas to qualified manufacturers. In general, no single manufacturer will be authorized to produce more than one model of the automatic type and one model of the non-automatic type. Approval of models will be based largely on economy of production and the volume of production of the individual models by a manufacturer during 1940. The War Production Board will, from time to time or on request of any manufacturer, give notice to all manufacturers of the total production authorized and the percentage of his 1940 production authorized to each individual manufacturer.

(4) Manufacturers who made electric irons in 1940 and who are unable to produce because of interference with war work may apply to the War Production Board for permission to have another person make irons for them. Each application should be made by filing Form WPB–3550 in accordance with its instructions.

(d) *Restriction on production of certain parts.* No person other than those authorized to make electric irons on Form WPB–3550 shall make any sole plates (either cast, stamped or forged) or handles for electric irons, in a Group I labor area, except as permitted by the nearest field office of the War Production Board in writing.

(e) *Distribution.* It is the policy of the War Production Board that each manufacturer shall distribute his production through his normal distribution channels, taking into consideration shipments to areas during 1941, immigration of workers to certain areas, and such other factors as will provide equitable distribution to meet essential needs. The War Production Board may direct the distribution of specified amounts from any manufacturer's production to meet emergencies.

(f) *Preference ratings for purchase of electric irons prohibited.* No preference rating for electric irons shall be valid for any purpose. All orders bearing preference ratings may be filled as unrated orders. This does not apply to any purchase order or contract calling for delivery to or for the account of the U. S. Army, Navy, Maritime Commission or the War Shipping Administration.

(g) *Reports.* Every manufacturer producing electric irons shall file Form WPB–1600, executed in accordance with the instructions for filing that form, with the War Production Board, Washington 25, D. C., Ref: Order L–65–a, on or before the 15th day of April, July, October and January. This form is a report of the number of electric irons made and shipped during the preceding quarter.

(h) *Applicability of other orders and regulations.* This order and all transactions affected by this order are subject to the applicable regulations of the War Production Board. If any other order of the War Production Board limits the use of any material in the production of electric irons to a greater extent than does this order, the other order shall govern unless it states otherwise.

(i) *Violations.* Any person who wilfully violates any provisions of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(j) *Appeals.* Any appeal from this order should be made on Form WPB–1477 and should be filed with the field office of the War Production Board for the district in which is located the plant to which the appeal relates.

(k) *Communications.* All reports required to be filed hereunder, and all communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Consumers Durable Goods Division, Washington 25, D. C., Ref: L–65–a.

NOTE: The reporting provisions of this order have been approved by the Bureau of the Budget under the Federal Reports Act of 1942.

Issued this 24th day of February 1944.

PART 3291—CONSUMERS DURABLE GOODS[1]

[General Limitation Order L–233, as Amended Feb. 24, 1944]

PHOTOGRAPHIC FILM AND FILM BASE

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of critical materials for film and film base for defense for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3291.265[1] *General Limitation Order L–233*—(a) *Definitions.* For the purposes of this order:

(1) "Amateur-type still film" means roll films and 35 millimeter perforated films (whether packaged as cartridges, spools or in bulk) except 35 millimeter motion picture film.

(2) "Amateur-type motion picture film" means 8 and 16 millimeter reversal-type motion picture film.

(3) "Cut-sheet film" means film packaged in lots of individual flat pieces including film packs, but excluding X-ray film.

(4) "Group I products" means amateur-type still films and amateur-type motion picture films.

(5) "Group II product" means cut-sheet film.

(6) "Group III product" means 35 millimeter motion picture film.

[1] Formerly Part 3147, § 3147.1.

(7) "Restricted film" means Group I, Group II and Group III products, and film base for such products.

(8) "Base period" means the calendar year 1941.

(9) "Manufacturer" means any individual partnership association, business trust, corporation, governmental corporation or agency, or any organized group of persons whether incorporated or not, engaged in the business of producing any film or film base whatsoever.

(10) "Preferred order" means any order, contract or subcontract placed by or for the account of the Army or Navy of the United States, the United States Maritime Commission, the War Shipping Administration, the Government of Canada, the Government of any country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act) and government agencies or other persons acquiring film or film base for export to and consumption or use in, any foreign country,

(b) *General restrictions.* No manufacturer shall:

(1) On and after December 16, 1942, produce any restricted film other than for preferred orders except in accordance with the provisions of paragraph (c) of this order;

(2) On and after January 1, 1943, produce and sell, lease, trade, ship, lend or transfer any restricted film pursuant to a preferred order except in accordance with the provisions of paragraph (d) of this order;

(3) On and after January 1, 1943, produce any film or film base other than restricted film, whether or not such production is pursuant to a preferred order except in accordance with the provisions of paragraph (e) of this order.

(c) *Limitations on production of restricted film other than for preferred orders.* (1) During the month of December, 1942, no manufacturer shall produce more film base (excluding preferred orders) intended to be used by any person for the production of finished Group I, Group II or Group III products than the following percentages of such film base (including preferred orders) produced by him during the base period:

(i) Film base for Group I products, 5%.

(ii) Film base for Group II product, 7%.

(iii) Film base for Group III product, 7%.

(2) During the month of December 1942, no manufacturer shall produce more finished Group I, Group II or Group III products (excluding preferred orders), than the following percentages of such finished film (including preferred orders) produced by him during the base period:

(i) Group I products, 5%.

(ii) Group II product, 7%.

(iii) Group III product, 7%.

(3) During the three months period beginning January 1, 1943, and for each three months period thereafter, no manufacturer shall produce more film base (excluding preferred orders) intended to be used by any person for the production of finished Group I, Group II or Group III products than the following percentages of such film base (including preferred orders) produced by him during the base period:

(i) Film base for Group I products, 12½%.

(ii) Film base for Group II product, 19%.

(iii) Film base for Group III product, 19%.

(4) During the three months period beginning January 1, 1943, and for each three months period thereafter, no manufacturer shall produce more finished Group I, Group II or Group III products (excluding preferred orders) than the following percentages of such finished film (including preferred orders) produced by him during the base period:

(i) Group I products, 12½%.

(ii) Group II product, 19%.

(iii) Group III product, 19%.

(5) On or after March 9, 1943, no manufacturer shall produce or transfer any restricted film pursuant to a preferred order except in accordance with the provisions of paragraph (d) of this order.

(d) *Limitations on production and delivery of restricted film for preferred orders.* On or before December 20, 1942, and on or before the first day of each third succeeding calendar month thereafter, each manufacturer shall file with the War Production Board a statement in writing in quadruplicate which shall include:

(1) Such manufacturer's proposed production schedule of restricted film for preferred orders so far as then planned, but in any event, for not less than the next succeeding calendar quarter.

(2) His proposed delivery schedules of restricted film for preferred orders so far as then planned, but in any event for not less than the next succeeding calendar quarter.

The War Production Board shall notify manufacturers of its approval or disapproval of the production and delivery schedules for the calendar quarter or more covered in the report. Either at the time the schedule is initially filed by the manufacturer, or at any time thereafter, the War Production Board may change any schedules; direct the cancellation of any order shown on any schedule; prescribe any other schedule for production or deliveries for any period, regardless of whether a schedule for such period, or any part thereof, has been reported by the manufacturer or theretofore approved by the War Production Board; allocate any order listed on the report to any other manufacturer; or direct the delivery of any restricted film whether or not produced pursuant to a preferred order, to any other person, at the established price and terms. No manufacturer shall produce or deliver any restricted film pursuant to a preferred order, except in accordance with schedules approved or prescribed by the War Production Board as above provided; and no manufacturer shall alter any such approved or prescribed production or delivery schedules unless authorized or directed to do so by the War Production Board. In connection with the delivery of any Group III product, the War Production Board may

direct that such Group III product be delivered in accordance with the restrictions contained in General Limitation Order L–178 as amended from time to time (§ 3032.1).

(e) *Limitations on production of film and film base other than restricted film.* On or before December 20, 1942, and on or before the first day of each third succeeding calendar month thereafter, each manufacturer shall file with the War Production Board a statement in writing in quadruplicate which shall include such manufacturer's proposed production schedule for any film or film base whatsoever (including preferred orders) other than restricted film so far as then planned, but in any event, for not less than the next succeeding calendar quarter.

The War Production Board shall notify manufacturers of its approval or disapproval of the production schedules for the calendar quarter or more covered in the report. Either at the time the schedule is initially filed by the manufacturer, or at any time thereafter, the War Production Board may change any schedules; direct the cancellation of any order shown on any schedule; prescribe any other schedule for production for any period, regardless of whether a schedule for such period, or any part thereof, has been reported by the manufacturer, or theretofore approved by the War Production Board; allocate any order listed on the report to any other manufacturer. No manufacturer shall produce any film or film base whatsoever (including preferred orders) other than restricted film, except in accordance with schedules approved or prescribed by the War Production Board as above provided; and no manufacturer shall alter any such approved or prescribed production schedule unless authorized or directed to do so by the War Production Board.

(f) *Special provision affecting the distribution of film.* (1) All orders for film shall be filled as unrated orders except orders with ratings of AA–5 or higher where film is specifically mentioned on the form; assigned:

(i) On Form WPB–541 (formerly PD–1A);

(ii) On Form WPB–542 (formerly PD–3A);

(iii) On Form WPB–837 (formerly PD–408);

(iv) In accordance with procedures authorized for use by the Bureau of Supplies and Accounts (Navy), Coast Guard or other supply arm or bureau in place and instead of using Form WPB–542 (formerly PD–3A).

(2) No person who has received a rated order for film shall extend the rating unless the rating is AA–5 or higher and unless he is informed in writing by the person placing the order that the rating was expressly assigned in accordance with one of the forms or the procedures prescribed in this paragraph.

(3) Nothing in this paragraph (f) shall affect the distribution of the 35 mm. film controlled by Limitation Order L–178.

(g) *Reports.* (1) Every manufacturer affected by this order shall execute and file with the War Production Board, Washington 25, D. C., Ref: L–233, on or before the 20th day of April, July, October and January, Form WPB–1600, in accordance with the instructions for filing that form. This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(2) Every person affected by this order shall execute and file with the War Production Board such other reports and questionnaires as said Board shall from time to time request subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(h) *Records.* All persons affected by this order shall keep and preserve for not less than two years, accurate and complete records concerning inventories, production and sales.

(i) *Audit and inspection.* All records required to be kept by this order shall upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(j) *Avoidance of excessive inventories.* No manufacturer shall accumulate for use in the production of any film or film base whatsoever, inventories of raw materials, semi-processed materials or finished parts in quantities in excess of the minimum amount necessary to maintain production of the rates permitted by this order.

(k) *Violations.* Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, materials under priority control and may be deprived of priorities assistance.

(l) *Appeal.* Any appeal from the provisions of this order should be made on Form PD–500, addressed to the War Production Board, Consumers' Durable Goods Division, Ref: L–233.

(m) *Applicability of other orders.* In so far as any other order heretofore or hereafter issued by the Office of Production Management or the War Production Board limits the use of any material in the production of any film or film base whatsoever, to a greater extent than the limits imposed by this order, such other order shall govern unless otherwise specified therein.

(n) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board, as amended from time to time.

(o) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Consumers' Durable Goods Division, Washington 25, D. C., Ref: L–233.

Issued this 24th day of February 1944.

PART 3293—CHEMICALS

[Allocation Order M–227, as Amended Feb. 24, 1944]

COPPER CHEMICALS

§ 3293.316 *Allocation Order M–277*—(a) *Definitions.* (1) "Copper chemicals" means copper sulfate, copper carbonate, copper oxide, copper chloride and copper cyanide. The term includes copper chemicals in both cupric and cuprous form.

(2) "Supplier" means any producer or distributor.

(3) "Producer" means any person engaged in the production of any copper chemical and includes any person who has any such chemical produced for him pursuant to toll agreement.

(4) "Distributor" means any person who has purchased or purchases any copper chemical for purpose of resale without change in form.

(5) "Quarter" means calendar quarter.

(b) *Restrictions on delivery and use.* (1) No supplier shall deliver or use any copper chemical, and no person shall accept delivery of any copper chemical from any supplier, except as specifically authorized by the War Production Board.

(2) Authorizations or directions with respect to deliveries to be made or accepted will, so far as practicable, be issued by the War Production Board prior to the commencement of the quarter to which such authorizations or directions relate. The War Production Board may also in advance of each quarter issue directions with respect to use by suppliers in such quarter, but it may issue directions at any time to any person respecting use which may or may not be made of copper chemicals to be delivered or then on hand. Applications for copper chemicals not filed in advance of the quarter to which they relate at the times and in the manner provided by paragraph (d) (1) hereof, will not be approved in the absence of a showing of special circumstances.

(3) Each person authorized to accept delivery of copper chemicals shall use the same for the purpose authorized and only for such purpose except as otherwise specifically directed by the War Production Board.

(4) Copper chemicals allocated for inventory shall not be used or redelivered except as otherwise specifically directed by the War Production Board.

(5) Deliveries specifically authorized or directed to be made in any quarter by the War Production Board where the authorization or direction does not specify dates or order of shipment, may be made by any supplier in such quarter, without regard to preference ratings applicable to particular orders.

(c) *Exceptions to requirement for specific authorization.* Notwithstanding the provisions of paragraph (b) (1), no specific authorization or direction of the War Production Board shall be required for:

(1) Delivery by any supplier to any one person in any quarter, or the acceptance of delivery by any one person in any quarter from all suppliers, of not more than 4000 lbs. of copper sulphate or of not more than 1000 pounds each of copper carbonate, copper chloride, copper cyanide and cupric oxide (no exemption for cuprous oxide except that under paragraph (c) (4) for laboratory use): *Provided, however,* That the aggregate quantity of any copper chemical which any supplier may deliver in any quarter pursuant to this paragraph (c) (1) shall not exceed the quantity which the War Production Board shall have specifically authorized such supplier to deliver in such quarter under this paragraph (c) (1), on application filed by such supplier pursuant to subparagraph (d) (2) (vi) hereof.

(2) Delivery by any supplier to any person who shall have filed with him prior to such delivery a certificate in substantially the following form (which certificate may be endorsed upon or attached to the purchase order):

The undersigned hereby certifies to the War Production Board and to his supplier that the copper chemicals hereby ordered will be *used, or resold for use* [strike out inapplicable word or words] only for soil treatment or as an insecticide or fungicide in connection with the cultivation of agricultural crops, or in the manufacture of animal medicinals.

Name of Purchaser.

By ---
Authorized Official.

Date.

Title.

Such certificate shall be signed by an authorized official, either manually or as provided in Priorities Regulation No. 7. The receipt of such certificate shall not authorize the delivery of any copper chemical by a supplier where he knows or has reason to believe the same to be false, but in the absence of such knowledge or reason to believe, he may rely on the certificate.

(3) Acceptance of delivery by any person from any supplier solely for use, or for resale for use, for soil treatment or as an insecticide or fungicide in connection with the cultivation of any agricultural crop or in the manufacture of animal medicinals; provided that such person has filed with his supplier from whom delivery is accepted, a certificate in substantially the form set out in paragraph (c) (2).

(4) Delivery in any calendar quarter of 75 pounds or less of cuprous oxide to each laboratory or supplier principally engaged in supplying laboratories, and acceptance of delivery in any calendar quarter from all sources of 75 lbs. or less of cuprous oxide by any laboratory for experimental use or by any laboratory supplier for resale to laboratories. (The term "laboratory" means laboratory as defined in Order P–43, whether or not registered under that order.)

(d) *Applications and reports.* (1) Each person requiring authorization to accept delivery of any copper chemical in any quarter, whether for own consumption or resale (and each supplier requiring authorization to use any copper chemical in any quarter) shall file application therefor on Form WPB 2945 (formerly PD–600). Such form shall be prepared in the manner prescribed therein, subject to the following special instructions:

(i) Copies of Form WPB 2945 (formerly PD–600) may be obtained at the local field offices of the War Production Board.

(ii) Five copies shall be prepared, of which three shall be forwarded to the War Production Board, Chemicals Division, Washington 25 D. C., Ref: M–227, one forwarded to the supplier and the fifth retained as a file copy by the applicant. At least one of the copies forwarded to the War Production Board shall be signed by applicant by a duly authorized official.

(iii) The three copies required to be forwarded to the War Production Board shall be sent in sufficient time to be received not later than the 5th day of the last month of the preceding quarter. The copy to be forwarded to supplier shall be sent in sufficient time to be received by supplier, if supplier is a producer, not later than such 5th day of the last month of the preceding quarter, or if supplier is a distributor, not later than the 1st day of such last month, applications covering the second quarter of 1943 shall be submitted not later than March 15, 1943, if supplier is a producer, or if supplier is a distributor, not later than March 12, 1943.

(iv) Under heading "Name of chemical", specify "Copper chemicals"; under "WPB Order No.", specify "M–227"; under heading "Indicate unit of measure", specify "pounds".

(v) In heading at top of Table I, specify "First quarter", "second quarter", etc., as the case may be, and insert year.

(vi) In Columns 1, 11 and 19 specify copper sulfate, copper carbonate, cuprous oxide, cupric oxide, copper chloride or copper cyanide and in each case indicate the percentage by weight of copper content.

(vii) In Columns 3, 20 and 22, applicant must specify his primary product in terms of the following:

Water treatment
Wire drawing
Electro plating
Mining
Catalyst
Gas sweetener
Anti-fouling paints
Preservatives
Dyes and pigments
Mildew-proofing
Agriculture
Other (specify)
Resale (as copper chemicals)
Inventory (as copper chemicals)

(viii) In Column 4, except where purchase is for resale or inventory, specify the ultimate use to which the product manufactured by applicant will be put, in the terms of the following:

Heat pads
Synthetic rubber
Petroleum
Electric batteries
Textiles
Lumber
Paint
Wood pulp
Pharmaceuticals
Pyrotechnics
Ceramics
Glazes
Porcelain enamel
Soot remover
Paper
Glass
Water
Other (specify)

Applicant will also specify in each case whether his customer is Army, Navy, other government agency, Lend-Lease or commercial customer and, where purchase is by government agency, will also indicate specification number, if any.

(2) Each supplier requiring authorization to make delivery of any copper chemical during any quarter shall file application therefor on or before the 10th day of the last month of the quarter preceding the quarter to which the application relates, except that applications for deliveries in the second quarter of 1943 may be filed on or before March 20, 1943. The application shall be made on Form WPB–2946 (formerly PD–601) in the manner prescribed therein, subject to the following special instructions:

(i) Copies of Form WPB–2946 (formerly PD–601) may be obtained at the local offices of the War Production Board.

(ii) Four copies shall be prepared of which three shall be sent to the War Production Board, Chemicals Division, Washington 25, D. C., Ref: M–227, the fourth copy to be retained for supplier's files. At least one of the three copies filed with War Production Board will be signed by the supplier by a duly authorized official.

(iii) Each supplier who has filed application on Form WPB–2945 (formerly PD–600) specifying himself as his supplier, shall list his own name as a customer on Form WPB–2946 (formerly PD–601) and shall list his request for allocation in the manner prescribed for other customers.

(iv) In the heading, under "Name of chemical", specify "Copper chemicals"; under "WPB Order No.", specify "M–227"; under "Name of company", state name and mailing address; under "Indicate unit of measure", specify "pounds"; and state the quarter and year during which deliveries covered by your application are to be made.

(v) In Column 1 insert names of customers for the delivery to whom it is necessary to obtain specific authorization, except as provided in the next two subparagraphs. If it is necessary to use more than one sheet to list customers, number each sheet in order and show grand totals for all sheets on the last sheet, which is the only one that need be certified.

(vi) Names of customers to whom supplier proposes to make small order deliveries during the next quarter pursuant to paragraph (c) (1) of this order need not be listed, but supplier shall insert in Column 1 "Total proposed small order deliveries" and in Column 4 shall state the quantity.

(vii) Names of customers to whom deliveries are to be made by a distributor during the next quarter pursuant to paragraph (c) (2) for use, or resale for use, for soil treatment or as an insecticide or fungicide or in the manufacture of animal medicinals, need not be listed, but insert in Column 1 "Agricultural deliveries pursuant to paragraph (c) (2)" and in Column 4 state the quantity. Where the deliveries for Agricultural purposes pursuant to paragraph (c) (2) are to be made by a producer (as opposed to a distributor), the names of customers to whom such deliveries are to be made must be listed in Column 1.

(viii) In Columns 3 and 8, specify particular copper chemical, in terms of chemicals listed in paragraph (d) (1) (vi) hereof, and in each case indicate the percentage, by weight, of copper content.

(ix) The supplier may, if he wishes, leave Column 5 blank.

(3) The War Production Board may require each person affected by this order to file such other reports as may be prescribed, and may issue special directions to any such person with respect to preparing and filing Forms WPB–2945 (formerly PD–600) and WPB–2946 (formerly PD–601).

(e) *Restriction on use.* The use of copper chemicals in plating is prohibited in every case where the use of copper products or copper base alloy products in plating is prohibited by paragraph (d) (2) of Conservation Order M–9–c, as amended from time to time.

(f) *Notification of customers.* Each supplier shall notify his regular customers as soon as possible of the requirements of this order, but failure to receive such notice shall not excuse any person from complying with the terms hereof.

(g) *Miscellaneous provisions*—(1) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(2) *Violations.* Any person who wilfully violates any provisions of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Division, Washington 25, D. C., Ref.: M–227.

Issued this 24th day of February 1944.

PART 3293—CHEMICALS[1]

[Supplementary Allocation Order M–326–a as Amended Feb. 24, 1944]

CELLULOSE ESTER SHEETS, RODS, TUBES AND MOLDING POWDER

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of cellulose plastics for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3293.452 *Supplementary Allocation Order M–326–a*—(a) *Definitions.* For the purpose of this order:

(1) "Cellulose plastics" means plasticized cellulose ester flake, as such flake is defined in Allocation Order M–326, in the following forms:

(i) First grade rod and tube (unfabricated) produced by the wet extrusion process, but not including rod and tube produced by extrusion from molding powder.

(ii) First grade cake sheet (unfabricated), not including pieces having an area of less than two square feet, produced as a by-product of normal slicing, polishing or fabricating operations.

(iii) First grade continuous sheeting (unfabricated), not including butt rolls having less than 1 inch of material on the core, and not including trim rolls less than four inches in width, produced as a by-product of normal slitting or trimming operations.

(iv) Until April 1, 1944, molding powder, but not including scrap resulting from molding or fabrication of cellulose plastics.[2]

(2) "Plastics supplier" means any person who produces cellulose plastics, or who purchases cellulose plastics for resale as cellulose plastics.

(b) *Restrictions on use and delivery.* (1) No plastics supplier shall use or deliver cellulose plastics without (i) the specific authorization in writing of the War Production Board to make the particular delivery, or (ii) general authorization to deliver specific amounts against orders for aircraft glazing sheet, or against emergency orders based on government contracts with the Armed Services supported by a written or telegraphic certification from the Armed Service involved, stating that an emergency exists. Application by a supplier for authorization to deliver shall be made pursuant to paragraph (f).

(2) Applications and allocations under this supplementary order will be made monthly, and shall be construed to refer to the month when the materials for the production of cellulose plastics are to be put in process, rather than to the month of actual delivery, except when deliveries are to be made from existing stocks. The provisions printed in the WPB 2947 (formerly PD–602) forms for automatic termination of authorizations shall not be applicable to authorized deliveries of cellulose plastics.

(3) Each person furnishing a use certificate pursuant to paragraph (d) with a purchase order for cellulose plastics shall use or dispose of the cellulose plastics delivered on such purchase order, or products made therefrom, only for the purpose specified in such certificate, except as otherwise specifically directed by the War Production Board; provided, however, that any such person may deliver such cellulose plastics to any plastics supplier.

(4) The War Production Board, at its discretion, may from time to time issue special directions to any person with respect to use or delivery of cellulose plastics by such person, or of products made from cellulose plastics allocated to such person, and may issue special directions to any plastics supplier with respect to the kind and quantity of cellulose plastics which he may produce or manufacture.

(c) *Inventory restriction.* No person shall accept delivery of cellulose plastics on orders placed after June 8, 1943 (irrespective of authorization to his plastics supplier to make such delivery), if his inventory of cellulose plastics of the same or equivalent grade or type is, or by virtue of such acceptance would become, greater than a 60-day supply, having regard to his method and rate of processing and sales.

(d) *Use certificate.* (1) Each person placing, or seeking to place, a purchase order for cellulose plastics with a plastics supplier, shall furnish such plastics supplier with a certificate specifying the end use of such plastics, unless such purchase order is placed or such delivery is accepted pursuant to the provisions of paragraph (e). Such certificate may be placed on or attached to the purchase order and shall be in substantially the following form, signed manually or as provided in Priorities Regulation No. 7:

(End Use Description)

Pursuant to Supplementary Order M–326–a, the undersigned hereby certifies to the seller and to the War Production Board that the cellulose plastics covered by the accompanying purchase order will be used solely for the purposes listed above.

_____ (Name of purchaser)	_____ (Address)
By_____ (Signature and title of duly authorized officer)	_____ (Date)

The above certificate shall constitute a representation to, but shall not be filed with, the War Production Board.

(2) Allocations of cellulose plastics, and of cellulose ester flake to make such plastics, will be based on the essentiality of the end uses stated in the above certificates, and on the accuracy of the end use descriptions. For example, "medical appliances" would not be an acceptable description of end use, whereas "leg splints, Army (contract number)" would be acceptable. The end use description should include the governing military or Lend-Lease contract or specification numbers, if any. Plastics suppliers ordering cellulose plastics from other plastics suppliers for resale may specify as end use "resale, upon specific War Production Board authorization."

(3) In the event that two or more end uses are involved in a single purchase order, the amount of cellulose plastics required for each use shall be listed as a separate item. Each item shall bear an identifying number so that it will be possible for the plastics supplier to advise his customers, by purchase order number and item number, as to the action taken on the plastics supplier's application for authorization to make delivery.

(e) *Small order and experimental exemption.* (1) Any person may order or accept delivery of 100 pounds or less of cellulose plastic molding powder, 50 pounds or less of cellulose plastic sheets, 50 pounds or less of cellulose plastic rods, and 50 pounds or less of cellulose plastic tubes, in the aggregate from all plastics suppliers in any calendar month, without filing a certificate pursuant to paragraph (d), to be used for any purpose not limited by other War Production Board orders (paragraph (j) (2)). Authorization by the War Production Board is required for any plastics supplier to make such small order deliveries, upon application pursuant to paragraph (f) requesting an aggregate quantity of cellulose plastics "for paragraph (e) (1) small orders."

(2) Any plastics supplier may use during any calendar month for any purpose 100 pounds or less of cellulose plastic molding powder, 50 pounds or less of cellulose plastic sheets, 50 pounds or less of cellulose plastic rods, and 50 pounds or less of cellulose plastic tubes, and may use any quantity of cellulose plastics for experimental purposes (not including samples) without specific authorization, notwithstanding the provisions of paragraph (b) (1), but subject to any restrictions on use imposed by other War Production Board orders (paragraph (j) (2)).

(f) *Applications and reports.* (1) Each plastics supplier seeking authorization to deliver cellulose plastics shall file application on Form WPB–2947 (formerly Form PD–602) in the manner prescribed therein, subject to the following instructions for the purpose of this order:

Form WPB–2947 (formerly PD–602). Copies of Form WPB–2947 (formerly PD–602) may be obtained at local field offices of the War Production Board.

Time. Applications on Form WPB–2947 (formerly PD–602) shall be filed in time to ensure that copies will have reached the War Production Board on or before the 10th day of the month preceding the month in which the materials are to be put in process for the production of the cellulose plastics ordered (or the month in which the cellulose plastics are to be delivered, if delivery is to be made from existing stocks).

Number of copies. Four copies shall be prepared, of which one shall be retained by the applicant and three certified copies shall be filed with the War Production Board, Washington, D. C., Reference M–326–a.

Number of sets. Each plastics supplier shall file consolidated sets of Form WPB–2947 (formerly PD–602) applications for his various plants corresponding to his consolidated applications on Form WPB–2945 (formerly PD–600) for cellulose ester flake pursuant to Allocation Order M–326. However, separate applications on Form WPB–2947 (formerly PD–602) shall be made for cellulose plastic sheets, cellulose plastic rods and tubes, and cellulose plastic molding powder.

Heading. Under name of material, specify cellulose plastics; under War Production Board order number, specify M–326–a; specify as grade the particular cellulose plastic referred to in the application, such as cellulose plastic sheets, cellulose plastic rods and tubes, or cellulose plastic molding powder; specify delivery or production month; specify unit of measure as pounds; and otherwise fill in as indicated.

Table I. Fill in as indicated, except for columns 5 and 5a, which may be left blank. Each customer shall be listed who has filed a certificate with the applicant, together with his certified end use description. If the applicant is a producer of cellulose plastics, specify in Column 7 the quantity and grade of cellulose ester flake required to produce the cellulose plastic in question. Request may be made for small order deliveries pursuant to paragraph (e) (1).

Rolling stock requirements. Leave blank columns relating to rolling stock.

Table II. Fill in as indicated. Specify grade as in the heading of the form, without regard to trade names or sales numbers.

(2) Each plastics supplier seeking authorization to use cellulose plastics may apply as follows:

(i) By filing application pursuant to Allocation Order M–326 for cellulose ester flake, stating in such application that such flake is required for certain cellulose plastics (Column 3) for production of specified products for specified end uses (Column 4); or

(ii) By filing application on Form WPB–2947 (formerly PD–602), in the manner provided in Paragraph (f) (1) above, specifying his own name as customer in Column 1, describing the end use of the cellulose plastic in Column 1a and otherwise filling out the form as indicated therein.

It is recommended that the method described in paragraph (f) (2) (i) above be followed where the cellulose plastic for which authorization to use is requested will be manufactured from cellulose ester flake allocated pursuant to Order M–326, and that the method described in paragraph (f) (2) (ii) above be followed with respect to cellulose plastics which are in the plastics supplier's inventory on July 1, 1943, or which are subsequently manufactured from any stock of cellulose ester flake not subject to allocation under Order M–326.

(3) The War Production Board may require each person affected by this order to file such other reports as may be prescribed, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942, and may issue special instructions to any such person with respect to preparing and filing Form WPB–2947 (formerly PD–602) and certificates pursuant to paragraph (c).

(4) *Aircraft glazing sheet.* Purchase orders or releases against purchase orders for aircraft glazing sheet shall not be listed individually on Form WPB–2947. Suppliers shall total the orders and releases for the month for which the application is being filed. Column 1 shall read "Total deliveries against certified orders for aircraft glazing". Column 4 shall show the total quantity.

(5) *Military emergency shipments.* (i) Suppliers may make application on Form WPB–2947 for authorization to expedite shipments against anticipated emergency war orders from the Armed Services or their contractors. Column 1 shall read: "Emergency shipments against government contract". Column 4 shall show the aggregate quantity of the proposed shipments.

(ii) On the first WPB–2947 form filed after the end of the month, suppliers shall report their emergency shipments by listing in the usual manner the customers, end-uses, and quantities. An entry shall be made in Column 7 for each such customer to show that the material was expedited and that shipment was made in the preceding month, as, for example, "Expedited—February".

(iii) In the case of emergency shipments to contractors, suppliers must obtain written or telegraphic certification from the Armed Service involved, stating that an emergency exists. Any unused material in the "emergency pool" at the end of the month shall be returned to inventory.

(g) *Plastics suppliers' intra-company deliveries.* Specific authorization shall not be required for intra-company deliveries of cellulose plastics between subdivisions of a plastics supplier, notwithstanding the provisions of § 944.12 of Priorities Regulation No. 1, as amended.

(h) *Notification of customers.* Each plastics producer is requested to notify his regular customers as soon as possible of the requirements of this order, but failure to receive such notice shall not excuse any person from complying with the terms hereof.

(i) *Special exemption.* The provisions of paragraph (b) (1) shall not apply to cellulose plastics which were in process of manufacture on or before July 1, 1943.

[1] Formerly Part 3263, § 3263.2.

[2] After March 31, 1944, the delivery, acceptance of delivery and use of acetate molding powder, as well as scrap derived from molding, will be governed by Order M–326–b.

(j) *Miscellaneous provisions*—(1) *Applicability of regulations.* Subject to the provisions of paragraph (g), this order and all transactions affected hereby are subject to all applicable provisions of War Production Board regulations, as amended from time to time.

(2) *Effect of other orders.* Nothing contained in this order shall be construed to limit the requirements of any other order of the War Production Board, including but not limited to Allocation Order M–326 (Cellulose Ester Flake), Limitation Order L–233 (Photographic Film and Film Base) and General Preference Order M–154 (Thermoplastics), as amended.

(3) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(4) *Communications.* All reports required to be filed hereunder, and all communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Division, Washington 25, D. C., Ref.: M–326–a.

Issued this 24th day of February 1944.

PART 3293—CHEMICALS

[Allocation Order M–326–b]

CELLULOSE ACETATE AND CELLULOSE ACETATE BUTYRATE MOLDING POWDER

The fulfillment of the requirements for the defense of the United States has created a shortage in the supply of acetate molding powder for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3293.453 *Allocation Order M–326–b*—(a) *Definitions.* For the purpose of this order:

(1) "Acetate molding powder" means both cellulose acetate molding powder and cellulose acetate butyrate molding powder, whether produced from cellulose ester flake, from yarn or staple fibre originating from cellulose ester flake, or from trimmings resulting from the fabrication of sheeting. For the definition of cellulose ester flake and restrictions on its delivery and use, see Allocation Order M–326.

(2) "Scrap" means sprues, runners, nozzle exudations, and excess or rejected molded parts and extrusions. It also means acetate molding powder produced in whole or in part by the reworking of other scrap.

(3) "Supplier" means (i) any person in the business of making acetate molding powder or reworking scrap, (ii) any person who, for the purpose of resale, has acetate molding powder or scrap made or reworked for him under toll agreement, and (iii) any person who purchases for resale acetate molding powder or scrap.

(4) "Toll agreement" means any agreement by which title to material remains vested in a person other than the one processing the material.

(5) "Molder" means any person who manufactures molded parts or extrusions from acetate molding powder or scrap. For convenience, these molded parts and extrusions are sometimes called "acetate molding powder products".

(b) *Restrictions on deliveries.* (1) Except pursuant to authorization in writing from the War Production Board, (i) no supplier shall make any delivery of acetate molding powder or scrap, and (ii) no molder shall make any delivery of acetate molding powder or scrap to any person other than a supplier. This restriction applies also to deliveries from one branch, division or section of a supplier to another branch, division or section of the same supplier unless the receiving unit is engaged in producing acetate molding powder. The restriction does not apply to deliveries on toll agreement which are regulated by paragraph (c) (5).

(2) Application by a supplier or molder for authorization to make deliveries should be made on Form WPB–2945 (formerly PD–601) in accordance with the instructions set forth in Appendix A. Suppliers and molders will be authorized to make deliveries of fixed quantities to specified purchasers. Also, for suppliers, a lump sum quantity will be authorized for deliveries against small orders without the naming of the purchasers. Within this quantity the supplier may without further authorization make deliveries of not more than 100 pounds in any calendar month to any one purchaser[1] against orders received by the supplier and marked "Small Order".

(3) If the War Production Board stamps or writes the word "Defer" in column 7 of a supplier's Form WPB–2946, the supplier shall not produce or deliver any acetate molding powder or scrap to fill any orders described on the lines so marked if this interfers in any way with the production or delivery on time of other authorized orders.

(c) *Restrictions on acceptance of delivery and use.* (1) Except pursuant to authorization in writing, from the War Production Board, (i) no person (including a supplier or molder), shall accept delivery from a supplier of acetate molding powder or scrap, (ii) no person (except a supplier) shall accept delivery of acetate molding powder or scrap from a welder, and (iii) no person shall use acetate molding powder or scrap to make an acetate molding powder product. This restriction does not, however, apply to acceptance of delivery by any person of not exceeding 100 pounds (aggregate of acetate molding powder and scrap) in any calendar month from all suppliers against orders placed with suppliers and marked "Small Order".[1] The restriction also does not apply to acceptance of delivery and use under toll agreement (see paragraph (c) (5) below), or to use of any amounts received by any person under the small order exemption.

(2) Application by a person for authorization to use or accept delivery from a supplier or molder of actetate molding powder or scrap should be made on Form WPB–2945 (formerly Form PD–600) in accordance with the instructions set forth in Appendix B. A molder requesting authorization to use or accept delivery should show on the form the end uses indicated in the certificates received by him under paragraph (d) below.

(3) If the War Production Board stamps or writes the word "Defer" in column 10 of a molder's Form WPB–2945, the molder shall not produce or deliver to his customer the acetate molding powder products described on the lines so marked, if this interfers in any way with the production and delivery on time of other products which the molder is entitled to make and deliver.

(4) Each person receiving acetate molding powder or scrap pursuant to specific authorization of the War Production Board, must use the material (and any scrap resulting from molding the material) solely for the purpose specified in a written authorization, unless and until another written authorization permitting a different use is obtained from the War Production Board. Application for a changed authorization shall be made pursuant to Appendix B.

(5) Any molder specifically authorized to use acetate molding powder or scrap, may furnish the material to another molder for processing pursuant to toll agreement: *Provided*, That he instructs the other molder to use the material for the exact purpose for which the molder making delivery has been authorized to use it. The molder who is to use the material may accept and use it pursuant to instructions without the specific authorization of the War Production Board.

(d) *Restrictions on persons acquiring acetate molding powder products.* (1) Each person placing a purchase order with a molder for acetate molding powder products, shall furnish with his order a certificate specifying the end use of the products ordered. This requirement does not, however, apply where the

[1] In accordance with Interpretation 8 of Priorities Regulation 1, the small order exemption is available to each operating unit of the same company which does its own buying.

end use is apparent to the molder from his own observation and experience. The certificate may be placed on the purchase order and shall be in substantially the following form or in the form prescribed by Priorities Regulation No. 7, signed manually or as provided in that regulation:

(Description of end use)

Pursuant to Allocation Order M–326–b, the undersigned hereby certifies to the seller and to the War Production Board that the product covered by the accompanying purchase order will be used solely for the purposes listed above.

Purchaser

By ---
(Signature and title of duly authorized officer)

Address

Date

(2) If two or more end uses are involved in a single purchase order of acetate molding powder products, the amount of the product required for each different use shall be listed as a separate item in the certificate. Each item shall bear an identifying number so that it will be possible for the molder to advise his customers by purchase order number and item number as to the action taken by the War Production Board on his application for the acetate molding powder or scrap needed to make the product ordered by the customer.

(3) Even where the end use is apparent, the molder must, when the purchase is by or for the account of one of the Armed Services, receive and retain in his files written evidence of that fact and must state the contract number on his application (Form WPB–2945) pursuant to Appendix B.

(4) Each person furnishing a certified description of end use with the purchase order shall use the products delivered on such purchase order only for the purposes specified in the certificate, except as otherwise specifically authorized in writing by the War Production Board. Application for such authorization may be made by letter in triplicate addressed to the War Production Board, Chemicals Bureau, Washington 25, D. C., Reference M–326–b, setting forth the material facts.

(e) *Reports.* Each supplier and each molder shall file such reports as may be required from time to time by the War Production Board subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(f) *Miscellaneous provisions.*—(1) *Applicability of regulations.* This order and all transactions affected hereby are subject to all applicable provisions of the regulations of the War Production Board as amended from time to time.

(2) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(3) *Communications.* All reports required to be filed hereunder and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Bureau, Washington 25, D. C., Reference M–326–b.

(g) *Effective date.* This order shall become effective on April 1, 1944, except that acetate molding powder authorized for delivery under Order M–326–a prior to April 1, 1944, may subsequently be delivered and accepted, and used for the purposes certified by the molder.

Issued this 24th day of February 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

APPENDIX A—INSTRUCTIONS FOR APPLICATIONS FOR AUTHORIZATIONS TO DELIVER

General. Each person seeking authorization to deliver acetate molding powder or scrap, shall file application on Form WPB–2946 (formerly Form PD–601) in the manner prescribed therein subject to the following instructions:

Form WPB–2946 (formerly Form PD–601). Copies may be obtained at local field offices of the War Production Board.

Time of filing. Applications shall be filed in time to insure that copies will have reached the War Production Board on or before the 20th day of the month preceding the month for which allocation is requested.

Number of copies. An original and three copies shall be sent to the War Production Board, Chemicals Bureau, Washington 25, D. C., Reference M–326–b.

Number of sets. Each supplier shall file a separate set of applications for cellulose acetate molding powder and cellulose acetate butyrate molding powder; but each set shall cover all his plants and places of distribution.

Heading. Under "Name of Chemical" specify "Cellulose acetate molding powder" or "Cellulose acetate butyrate molding powder", as the case may be; under "WPB Order Number" specify "M–326–b"; under "This schedule is for deliveries to be made during the month of", specify delivery month; under "Unit of Measure" give pounds; and otherwise fill in as indicated.

Table I. Fill in as indicated, listing customers alphabetically. It is not necessary, however, to list customers to whom small order deliveries will be made pursuant to paragraph (b) (2) of Order M–326–b. Instead, the supplier should state in Column 1 "Total small order deliveries" and should enter in Column 4, as one lump sum, the total quantity proposed to be delivered.

Rolling Stock. Leave blank columns at end of Table I relating to rolling stock requirements.

Table II. In lieu of a listing of each separate grade in Column 8, one listing should ordinarily be made for cellulose acetate molding powder and one for cellulose acetate butyrate molding powder. However, list separately any grade or sub-class such as scrap. Also type in Column 8, the words "Total Small Order Deliveries" and give a figure in Column 9, representing actual deliveries last month.

APPENDIX B—INSTRUCTIONS FOR APPLICATIONS FOR AUTHORIZATIONS TO ACCEPT DELIVERY AND TO USE

General. Each person seeking authorization to accept delivery of acetate molding powder or scrap or to use it, shall file application on Form WPB–2945 (formerly Form PD–600) in the manner described therein, subject to the following instructions:

Form WPB–2945 (formerly Form PD–600). Copies may be obtained at local field offices of the War Production Board.

Time of filing. Applications shall be made in time to insure that copies will have reached the person who is to furnish the material and the War Production Board on or before the 15th day of the month preceding the month for which authorization to use or to accept delivery is sought.

Number of copies. One copy of Form WPB–2945 shall be forwarded by the applicant to the person who is to furnish the material and on this copy Tables II, III, and IV may be left blank. The original and three copies shall be sent to the War Production Board, Chemicals Bureau, Washington 25, D. C., Reference M–326–b. The original shall be completely filled out, but on copies, Tables II and III should be left blank. The original must be signed.

Number of sets. A separate set of WPB–2945 forms shall be submitted for each person on whom orders are placed by each operating unit of the applicant which does its own buying of acetate molding powder. A separate set of forms shall be filed if the applicant is seeking permission to use material (including scrap generated by the applicant) for an end use other than that for which it was originally acquired.

Heading. Under "Name of Chemical" specify "Cellulose Acetate Molding Powder" and/or "Cellulose Acetate Butyrate Molding Powder"; under "WPB Order No.", specify "M–326–b"; under "Unit of Measure", specify "Pounds"; and otherwise fill in as indicated. If the application is for permission to use material (including scrap generated by the applicant) for an end use other than the one for which it was obtained, insert the words "From Inventory" under the heading "Your Supplier's Name".

Table I. Specify in the heading the calendar month for which authorization to use or accept delivery is sought.

Column 1. Specify supplier's grade number of material. If scrap is requested, identify as "Scrap".

Column 2. Specify separately the quantities (in pounds, net) required for each primary product and end use specified in Columns 3 and 4.

Column 3. Describe the product to be produced and identify by giving its function. For example, specify "thread protector for aircraft engines", not merely "thread protector" or "aircraft". If end use is apparent to the product manufacturer (Paragraph (d) (1)) specify e. g., "combs", "buttons"; however, any item for the Armed Services should be so specified; e. g., "combs, Army" and followed with the Army contract number.

Column 4. Opposite each primary product listed in Column 3, specify in Column 4, end use as stated in certified descriptions of use, or in the absence of such certificates, on the basis of the applicant's own observation and experience. Indicate governing military or Land-Lease contract or specification numbers, if any.

Opposite "Resale" or "Inventory" in Column 3, write in Column 4 "subject to further authorization".

Columns 9 and 10. Leave blank.

Table II. Make one listing in Column 11 covering the total of all grades of acetate molding powder. Then specify separately in Column 11 each grade listed in Column 1 of the application.

When reporting scrap state "scrap" in Column 11 and fill in as instructed. If scrap has been shipped to a supplier during the previous month, it should be reported in Table II, naming recipient of the material.

Table III. Fill in Columns 17 and 18 as indicated, and leave Column 19 blank.

Table IV. Leave blank.

Table V. Leave blank.

PART 3293—CHEMICALS[1]

[Allocation Order M-338 as Amended Feb. 24, 1944]

PENICILLIN

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of penicillin for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3293.486[1] *Allocation Order M-338*—(a) *Definitions.* For the purpose of this order:

(1) "Penicillin" means a chemo-therapeutic agent isolated from Penicillium notatum. The term includes penicillin in any medicinal tablet, ampoule or other dosage form as well as crude penicillin in any form.

(2) "Supplier" means any person who produces penicillin, imports penicillin, or purchases penicillin for resale as penicillin, but shall not include any retail pharmacist, hospital or physician.

(b) *Restrictions on delivery and use.* (1) Any supplier must obtain specific written authorization of the War Production Board to use or deliver penicillin, except in the case of (i) deliveries of samples to the Food and Drug Administration, Washington, D. C., and (ii) use by any producer of samples of his own production for making production control and standardization tests solely for potency, sterility, toxicity, pyrogens, moisture and stability. No person shall accept delivery of any penicillin which he knows, or has reason to believe, is delivered in violation of this order.

(2) The War Production Board at its discretion may at any time issue special directions with respect to use, delivery or production of penicillin by any person.

(c) *Applications and reports.* (1) Each supplier seeking authorization to use or deliver penicillin shall file application on Form WPB-2947 (formerly PD-602), as provided in the instructions in Exhibit A annexed hereto. This reporting form has been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(2) Normally the War Production Board will issue its authorizations and directions with respect to use or deliveries of penicillin on Form WPB-2947 and will, so far as practicable, return such form containing its authorization or direction prior to the beginning of the month for which authorization to use or deliver is sought.

(3) In the event that any person shall be unable, for any reason, to use or deliver penicillin in accordance with the authorization or direction of the War Production Board, such person shall immediately give notice to the War Production Board, and shall not, in the absence of further specific authorization or direction from the War Production Board use or dispose of the penicillin.

(4) Each producer shall file an additional report, also on Form WPB-2947 as provided in the instructions in Exhibit B annexed hereto. This report is for the purpose of advising the War Production Board as to the exact distribution which has been made of penicillin produced during the preceding calendar month. This reporting requirement has been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

NOTE: Paragraph (5), formerly (2), redesignated Feb. 24, 1944.

(5) The War Production Board may require each person affected by this order to file such other reports as may be prescribed, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942, and may issue special instructions to any such person with respect to preparing and filing Form WPB-2947 (formerly PD-602).

(d) *Miscellaneous provisions*—(1) *Applicability of regulations.* This order and all transactions affected hereby are subject to all applicable War Production Board regulations, as amended from time to time.

(2) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Communications to War Production Board.* All reports required to be filed hereunder and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Division, Washington, D. C., Ref.: M-338.

Issued this 24th day of February 1944.

INSTRUCTIONS TO SUPPLIERS FOR PREPARING AND FILING APPLICATIONS

Form WPB 2947 (formerly PD-602). Copies of Form WPB 2947 (formerly PD-602) may be obtained at local field offices of the War Production Board.

Time. Applications on Form WPB-2947 (formerly PD-602) shall be filed in time to ensure that copies will have reached the War Production Board on or before the 25th day of the month preceding the month for which authorization to use or deliver is requested.

Number of copies. Four copies shall be prepared, of which one shall be retained by the applicant supplier and three copies (one certified) shall be filed with the War Production Board, Chemicals Division, Washington, D. C., Ref.: M-338.

Number of sets. If a supplier requires authorization for delivery or use of both crude penicillin and penicillin in dosage forms, a separate set of applications shall be filed for each.

Heading. Under name of material specify either "crude penicillin in any form" or "penicillin in dosage forms", as the case may be; under War Production Board order number, specify "M-338"; leave grade space blank; specify the month and year for which delivery or use is sought; specify the unit of measure as "Oxford Units"; and otherwise fill in as indicated.

Table I. List each customer in Column 1. In the case of Army, Navy, Maritime Commission, War Shipping Administration, Lend-Lease or export purchase orders, specify in Column 1a the contract or export license number. In the case of other purchase orders, specify briefly in Column 1a whether the customer requires the penicillin for research, resale, or treatment, and, if for treatment, specify the condition to be treated and the urgency of the case. Fill in other columns as indicated.

Leave blank columns relating to rolling stock.

Table II. Fill in as indicated, leaving Column 8 blank.

EXHIBIT B

NOTE: Exhibit B added February 24, 1944.

INSTRUCTIONS TO SUPPLIERS FOR PREPARING AND FILING MONTH-END REPORTS AS TO ACTUAL DISTRIBUTION

Time. The month-end delivery report on Form WPB-2947 shall be forwarded to the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M-338, in time to reach the War Production Board not later than the 5th day of the month succeeding the month for which the report is made.

Number of copies. Only a single copy, properly signed, need be filed with the War Production Board, but the supplier should retain a duplicate copy.

Number of sets. If a supplier produces or delivers both crude penicillin and penicillin in dosage forms in any month, a separate report shall be filed for each.

Heading. The same information shall be given as specified in Appendix A with respect to the heading of the form filed for authorization to use or deliver except that under the heading "This schedule is for deliveries to be made during the month/quarter ending ---------- 19 ", strike out the words "to be" and "quarter" and specify the month and year for which the report is made.

Table I. Change the heading of column 4 to read "quantity delivered". In column 1, list each customer, (including the supplier, with respect to any penicillin which the War Production Board has specifically authorized him to retain or use) to whom deliveries were made during the month covered by the report and in column 4 indicate the quantity actually delivered to each such customer. No listing need be given for deliveries made to the Food and Drug Administration or for quantities used by the supplier for making production control and standardization tests as permitted by paragraph (b) (1) of this order. In all other respects Table I may be left blank.

Table II. This table may be left blank.

Schedule A.

SECTION 1. *Scope of this regulation*—(a) *Rooms in hotels and rooming houses and Defense-Rental Areas to which this regulation applies.* This regulation applies to all rooms in hotels and rooming houses within each of the defense-rental areas and each of the portions of a defense-rental area (each of which is referred to hereinafter in this regulation as the "Defense-Rental Area"), which are listed in Schedule A of this regulation, except as provided in paragraph (b) of this section.

In Schedule A, "the maximum rent date" and "the effective date of regulation" is given for each Defense-Rental Area listed. More than one effective date is given for different portions of a Defense-Rental Area where the same effective date is not applicable to the entire Defense-Rental Area. Wherever the words "the maximum rent date" or the words "the effective date of regulation" are referred to in this regulation, the dates given in Schedule A for the particular Defense-Rental Area or portion of the Defense-Rental Area in which the room is located shall apply. The effective date listed in Schedule A in each instance is the date rent regulation was effective in the particular Defense-Rental Area or portion of the Defense-Rental Area for rooms in hotels and rooming houses.

(b) *Housing to which this regulation does not apply.* This regulation does not apply to the following:

(1) *Farming tenants.* Rooms situated on a farm and occupied by a tenant who is engaged for a substantial portion of his time in farming operations thereon.

(2) *Service employees.* Rooms occupied by domestic servants, caretakers, managers, or other employees to whom the rooms are provided as part of their compensation and who are employed for the purpose of rendering services in connection with the premises of which the rooms are a part.

(3) *Charitable or educational institutions.* Rooms in hospitals, or rooms of charitable or educational institutions used in carrying out their charitable or educational purposes.

(4) *Entire structures used as hotels or rooming houses.* Entire structures or premises used as hotels or rooming houses, as distinguished from the rooms within such hotels or rooming houses.

(5) *Resort rooms.* Rooms located in a resort community and customarily rented or occupied on a seasonal basis, which were not rented during any portion of the period beginning on November 1, 1943 and ending on February 29, 1944.

The exemption provided by this paragraph (b) (5) shall be effective only from June 1, 1944 to September 30, 1944, inclusive.

[Subparagraph (5) as amended by Am. 14, effective 2-24-44]

(c) *Effect of this regulation on leases and other rental agreements.* The provisions of any lease or other rental agreement shall remain in force pursuant to the terms thereof, except insofar as those provisions are inconsistent with this regulation.

(d) *Waiver of benefit void.* An agreement by the tenant to waive the benefit of any provision of this regulation is void. A tenant shall not be entitled by reason of this regulation to refuse to pay or to recover any portion of any rents due or paid for use or occupancy prior to the effective date of regulation.

(e) *Election by landlord to bring housing under this regulation.* Where a building or establishment which does not come within the definitions of a hotel or rooming house contains one or more furnished rooms or other furnished housing accommodations rented on a daily, weekly, or monthly basis, the landlord may, with the consent of the Administrator, elect to bring all housing accommodations within such building or establishment under the control of this regulation. A landlord who so elects shall file a registration statement under this regulation for all such housing accommodations, accompanied by a written request to the Administrator to consent to such election.

If the Administrator finds that the provisions of this regulation establishing maximum rents are better adapted to the rental practices for such building or establishment than the provisions of the Rent Regulation for Housing, he shall consent to the landlord's election. Upon such consent, all housing accommodations within such building or establishment which are or hereafter may be rented or offered for rent shall become subject to the provisions of this regulation, and shall be considered rooms within a rooming house for the purposes of the provisions relating to eviction.

The landlord may at any time, with the consent of the Administrator, revoke his election, and thereby bring under the control of the Rent Regulation for Housing all housing accommodations previously brought under this regulation by such election. He shall make such revocation by filing a registration statement or statements under the Rent Regulation for Housing, including in such registration statement or statements all housing accommodations brought under this regulation by such election. Such registration statement or statements shall be accompanied by a written request to the Administrator to consent to such revocation. The Administrator may defer action on such request if he has taken or is about to take action to decrease the maximum rents of any housing accommodations within such building or establishment. If the Administrator finds that the revocation so requested will not result in substantial increases in the maximum rents of housing accommodations affected by such revocation, he shall give such consent. Upon such consent, all housing accommodations affected by such revocation shall become subject to the provisions of the Rent Regulation for Housing.

SEC. 2. *Prohibition*—(a) *Prohibition against higher than maximum rents.*

Regardless of any contract, agreement, lease or other obligation heretofore or hereafter entered into, no person shall demand or receive any rent for use or occupancy on and after the effective date of regulation of any room in a hotel or rooming house within the Defense-Rental Area higher than the maximum rents provided by this regulation; and no person shall offer, solicit, attempt, or agree to do any of the foregoing. Lower rents than those provided by this regulation may be demanded or received.

(b) *Terms of occupancy*—(1) *Tenant not required to change term of occupancy.* No tenant shall be required to change his term of occupancy.

(2) *Term of occupancy during June 1942.* Where, during June 1942, a room was rented or offered for rent for a weekly or monthly term of occupancy, the landlord shall continue to offer the room for rent for that term of occupancy except that he is not required to rent for that term more than the greatest number of rooms which were rented for the term at any one time during June 1942. However, if, during the year ending on June 30, 1942, a landlord had regular and definite seasonal practices with reference to the renting of rooms on a weekly or monthly basis, he may request the Administrator to approve such practices. When approval is given the landlord shall offer rooms for rent for weekly and monthly terms of occupancy pursuant to the practices so approved. The Administrator may withdraw approval at any time if he finds that the landlord has failed to conform to such practices, or if he finds that the effects of the approval are inconsistent with the Act or this regulation or are likely to result in the circumvention or evasion thereof.

(3) *Request by tenant to change term of occupancy.* Any tenant on a daily or weekly term of occupancy shall on request be permitted by the landlord to change to a weekly or monthly term unless the landlord is then renting for such term a number of rooms equal to the number which he is required to rent for that term under subparagraph (2). If the room occupied by such tenant was not rented or offered for rent for such term during June 1942, the landlord may transfer the tenant to a room, as similar as possible, which was so rented or offered for rent.

(4) *Monthly term of occupancy in tourist camps, etc.* Where, since October 1, 1942, a room, cabin, or similar accommodations in a tourist camp, cabin camp, auto court or similar establishment has been or is hereafter rented to the same tenant for a continuous period of 60 days or longer on a daily or weekly basis, the landlord shall offer such room, cabin or other accommodations for rent for a monthly term of occupancy, regardless of the provisions of subparagraph (2) of this paragraph. The room, cabin or other accommodations shall be offered for rent on a monthly basis for each number of occupants for which it is offered by the landlord for any other term of occupancy. Any tenant of such room, cabin or other accommodations on a daily or weekly basis shall on request be permitted by the landlord to change to a monthly term of occupancy.

Notwithstanding the provisions of section 4 (c) of this regulation, if no maximum rent is established for such room, cabin or other accommodations for a monthly term of occupancy or for a particular number of occupants for such term, the Administrator on his own initiative may enter an order fixing the maximum rent for that term and number of occupants and specifying the minimum services. This maximum rent shall be fixed on the basis of the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on the maximum rent date.

(5) *Defense-Rental Areas with maximum rent date later than March 1, 1942.* In Defense-Rental Areas with a maximum rent date later than March 1, 1942, in section 2 (b) (2) the words "June 1943" shall be substituted for the words "June 1942" and the words "June 30, 1943" shall be substituted for the words "June 30, 1942"; in section 2 (b) (3) the words "June 1943" shall be substituted for the words "June 1942"; and in section 2 (b) (4) the words "the maximum rent date" shall be substituted for the words "October 1, 1942."

[Subparagraph (5) added by Am. 10, 8 F.R. 16893, effective 12-16-43]

SEC. 3. *Minimum services, furniture, furnishings, and equipment.* Except as set forth in section 5 (b), every landlord shall, as a minimum, provide with a room the same essential services, furniture, furnishings and equipment as those provided on the date or during the thirty-day period determining the maximum rent, and as to other services, furniture, furnishings, and equipment not substantially less than those provided on such date or during such period: *Provided, however,* That where fuel oil is used to supply heat or hot water for a room, and the landlord provided heat or hot water on the date or during the thirty-day period determining the maximum rent, the heat and hot water which the landlord is required to supply shall not be in excess of the amount which he can supply under any statute, regulation or order of the United States or any agency thereof which rations or limits the use of fuel oil.

SEC. 4. *Maximum rents.* This section establishes separate maximum rents for different terms of occupancy (daily, weekly or monthly) and numbers of occupants of a particular room. Maximum rents for rooms in a hotel or rooming house (unless and until changed by the Administrator as provided in section 5) shall be:

(a) *Rented or regularly offered during maximum rent period.* For a room rented or regularly offered for rent during the thirty days ending on the maximum rent date, the highest rent for each term or number of occupants for which the room was rented during that thirty-day period, or, if the room was not rented or was not rented for a particular term or number of occupants during that period, the rent for each term or number of occupants for which it was regularly offered during such period.

(b) *First rented or regularly offered after maximum rent period.* For a room neither rented nor regularly offered for rent during the thirty days ending on the maximum rent date, the highest rent for each term or number of occupants for which the room was rented during the thirty days commencing when it was first offered for rent after the maximum rent date; or, if the room was not rented or was not rented for a particular term or number of occupants during that period, the rent for each term or number of occupants for which it was regularly offered during such period.

(c) *First rent after maximum rent date where no maximum rent established under* (a) or (b). For a room rented for a particular term or number of occupants for which no maximum rent is established under paragraphs (a) or (b) of this section the first rent for the room after the maximum rent date for that term and number of occupants, but not more than the maximum rent for similar rooms for the same term and number of occupants in the same hotel or rooming house.

(d) *Rooms constructed and owned by the government.* For a room constructed by the United States or any agency thereof, or by a State of the United States or any of its political subdivisions, or any agency of the State or any of its political subdivisions, and owned by any of the foregoing, the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on the maximum rent date, as determined by the owner of such room: *Provided, however,* That any corporation formed under the laws of a State shall not be considered an agency of the United States within the meaning of this paragraph. The Administrator may order a decrease in the maximum rent as provided in section 5 (c) (1).

(e) *Meals with room.* For a room with which meals were provided during the thirty-day period determining the maximum rent without separate charge therefor, the rent apportioned by the landlord from the total charge for the room and meals. The landlord's apportionment shall be fair and reasonable and shall be reported in the registration statement for such room. The Administrator at any time on his own initiative or on application of the tenant may by order decrease the maximum rent established by such apportionment, if he finds that the apportionment was unfair or unreasonable.

Every landlord who provides meals with accommodations shall make separate charges for the two.

In Defense-Rental Areas with a maximum rent date of March 1, 1942 or earlier, no landlord shall require the taking of meals as a condition of renting any room unless the room was rented or offered for rent on that basis on June 15, 1942. In Defense-Rental Areas with a maximum rent date later than March 1, 1942, no landlord shall require the taking of meals as a condition of renting any room unless the room was rented or offered for rent on that basis on the maximum rent date.

[Above two paragraphs as amended by Am. 10, 8 F.R. 16893, effective 12-16-43]

(f) *Rooms subject to rent schedule of War or Navy Department.* For a room rented to either Army or Navy personnel, including civilian employees of the War and Navy Departments, for which the rent is fixed by the national rent schedule of the War or Navy Department, the rents established by such rent schedule.

[Paragraph (f) as amended by Am. 5, 8 F.R. 12795, effective 9-20-43]

SEC. 5. *Adjustments and other determinations.* In the circumstances enumerated in this section, the Administrator may issue an order changing the maximum rents otherwise allowable or the minimum services required. Except in cases under paragraphs (a) (7) and (c) (4) of this section, every adjustment of a maximum rent shall be on the basis of the rent which the Administrator finds was generally prevailing in the Defense-Rental Area for comparable housing accommodations on the maximum rent date: *Provided, however,* That no maximum rent shall be increased because of a major capital improvement or an increase in services, furniture, furnishings or equipment, by more than the amount which the Administrator finds would have been on the maximum rent date the difference in the rental value of the accommodations by reason of such improvement or increase: *And provided, further,* That no adjustment shall be ordered because of a major capital improvement, an increase or decrease in services, furniture, furnishings, or equipment, or a deterioration, where it appears that the rent during the thirty-day period determining the maximum rent was fixed in contemplation of and so as to reflect such change. In cases involving construction due consideration shall be given to increased costs of construction, if any, since the maximum rent date. In cases under paragraphs (a) (7) and (c) (4) of this section the adjustment shall be on the basis of the rents which the Administrator finds were generally prevailing in the Defense-Rental Area for comparable housing accommodations during the year ending on the maximum rent date.

(a) *Grounds for increase of maximum rents.* Any landlord may file a petition for adjustment to increase the maximum rent otherwise allowable, only on the ground that:

(1) *Major capital improvement since maximum rent period.* There has been, since the thirty-day period or the order determining the maximum rent for the room, a substantial change in the room by a major capital improvement as distinguished from ordinary repair, replacement and maintenance.

(2) *Major capital improvement prior to maximum rent date.* There was, on or prior to the maximum rent date, a substantial change in the room by a major capital improvement as distinguished from ordinary repair, replacement and maintenance, and the rent during the thirty-day period ending on the maximum rent date, was fixed by a lease or other rental agreement which was in force at the time of such change.

(3) *Substantial increase in services, furniture, furnishings or equipment.* There has been a substantial increase in the services, furniture, furnishings or equipment provided with the room since the thirty-day period or the order determining its maximum rent.

(4) *Special relationship between landlord and tenant.* The rent during the thirty-day period determining the maximum rent was materially affected by the blood, personal or other special relationship between the landlord and the tenant, or by an allowance or discount to a tenant of a class of persons to whom the landlord regularly offered such an allowance or discount, and as a result was substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on the maximum rent date.

(5) *Lease for term commencing one year or more before maximum rent date.* There was in force on the maximum rent date a written lease, for a term commencing on or prior to the date one year before the maximum rent date, requiring a rent substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on the maximum rent date.

(6) *Varying rents.* The rent during the thirty-day period determining the maximum rent was established by a lease or other rental agreement which provided for a substantially higher rent at other periods during the term of such lease or agreement.

(7) *Seasonal demand.* The rent during the thirty-day period determining the maximum rent for the room was substantially lower than at other times of year by reason of seasonal demand for such room. In such cases the Administrator's order may if he deems it advisable provide for different maximum rents for different periods of the calendar year.

(b) *Decreases in minimum services, furniture, furnishings and equipment*—(1) *Decreases existing on effective date.* If, on the effective date of this regulation, the services provided for a room are less than the minimum services required by section 3, the landlord shall either restore and maintain such minimum services, or, within 30 days (or, within 60 days for rooms within the Los Angeles Defense-Rental Area), after such effective date, file a petition requesting approval of the decreased services. If, on such effective date (or, on December 1, 1942 where the effective date of regulation is prior to that date), the furniture, furnishings or equipment provided with a room are less than the minimum required by section 3, the landlord shall, within 30 days after such date, file a written report showing the decrease in furniture, furnishings or equipment.

(2) *Decreases after effective date.* Except as above provided, the landlord shall, until the room becomes vacant, maintain the minimum services, furniture, furnishings and equipment unless and until he has filed a petition to decrease the services, furniture, furnishings or equipment and an order permitting a decrease has been entered thereon; however, if it is impossible to provide the minimum services, furniture, furnishings or equipment he shall file a petition within 10 days after the change occurs. When the room becomes vacant the landlord may, on renting to a new tenant, decrease the services, furniture, furnishings or equipment below the minimum; within 10 days after so renting the landlord shall file a written report showing such decrease.

(3) *Adjustment in maximum rent for decreases.* The order on any petition under this paragraph may require an appropriate adjustment in the maximum rent; and any maximum rent for which a report is required by this paragraph may be decreased in accordance with the provisions of section 5 (c) (3). If the landlord fails to file the petition or report required by this paragraph within the time specified, or decreases the services, furniture, furnishings or equipment without an order authorizing such decrease where such order is required, the rent received by the landlord for any rental period commencing on or after such decrease or the effective date of regulation (or December 1, 1942 where the effective date of regulation is prior to that date), whichever is the later, shall be received subject to refund to the tenant of any amount in excess of the maximum rent which may later be fixed by any order decreasing the maximum rent on account of such decrease in services, furniture, furnishings, or equipment. In such case, any order decreasing the maximum rent shall be effective to decrease such rent from the beginning of the first rental period after the decrease in services, furniture, furnishings or equipment or after the effective date of regulation (or after December 1, 1942 where the effective date of regulation is prior to that date), whichever is the later. The foregoing provisions and any refund thereunder do not affect any civil or criminal liability provided by the Act for failure to comply with any requirement of this paragraph.

(c) *Grounds for decrease of maximum rent.* The Administrator at any time, on his own initiative or on application of the tenant, may order a decrease of the maximum rent otherwise allowable, only on the grounds that:

(1) *Rent higher than rent generally prevailing.* The maximum rent for the room is higher than the rent generally prevailing in the Defense-Rental Area

for comparable housing accommodations on the maximum rent date.

(2) *Substantial deterioration.* There has been a substantial deterioration of the room other than ordinary wear and tear since the date or order determining its maximum rent.

(3) *Decrease in services, furniture, furnishings or equipment.* There has been a decrease in the minimum services, furniture, furnishings or equipment required by section 3 since the date or order determining the maximum rent.

(4) *Seasonal demand.* The rent on the date determining the maximum rent for the room was substantially higher than at other times of year by reason of seasonal demand for such room. In such cases the Administrator's order may if he deems it advisable provide for different maximum rents for different periods of the calendar year.

(d) *Orders when facts are in dispute, in doubt, or not known.* If the rent on the date determining the maximum rent, or any other fact necessary to the determination of the maximum rent, is in dispute between the landlord and the tenant, or is in doubt, or is not known, the Administrator on petition of the landlord filed within 30 days after the effective date of regulation, or at any time on his own initiative, may enter an order fixing the maximum rent by determining such fact; or if the Administrator is unable to ascertain such fact he shall enter the order on the basis of the rent which he finds was generally prevailing in the Defense-Rental Area for comparable housing accommodations on the maximum rent date.

(e) *Interim orders.* Where a petition is filed by a landlord on one of the grounds set out in paragraph (a) or (d) of this section, or a proceeding is initiated by the Administrator under paragraph (d), the Administrator may enter an interim order increasing or fixing the maximum rent until further order, subject to refund by the landlord to the tenant of any amount received in excess of the maximum rent established by final order in such proceeding. The receipt by the landlord of any rent authorized by such interim order shall constitute an agreement by the landlord with the tenant to refund to the tenant any amount received in excess of the maximum rent established by final order. The landlord shall make such refund either by repayment in cash or, where the tenant remains in occupancy after the effective date of the final order, by deduction from the next installment of rent, or both.

[Paragraph (e) added by Am. 8, 8 F.R. 16032, effective 11-25-43]

SEC. 6. *Removal of tenant—(a) Restrictions on removal of tenant.* So long as the tenant continues to pay the rent to which the landlord is entitled, no tenant of a room within a hotel or rooming house shall be removed from such room, by action to evict or to recover possession, by exclusion from possession, or otherwise, nor shall any person attempt such removal or exclusion from possession, notwithstanding that such tenant has no lease or that his lease or other rental agreement has expired or otherwise terminated unless:

(1) *Tenant's refusal to renew lease.* The tenant, who had a written lease or other written rental agreement, has refused upon demand of the landlord to execute a written extension or renewal thereof for a further term of like duration but not in excess of one year but otherwise on the same terms and conditions as the previous lease or agreement except insofar as such terms and conditions are inconsistent with this regulation; or

(2) *Tenant's refusal of access.* The tenant has unreasonably refused the landlord access to the room for the purpose of inspection or of showing the room to a prospective purchaser, mortgagee or prospective mortgagee, or other person having a legitimate interest therein: *Provided, however,* That such refusal shall not be ground for removal or eviction if such inspection or showing of the room is contrary to the provisions of the tenant's lease or other rental agreement; or

(3) *Violating obligation of tenancy or committing nuisance.* The tenant (i) has violated a substantial obligation of his tenancy, other than an obligation to pay rent, and has continued, or failed to cure such violation after written notice by the landlord that the violation cease or (ii) is committing or permitting a nuisance or is using or permitting a use of the room for an immoral or illegal purpose; or

(4) *Demolition or alteration by landlord.* The landlord seeks in good faith to recover possession for the immediate purpose of demolishing the room or of substantially altering or remodeling it in a manner which cannot practicably be done with the tenant in occupancy and the plans for such alteration or remodeling have been approved by the proper authorities, if such approval is required by local law; or

(5) *Room not offered for rent.* The landlord seeks in good faith not to offer the room for rent. If a tenant has been removed or evicted from a room under this paragraph (a) (5), the landlord shall file a written report on a form provided therefor before renting the room during a period of 6 months after such removal or eviction.

(b) *Administrator's certificate.* No tenant shall be removed or evicted on grounds other than those stated above unless, on petition of the landlord, the Administrator certifies that the landlord may pursue his remedies in accordance with the requirements of the local law. The Administrator shall so certify if the landlord establishes that removals or evictions of the character proposed are not inconsistent with the purposes of the Act or this regulation and would not be likely to result in the circumvention or evasion thereof.

(c) *Notice to Area Rent Office.* At the time of commencing any action to remove or evict a tenant (except an action based on non-payment of a rent not in excess of the maximum rent) the landlord shall give written notice thereof to the Area Rent Office stating the title and number of the case, the court in which it is filed, the name and address of the tenant and the grounds on which eviction is sought.

(d) *Exceptions from section 6.* The provisions of this section do not apply to:

(1) *Subtenants.* A subtenant or other person who occupied under a rental agreement with the tenant where removal or eviction of the subtenant or other such occupant is sought by the landlord of the tenant, unless under the local law there is a tenancy relationship between the landlord and the subtenant or other such occupant.

(2) *Daily or weekly tenants in hotel and daily tenants in rooming house.* A tenant occupying a room within a hotel on a daily or weekly basis; or a tenant occupying on a daily basis a room within a rooming house which has heretofore usually been rented on a daily basis: *Provided,* That the provisions of this section do apply to a tenant on a daily or weekly basis who has requested a weekly or monthly term of occupancy pursuant to section 2 (b) (3) or (4).

(3) *Rooms subject to rent schedule of War or Navy Department.* Rooms rented to either Army or Navy personnel, including civilian employees of the War and Navy Departments, for which the rent is fixed by the national rent schedule of the War or Navy Department.

(4) *One or two occupants.* An occupant of a furnished room or rooms not constituting an apartment, located within the residence occupied by the landlord or his immediate family, where such landlord rents to not more than two occupants within such residence.

(5) *Renting to family in landlord's residence.* A family which on or after August 1, 1943 moves into a furnished room or rooms not constituting an apartment, located within the residence occupied by the landlord or his immediate family, where such landlord does not rent to any person within such residence other than those in the one family.

[Subparagraph (5) added by Am. 2, 8 F.R. 10618, effective 8-1-43]

(e) *Local law.* No provision of this section shall be construed to authorize the removal of a tenant unless such removal is authorized under the local law.

SEC. 7. *Registration and records—(a) Registration statement.* On or before the date specified in Schedule A of this regulation every landlord of a room rented or offered for rent shall file a written statement on the form provided therefor, containing such information as the Administrator shall require, to be known as a registration statement. Any maximum rent established after the effective date of regulation under paragraphs (b) or (c) of section 4 shall be reported either on the first registration statement or on a statement filed within 5 days after such rent is established.

(b) *Posting maximum rents.* Within 45 days after the effective date of regulation (or, on or before May 31, 1943 as to rooms within the Cincinnati Defense-Rental Area), every landlord shall post and thereafter keep posted conspicuously in each room rented or offered for rent a card or sign plainly stating the maximum rent or rents for all terms of occupancy and for all numbers of occupants for which the room is rented or offered for rent. Where the taking of meals by the tenant or prospective tenant is a condition of renting such room, the card or sign shall so state. Should the maximum rent or rents for the room be changed by order of the Administrator the landlord shall alter the card or sign so that it states the changed rent or rents.

The foregoing provisions of this paragraph shall not apply to rooms under section 4 (d). The owner of such rooms shall post a copy of the registration statement in a place where it will be available for inspection by the tenants of such rooms.

(c) *Receipt for amount paid.* No payment of rent need be made unless the landlord tenders a receipt for the amount to be paid.

(d) *Rooms subject to rent schedule of War or Navy Department.* The provisions of this section shall not apply to rooms rented to either Army or Navy personnel, including civilian employees of the War and Navy Departments for which the rent is fixed by the national rent schedule of the War or Navy Department.

(e) *Records—(1) Existing records.* Every landlord of a room rented or offered for rent shall preserve, and make available for examination by the Administrator, all his existing records showing or relating to (i) the rent for each term and number of occupants for which such room was rented or regularly offered for rent during the thirty-day period determining the maximum rent for such room, (ii) the rent on any date determining a maximum rent for such room for a particular term and number of occupants under section 4 (c), (iii) rooms rented and offered for rent on a weekly and monthly basis during June 1942, in Defense-Rental Areas with a maximum rent date of March 1, 1942 or earlier, and (iv) rooms rented and offered for rent on a weekly and monthly basis during June 1943, in Defense-Rental Areas with a maximum rent date later than March 1, 1942.

[Subparagraph (1) as amended by Am. 10, 8 F.R. 16893, effective 12-16-43]

(2) *Record keeping.* On and after the effective date of regulation (or on and after October 19, 1942 where the effective date of regulation is prior to that date), every landlord of an establishment containing more than 20 rooms rented or offered for rent shall keep, preserve, and make available for examination by the Administrator, records showing the rents received for each room, the particular term and number of occupants for which such rents were charged, and the name and permanent address of each occupant; every other landlord shall keep, preserve, and make available for examination by the Administrator, records of the same kind as he has customarily kept relating to the rents received for rooms.

SEC. 8. *Inspection.* Any person who rents or offers for rent or acts as a broker or agent for the rental of a room and any tenant shall permit such inspection of the room by the Administrator as he may from time to time require.

SEC. 9. *Evasion.* The maximum rents and other requirements provided in this regulation shall not be evaded, either directly or indirectly in connection with the renting or leasing or the transfer of a lease of a room, by requiring the tenant to pay or obligate himself for membership or other fees, or by modification of the practices relating to payment of commissions or other charges, or by modification of the services furnished with the room, or otherwise.

SEC. 10. *Enforcement.* Persons violating any provisions of this regulation are subject to criminal penalties, civil enforcement actions, and suits for treble damages as provided for by the Act.

SEC. 11. *Procedure.* All registration statements, reports and notices provided for by this regulation shall be filed with the Area Rent Office. All landlord's petitions and tenant's applications shall be filed with such office in accordance with Revised Procedural Regulation No. 3,[2] (§§ 1300.201 to 1300.253, inclusive).

SEC. 12. *Petitions for amendment.* Persons seeking any amendment of general applicability to any provision of this regulation may file petitions therefor in accordance with Revised Procedural Regulation No. 3 (§§ 1300.201 to 1300.253, inclusive).

SEC. 13. *Definitions.* (a) When used in this regulation the term:

(1) "Act" means the Emergency Price Control Act of 1942.

(2) "Administrator" means the Price Administrator of the Office of Price Administration, or the Rent Director or such other person or persons as the Administrator may appoint or designate to carry out any of the duties delegated to him by the Act.

(3) "Rent Director" means the person designated by the Administrator as director of the Defense-Rental Area or such person or persons as may be designated to carry out any of the duties delegated to the Rent Director by the Administrator.

(4) "Area Rent Office" means the Office of the Rent Director in the Defense-Rental Area.

(5) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(6) "Housing accommodations" means any building structure, or part thereof, or land appurtenant thereto, or any other real or personal property rented or offered for rent for living or dwelling purposes (including houses, apartments, hotels, rooming or boarding house accommodations, and other properties used for living or dwelling purposes), together with all privileges, services, furnishings, furniture, equipment, facilities and improvements connected with the use or occupancy of such property.

(7) "Room" means a room or group of rooms rented or offered for rent as a unit in a hotel or rooming house. The term includes ground rented as space for a trailer.

(8) "Services" includes repairs, decorating, and maintenance, the furnishing of light, heat, hot and cold water, telephone, elevator service, window shades, and storage, kitchen, bath, and laundry facilities and privileges, maid service, linen service, janitor service, the removal of refuse and any other privilege or facility connected with the use or occupancy of a room.

(9) "Landlord" includes an owner, lessor, sublessor, assignee or other person receiving or entitled to receive rent for the use or occupancy of any room, or an agent of any of the foregoing.

(10) "Tenant" includes a subtenant, lessee, sublessee, or other person entitled to the possession or to the use or occupancy of any room.

(11) "Rent" means the consideration, including any bonus, benefit, or gratuity demanded or received for the use or occupancy of a room or for the transfer of a lease of such room.

(12) "Term of occupancy" means occupancy on a daily, weekly, or monthly basis.

(13) "Hotel" means any establishment generally recognized as such in its community, containing more than 50 rooms and used predominantly for transient occupancy.

(14) "Rooming house" means, in addition to its customary usage, a building or portion of a building other than a hotel in which a furnished room or rooms not constituting an apartment are rented on a short time basis of daily, weekly, or monthly occupancy to more than two paying tenants not members of the landlord's immediate family. The term includes boarding houses, dormitories, auto camps, trailers, residence clubs, tourist homes or cabins, and all other establishments of a similar nature.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used in this regulation.

[MRP 201,[4] Amdt. 7]

EXPORTATION FROM VIRGIN ISLANDS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 201 is amended in the following respects:

1. In § 1418.101 paragraphs (c) and (d) are redesignated (d) and (e) respectively, and a new paragraph (c) is added to read as follows:

(c) No person in the Virgin Islands of the United States shall export or transfer for purposes of exportation to a foreign place any such commodity at a price higher than the maximum prices established by this regulation.

2. Section 1418.102 (c) is added to read as follows:

(c) On all sales for export to a foreign place, there may be added to the maximum prices established under paragraph (a) or (b) of this section all costs of shipments actually incurred or to be incurred by the seller. Such costs shall be itemized and separately shown on the seller's invoice. No incurred costs in excess of those permitted by any applicable price regulation or order issued by the Office of Price Administration shall be allowed.

3. Sections 1418.103 (a) (13) and (14) are added to read as follows:

(13) "Export" means to sell, ship, deliver, or transfer a commodity to a buyer in a foreign place regardless of where title passes or where the invoicing is done, and includes all sales, deliveries or transfers in the Virgin Islands of the United States for purposes of exportation to a foreign place.

(14) "Foreign place" means any place outside of the continental United States and the territories and possessions of the United States.

This amendment shall become effective as of February 20, 1944.

PART 1418—TERRITORIES AND POSSESSIONS

[MPR 373,[2] Amdt. 40]

FISH IN HAWAII

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Section 20 (a) is amended to read as follows:

(a) *Maximum prices.* Maximum prices are established on fish caught in the waters of or adjacent to the Territory of Hawaii. The prices established by this section are maximum prices per pound for the whole fish or any portion thereof.

(1) The maximum price for fish sold or delivered on each island specified in Tables A to E inclusive, shall be the maximum price set forth for the fish listed or described in the table applicable to such island. The place where the seller parts with physical possession of the fish shall determine the applicable table except that where a delivered sale is made of fish shipped from one island to another island the maximum price shall be the maximum price set forth for such sale on the island in the table applicable to deliveries on the island of destination. Prices are established in each table: (1) Ex-dock, (2) Delivered retailer, (3) At retail. The maximum prices set forth "delivered retailer" are maximum prices delivered to the retailer's or other purchaser's customary receiving point according to usual trade practice. The maximum prices on sales or deliveries to persons customarily purchasing from wholesalers of fish such as commercial, industrial or institutional users or the Armed Forces of the United States, shall be the prices set forth as "maximum price delivered retailer." If delivery is made at a point other than the customary receiving point of the buyer, the seller shall deduct from the respective maximum price "delivered retailer" the cost of transporting the fish to the buyer's customary receiving point so that the aggregate price paid by the buyer for the fish and the cost of transportation to buyer's customary receiving point shall not exceed the maximum price "delivered retailer".

(2) In the event the fish is sold at or near the dock to be delivered to a wholesaler, at a place other than at or near the dock, the seller may add to the ex-dock maximum price the transportation charges incurred by the seller for such delivery, not to exceed public (contract or common) carrier rates, provided that the transportation charges are separately stated on the invoice.

(3) Where no retail maximum price for a steak or fillet of a particular fish is listed in the applicable table of Tables A to E, inclusive, the maximum price at retail for such unlisted steak or fillet shall be double the "maximum price delivered retailer" listed in the applicable table for the particular fish from which the steak or fillet is derived.

This amendment shall become effective as of February 15, 1944.

[MPR 395,[1] Amdt. 13]

MAXIMUM PRICES IN VIRGIN ISLANDS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 395 is amended in the following respects:

1. Section 1 is amended to read as follows:

SECTION 1. *Prohibition against dealing in commodities above maximum prices*—(a) *Local sales.* On and after May 25, 1943, regardless of any contract, agreement, lease or other obligation or of any price regulation heretofore issued by the Office of Price Administration no person shall sell or deliver and no person in the course of trade or business shall buy or receive in the Virgin Islands of the United States any article listed or described in Article IV at prices higher than the maximum prices set forth in Article IV; and no person shall agree, offer, or attempt to solicit or attempt to do any of the foregoing.

(b) *Export transactions.* On and after February 20, 1944, regardless of any contract, agreement, lease or other obligation or of any price regulation heretofore issued by the Office of Price Administration, no person shall export, or transfer for purposes of exportation to a foreign place any article listed or described in Article IV at prices higher than the maximum prices set forth in Article IV; and no person shall agree, offer, solicit or attempt to do any of the foregoing: *Provided*, That on all sales for export to a foreign place there may be added to the applicable maximum prices established under Article IV all costs of shipment actually incurred or to be incurred by the seller. Such costs shall be itemized and separately shown on the seller's invoice. No incurred costs in excess of those permitted by any applicable price regulation or order issued by the Office of Price Administration shall be allowed.

2. Sections 12 (a) (7) and (8) are added to read as follows:

(7) "Export" means to sell, ship, deliver, or transfer a commodity to a buyer in a foreign place regardless of where title passes or where the invoicing is done and includes all sales, deliveries or transfers in the Virgin Islands of the United States for purposes of exportation to a foreign place.

(8) "Foreign place" means any place outside of the continental United States and the territories and possessions of the United States.

This amendment shall become effective as of February 20, 1944.

POWDERED AND GRANULATED CASTILE SOAP

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Section 4.21 is added to read as follows:

SEC. 4.21 *Powdered and granular castile soap, U. S. P. X*—(a) *Sales by producers.* Notwithstanding any other provision of this General Maximum Price Regulation, the maximum prices for sales of powdered and granular castile soap, meeting the specifications set forth in the tenth revision of the United States Pharmacopoeia, by producers thereof to industrial consumers and governmental agencies shall be the maxium prices set forth below, f. o. b. plant:

	Per pound
Powdered castile soap, U. S. P. X	$0.46
Granular castile soap, U. S. P. X	.41

(b) *Discounts and allowances.* The maximum prices set forth in paragraph (a) above are subject to all differentials, discounts, allowances and trade practices on sales of powdered and granular castile soap, U. S. P. X, in effect by a producer during March 1942.

(c) *Other charges.* The maximum prices established by paragraphs (a) and (b) above shall not be increased by any charges for containers or brokers' fees.

(d) *Geographical applicability.* The provisions of this section 4.21 apply to the 48 states of the United States and the District of Columbia.

This amendment shall become effective March 1, 1944.

ORDER TERMINATING GOVERNMENT POSSESSION

Order revoking Order No. 1888 as to certain companies.

On November 1, 1943, by virtue of the authority vested in me by the President of the United States, I signed Order No. 1888 (8 F.R. 15199), taking possession of anthracite and bituminous coal mines in which I found from the available information that a strike or work stoppage had occurred or was threatened. It now appears, however, that the companies listed in the Appendix attached hereto did not operate any coal mines as of November 1, 1943.

Accordingly, Order No. 1888 is hereby revoked so far as it affects the companies listed in the Appendix attached hereto and made a part hereof.

ABE FORTAS,
Acting Secretary of the Interior.

ORDER REGARDING LEASED SITES

FEBRUARY 18, 1944.

Executive Order No. 4366 of January 14, 1926, which withdrew from settlement and all forms of appropriation certain therein-described public lands in and bordering upon Lake Tsala Apopka in T. 18 S., R. 19 E., and Tps. 18, 19, and 20 S., R. 20 E., Tal. M., Florida, for classification and in aid of legislation, was revoked by Public Land Order 206 of February 3, 1944. The lands covered by the withdrawal order were unsurveyed at that time. The plats of survey of these lands were officially filed in 1929, and anyone having a prior valid right was afforded opportunity to assert the same at that time.

On February 3, 1944, the Secretary of the Interior classified the following-described public lands in the area referred to above for leasing under the Five-Acre Tract Act of June 1, 1938 (52 Stat. 609; 43 U.S.C. 682a), as home, cabin, camp, health, convalescent, recreational, and business sites.

Sec. 22, lot 7.
Total area, 109.17 acres.

Except the SW¼NE¼ sec. 9, T. 19 S., R. 20 E., the tracts described above comprise either islands or shoreland of Lake Tsala Apopka. There are 14 islands, ranging in size from 0.29 to 8.82 acres, and several shoreland areas of 0.88 to 2.65 acres and one containing 21.87 acres.

Lot 1 sec. 33, T. 18 S., R. 20 E., which is shoreland, will be leased in units of approximately 5 acres each, with the long dimension running east and west so that each unit may have access to the lake shore. The SW¼NE¼ sec. 9, T. 19 S., R. 20 E., which is inland and where water frontage is not a consideration, will be leased in rectangular tracts of 5 acres each, described according to the rectangular system of surveys.

The land described in the preceding sentence is in Federal Power Project No. 42, but has been restored to entry subject to section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1063, 1075), as amended August 26, 1935 (49 Stat. 846; 16 U.S.C. 818 and Sup.), and any applications for tracts in this subdivision will be subject to the provisions and reservations of that section of the Federal Power Act, as amended. The same land also is in Phosphate Reserve No. 5, created by Executive order of July 29, 1910. However, all leases granted under the Five-acre Tract Act reserve all minerals to the United States.

Each lessee will be required to construct, within a reasonable time after a lease has been granted, substantial improvements of a value not less than $300. Leases will be for a period of 5 years at an annual rental of $5.00, payable in advance yearly, except for business sites, the rental for which will be in accordance with a schedule of graduated charges based on earnings.

Beginning at 10:00 a. m. on April 6, 1944, the lands described above will be subject to application for lease under the act of June 1, 1938, supra, based on the above-mentioned classification, by any qualified persons, in accordance with the regulations issued pursuant to the act, which are contained in Circular No. 1470 as amended. Applications under the act should be on the prescribed form. Copies of the circular and application form may be obtained by addressing the Commissioner, General Land Office, Washington, D.C., where all applications must be filed.

Applications may be filed in person, by mail, or otherwise within the period of 20 days prior to April 6, or from March 17 to April 5, 1944, inclusive. All such applications, with those received at 10:00 a. m. on April 6, will be held and treated as though filed at that time. Applications filed after 10:00 a. m. on April 6 will be received and noted in the order of their filing.

WILLIAM AND HENRY SIDENSTUCKER

In re: Real property and claim, owned by William and Henry Sidenstucker.

Vesting Order Number 1412, dated May 6, 1943, is hereby amended to read as follows:

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That the last known address of William Sidenstucker and Henry Sidenstucker is Kreis Worbis, Zwinge, Germany, and that they are residents of Germany and nationals of a designated enemy country (Germany);

2. That William Sidenstucker and Henry Sidenstucker are the owners of the property described in subparagraph 3 hereof;

3. That the property described as follows:

a. Real property situated in the City of Jewell, County of Hamilton, State of Iowa, particularly described as The South six inches of Lot No. Twelve (12) and all of Lot No. Thirteen (13), in Block No. Two (2), Addition to Jewell Junction, Iowa, and Lot No. Eighteen (18), in Block No. Eight (8) King and Edward's Addition to Jewell Junction, Iowa, together with all hereditaments, fixtures, improvements and appurtenances thereto and any and all claims for rents, refunds, benefits or other payments arising from the ownership of such property, and

b. All right, title, interest and claim of any name or nature whatsoever of William Sidenstucker and Henry Sidenstucker, and each of them, in and to any and all obligations, contingent or otherwise, and whether or not matured, owing to them, and each of them, and held to their credit by Sterling Alexander, 713 Des Moines Street, Webster City, Iowa, including but not limited to all security rights in and to any and all collateral for any or all such obligations and the right to enforce and collect such obligations,

is property within the United States owned or controlled by nationals of a designated enemy country (Germany);

And determining that the property described in subparagraph 3–b hereof is necessary for the maintenance or safeguarding of other property (namely, that property described in subparagraph 3–a hereof) belonging to the same nationals of the same designated enemy country and subject to vesting (and in fact vested by this order) pursuant to section 2 of said Executive order;

And further determining that to the extent that such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany);

And having made all determinations and taken all action, after appropriate consultation and certification required by law, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described in subparagraph 3–a hereof, subject to recorded liens, encumbrances and other rights of record held by or for persons who are not nationals of designated enemy countries, and hereby vests in the Alien Property Custodian the property described in subparagraph 3–b hereof, all such property so vested, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest, and for the benefit, of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account, or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall this order be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC–1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on February 15, 1944.

TORAKICHI MASUDA

In re: Real property, property insurance policies, and a claim, owned by Torakichi Masuda.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That the last known address of Torakichi Masuda is Asayamana-mura, Kosasa-gun, Shizuoka-ken, Japan, and that he is a resident of Japan and a national of a designated enemy country (Japan);

2. That Torakichi Masuda is the owner of the property described in subparagraph 8 hereof;

3. That the property described as follows:

a. Real property situated in the City and County of Honolulu, Territory of Hawaii, particularly described in Exhibit A attached hereto and by reference made a part hereof, together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments arising from the ownership of such property,

b. All right, title, and interest of Torakichi Masuda in and to fire insurance policy No. 6052 issued by the California Insurance Company of San Francisco, San Francisco, California, fire insurance policy No. 18097 issued by the Providence Washington Insurance Company, Providence, Rhode Island, and fire insurance policy No. 577775 issued by the Potomac Insurance Company, District of Columbia, all such policies insuring the premises described in subparagraph 3-a hereof, and

c. All right, title, interest and claim of any name or nature whatsoever of Torakichi Masuda in and to any and all obligations, contingent or otherwise and whether or not matured, owing to Torakichi Masuda by the National Mortgage & Finance Co., Ltd., and represented on the books of the National Mortgage & Finance Co., Ltd. as a credit balance due Torakichi Masuda, including but not limited to all security rights in and to any and all collateral for any and all of such obligations and the right to enforce and collect such obligations,

is property within the United States owned or controlled by a national of a designated enemy country (Japan);

And determining that the property described in subparagraphs 3–b and 3–c hereof is necessary for the maintenance or safeguarding of other property (namely, that property described in subparagraph 3–a hereof) belonging to the same national of the same designated enemy country and subject to vesting (and in fact vested by this order) pursuant to section 2 of said Executive order;

And further determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan);

And having made all determinations and taken all action, after appropriate consultation and certification required by law, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described in subparagraph 3–a hereof, subject to recorded liens, encumbrances and other rights of record held by or for persons who are not nationals of designated enemy countries, and hereby vests in the Alien Property Custodian the property described in subparagraphs 3–b and 3–c hereof, all such property so vested to be held, used, administered, liquidated, sold or otherwise dealt with in the interest, and for the benefit, of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account, or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall this order be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC–1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on February 4, 1944.

[SEAL] LEO T. CROWLEY,
Alien Property Custodian.

HERMAN FENKER

In re: Estate of Herman Fenker, also known as Herman Finker and as Herman Fanker, deceased; File D–28–3659; E. T. sec. 5986.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order 9095, as amended, and pursuant to law, the Alien Property Custodian, after investigation,

Finding that—

(1) The property and interests hereinafter described are property which is in the process of administration by Ben H. Brown, Administrator, acting under the judicial supervision of the Superior Court of the State of California, in and for the County of Los Angeles;

(2) Such property and interests are payable or deliverable to, or claimed by, nationals of a designated enemy country, Germany, namely,

Nationals and Last Known Address

August Fenker, Germany.
Fritz Fenker, Germany.

And determining that—

(3) If such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country, Germany; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

All right, title, interest and claim of any kind or character whatsoever of August Fenker and Fritz Fenker, and each of them, in and to the Estate of Herman Fenker, also known as Herman Finker and as Herman Fanker, deceased,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

Dated: February 15, 1944.

JOSEPH SCHALLMAN

In re: Estate of Joseph Schallman, deceased; File D–28–7930; E. T. sec. 8775.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order 9095, as amended, and pursuant to law, the Alien Property Custodian after investigation,

Finding that—

(1) The property and interests hereinafter described are property which is in the process of administration by Louis Schallman, Administrator, acting under the judicial supervision of the First Judicial District Court of the State of Nevada, in and for the County of Churchill;

(2) Such property and interests are payable or deliverable to, or claimed by, a national of a designated enemy country, Germany, namely,

National and Last Known Address

Mrs. Josephine Pirkle, Czechoslovakia.

And determining that—

(3) Mrs. Josephine Pirkle, a citizen or subject of a designated enemy country, Germany, and within an enemy occupied country, Czechoslovakia, is a national of a designated enemy country, Germany:

(4) To the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country, Germany; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

All right, title, interest and claim of any kind or character whatsoever of Mrs. Josephine Pirkle, in and to the estate of Joseph Schallman, deceased,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

ERNEST YORG

In re: Estate of Ernest Yorg, deceased; File D–28–7537; E. T. sec. 7912.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order 9095, as amended, and pursuant to law, the Alien Property Custodian, after investigation,

Finding that—

(1) The property and interests hereinafter described are property which is in the process of administration by The American National Bank of Denver, Executor, acting under the judicial supervision of the County Court of the City and County of Denver, Colorado;

(2) Such property and interests are payable or deliverable to, or claimed by, nationals of a designated enemy country, Germany, namely,

Nationals and Last Known Address

Mrs. Anna Heinze, and her heirs, Germany.
Emma Heinze, Germany.
Surviving children, names unknown, of Mr. Paul Engelfried, deceased, Germany.
Otto Lechner, Germany.
Karl Engelfried and his heirs, Germany.
Heirs, names unknown, of Robert Engelfried, deceased, Germany.
Emma Neumann, and her heirs, Germany.
Bernhardt Yorg, and his heirs, Germany.
Heirs, names unknown, of Albion Yorg, Germany.

And determining that—

(3) If such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country, Germany; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

All right, title, interest and claim of any kind or character whatsoever of Mrs. Anna Heinze, and her heirs, Emma Heinze, surviving children, names unknown, of Mr. Paul Engelfried, deceased, Otto Lechner, Karl Engelfried and his heirs, heirs, names unknown, of Robert Engelfried, deceased, Emma Neumann, and her heirs, Bernhardt Yorg, and his heirs, and heirs, names unknown of Albion Yorg, and each of them, in and to the Estate of Ernest Yorg, deceased,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not

be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

Dated: February 15, 1944.

ADOLPH TEITLEBAUM

In re: Estate of Adolph Teitlebaum, deceased; File D–34–102; E. T. sec. 7117.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order 9095, as amended, and pursuant to law, the Alien Property Custodian after investigation,

Finding that—

(1) The property and interests hereinafter described are property which is in the process of administration by Joseph F. Andrews, Executor, acting under the judicial supervision of the Probate Court of Shelby County, Tennessee;

(2) Such property and interests are payable or deliverable to, or claimed by, nationals of a designated enemy country, Hungary, namely,

Nationals and Last Known Address

Targan Jakab, Hungary.
Blanka Frau Armin Friedman, Hungary.

And determining that—

(3) If such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country, Hungary; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

All right, title, interest, and claim of any kind or character whatsoever of Targan Jakab and Blanka Frau Armin Friedman, and each of them, in and to the estate of Adolph Teitlebaum, deceased,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

And determining that—

(3) Bernardine Isenberg and Mathilde Cussel, citizens or subjects of a designated enemy country, Germany, and within enemy occupied countries, Belgium and France, respectively, are nationals of a designated enemy country, Germany;

(4) To the extent that such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country, Germany; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

All right, title, interest, and claim of any kind or character whatsoever of Bernardine Isenberg and Mathilde Cussel, and each of them, in and to the Estate of Hedwig Adler, deceased,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

Dated: February 15, 1944.

ZDENKO FREUND

In re: Estate of Zdenko Freund, deceased; File D–6–130; E.T. sec. 702.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order 9095, as amended, and pursuant to law, the Alien Property Custodian after investigation,

Finding that—

(1) The property and interests hereinafter described are property which is in the process of administration by Arnost Freund, Administrator, acting under the judicial supervision of the Essex County Orphans' Court, Newark, New Jersey;

(2) Such property and interests are payable or deliverable to, or claimed by, nationals of a designated enemy country, Germany, namely,

Nationals and Last Known Address

Emil Freund, Germany, (Austria).
Otto Freund, Germany, (Austria).
Julius Freund, Germany, (Austria).
Robert Mahler, Germany, (Austria).

And determining that—

(3) If such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country, Germany; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

All right, title, interest and claim of any kind or character whatsoever of Emil Freund, Otto Freund, Julius Freund and Robert Mahler, and each of them, in and to the estate of Zdenko Freund, deceased,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

FRED HEIDRICH, ET AL.

In re: Fred Heidrich, et al. vs. Anna Trieb, et al.; File No. D–28–7954; E. T. sec. 8845.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order 9095, as amended, and pursuant to law, the Alien Property Custodian after investigation,

Finding that—

(1) The property and interests hereinafter described are property which is in the process of administration by John F. O'Toole, 7 South Dearborn Street, Chicago, Illinois, Master in Chancery of the Superior Court of Cook County, Illinois, Depositary, acting under the judicial supervision of the Superior Court of the State of Illinois, in and for the County of Cook;

(2) Such property and interests are payable or deliverable to, or claimed by, a national of a designated enemy country, Germany, namely,

National and Last Known Address

Martha (sometimes known as Marie) Frauenrath, Germany.

And determining that—

(3) If such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country, Germany; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

The sum of $150.67 which is in the possession, and custody of John F. O'Toole, Master in Chancery of the Superior Court of Cook County, Illinois, Depositary, pursuant to order entered October 27th, 1943, by the Superior Court of Cook County, Illinois, in the matter of the partition suit entitled: "Fred Heidrich, et al. vs. Anna Trieb, et al. Case No. 41–S–7175,"

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

FUMI KOJIMA

In re: Estate of Fumi Kojima, deceased; File: D–39–17373; E. T. sec. 9324 H–118.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order 9095, as amended, and pursuant to law, the Alien Property Custodian after investigation,

Finding that—

(1) The property and interests hereinafter described are property which is in the process of administration by Yoshiyuki Yamashita, Administrator, acting under the judicial supervision of the Circuit Court of the First Judicial Circuit, Territory of Hawaii;

(2) Such property and interests are payable or deliverable to, or claimed by, a national of a designated enemy country, Japan, namely,

National and Last Known Address.

Kazuko Kojima, Japan.

And determining that—

(3) If such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country, Japan; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

All right, title, interest and claim of any kind or character whatsoever of Kazuko Kojima in and to the Estate of Fumi Kojima, deceased,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

Dated: February 15, 1944.

JOSEPH KUCHER

In re: Trust under will of Joseph Kucher, deceased; File D–6–153; E. T. sec. 3099.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the Alien Property Custodian after investigation,

Finding that—

(1) The property and interests hereinafter described are property which is in the process of administration by the Chase National Bank of the City of New York, Trustee, acting under the judicial supervision of the Bergen County Orphans' Court of Hackensack, New Jersey;

(2) Such property and interests are payable or deliverable to, or claimed by, an agency or instrumentality of a designated enemy country, Germany, namely,

Landes Kuesurrat, Klagenfurt, Carinthia, Germany (Austria).

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

All right, title, interest and claim of any kind or character whatsoever of Landes Kuesurrat in Klagenfurt, in and to the trust established under the will of Joseph Kucher, deceased,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

In re: Mortgage Participation Certificate for Herman Wehmeyer, #104 of Series 580, issued by the Guaranteed Mortgage Company; File D–28–6465; E. T. sec. 4865.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order 9095, as amended, and pursuant to law, the Alien Property Custodian after investigation,

Finding that—

(1) The property and interests hereinafter described are property which is in the process of administration by Brooklyn Trust Company, as Trustee of Mortgage Participation Certificate for Herman Wehmeyer, #104 of Series 580, issued by the Guaranteed Mortgage Company, acting under the judicial supervision of the Supreme Court of Kings County, New York;

(2) Such property and interests are payable or deliverable to, or claimed by, a national of a designated enemy country, Germany, namely,

National and Last Known Address

Herman Wehmeyer, Germany.

And determining that—

(3) If such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country, Germany; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

All right, title, interest, and claim of any kind or character whatsoever of Herman Wehmeyer in and to income and proceeds of bond and mortgage participation certificate #104 in the amount of $297.60, issued in guarantee series #590 by the Guaranteed Mortgage Company and being serviced by Brooklyn Trust Company of Brooklyn, New York, as Trustee,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

Dated: February 15, 1944.

In re: Estate of Adolf Muller, also called Adolph Muller, deceased; File D–28–4174; E. T. sec. 7244.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order 9095, as amended, and pursuant to law, the Alien Property Custodian after investigation,

Finding that—

(1) The property and interests hereinafter described are property which is in the process of administration by Phil C. Katz, Administrator, acting under the judicial supervision of the Superior Court of the State of California for the City and County of San Francisco;

(2) Such property and interests are payable or deliverable to, or claimed by, nationals of a designated enemy country, Germany, namely,

Nationals and Last Known Address

Emma Newland, Germany.
Anna W. Sattlerel, Germany.
Wilhelm Muller, Germany.

And determining that—

(3) If such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy county, Germany, and;

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

All right, title, interest, and claim of any kind or character whatsoever of Emma Newland, Anna W. Sattlerel, and Wilhelm Muller, and each of them, in and to the Estate of Adolf Muller, also called Adolph Muller, deceased,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

[Supplemental Vesting Order 3178]

IWATA TRADING CO.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Having found in Vesting Order Number 1764, dated July 8, 1943, that Iwata Trading Company is a business enterprise within the United States and a national of a designated enemy country (Japan):

2. Finding that the following persons have claims against Iwata Trading Company in the amounts appearing opposite each name, which claims, as of September 15, 1943, aggregated $575.24, subject, however, to any accruals or deductions subsequent thereto, and represent interests in Iwata Trading Company:

Ichiji Iwata	$ 30.45
Ryuzo Iwata	544.79
Total	$575.24

3. Finding that Ichiji Iwata and Ryuzo Iwata, whose last known addresses are Japan, are nationals of a designated enemy country (Japan);

and determining:

4. That to the extent that such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Japan);

and having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the interests of Ichiji Iwata and Ryuzo Iwata in Iwata Trading Company aggregating $575.24 and represented on the books and records of Iwata Trading Company as accounts payable, hereinbefore more fully described, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts pending further determination of the Alien property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC–1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national," "designated enemy country" and "business enterprise within the United States" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on February 16, 1944.

OFFICE OF DEFENSE TRANSPORTATION.

[Special Order ODT R–7]

THE CENTRAL RAILROAD CO. OF NEW JERSEY

DISCONTINUANCE AND ADJUSTMENT OF CERTAIN PASSENGER SERVICE

Pursuant to Executive Order 8989, as amended, and in order to make available manpower, railway cars, motive power, and other transportation facilities and equipment for the preferential transportation of troops and materials of war, as contemplated by section 6 (8) of the Interstate Commerce Act, as amended; to prevent shortages of manpower and equipment necessary for such transportation; and to expedite the movement of freight traffic, the attainment of which purposes is essential to the successful prosecution of the war, *It is hereby ordered*, That:

1. The Central Railroad Company of New Jersey (Shelton Pitney and Walter P. Gardner, Trustees; hereinafter called "carrier"), in the transportation of passengers between points and places in the State of New Jersey, as a common carrier by railroad, shall

(a) Discontinue the operation of its passenger trains numbered 1129, 1001, 1103, 1105, 1109, 805, 807, 1119, 7401, 205, 813, 421, 829, 433, 7503, 1102, 800, 406, 1106, 812, 416, 418, 1112, 1114, 1002, 1118, 830, 1128, 434, 834, 753, 757, 461, 7017, 7021, 7241, 7211, 7025, 7213, 7031, 7047, 7051, 7237, 7001, 7002, 7022, 7101, 7206, 7026, 7030, 7214, 7107, 7226, 7230, 7054, 3101, 3105, 3311, 5011, 3325, 3107, 3200, 5014, 3102, 3318, 3324, 3313, and 4216;

(b) Discontinue the operation of its passenger trains numbered 413, 419, and 425 between Dunnellen and Raritan, New Jersey;

(c) Discontinue the operation of its passenger trains numbered 823 and 7215 on all days of the week except Saturday;

(d) Discontinue the operation of its passenger trains numbered 825 and 3319 on all Saturdays;

(e) Discontinue the operation of its passenger trains numbered 7311, 7313, 7314, and 7316 between Elizabethport and Chrone, New Jersey;

(f) Discontinue the operation of its passenger train numbered 4203 between Jersey City and Redbank, New Jersey;

(g) Discontinue the operation of its passenger train numbered 3203 between Matawan and Redbank, New Jersey;

(h) Discontinue the operation of its passenger train numbered 4008 between Matawan and Jersey City, New Jersey;

(i) Discontinue the operation of its passenger train numbered 4218 between Redbank and Jersey City, New Jersey, on all days of the week except Saturday;

(j) Discontinue the operation of its passenger train numbered 7603 between Cranford and Raritan, New Jersey; and

(k) Adjust the service afforded by its trains numbered 443, 705, 1003, 611, 709, 107, 615, 1115, 417, 711, 811, 715, 815, 207, 2709, 817, 1121, 723, 827, 429, 727, 431, 833, 702, 120, 402, 404, 200, 408, 202, 712, 714, 7700, 204, 718, 722, 104, 422, 724, 106, 824, 430, 432, 194, 436, 451, 7019, 7055, 7200, 7204, 7028, 3103, 4229, 3100, 4002, and 3308 by rearranging the stops made and the points served in such a manner that reasonable service will be provided for the communities affected by the suspensions to be made pursuant to this order.

2. The passenger trains referred to in this order mean the passenger trains designated by the same numbers in timetable No. 122 issued by the carrier effective May 23, 1943, and time-table No. 317 issued by The New York and Long Branch Railroad Company effective November 14, 1943.

3. The provisions of this order shall be subject to any special permit issued by the Director, Division of Railway Transport, Office of Defense Transportation, to meet specific needs or exceptional circumstances.

4. The carrier forthwith shall file a copy of this order with the appropriate regulatory body or bodies having jurisdiction over any operations affected by this order, and shall likewise file, and publish in accordance with law, and continue in effect until further order, tariffs or supplements to filed tariffs, setting forth any changes in rates, charges, operations, rules, regulations and practices of the carrier which may be necessary to accord with the provisions of this order; and forthwith shall apply to such regulatory body or bodies for special permission for such tariffs or supplements to become effective on one day's notice.

5. Communications concerning this order should be addressed to the Division of Railway Transport, Washington, D. C., and should refer to "Special Order ODT R–7."

This order shall become effective March 12, 1944, and shall remain in full force and effect until the termination of the present war shall have been duly proclaimed, or until such earlier time as the Office of Defense Transportation by further order may designate.

(E.O. 8989, as amended, 6 F.R. 6725 and 8 F.R. 14183)

FEDERAL REGISTER

VOLUME 9 NUMBER 41

Washington, Saturday, February 26, 1944

The President

EXECUTIVE ORDER 9427

ESTABLISHMENT OF THE RETRAINING AND REEMPLOYMENT ADMINISTRATION

By virtue of the authority vested in me by the Constitution and statutes of the United States, particularly the First War Powers Act, 1941, as President of the United States and as Commander in Chief of the Army and Navy, it is hereby ordered as follows:

1. There is hereby established in the Office of War Mobilization a Retraining and Reemployment Administration (hereinafter referred to as the Administration), the functions of which, subject to the general supervision of the Director of War Mobilization, shall be exercised by a Retraining and Reemployment Administrator (hereinafter referred to as the Administrator) to be appointed by the Director of War Mobilization.

2. With the assistance of a Retraining and Reemployment Policy Board, composed of a representative of the Department of Labor, the Federal Security Agency, the War Manpower Commission, the Selective Service System, the Veterans Administration, the Civil Service Commission, the War Department, the Navy Department, and the War Production Board, it shall be the function of the Administration:

(a) To have general supervision and direction of the activities of all Government agencies relating to the retraining and reemployment of persons discharged or released from the armed services or other war work, including all work directly affected by the cessation of hostilities or the reduction of the war program; to issue necessary regulations and directions in connection therewith; and to advise with the appropriate committees of the Congress as to the steps taken or to be taken with respect thereto.

(b) In consultation with the Government agencies concerned, to develop programs for the orderly absorption into other employment of persons discharged or released from the armed service, or other war work, including adequate provisions for vocational training, for the finding of jobs for persons so discharged or released, for assisting those persons and their families pending their absorption into employment, and for dealing with the problems connected with the release of workers from industries not readily convertible to peacetime use. In developing such programs, special regard shall be given to the necessity of integrating them with wartime manpower controls.

(c) In consultation with the Government agencies concerned, to develop programs for the adequate care of persons discharged or released from the armed services, including physical and occupational therapy for the wounded and disabled and the resumption of education interrupted by the war.

3. The Retraining and Reemployment Policy Board shall invite representatives of other Government agencies to participate in its deliberations when matters specially affecting them are under consideration.

4. The functions conferred on the Administration by this order shall be performed through existing Government agencies and officials so far as feasible and in such manner as the Administrator shall determine. The Administration, within the limit of funds which may be made available, may employ necessary personnel and make provision for supplies, facilities, and services necessary to discharge the responsibilities of the Administration.

5. All prior Executive orders, so far as they are in conflict herewith, are amended accordingly.

Chapter XI—War Food Administration (Distribution Orders)

[FDO 15–6]

PART 1401—DAIRY PRODUCTS

CHEDDAR CHEESE

Pursuant to the authority vested in me by Food Distribution Order No. 15 (8 F.R. 1704), issued on February 6, 1943, as amended, and to effectuate the purposes of such order, as amended, it is hereby ordered as follows:

§ 1401.18 *Percentages of Cheddar cheese to be set aside in March and April 1944*—(a) *Definitions.* When used in this order, unless otherwise distinctly expressed or manifestly incompatible with the intent hereof:

(1) Each term defined in Food Distribution Order No. 15, as amended, shall, when used herein, have the same meaning as set forth for such term in Food Distribution Order No. 15, as amended.

(2) The term "FDO 15" means Food Distribution Order No. 15, issued on February 6, 1943, as amended.

(b) *Percentages.* Each person who is required by FDO 15 to set aside Cheddar cheese during March or April 1944 shall set aside in each of the said months, in which he is required to set aside Cheddar cheese, a quantity of Cheddar cheese equal at least to the following percentages of all Cheddar cheese produced by him in the respective months: (1) In March, 45 percent; and (2) in April, 55 percent.

(c) *Effective date.* This order shall become effective at 12:01 a. m., e. w. t., March 1, 1944.

(E.O. 9280, 7 F.R. 10179; E.O. 9322, 8 F.R. 3807; E.O. 9334, 8 F.R. 5423; E.O. 9392, 8 FR. 14783; FDO 15, as amended, 8 F.R. 1704, 5698)

Issued this 22d day of February 1944.

LEE MARSHALL,
Director of Food Distribution.

[FDO 75–2, Amdt. 7]

PART 1410—LIVESTOCK AND MEATS

BEEF REQUIRED TO BE SET ASIDE

Food Distribution Order No. 75–2, § 1410.18, as amended (9 F.R. 1047), is further amended to read as follows:

§ 1410.18 *Beef required to be set aside*—(a) *Definitions.* (1) "Governmental agency" means the Army, Navy, Marine Corps, or Coast Guard of the United States (excluding, for the purposes of this order, United States Army post exchanges, United States Navy ships' service departments, United States Marine Corps post exchanges, and similar organizations), the Office of Distribution, War Food Administration (including but not restricted to the Federal Surplus Commodities Corporation, the War Shipping Administration, and the Veterans Administration.

(2) "Northern Area of Zone 9" includes the following:

(i) Maine, New Hampshire, Vermont, Massachusetts, Connecticut, and Rhode Island;

(ii) All that portion of New York east of and including the counties of Saint Lawrence, Jefferson, Lewis, and Herkimer, and east and southeast of and including the counties of Otsego, Delaware, Sullivan, Orange, Rockland, Westchester, New York, Bronx, Kings, and Richmond;

(iii) All that portion of Pennsylvania east of and including the counties of Tioga, Lycoming, Union, Mifflin, Juniata, Perry, and Franklin.

(iv) New Jersey and Delaware;

(v) All that portion of Maryland east and southeast of and including the counties of Washington, Frederick, Montgomery, Prince Georges, Charles, and Saint Marys; and

(vi) The District of Columbia.

(3) "Set aside meat" means meat of the type and grade required to be set aside, reserved, and held under this order.

(4) "Authorized purchaser" means:

(i) Any person who is under contract to sell or deliver set aside meat, or products prepared in whole or part therefrom, to a governmental agency;

(ii) Any person who has delivered set aside meat, or products prepared in whole or part therefrom, to a governmental agency, and has not replaced the set aside meat so delivered, or contained in the products so delivered, by a purchase of set aside meat under this order;

(iii) Any person who is authorized by the Director to purchase set aside meat.

(5) "Army-style beef" means (i) dressed steer carcasses weighing between 400 and 1,100 pounds, or dressed heifer carcasses weighing between 350 and 650 pounds, and (ii) graded "U. S. Choice", "U. S. Good", "U. S. Commercial", or "U. S. Utility".

(6) Any term not specifically defined herein shall have the meaning ascribed thereto in Food Distribution Order No. 75 (8 F.R. 11119), or Food Distribution Order No. 75–1 (8 F.R. 11327).

(b) *All slaughterers; Army-style beef.* No Class 1 slaughterer, and no Class 2 slaughterer who in any calendar week slaughters 52 or more head of cattle producing Army-style beef, shall deliver meat unless he shall:

(1) Set aside, reserve, and hold for delivery to governmental agencies or persons entitled to purchase set aside meat under a Food Distribution regulation:

(i) 50 percent of the conversion weight of each week's production of beef graded "U. S. Choice", "U. S. Good", and "U. S. Commercial", obtained from steers and heifers whose carcasses meet Army specifications for carcass beef or frozen boneless beef;

(ii) In the form of carcass or frozen boneless beef meeting Army specifications, 50 percent of each week's production of beef graded "U. S. Utility" produced from steers and heifers whose carcasses meet Army weight specifications; and

(iii) In the case of any slaughterer of kosher beef located in the Northern Area of Zone 9, who has registered with the Office of Price Administration as required by paragraph (d) of § 1364.407 of Maximum Price Regulation 169, as amended, the percentage applicable under (b) (1) (i) and (b) (1) (ii) hereof shall be 35 percent for all beef derived from the slaughter of steers and heifers, the forequarters or wholesale kosher cuts of which have been sold or delivered as kosher beef to bona fide buyers of kosher beef.

(2) Bone, in accordance with Army specifications for frozen boneless beef, not less than 80 percent of the beef set aside, reserved, and held in accordance with (b) (1) (i) hereof, and not less than 80 percent of the beef set aside, reserved, and held in accordance with (b) (1) (ii) hereof: *Provided, however,* That the Order Administrator may wholly or partially exempt any slaughterer from this requirement upon a proper showing that said slaughterer (i) does not have adequate facilities for boning, or (ii) does not have, or is unable to obtain, sufficient personnel to bone said beef, or (iii) is unable to comply with this requirement for any reason which appears to the Order Administrator to warrant such exemption.

(c) *Class 1 slaughterers; cutter and canner beef.* No Class 1 slaughterer shall deliver meat unless he shall set aside, reserve, and hold for delivery to governmental agencies or persons entitled to purchase set aside meat under a Food Distribution regulation, 80 percent of the conversion weight of each week's production of beef derived from cutter and canner grade steers, heifers, and cows (Grade D beef).

(d) *Federal inspection.* No Class 2 slaughterer who is subject to (b) hereof shall deliver meat unless he shall apply and qualify under the Meat Inspection Act (21 U.S.C. 71 et seq.) and the regulations applicable thereto, for Federal meat inspection of all Army-style carcasses and beef required to be set aside by him under this order. No Class 2 slaughterer who becomes subject to (b) hereof by virtue of slaughtering, in any calendar week, more than 51 head of cattle producing Army-style beef, and who fails to apply or qualify for Federal inspection as herein provided, shall thereafter slaughter, in any calendar week, more than 51 head of cattle producing Army-style beef.

(e) *Conversion weight.* Conversion weights shall be computed in accordance with (p) of Food Distribution Order No. 75–1, *supra.* The Director may, upon written application, revise any conversion weight factor where it is shown that such factor is working an undue hardship in the preparation of certain products.

(f) *Credits allowed on deliveries.* Subject to the provisions of (g) hereof, any set aside meat delivered to a governmental agency, authorized purchaser, or person entitled to purchase set aside meat under the provisions of a Food Distribution regulation, may be credited against the requirements of (b) hereof for meat of the type and grade so delivered.

(g) *Certificates.* No set aside meat shall be delivered to any authorized purchaser, and no credit shall be allowed for any such delivery unless, within 10 days after delivery, the slaughterer obtains a certificate signed by the authorized purchaser, acknowledging receipt of the meat and containing the following: the name and address of both parties and the date of delivery; the contract number of the contract between the authorized purchaser and the governmental agency; and a statement by the authorized purchaser that the set aside meat so delivered, or an equivalent amount of set aside meat, will be or has been used in the fulfillment of such contract. The slaughterer shall endorse on such certificate the conversion weight of such meat, together with a description permitting conversion in accordance with (p) of Food Distribution Order No. 75–1, *supra.* The slaughterer and the authorized purchaser shall each retain an original of such certificate for delivery to the Director upon request. All statements contained in or accompanying such certificate shall be deemed made to an agency of the United States. No person shall be entitled to rely upon any such certificate if he knows or has reasonable cause to believe it to be false.

(h) *Storage; packaging.* All Army-style beef set aside and reserved under this order shall be stored in such manner as to maintain the quality thereof, and shall be prepared and packaged in accordance with Army specifications.

(i) *Authorized purchasers required to redeliver.* Each authorized purchaser who receives set aside meat under the provisions of this order shall deliver all such meat, or an equivalent amount of set aside meat, to a governmental agency or person entitled to purchase set aside meat under the provisions of a Food Distribution regulation.

(j) *Allocation.* The Director may, by general order or written notice to individual slaughterers, order the allocation of meat set aside under this order to or among specific governmental agencies, authorized purchasers, or persons entitled to purchase set aside meat under a Food Distribution regulation. In the absence of such allocation, slaughterers may, subject to (g) hereof, sell meat so set aside to any such person or agency.

(k) *Existing contracts.* The provisions of this order shall not be construed as reducing the amount of meat which any slaughterer is required to offer or to deliver under any existing contract with a governmental agency, as defined herein, or with the United States Maritime Commission.

(l) *Reports.* Every slaughterer subject to (b) or (c) hereof shall report to the Director concerning his production of and transactions in set aside meat. Such reports shall be made at such times

and upon such forms as the Director may require.

(m) *Bureau of the Budget approval.* The record-keeping and reporting requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This amendment shall become effective at 12:01 a. m., e. w. t., April 1, 1944.

With respect to violations, rights accrued, liabilities incurred, or appeals taken under Food Distribution Order No. 75–2, as amended, prior to the effective date of this amendment, all provisions of Food Distribution Order No. 75–2, as amended, in effect prior to this amendment shall be deemed in full force and effect for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal.

[Gen. Order C–44]

PART 60—FIELD SERVICE DISTRICTS AND OFFICERS

AUTHORITY OF PATROL INSPECTORS, SPECIAL INSPECTORS, NATURALIZATION EXAMINERS, AND OTHER OFFICERS TO ACT AS IMMIGRANT INSPECTORS

FEBRUARY 7, 1944.

Pursuant to the authority conferred by sections 161 and 360 of the Revised Statutes, as amended (5 U.S.C. 22, 311); section 23 of the Act of February 5, 1917 (39 Stat. 892; 8 U.S.C. 102); section 24 of the Act of May 26, 1924 (43 Stat. 166; 8 U.S.C. 222); section 1 of Reorganization Plan No. V (5 F.R. 2223); section 37 (a) of the act of June 28, 1940 (54 Stat. 675; 8 U.S.C. 458); § 90.1, Title 8, Chapter I, Code of Federal Regulations (8 F.R. 8735); and all other authority conferred by law, the following new section is added to Part 60, Title 8, Chapter I, Code of Federal Regulations:

§ 60.27 *Authority of patrol inspectors, special inspectors, naturalization examiners, and other officers to act as immigrant inspectors.* All persons serving under appointment heretofore or hereafter made as patrol inspectors, special inspectors, naturalization examiners, or other officers of the Immigration and Naturalization Service of a higher grade than patrol inspector, special inspector, or naturalization examiner are hereby designated immigrant inspectors without additional compensation. The work as immigrant inspectors shall be arranged by supervisory officers so as not to interfere substantially with the performance of the duties of the other positions.

EARL G. HARRISON,
Commissioner.

Approved:

FRANCIS BIDDLE,
Attorney General.

TITLE 10—ARMY: WAR DEPARTMENT

Chapter I—Aid of Civil Authorities and Public Relations

PART 14—RANGE REGULATIONS FOR FIRING AMMUNITION FOR TRAINING AND TARGET PRACTICE

SAFETY PRECAUTIONS

Section 14.1 (6 F.R. 4470) is hereby amended to read as follows:

§ 14.1 *Safety precautions*—(a) *Safety limits.* Safety limits based upon prescribed danger areas will be determined prior to firing or bombing.

(b) *Trespassing on land ranges.* Before firing or bombing, the danger areas of land ranges will be examined and all persons will be excluded. Livestock will also be excluded unless an agreement has been reached with the owner or owners thereof. Local newspapers will be requested in the interest of safety to publish warnings against trespassing on the range.

(c) *Range guards.* Range guards properly instructed as to their duties will be posted so as to cover all normal approaches to the danger area.

(d) *Warning signals and signs.* (1) Scarlet danger flags and, when necessary, warning signs will be displayed at appropriate points to warn persons approaching a firing or bombing area which is being used.

(2) The scarlet streamer will be displayed from a prominent point on all ranges and at all times during firing or bombing. No firing or bombing will take place unless the scarlet streamer is displayed, and will cease at once in case the streamer is hauled down during firing.

(3) At night red lights may be used in lieu of danger flags, and to supplement the scarlet streamer.

(4) Signs warning persons of the danger from bullets, shells, bombs, and duds will be posted in the vicinity of the firing or bombing area at all times.

(e) *Water ranges.* Prior to firing or bombing over water areas or planting or firing submarine mines in water areas which are used by shipping of any kind, the harbor defense, post, regimental, or similar commander of the firing unit will warn local naval officials and, subject to current instructions regarding secrecy, inform the public of the contemplated firings or submarine mine plantings through one or more of the following agencies: Public press, public radio, Coast Guards or interested public officials. Chapter III—Claims and Accounts

PART 36—CLAIMS AGAINST THE UNITED STATES

CLAIMS FOR LOSS, DAMAGE OR DESTRUCTION OF PROPERTY OR FOR PERSONAL INJURY

Section 36.26 (8 F.R. 8047, 14655) is amended and § 36.27 is added as follows:

§ 36.26 *Claims for damage to or loss or destruction of property or for personal injury or death caused by Army forces in foreign countries*—(a) *Scope.* Claims for damage to or loss or destruction of real or personal property, and for personal injury or death, caused by Army forces, or individual members (whether military personnel or civilian employees) thereof, or otherwise incident to noncombat activities of such forces, in a foreign country to public property located therein or to the privately owned property, or to the persons, of inhabitants of such country are within the foreign claims provisions of the Act of January 2, 1942 (55 Stat. 880; 31 U. S. C. 224d), as amended by act of April 22, 1943 (Public Law 39, 78th Cong.). The word "claims" as used in this section refers to those demands for payment submitted by individuals, partnerships, associations, or corporations, including foreign countries, and states, territories, and other political subdivisions of such countries, other than such demands for payment as arise under ordinary obligations incurred by the War Department or the Army in the procurement of services or supplies.

(b) *Preemptive of other claims provisions.* Claims within the scope of the foreign claims provision and which but for the existence of that provision would be within the provision of §§ 36.12 to 36.23 or § 36.25 will be settled under the foreign claims provisions.

(c) *Territorial application.* The provisions of the regulations in this section are applicable to claims arising in foreign countries, including territorial waters thereof. The fact that a claim arises at a place, within a foreign country, under the temporary or permanent jurisdiction of the United States does not preclude the allowance thereunder of such claims if otherwise within the foreign claims provision.

(d) *Bailed personal property.* Claims for damage to or loss or destruction of personal property loaned, rented, or otherwise bailed to the Government under an agreement, express or implied, are payable under the foreign claims provision unless by express agreement the bailor has assumed the risk of damage, loss or destruction.

(e) *Use and occupancy of real property.* Claims for damage to real property incident to the use and occupancy thereof by the Government under a lease, express or implied, or otherwise, are payable under the foreign claims provision even though legally enforceable against the Government as contract claims.

(f) *Other noncombat activities.* Claims for damage to or loss or destruction of property, or for personal injury or death, though not caused by acts or omissions of military personnel or civilian employees of the War Department or of the Army, are payable under the foreign claims provision if otherwise incident to the noncombat activities of the War Department or of the Army. To illustrate, claims arising from airplane crashes, barrage balloons, vibration or concussion from gunfire, mechanical defects, runaway horses, and explosions.

(g) *Elements of damage in case of personal injury and death.* Actual and reasonable medical and hospital expenses, reasonable compensation for physical pain and suffering, and loss of earning capacity may be paid in cases of personal injury. If death results, actual and reasonable burial expenses and reasonable compensation for loss of prospective support may also be allowed. In computing damages in cases of personal injury or death, local standards will be taken into consideration. In case of death, only one claim arises; the amount awarded therefor will be apportioned among the beneficiaries, and in the proportions, prescribed by the law or custom of the place in which the claim arises.

(h) *Persons excluded as claimants.* The following classes of claimants are among those excluded:

(1) Persons not inhabitants of the country in which the claim arises. The word "inhabitant" as used in these regulations refers only to those who dwell or reside in the country in which the claim arises. Citizenship of, or legal domicile in, such country is not required; transients having no abode or dwelling place in such country are not included. An inhabitant of any dominion, state, province, colony, territory, or possession constituting a part of a foreign country will be deemed an inhabitant of such foreign country within the meaning of the foreign claims provision as to a claim arising in any part of such country.

(2) Military personnel of the United States.

(3) Nationals of a country at war with the United States, or of any ally of such enemy country, except as the foreign claims commission or the local military commander shall determine that the claimant is friendly to the United States.

(4) United States citizens not inhabitants of the country in which the claim arises.

(i) *Claims excluded.* The following classes of claims are among those excluded; claims based solely on compassionate grounds; private contractual and domestic obligations of individual military personnel or civilian employees; bastardy claims; and workmen's compensation claims. No workmen's compensation claim as such is payable under the foreign claims provision. If the claim is within the scope of any provision made for the payment of workmen's compensation claims (United States Employees' Compensation Act of September 7, 1916, as amended, or Longshoremen's and Harbor Workers' Compensation Act of March 4, 1927, as amended, or local law or custom), such specific remedy is exclusive; if, however, there is no compensation provision, or if the claim is not within the scope of any such provision, such claim may be considered under the foreign claims provision.

(j) *Contributory negligence.* No claim will be allowed where the damage, loss, destruction, injury or death is proximately caused in whole or in part by negligence or wrongful act on the part of the claimant, his agent, or employee, unless under the law or custom of the place where the claim arises such negligence or wrongful act is not recognized generally as a bar to recovery on tort claims, in which case such local law or custom will be applied so far as practicable in determining the effect of such negligence or wrongful act.

(k) *Combat activities.* No claim for damage to or loss or destruction of property, or for personal injury or death, resulting from action by the enemy, or resulting directly or indirectly from any act by armed forces engaged in combat, will be allowed.

(l) *Claims of subrogees.* Settlement will be made solely with the insured, rather than with the insurer or with both the insured and the insurer, in cases of damage, loss, destruction, injury, or death covered by insurance. No inquiry will be made into, nor determination made of, the relative interests as between insured and insurer. The entire claim, including any portion thereof insured against, will be filed by or on behalf of the insured and payment of the entire amount allowed will be made in the name of the insured. Evidence of authority to file a claim on behalf of the insured may be established by a power of attorney, insurance policy provision, or other documentary evidence. The foregoing provisions will be equally applicable in cases of subrogation based other than on insurance. Claims by subrogees in their own right are not within the provisions of the act of January 2, 1942, as amended, and will not be considered.

(m) *Claims within provisions of other regulations.* Claims for damage to or loss or destruction of property, or for personal injury or death, arising in foreign countries, but not within the provisions of the act of January 2, 1942, as amended, for the reason that the claimant is not an inhabitant of the country in which the claim arises or for any other reason will be processed under the military claims provision (§§ 36.12 to 36.23), Article of War 105 (§ 36.25), or the personnel claims provision (§ 36.27), if applicable.

(n) *Statute of limitations.* No claim may be considered by a foreign claims commission unless presented within 1 year after the occurrence of the accident or incident out of which such claim arises except that claims arising out of accidents or incidents occurring after 6 December 1941, but prior to 1 May 1943, may be presented at any time prior to 1 May 1944. Any claim not in excess of $1,000 arising out of an accident or incident occurring after 27 May 1941, and prior to 7 December 1941, is barred unless it was presented within 1 year after the date of such accident or incident. Claims, regardless of amount, arising out of accidents or incidents occurring subsequent to 6 December 1941, but prior to 1 May 1943, may be presented at any time prior to 1 May 1944.

(o) *Foreign claims commissions.* It is the policy of the War Department to provide one or more foreign claims commissions for each foreign theater of operations, base, or comparable command in which claims against the Government within the provisions of the act of January 2, 1942, as amended, may arise. A sufficient number of commissions will be appointed to permit the prompt and final settlement of claims within practicable contact with the points where the claims originate. Commissions will be appointed, and the personnel thereof will be changed, by the Secretary of War.

(p) *Procedure*—(1) *§§ 36.1 to 36.10 generally applicable.* Investigation of claims arising in foreign countries, and of accidents and incidents which may give rise to such claims, whether within the foreign claims provision, or apparently within the provisions of other regulations (§§ 36.12 to 36.23, § 36.25 and § 36.27), or the payment of which is not provided for by any statute or regulation, will be conducted in a manner similar to that prescribed in §§ 36.1 to 36.10, and will be of the scope, completeness, and character directed therein to the extent that the exigencies of the service will permit. Any claim will be considered if it states substantially the material facts with such definiteness as to give reasonable notice of the time, place, and nature of the accident or incident out of which the claim arose and an estimate or statement of the damage, loss, destruction, injury, or death resulting. The claim should be signed by or on behalf of the claimant and should, if practicable, be under oath.

(q) *Conditions of payment.* Prior to payment of any claim within the foreign claims provision each of the following conditions must be fulfilled:

(1) The amount of the damage, loss, or destruction, or the amount payable on account of the injury or death, must be determined.

(2) The claim must not exceed $5,000, but claims in excess of that amount may be reported to Congress for consideration.

(3) The claim must be presented within 1 year, except that claims arising after 6 December 1941, but prior to 1 May 1943, may be presented at any time prior to 1 May 1944.

(4) Claims by subrogees will not be recognized except as an element of the subrogor's claim.

(5) Contributory negligence or wrongful act, in whole or in part the proximate cause, bars a claim unless not a bar to recovery on tort claims under local law or custom.

(6) The damage, loss, destruction, injury, or death must not have resulted

from action by the enemy or directly or indirectly from any act by armed forces engaged in combat.

(7) The property lost, damaged, or destroyed must belong to an inhabitant of the foreign country in which the accident or incident occurred, or belong to the country itself or a political subdivision thereof.

(8) The injury or death must be to an inhabitant of the foreign country where the accident or incident occurred.

(9) If the claimant is a national of a country at war with the United States, or of any ally of such enemy country, there must be a determination by the foreign claims commission or by the local military commander that the claimant is friendly to the United States.

(10) The claim must be allowed by a foreign claims commission and, if in excess of $2,500, must be approved by the theater, base, or comparable commander or The Judge Advocate General.

(11) The claimant must accept in writing in full satisfaction and in final settlement the amount approved. (Act of January 2, 1942, 55 Stat 880; 31 U. S. C. Sup. 224d as amended by act of April 22, 1943, Public Law 39, 78th Congress) [AR 25–90 dated 3 July 1943]

§ 36.27 *Claims of personnel for property lost, damaged, destroyed, captured, or abandoned in the service*—(a) *Scope.* Claims of military personnel and of civilian employees of the War Department or of the Army for personal property lost, damaged, destroyed, captured, or abandoned in the service are within the personnel claims provision of the Act of 4 March 1921 (41 Stat. 1436; 31 U.S.C. 218–222) as amended by section 6, act of 3 July 1943 (Public Law 112, 78th Cong.) in the following specified circumstances:

(1) Property lost, damaged, or destroyed when shipped on board an unseaworthy vessel or by order of an officer authorized to give such order or direct such shipment.

(2) Property lost, damaged, or destroyed in consequence of its owner having given his attention to the saving of human life of another who was in danger at the same time and under similar circumstances.

(3) Property lost, damaged, or destroyed in consequence of its owner having given his attention to the saving of property belonging to the United States which was in danger at the same time and under similar circumstances.

(4) Property lost, damaged, or destroyed while the claimant was engaged in authorizing military duties in connection with the disaster in which such loss, damage, or destruction occurred.

(5) Property lost, damaged, or destroyed when, during travel under orders, such property, including the regulation allowance of baggage, is being transferred by a common carrier. Allowance of the claim will be limited to the extent of the loss, damage, or destruction over and above the amount recoverable from the carrier (see paragraph (c) (1)).

(6) Property lost, damaged or destroyed when, during travel under orders, such property, including the regulation allowance of baggage, is being transported otherwise than by common carrier by the proper agent or agency of the Government.

(7) Property destroyed by the enemy.

(8) Property captured by the enemy.

(9) Property destroyed to prevent its falling into the hands of the enemy.

(10) Property abandoned on account of lack of transportation.

(11) Property abandoned by reason of military emergency requiring its abandonment.

(12) Property otherwise lost in the field during campaign.

(b) *Limitations of application*—(1) *Claims of representatives of personnel.* Claims asserted by estates are within the provisions of these regulations only if the property was lost, damaged, destroyed, captured, or abandoned prior to the death of the owner.

(2) *Claims of subrogees.* Subrogation claims will not be recognized under the provisions of these regulations.

(3) *Claims for Government property.* Claims for Government property lost, damaged, destroyed, captured, or abandoned are not within the provisions of the regulations in this section.

(4) *Claims for money.* Claims for money lost, damaged, or destroyed are not within the provisions of these regulations unless the claimant furnishes proof that a high degree of diligence was exercised for the safekeeping thereof.

(5) *Claims within the provisions of other regulations.* Claims for damage to or loss, destruction, capture, or abandonment of property not within the provisions of the regulations in this section should be processed under the military claims provision (§§ 36.12 to 36.23), or the foreign claims provision (§ 36.26), or Article of War 105 (§ 36.25), if applicable.

(c) *Certificates required*—(1) *Demand on common carrier.* Whenever property is lost, damaged, or destroyed in transit in which a common carrier (see paragraph (a) (1), (5) or (6)) is involved, the claimant will make demand in writing, upon the last common carrier known or believed to have handled the shipment, for reimbursement for such loss, damage, or destruction. If more than one bill of lading is issued, a separate demand will be made upon the last common carrier under each bill of lading. Such demand will be made prior to the filing of a claim under the provisions of these regulations and, in any event, within 9 months following the date of delivery of the shipment or, if no portion of the shipment is delivered, the date when delivery would in the normal course have been made. A copy of such demand and of any subsequent demands and related correspondence, as well as the originals of any replies, will be retained for presentation with any claim hereunder (see paragraph (e) (6) of this section). In the event of failure of the common carrier to reply to the claimant's demand within a reasonable time, it will be presumed that such carrier denies liability. The claimant will execute and submit with his claim a statement in substantially the following form:

(2) *Request to quartermaster or supply officer for repairs.* Whenever there is damage to property within the provisions of these regulations (see paragraph (a) (1) to (6) of this section), the claimant will make request in writing to the local quartermaster or supply officer to make any necessary repairs thereto fully to restore the damaged property and to furnish the claimant a statement in writing setting forth whether any or all and (if any) how much of the damage can be or has been so repaired, the extent of damage, and the reasons for noncompliance with such request for repairs. A copy of such request and of any subsequent requests and related correspondence, as well as the originals of any replies, will be retained for presentation with any claim hereunder (see paragraph (e) (8)). The claimant will execute and submit with his claim a statement in substantially the following form:

(3) *Demand on insurer.* Whenever property is lost, damaged, destroyed, captured, or abandoned and the property was insured (see paragraph (a) (1) to (12), inclusive), the claimant will make demand in writing upon the insurer for payment under the terms and conditions of the insurance coverage. Such demand will be made prior to the filing of a claim under the provisions of these regulations. A copy of such demand and of any subsequent demands and related correspondence, as well as the originals of any replies, will be retained for presentation with any claim hereunder (see paragraph (e) (9) of this section). In the event of failure of insurer to reply to the claimant's demand within a reasonable time, it will be presumed that such insurer denies liability. The claimant will execute and submit with his claim a statement in substantially the following form:

(d) *Procedure*—(1) *§§ 36.1 to 36.10 applicable.* So far as applicable, the procedure set forth in §§ 36.1 to 36.10 will be followed as to claims within the provisions of these regulations.

(2) *Form of claim.* Claim will be submitted by presenting a detailed statement in triplicate, and signed and sworn to by the claimant, with his grade, serial number, organization, and address, setting forth so far as possible the following information:

(i) Date and place of the loss, damage, destruction, capture, or abandonment.

(ii) All other pertinent facts and circumstances surrounding the loss, damage, destruction, capture, or abandonment.

(iii) Designation of the subparagraph or subparagraphs of paragraph (a) of this section on which the claim is based, and a reference to the facts bringing the claim within the subparagraph so designated.

(iv) Statement that no fault or negligence on the part of the claimant, his agent, or employee, was in whole or in part the proximate cause of the loss, damage, destruction, capture, or abandonment.

(v) Statement that none of the property has been recovered, if lost, captured, or abandoned property is involved.

(vi) Detailed list of the property lost, damaged, destroyed, captured, or abandoned, setting forth as to each item—

(*a*) Quantity.

(*b*) Description.

(*c*) Cost on purchase or value at time of acquisition if acquired other than by purchase.

(*d*) Approximate date of purchase or other acquisition.

(*e*) Cost of repairs, if reparable.

(*f*) Cost of replacement, if not reparable.

(*g*) Salvage value, if not reparable.

(*h*) Amount of depreciation at time of loss, damage, destruction, capture, or abandonment.

(*i*) Condition (new, excellent, good, fair, poor) when lost, damaged, destroyed, captured, or abandoned.

(*j*) Length of time in use.

(*k*) Value at time of loss, damage, destruction, capture, or abandonment.

(vii) Certificate required by paragraph (c) (2) of this section if damaged property is involved, together with detailed facts in relation to matters covered by certificate to provide full information as to repairs.

(viii) Itemized bill, or estimate, for repairs of any reparable damaged property not repaired by quartermaster or supply officer.

(ix) Certificate required by paragraph (c) (3) of this section, together with detailed facts in relation to matters covered by certificate to provide full information as to insurance.

(x) If the claim is based in whole or in part on subparagraphs (1), (5) or (6) of paragraph (a):

(*a*) Copy of any order authorizing the travel, transportation, or shipment.

(*b*) Statement of the approximate weight of each article for which claim is made.

(*c*) Statement of the number designating the container (box, barrel, crate, etc.) of each article for which claim is made.

(*d*) Statement, in cases where the weight of shipment is in excess of the regulation allowance, showing whether such shipment included any article personal to others than the claimant (such as wearing apparel belonging to members of the claimant's household) and, if so, a list thereof showing the weight of each.

(*e*) Statement, in cases where property was turned over to quartermaster, supply officer, or contract packer, setting forth:

Name and address of quartermaster, supply officer, or contract packer.

Date property was turned over.

Condition when property was turned over.

When and where property was packed.

Date when property was shipped and reshipped.

Copies of all manifests and bills of lading.

Date and place of delivery of property to owner.

Date property was unpacked.

Statement by quartermaster or supply officer as to condition of property when received and delivered, as to handling and storage, as to reasons for and conditions of storage, whether property was handled by local carrier, and whether damage occurred during such handling.

Methods of packing and crating.

Whether there was negligence on the part of any Government employee acting within the scope of his employment.

Whether last common carrier was given clear receipt.

Whether local civilian carrier was given clear receipt.

(*f*) Certificate required by paragraph (c) (1) of this section if a common carrier is involved, together with detailed facts in relation to matters covered by certificate to provide full information as to reimbursement by carrier.

(xi) If the claim is based in whole or in part on paragraph (a) (2), (3) or (4):

(*a*) Statement, supported by facts in detail, that claimant endeavored to or did save human life of another or Government property instead of property in relation to which claim is made, or

(*b*) Statement, supported by facts in detail, that performance of authorized military duties prevented saving property in relation to which claim is made.

(*c*) Brief statement of activities of claimant prior to, during and subsequent to the incident.

(xii) If the claim is based in whole or in part on paragraph (a) (9), (10) or (11):

(*a*) Copy of order, or other available evidence of authorization, directing claimant's entry into area involved.

(*b*) Copy of order, or other available evidence of authorization, directing destruction or abandonment of property.

(xiii) Statements (sworn to, if possible) by claimant's commanding officer, and others, to corroborate claim.

(xiv) In any case where the owner of the property is deceased, evidence of appointment of executor or administrator or, if no such appointment, a statement as to the relationship to the owner of the property of the person presenting the claim.

(xv) Statement that no previous claim has been made by the claimant based on the same accident or incident.

(3) *Filing of claim.* All claims within the provisions of these regulations will be submitted to the commanding officer of the organization to which the claimant belongs or with which he is serving if practicable, otherwise to the commanding officer of any post, camp, station, or other military establishment, if practicable the one nearest to the point where investigation of the facts and circumstances can most conveniently be made. In any case where submission under the foregoing provisions is impracticable, claims may be submitted to the commanding general of any service command, or the commanding officer of any air service command, within the United States, its territories and possessions, or to The Judge Advocate General, Washington 25, D. C.

(e) *Basis of allowance*—(1) *Items allowable.* Claims will be allowed under the provisions of these regulations only if for either:

(i) Personal property, including clothing, equipment, and horses, required by law or regulation to be possessed and used by the claimant, or

(ii) Money and articles of personal property found to be reasonable, useful, necessary and proper, both as to kind and quantity, for the claimant to have in his possession while in quarters, or in the field, engaged in the public service in the line of duty.

(2) *Items not allowable.* Claims will not be allowed under the provisions of these regulations for:

(i) Souvenirs.

(ii) Worn out or unserviceable articles.

[1] Paragraph indicated is same as paragraph (c) (2) of this section.

(iii) Articles not personal to the use of the claimant, such as wearing apparel of members of claimant's household.

(3) *Expensive articles.* Allowance for expensive articles, or those purchased at unreasonably high prices, will be based upon fair and reasonable prices for substitute articles appropriate for the claimant to have in his possession under the particular circumstances of his service.

(4) *Officers' mounts.* Allowance for officers' horses will be the average price paid by the Government for similar animals during the preceding fiscal year.

(5) *Military equipment.* Allowance for military equipment will not exceed the current Government sale price.

(6) *Failure to make demand on common carrier.* In the absence of the evidence required to be furnished by a claimant under paragraph (c) (1) of this section with respect to his claim, if any, against a common carrier, the amount otherwise allowable under the provisions of these regulations will be reduced by the maximum amount recoverable from the carrier had claim therefor been filed seasonably with the carrier.

(7) *Proration in event of excess baggage.* If the shipment, made as a unit under paragraph (a) (1), (5) and (6) is in excess of the regulation allowance of baggage permitted to be shipped at Government expense, the claim will be reduced in the ratio that the damage to the entire shipment bears to the regulation allowance on the basis of weight.

(8) *Failure to make request to quartermaster or supply officer for repairs.* In the absence of the evidence required to be furnished under paragraph (c) (2) of this section with respect to repairs, if there is any damage to property, the amount otherwise allowable under the provisions of these regulations will be reduced by the amount of such damage.

(9) *Failure to make demand on insurer.* In the absence of the evidence required to be furnished by a claimant under paragraph (c) (3) with respect to his claim, if any, against an insurer, the amount otherwise allowable under the provisions of these regulations will be reduced by the maximum amount recoverable from the insurer had claim therefor been filed seasonably with the insurer, provided that the circumstances of the claimant's service were not such as to preclude the seasonable filing of such claim with the insurer.

(10) *Proration of insurance and amount recovered from common carrier.* When the amount recovered or recoverable by the claimant from an insurer or common carrier is less than the total loss, the amount so recovered or recoverable from the insurer or common carrier will be prorated between the amount approved and the amount disallowed for items not reasonable, useful, necessary, and proper, and for items not personal to the claimant's use, but not including amounts disallowed for worn out or unserviceable articles or on account of excessive prices paid therefor. Proration under this subparagraph, in accordance with the foregoing, will be made by The Judge Advocate General on legal review of the claim.

(f) *Transfer of rights against carriers and insurers*—(1) *Common carriers.* By the filing of a claim under the provisions of these regulations the claimant will be deemed to have assigned to the United States all of his right, title, and interest in, to the extent not ultimately allowed under the provisions of these regulations, and to any unsatisfied claim which he may have against any common carrier. See paragraph (c) (1) of this section.

(2) *Insurer.* By the filing of a claim under the provisions of these regulations the claimant will be deemed to have assigned to the United States all of his right, title, and interest in, to the extent not ultimately allowed under the provisions of these regulations, and to any unsatisfied claim which he may have against any insurer. See paragraph (c) (3) of this section.

(g) *Replacement in kind.* (1) The report of the claims officer may be acted upon by the commanding officer of the organization to which the claimant belongs or with which he is serving, or at which he may temporarily be, to the extent of directing the replacement in kind by a local quartermaster or supply officer, from stocks then available, or personal property lost, damaged, destroyed, captured, or abandoned within the provisions of these regulations. The claim will then be processed in accordance with other provisions of these regulations. Such action by the commanding officer in directing replacement in kind will be final.

(2) If replacement in kind is accomplished, a list, in triplicate, of the items so replaced and their cost will be included in the file with the claim. If no replacement in kind is made, the claim will include a statement to that effect.

(h) *Conditions of payment.* Prior to payment of any claim within the provisions of these regulations, each of the following conditions must be fulfilled:

(1) Amount of the damage, or value of the property lost, destroyed, captured, or abandoned, must be determined.

(2) Claim must relate to personal property only.

(3) At least one of the situations listed in paragraph (a) (1) to (12), inclusive, must be present.

(4) Claimant must in applicable cases (see paragraph (c) of this section) make demand upon common carrier and insurer and make request to quartermaster for repairs.

(5) Claim must be presented within 2 years after accrual thereof, except if the claim accrues in time of war or when war intervenes within 2 years after accrual it must be presented within 2 years after peace is established.

(6) Subrogation claims will not be recognized.

(7) Fault or negligence on the part of the owner, in whole or in part the proximate cause, bars a claim.

(8) Claim must be approved, and payment directed, by the Secretary of War or his designee. (41 Stat. 1436; 31 U.S.C. 218–222, as amended by sec. 6, Act of 3 July 1943, Public Law 112, 78th Congress) [AR 25–100 dated 3 July 1943]

Chapter II—Securities and Exchange Commission

PART 250—RULES AND REGULATIONS, PUBLIC UTILITY HOLDING COMPANY ACT OF 1935

EXEMPTIONS

Amendment to rule providing exemptions from section 17 (c) of the act.

Acting pursuant to the Public Utility Holding Company Act of 1935, particularly sections 12 (f), 17 (c) and 20 (a) thereof, and finding that such action is in the public interest and necessary to carry out the provisions of the Act, the Securities and Exchange Commission hereby amends Rule U-70 (a) (7) so that the exemption provided by the same shall expire March 1, 1945, instead of March 1, 1944.

Effective February 24, 1944.

By the Commission.

TITLE 30—MINERAL RESOURCES

Chapter VI—Solid Fuels Administration for War

PART 601—ADMINISTRATIVE; GENERAL

[Order 12]

ESTABLISHMENT AND FUNCTIONS OF DISTRIBUTION COMMITTEES

It is necessary to create a National Advisory Committee on Local Distribution to consult with and make recommendations to the Administrator concerning problems involved in assuring an equitable distribution of solid fuels by retail dealers.

It will also become necessary from time to time to establish Area Advisory Committees on Local Distribution in certain areas. These committees will serve as information centers for users of solid fuels who buy from retail dealers and will be available to assist those consumers who are urgently in need of solid fuels.

The area committees will be authorized to enlist the cooperation of county, municipal and town authorities, and with the approval of the Solid Fuels Administration for War, to establish Community Committees on Emergency Distribution to assist consumers in communities within their areas faced with an actual fuel shortage. This program is designed to supplement the arrangements and regulations under which the Solid Fuels Administration has heretofore utilized the facilities of dealer and community groups in assuring equitable distribution of solid fuels within each community.

Accordingly, in order to effectuate the purposes of Executive Order No. 9332, and by virtue of the authority conferred by that order, the following order is issued by the Solid Fuels Administrator for War:

Sec.
601.51 Establishment and functions of the SFAW National Advisory Committee on Local Distribution.
601.52 Establishment and functions of SFAW Area Advisory Committees on Local Distribution.
601.53 Establishment and functions of SFAW Community Committees on Emergency Distribution.
601.54 Reporting requirements.

AUTHORITY: §§ 601.51 to 601.54, inclusive, issued under E.O. 9332, 8 F.R. 5355; E.O. 9125, 7 F.R. 2719; sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176.

§ 601.51 *Establishment and functions of the SFAW National Advisory Committee on Local Distribution.* A committee designated as the SFAW National Advisory Committee on Local Distribution is hereby created to furnish such information and advice concerning problems involved in assuring an equitable distribution of solid fuels by retail dealers as may be requested from time to time by the Solid Fuels Administrator for War or as the committee believes would help in carrying out the purposes of Executive Order No. 9332. Members of this committee shall serve without compensation.

§ 601.52 *Establishment and functions of SFAW Area Advisory Committees on Local Distribution.* (a) Committees designated as SFAW Area Advisory Committees on Local Distribution shall be established from time to time. The members of these committees shall serve without compensation.

(b) Each SFAW Area Advisory Committee on Local Distribution shall immediately inform the public in the geographic area in which it functions that it has been created and has begun to function pursuant to this order. Each SFAW Area Advisory Committee may, if necessary, establish headquarters at which consumers of solid fuels may receive assistance in securing solid fuels after they have themselves failed, despite diligent effort, to obtain such fuels. The SFAW Area Advisory Committees on Local Distribution shall proceed to enlist the aid of State and local officials and shall cooperate with State and local officials authorized to deal with local solid fuels distribution problems.

(c) Each SFAW Area Advisory Committee on Local Distribution shall arrange to assist any consumer to obtain solid fuels, in limited amounts not exceeding the amounts that such consumers may obtain under applicable regulations of the Solid Fuels Administration for War, if such consumer (i) has less than five days' supply of solid fuels on hand, (ii) has made a reasonably diligent effort to obtain such fuels through normal distribution channels and (iii) is willing to buy any kind of solid fuels which in the judgment of the committee is usable in the burning equipment of the consumer.

(d) No SFAW Area Advisory Committee on Local Distribution is authorized to require any retail dealer to sell solid fuels to any person, nor is any such committee authorized to require any person to buy solid fuels from any retail dealer.

(e) If any SFAW Area Advisory Committee is unable, after investigation, to find any kind of usable fuels for a consumer eligible under paragraph (c) of this section, or after it is satisfied on the basis of its investigation concerning the supply of solid fuels in retail dealer yards in its area and in transit to such yards, that a solid fuels shortage of emergency proportions exists or threatens to develop within its area, it should forthwith report the results of its investigation and its recommendations as to minimum emergency solid fuels requirements of domestic consumers and retail dealers in the area. The Area Distribution Manager or Regional Representative of the nearest office of the Solid Fuels Administration has been designated to handle the reports and recommendations of such committee. After considering the recommendations of the committee the Area Distribution Manager or Regional Representative may arrange for the voluntary shipment of solid fuels into a critical area in the limited amounts necessary to meet minimum emergency heating requirements. If the issuance of directions are necessary to alleviate the shortage, the Area Distribution Manager or Regional Representative shall so report to the Washington Office of the Solid Fuels Administration.

(f) Written plans of cooperation submitted by the governor of any State and approved by the Solid Fuels Administrator for War may continue in effect and this order shall not be applicable in areas in which such State plans are in effect or are hereafter put into effect.

Any State which hereafter submits a plan of cooperation may, after its approval by the Solid Fuels Administration for War, utilize the services of any SFAW Area Advisory Committee on Local Distribution or any SFAW Community Committee on Emergency Distribution which has been established pursuant to this order.

(g) Any SFAW Area Advisory Committee may in accordance with § 601.53 of this order establish SFAW Community Committees on Emergency Distribution to assist it in performing its functions.

§ 601.53 *Establishment and functions of SFAW Community Committees on Emergency Distribution.* (a) Any SFAW Area Advisory Committee on Local Distribution may, with the approval of the Area Distribution Manager or the Regional Representative of the nearest office of the Solid Fuels Administration for War and with the aid, to the extent necessary or appropriate, of the mayor or other chief executive officer of any municipality, county, town or village, establish for a community or group of communities within its area an SFAW Community Committee on Emergency Distribution. The members of an SFAW Community Committee on Emergency Distribution shall serve without compensation.

(b) It shall be the duty of an SFAW Community Committee on Emergency Distribution to assist its SFAW Area Advisory Committee in performing its functions and to advise and assist consumers of solid fuels within the community in the same way and to the same extent as the SFAW Area Advisory Committees on Local Distribution are authorized under this order to advise and assist consumers within their areas.

(c) Upon the establishment of an SFAW Community Committee on Emergency Distribution in accordance with this order functions exercised pursuant to Revised Regulation No. 6 (8 F. R. 15656) and Revised Regulation No. 7 (8 F. R. 15442) by Local ODT Committees shall be performed by Community Committees on Emergency Distribution: *Provided, however,* That a member of a Local ODT Committee may be designated to serve as a member of an SFAW Community Committee on Emergency Distribution.

§ 601.54 *Reporting requirements.* The SFAW Area Advisory Committees on Local Distribution shall report at least once each month to the Solid Fuels Administration for War, Washington 25, D. C., its activities during the preceding month and shall include in such report a list of the SFAW Community Committees on Emergency Distribution established pursuant to this order, the membership of such community committees and the activities of such community committees during the preceding month. A copy of such report should also be sent to the Area Distribution Manager or Regional Representative of the nearest office of the Solid Fuels Administration for War. A list of the Area Distribution Managers, Assistant Area Distribution Managers and Regional Representatives and offices is appended hereto.

This order shall become effective immediately.

Issued this 24th day of February 1944.

Acting Solid Fuels
Administrator for War.

TITLE 32—NATIONAL DEFENSE

Chapter IX—War Production Board

Subchapter B—Executive Vice-Chairman

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–488]

JOHNSON COBERLY

Johnson Coberly of 222 W. Cervantes Street, Pensacola, Florida, began construction of a project on or about June 10, 1943, consisting of altering and remodeling a building located at 209–11 W. Cervantes Street, Pensacola, Florida, at an estimated cost of approximately $5,000 without obtaining authorization from the War Production Board. $1,000 was the maximum amount permitted in the absence of such authorization. Mr. Coberly knew of the War Production Board regulations and filed an application to obtain authorization. Without waiting for approval, Mr. Coberly began construction work on the premises on or about June 10, 1943, and although the application was denied, work continued on the project until July 16, 1943. This construction was in violation of Conservation Order L–41, and Mr. Coberly's conduct was so grossly negligent that it must be deemed wilful. This violation of Conservation Order L–41 has diverted scarce materials and labor to uses not authorized by the War Production Board and has hampered and impeded the war effort of the United States. In view of the foregoing, *It is hereby ordered*, That:

§ 1010.488 *Suspension Order No. S–488.* (a) Neither Johnson Coberly, his successors or assigns, nor any other person, shall order, purchase, accept delivery of, withdraw from inventory, or in any other manner, secure or use material or construction plant in order to continue or complete construction of the premises located at 209–11 W. Cervantes Street, Pensacola, Florida, unless hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Johnson Coberly from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on February 24, 1944.

Issued this 17th day of February 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–489]

J. GRAHAM MILLER

J. Graham Miller is an architect of Pensacola, Florida, who was employed to prepare plans and specifications, and to act as owner's representative in connection with the altering and remodeling of a building located at 209–11 W. Cervantes Street, Pensacola, Florida. The estimated cost for the work was approximately $5,000. $1,000 was the maximum amount permitted in the absence of War Production Board authorization. Mr. Miller, acting in behalf of Johnson Coberly, prepared an application to the War Production Board for authorization to do this construction. Mr. Miller knew of the War Production Board regulations, but, nevertheless, without waiting for approval, began construction work on the premises on or about June 10, 1943, and although the application was denied, work continued on the project until July 16, 1943. This construction was in violation of Conservation Order L–41, and Mr. Miller's conduct was so grossly negligent that it must be deemed wilful. This violation of Conservation Order L–41 has diverted scarce materials and labor to uses not authorized by the War Production Board and has hampered and impeded the war effort of the United States. In view of the foregoing, *It is hereby ordered*, That:

§ 1010.489 *Suspension Order No. S–489.* (a) Neither J. Graham Miller, his successors or assigns, nor any other person, shall order, purchase, accept delivery of, withdraw from inventory, or in any other manner, secure or use material or construction plant in order to continue or complete construction of the premises located at 209–11 W. Cervantes Street, Pensacola, Florida, unless hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve J. Graham Miller from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on February 24, 1944.

Issued this 17th day of February 1944.

Recording Secretary.

PART 903—DELEGATIONS OF AUTHORITY

[Directive 27, Interpretation 1]

EFFECT ON OUTSTANDING RATINGS

The following interpretation is issued with respect to Directive 27:

Priorities Directive 3 was revoked by Directive 27 effective January 1, 1944. At the same time Order M–148 was also revoked. Nevertheless, ratings assigned by the Foreign Economic Administration (or its predecessors, the Board of Economic Warfare and the Office of Economic Warfare) before that date may still be applied and extended. Section 944.4 (a) of Priorities Regulation 1, regarding the effect of revocation of a preference rating order, does not apply since the ratings were not assigned by those instruments but by the Foreign Economic Administration or its predecessors under specific authorizations from the War Production Board, which remain in effect. The method of application and extension is now provided by Priorities Regulation 3.

Issued this 25th day of February 1944.

PART 1041—PRODUCTION, TRANSPORTATION, REFINING AND MARKETING OF PETROLEUM

[Preference Rating Order P–98–b, Direction 2]

SPECIAL PREFERENCE RATING FOR CERTAIN MRO MATERIAL USED IN RETAIL MARKETING

The following direction is issued pursuant to Preference Rating P–98–b:

(a) *What this direction covers.* Many petroleum operators maintain or repair retail marketing facilities used by other operators. If this arrangement existed in an industry other than the petroleum industry the person performing the maintenance or repair work for another person would be entitled to use a preference rating of AA–3 pursuant to CMP Regulation 9A.

However, under the terms of Order P–98–b the procedures of CMP Regulation 9A and the rating of that regulation may not be used by a petroleum operator to secure priorities assistance for material to be used in the petroleum industry. Order P–98–b presently makes available to petroleum operators a preference rating of AA–5 to secure MRO material for use in retail marketing.

This direction makes available to a petroleum operator who does such maintenance or repair work the same rating under Order P–98–b as he would have under CMP Regulation 9A.

(b) *Special rating available for MRO material to be used in retail marketing.* An operator who does maintenance or repair work for another operator engaged in retail marketing may use preference rating AA–3 to secure MRO material for use in maintaining and repairing retail marketing facilities for other operators and for himself. The AA–3 rating will be used under Order P–98–b in place of the AA–5 rating available for MRO material for use in retail marketing.

Issued this 25th day of February 1944.

PART 1041—PRODUCTION, TRANSPORTATION, REFINING AND MARKETING OF PETROLEUM

[Preference Rating Order P–98–c, as Amended Feb. 25, 1944]

§ 1041.6 *Preference Rating Order P–98–c*—(a) *Purpose of this order; assignment of preference rating and allotment symbol.* The purpose of this order is to make it easier to get materials for the maintenance and repair of petroleum equipment used by consumer accounts. Accordingly, a preference rating of AA–5 and the allotment symbol MRO–P–98–c may be used by consumer accounts and a preference rating of AA–3 and the allotment symbol MRO–P–98–c may be used by repairers to get material for the maintenance and repair of petroleum equipment. The way to use the ratings and the allotment symbol is explained below.

(b) *Who may use this order.* This order may be used by any householder, farmer, industrial concern, institution, governmental agency or other person or organization, to get materials for the maintenance or repair of petroleum equipment which he uses in connection with his consumption of petroleum products. These persons and organizations are called "consumer accounts" in this order. It may also be used by persons or organizations who maintain or repair petroleum equipment for consumer accounts. These persons and organizations are called "repairers" in this order. This order may not be used for the maintenance or repair of any equipment which is used in connection with the manufacture, distribution or sale of petroleum products, such as equipment in refineries, bulk plants or filling stations.

(c) *Meaning of "petroleum equipment."* The phrase "petroleum equipment" refers to equipment which is used for storing or dispensing the following:

Gasoline, when used as a motor fuel
Diesel oil, when used as a motor fuel
Tractor fuel, when used as a motor fuel
Lubricating oil, when used as a lubricant
Lubricating grease, when used as a lubricant
Liquefied petroleum gas (that is, butane, propane, propyolene, butene, butylene, or any combination or dilution of them known as "liquefied petroleum gas"), for any use.

This equipment will include:

Motor fuel and gasoline dispensing pumps
Barrel and drum pumps
Hand and pressure lubricating equipment
Storage tanks, containers, and cylinders
Housing, piping, valves and regulators used in storing or dispensing liquefied petroleum gas.

However, equipment such as gas ranges, stoves, radiators, automobiles, tractors, or other equipment in which the products mentioned above are burned or consumed cannot be said to be used for storing and dispensing. Hence, this equipment is not "petroleum equipment" and cannot be maintained or repaired under this order.

(d) *Meaning of "maintenance and repair".* The words "maintenance and repair" mean keeping equipment in a sound working condition or fixing equipment if it has broken down. However, maintenance and repair does not include the restoration or replacement of any complete motor fuel or gasoline dispensing pump, complete pressure lubricating system, complete storage tank, having a capacity of more than 65 gallons, used for storing motor fuel or lubricants, or any complete storage tank or cylinder, regardless of the capacity, used for storing liquefied petroleum gas.

(e) *How to use this order.* To use the preference ratings and allotment symbol authorized above, a consumer account or repairer must take certain steps as follows:

(1) He must give his supplier a written purchase order for the materials he wants to buy. Any kind of written order will do, if it names the supplier, lists each item being bought and the price, and states when the supplier is to deliver it. The supplier will often help the buyer make out the purchase order, fill in the price, etc.

(2) The consumer account or repairer must put on the purchase order a statement similar to the following one, and sign the statement:

Preference Rating ---------- (Indicate applicable rating)—Allotment Symbol MRO–P–98–c. I certify to the War Production Board, subject to criminal penalties for misrepresentation, that I am entitled to use this rating and symbol under Order P–98–c.

(Signature of consumer account or repairer)

If he wishes, the consumer account or repairer, instead of using this statement, may use the certificate given in CMP Regulation No. 7 or that given in Preference Rating Order P–98–b, as amended.

(3) The consumer account or repairer must make a copy of each purchase order and keep it for at least two years. When requested, these copies must be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(4) If the total cost of the items on the purchase order is $100 or more, the consumer account or repairer must make still another copy of the purchase order. He must send this copy promptly to the District Office of the Petroleum Administration for War for the District where the materials will be used. So that the copy may be identified he should place the symbol Ref: P–98–c on the envelope. A list of the District Officers is contained in List A of the order.

This additional copy is sent for the information of the Petroleum Administration for War so that it can know the need for material of this sort and is not sent to obtain approval of the purchase. Where the total cost of the purchase order is less than $100 no copy need be sent.

(f) *When this order may not be used.* In certain instances, even if he has done everything required by the preceding paragraph, a consumer account or repairer must not use this order to get materials for maintenance or repair work:

(1) A consumer account must not use this order to get materials to keep on hand. He must not buy more than he needs to do a particular job.

(2) A repairer may use this order to get materials to keep on hand as inventory, but he must never buy more than he will need for the next 60 days. In deciding how much he will need for the next 60 days, he must take into account materials which he already has in his inventory as well as those which he is buying.

(3) A consumer account or repairer must not use this order to get materials which can be bought without the use of any preference rating or allotment symbol. Most used articles can be bought without a rating or symbol, and many kinds of new items as well.

(4) A consumer account or repairer must not use this order to get material which will be used to replace a part which is still serviceable.

(5) A consumer account or repairer must under no circumstances use this order to obtain materials for any purpose except the maintenance or repair of petroleum equipment.

(g) *Technical provisions.* The following are technical statements which are included so as to give full legal effect to the procedure established in this order:

(1) The allotment symbol MRO–98–c shall constitute an allotment symbol for the purpose of CMP Regulation No. 3.

(2) Any purchase order for controlled materials bearing the allotment symbol MRO–P–98–c and the statement of paragraph (e) shall constitute an authorized controlled materials order.

(3) If a consumer account or repairer obtains any repair parts or material in accordance with the procedures of this order, the provisions of paragraphs (s), (s–1), and (u) of CMP Regulation No. 1 and the provisions of CMP Regulation Nos. 2, 5 and 5A (and the limitations in-

corporated in any CMP Regulation which otherwise would subject a consumer account or repairer to the provisions of CMP Regulations 2, 5 and 5A) shall not apply to the transaction.

(h) *Use of other orders.* Certain consumer accounts, particularly industrial or commercial concerns, can use other regulations or orders of the War Production Board to get repair materials or parts. These consumer accounts have the choice of using this order or any other regulation or order which they may be entitled to use.

(i) *Where to write concerning this order.* All letters, questions and appeals concerning this order, except delivery orders which must be filed with the District Offices should be addressed to: Petroleum Administration for War, Interior Building, Washington 25, D. C., Ref.: P–98–c.

(j) *Violations.* Any person who wilfully violates any provision of this order or who wilfully furnishes false information to the Petroleum Administration for War or the War Production Board in connection with this order is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries or from processing or using material under priority control and may be deprived of priorities assistance by the War Production Board.

Issued this 25th day of February 1944.

Recording Secretary.

PART 1226—GENERAL INDUSTRIAL EQUIPMENT

[General Limitation Order L–298 as Amended Feb. 25, 1944]

RESISTANCE WELDING EQUIPMENT

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain materials and facilities used in the manufacture of resistance welding equipment for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1226.107 *General Limitation Order L–298*—(a) *Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Resistance welding" means that process for the localized consolidation or joining of metals under pressure and heat, wherein the heat is generated within the metallic parts to be consolidated or joined by the resistance of those parts to the passage of an electric current.

(3) "Resistance welding equipment" means equipment manufactured for use in the operation of joining metals by the resistance welding process and includes resistance welding machines, resistance welding controls, and resistance welding electrodes.

(4) "Manufacturer" means any person engaged in the business of producing, fabricating or assembling resistance welding equipment, and shall include sales and distribution outlets owned by any such person.

(5) "Dealer" means any person engaged in the business of purchasing resistance welding equipment for resale.

(6) "Order" means any commitment or other arrangement for the delivery of resistance welding equipment whether by purchase, lease, rental or otherwise.

(7) "Army, Navy, Maritime Commission or War Shipping Administration" does not include any privately operated plant or shipyard financed by, or controlled by, any of those agencies or operated on a cost-plus-fixed-fee basis.

(8) "Used resistance welding equipment" means resistance welding equipment that has been delivered to an ultimate consumer.

(b) *Operations reports.* Each manufacturer shall, on or before the 15th day of each month, commencing with the month of August, 1943, file with the War Production Board an operations report on Form WPB–2830, showing orders for new and rebuilt resistance welding equipment and repair parts unfilled, received, shipped and cancelled during the preceding month, in accordance with instructions accompanying the form: *Provided*, That this paragraph (b) shall not apply to orders for electrical circuit breakers or indicating or recording apparatus used with resistance welding equipment, or repair parts for such circuit breakers or indicating or recording apparatus.

(c) *Authorization of purchase orders required.* (1) No manufacturer or dealer shall accept an order for, or deliver any new resistance welding equipment unless the order or delivery is specifically authorized by the War Production Board on Form WPB–1319 (or Form WPB–2752). Application for an authorization, and for a preference rating if none has been previously assigned, is to be made by the purchaser by filing Form WPB–1319, with the War Production Board in accordance with the current instructions for the form. (Applications on Form WPB–2752 will continue to be accepted by the War Production Board until March 15, 1944 only.) The delivery restrictions of this paragraph (c) (1) do not apply to orders received prior to July 27, 1943.

(2) The provisions of paragraph (c) (1) shall not apply to (i) any order of $200 or less for resistance welding equipment; (ii) any order for resistance welding electrodes; (iii) any order for resistance welding equipment for direct use by the Army, Navy, Maritime Commission or War Shipping Administration or for incorporation in or attachment to any resistance welding equipment to be used directly by such agencies; (iv) any order bearing a preference rating assigned under Preference Rating Order P–19–h; *Provided* That, notwithstanding paragraph (g) (4) of Priorities Regulation 3, the certificate applying or extending such rating shall state the source of the rating; or (v) any order placed by a manufacturer of, or dealer in, resistance welding equipment.

(d) *Registration of idle equipment.* On receipt of a specific request by the War Production Board, the owner of any idle used resistance welding equipment shall register it by filing with the War Production Board Form WPB–2732, in accordance with instructions which accompany the request.

(e) *Miscellaneous provisions*—(1) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time, except as otherwise expressly provided herein.

(2) *Reporting provisions.* The reporting requirements of paragraphs (b) and (d) and the form of application prescribed in paragraph (c) have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(3) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(4) *Appeals.* Any appeals from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(5) *Communications.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, General Industrial Equipment Division, Washington 25, D. C., Ref.: L–298.

Issued this 25th day of February 1944.

PART 3208—SCHEDULED PRODUCTS

[General Scheduling Order M–293, Table 8, as Amended Feb. 25, 1944]

POWER DIVISION, OFFICE OF WAR UTILITIES

§ 3208.9 *Table for Power Division.* (a) The following amended table is issued pursuant to the provisions of General Scheduling Order M–293.

NOTE: Items 19, 20, 21 amended Feb. 25, 1944.

Table of scheduled products	Designation	Applicable forms column 1	2	3
1. Steam, hydraulic, or gas-propelled turbines unless designed for ship propulsion or aircraft use	XZ	-------	3003	------
2. Turbine-generator sets (any combination of one or more turbines and electric generators built to operate as a set) unless designed for ship propulsion, aircraft use, or locomotive headlight service	XZ	-------	3003	------
3. Steam engine-driven generator sets	X	-------	3003	------
4. Diesel and natural gas engines, 750 r.p.m. and less, excluding equipment for marine use	XZ	878	3003	------
5. Diesel and natural gas engine-driven generators, 750 r. p. m. and less, excluding equipment for marine use	XZ	1801	3003	------
6. Generators designed to be propelled by a steam, hydraulic or gas turbine or steam engine, unless designed for ship propulsion, aircraft use, or locomotive headlight service	XZ	1801	3003	------
7. Boilers and boiler units, exclusive of those for marine shipboard or locomotive use:[1]				
a. Boilers and boiler units (including such auxiliaries as superheaters, desuperheaters and water walls or water-cooled furnaces, when such auxiliaries are fabricated by the manufacturer who reports and fabricates the related boiler) of any type listed below if such boilers and boiler units are (i) designed for a steam pressure of more than 15 pounds per square inch, and (ii) have a boiler heating surface of 100 square feet or more, but less than boilers and boiler units listed in c below:				
(i) Water tube	X	-------	1790	------
(ii) Scotch marine				
(iii) Horizontal return tubular				
(iv) Refractory lined firebox				
(v) Oil country				
b. Boilers and boiler units designed for steam pressures over 15 pounds per square inch, all sizes, of the following types:				
(i). Waste Heat	XY	-------	1790	2645
(ii) Dowtherm				
(iii) Mercury				
(iv) Electric				
c. Boilers and boiler units listed in a above which have a combined boiler, water wall, economizer, and air heater heating surface of 3,000 square feet or more	XY	-------	1790	2645
d. Boiler auxiliaries, such as superheaters, desuperheaters economizers, air-heaters and water walls or water-cooled furnaces, (i) for a new boiler installation if fabricated by a manufacturer other than the manufacturer reporting and fabricating the related new boiler, or (ii) for a boiler unit already in use	X	-------	1790	------
8. Pulverizers and related combustion equipment installed for the primary purpose of pulverizing solid fuel for firing any type of furnace, excluding those for marine shipboard and locomotive use	X	-------	1790	------
9. Automatic stokers designed for burning solid fuel, with an active projected grate surface in excess of 36 square feet, excluding stokers for locomotive use. The term active projected grate surface means grate surface through which air is supplied to the fuel bed, either continuously or intermittently	X	-------	1790	------
10. Soot blowers—any device using steam or air to blow soot, cinders, or slag from the heating surfaces of furnaces, boilers, stills and other types of direct-fired heat exchangers, excluding those for locomotive or marine use				
11. Steam condensers (surface, jet and barometric), inter and after condensers, and air ejectors, or any combination thereof, including marine condensers and air ejectors other than those produced for the United States Navy for use on ships	XZ	-------	3003	------
12. Power frequency changers, 62½ cycles and below	XZ	-------	1790	------
13. Synchronous condensers	XZ	-------	1790	------
14. Mercury arc rectifiers and electronic frequency changers for power use	X	-------	2792	------
15. Oil circuit breakers of 2,200 volts or higher	XZ	-------	1790	------
16. Air circuit breakers except types AB, ET, or similar	XZ	-------	1790	------
17. Metal clad switchgear containing oil or air circuit breakers listed in 15 and 16 above and power switchboards	XZ	-------	1790	------
18. [Deleted Nov. 13, 1943].				
19. Liquid-filled and dry-type power or distribution transformers, 250 KVA and larger; unit substations and unit load centers containing such transformers	XYZ	-------	2642	2643
20. Liquid-filled and dry-type power or distribution transformers, smaller than 250 KVA and single phase, of the following classes only:				
a. Transformers which do not conform to EEI-NEMA Standards	YZ	-------	------	2643
b. Transformers not listed, with a catalog number, in a manufacturer's catalog on January 1, 1944				
c. Transformers for purchase orders which are rated lower than AA–5				

[1] A manufacturer of a Class X product must file his shipping schedule on Form WPB 3003 or 3401 or on the form shown in Column 2 at his option.

[1] See Table 14 of this order for listings of land boilers not included in this Table 8.

Table of scheduled products	Designation	Applicable forms column 1	2	3
21. Liquid-filled and dry-type power or distribution transformers, smaller than 250 KVA and multiple phase	YZ			2643
22. Hammer forged, press forged, and cast crankshafts—finished	XZ	878C	878C	
23. Transformers, reactors, and chokes for non-power (electronic) applications only		3002.31		

A person placing an order for a Class Y product must use the form shown in Column 3 to obtain WPB authorization unless the product is also in Class Z and he is placing the order under paragraph (e) of M-293.

A person placing an order for a Class Z product under paragraph (e) of M-293 must use Form WPB-3003, 3400, or 3401, as specified in the instructions he received, to accompany his purchase order. If the product is also Class Y, he should use that same form to obtain WPB authorization instead of the form shown in Column 3.

PART 1305—ADMINISTRATION

[Gen. RO 3,[1] Amdt. 5]

RATION BANKING: BANKS

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

General Ration Order No. 3 is amended in the following respects:

1. Section 1305.412 (a) (3) is amended by inserting the word "tokens" between the words "coupons" and "or" in the third sentence.

2. Section 1305.412 (a) is amended by adding a new subparagraph (15) to read as follows:

(15) Open, in its own name, a Processed Foods and a Ration Order 16 Foods ration bank account for the purpose of issuing ration checks as authorized by the Office of Price Administration. Issue tokens in exchange for valid ration evidences as authorized by the ration orders and the Office of Price Administration.

This amendment shall become effective 12:01 a. m. February 27, 1944.

PART 1305—ADMINISTRATION

[Gen. RO 5,[1] Amdt. 47]

FOOD RATIONING FOR INSTITUTIONAL USERS

A rationale for this amendment has been issued simultaneously herewith, and has been filed with the Division of the Federal Register.*

Section 9.8 is added to read as follows:

SEC. 9.8 *Certificates on account of allotments for March-April 1944 allotment period.* (a) If, by March 15, 1944, the Board will be unable to compute and grant allotments for the March-April 1944 period to an institutional user who has filed OPA Form R-1307 Supplement, it may issue certificates to him on account of those allotments in an amount equal to his January-February 1944 allotments. However, if he has an excess inventory, the amount of the certificate shall be reduced by the amount of such excess chargeable against the March-April 1944 allotment.

(b) When the Board has computed the allotments for the March-April 1944 period, it shall deduct the amount of any certificate issued under this section in computing the amount of any certificate to be granted. If the certificate issued under this section is more than his March-April allotment, the difference shall be treated as excess inventory. The certificate shall not be deemed to increase his allotment.

This amendment shall become effective February 29, 1944.

RETAIL CEILING PRICES FOR PORK CUTS AND CERTAIN SAUSAGE PRODUCTS[3]

Section 4 (a), section 10, and section 19, items 7, 27A and 27B in tables for Group 1 and 2 stores and Group 3 and 4 stores, amended by Amendment 11, effective March 1, 1944, so that Maximum Price Regulation No. 336 shall read as follows:

A statement of the considerations involved in the issuance of this Maximum Price Regulation No. 336 has been issued simultaneously herewith and filed with the Division of the Federal Register.[4]

So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation. In the judgment of the Price Administrator, the maximum prices established by this maximum price regulation are and will be generally fair and equitable, and comply with the requirements of section 3 and the other requirements of the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, and will effectuate the purposes of said act and Executive order.

Insofar as this regulation uses specifications and standards which were not, prior to such use, in general use in the trade or industry affected; or insofar as their use was not lawfully required by another Government agency, the Administrator has determined, with respect to such standardization, that no practicable alternative exists for securing effective price control with respect to the commodities subject to this regulation.

ARTICLE I—GENERAL PROVISIONS

SECTION 1. *What this regulation does.* This regulation fixes dollar-and-cents ceiling prices on all retail sales of fresh and processed pork cuts, and on all retail sales of the following sausage products: fresh and smoked pork sausage and breakfast sausage, frankfurters, bologna, Lebanon bologna, all beef knackwurst and all beef salami, loaves, Braunschweiger, fresh and smoked liver sausage, liver cheese, liver pudding, New England, minced luncheon, Berliner or Berlin, and Polish sausage. The United States is divided into zones by this regulation and different ceiling prices are fixed for sales made in each zone and for sales made by different groups of retail stores. Your ceiling prices depend on the zone where your store is and its group and on the type and casing, wrapper or container of the sausage product you are selling. A store includes any place where pork cuts or sausage products subject to this regulation are sold at retail.

[Section 1 amended by Am. 5, 7 F.R. 7682, effective (1) as to the processed meat products covered by section 20 and as to fresh and frozen pork cuts on 9-21-43; and (2) as to all other products subject to this regulation on 7-5-43; Am. 7, 8 F.R. 9366, effective 7-13-43; Am. 8, 8 F.R. 12480, effective 9-8-43; and Am. 10, 9 F.R. 167, effective 1-8-44]

SEC. 2. *Your ceiling prices.* (a) You will find your ceiling prices for pork cuts on your "OPA list of retail ceiling prices for pork cuts" (Article III, section 19) and for sausage products subject to this regulation on your "OPA list of retail ceiling prices for sausage products covered by Maximum Price Regulation No. 336" (Article III, section 20). A copy of these lists for your zone and group will be attached to this regulation. A complete price list showing prices for both pork cuts and sausage products may be obtained from your local war price and rationing board or from your district office. (If you are a "Group 3 and 4" store, you should obtain your copy of the complete price list from your regional OPA office).

(b) *Your zone.* You can find out from your local war price and rationing board or your local Office of Price Administration office what zone your store is in. The zones are fixed by Article III of this regulation.

(c) *Your group.* Your store is in "Group 1 and 2" if its annual gross sales are less than $250,000 and if it is not a "chain store." Otherwise it is in "Group 3 and 4".

(d) Your store is a chain store if it is one of 4 or more stores owned by one person which have combined annual gross sales of $500,000 or more. If you are in doubt whether your store is in "Group 1 and 2", consult the directions given in sections 11, 12 and 13.

[Sec. 2 amended by Am. 5, 8 F.R. 7682; Am. 7, 8 F.R. 9366, effective 7-13-43; and Am. 10, 9 F.R. 167, effective 1-8-44. For effective date of Am. 5 see note following section 1]

SEC. 3. *When the new ceiling prices take effect*—(a) *Pork cuts.* On June 21, 1943, the dollar-and-cents ceiling prices fixed by this regulation take the place of all previous ceiling prices fixed by the Office of Price Administration upon retail sales of pork cuts. On and after June 21, 1943, you must not sell any pork cuts at a price higher than the ceiling price fixed by this regulation.

(b) *Sausage products.* (1) On September 8, 1943, the dollar-and-cents ceiling prices fixed by this regulation take the place of all previous ceiling prices fixed by the Office of Price Administration upon retail sales of the following sausage products: fresh and smoked pork sausage and breakfast sausage, frankfurters, bologna other than Lebanon, all beef knackwurst and all beef salami. On and after September 8, 1943, you must not sell any such sausage product at a price higher than the ceiling price fixed by this regulation.

(2) On January 8, 1944, the dollar-and-cents ceiling prices fixed by this regulation take the place of all previous ceiling prices fixed by the Office of Price Administration upon retail sales of the following sausage products: Lebanon bologna, loaves, Braunschweiger, fresh and smoked liver sausage, liver cheese, liver pudding, New England, minced luncheon, Berliner or Berlin and Polish sausage. On and after January 8, 1944, you must not sell any such sausage product at a price higher than the ceiling price fixed by this regulation.

[Sec. 3 amended by Am. 5, 8 F.R. 7682; Am. 8, 8 F. R. 12480, effective 9-8-43; and Am. 10, 9 F.R. 167, effective 1-8-44. For effective dates of Am. 5 see note following section 1]

SEC. 4. *What pork products and sausage products you may sell.* (a) On and after January 8, 1944, the only pork products and sausage products you may sell are (1) those fresh, frozen or processed pork cuts which are given dollar-and-cents ceiling prices under this regulation; (2) the following sausage products which are given dollar-and-cents ceiling prices under this regulation: fresh and smoked pork sausage and breakfast sausage, frankfurters, bologna, Lebanon bologna, all beef knackwurst and all beef salami, loaves, Braunschweiger, fresh and smoked liver sausage, liver cheese, liver pudding, New England, minced luncheon, Berliner or Berlin and Polish sausage; (3) canned pork and sausage products for which your ceiling prices are fixed by Maximum Price Regulation No. 422 or Maximum Price Regulation No. 423; (4) pork variety meats or offal (including cutlets, brains, chitterlings, liver, kidneys, tongues, lips, snouts, ears, hearts, cheek and head meat, weasand meat and heads) for which your ceiling prices are fixed by Maximum Price Regulation No. 355; and (5) the following pork and sausage products for which your ceiling prices are to remain as fixed under the General Maximum Price Regulation: (i) uncanned sausage products which are described in section 1 (b) (1) of Maximum Price Regulation No. 389—Ceiling Prices for Certain Sausage Items at Wholesale, (ii) sausage products purchased by you in cans and which you remove from the cans and sell in smaller amounts, and (iii) quick frozen cuts which are sold and delivered to you in the individual packages in which you sell them.

(b) The pork cuts listed in the OPA list of retail ceiling prices for pork cuts are defined in Revised Maximum Price Regulation No. 148 [4]—Dressed Hogs and Wholesale Pork Cuts. If the Office of Price Administration allows any person to make a different cut, you will receive notice when you buy that cut of the ceiling price you may charge for it at retail.

(c) The sausage products listed in the OPA list of retail ceiling prices for sausage products covered by Maximum Price Regulation No. 336 are defined in Maximum Price Regulation No. 389—Ceiling Prices for Certain Sausage Items at Wholesale.

Any sausage made by you other than the sausage described in section 1 (b) of Maximum Price Regulation No. 389 must meet the requirements for one of the kinds and types of sausage for which prices are established by this Maximum Price Regulation No. 336. Any such sausage made by you must also comply with the labeling requirements of section 4 of Maximum Price Regulation No. 389.

[Sec. 4 amended by Am. 2, 8 F.R. 5317, effective 4-27-43; Am. 5, 8 F.R. 7682; Am. 8, 8 F.R. 12480, effective 9-8-43; Am. 10, 9 F.R. 167, effective 1-8-44; and Am. 11, effective 3-1-44. For effective dates of Am. 5, see note following section 1]

SEC. 5. *Sales to eating places.* Your ceiling prices for sales of pork cuts and sausage products covered by this regulation to hotels, restaurants, institutions and other eating places selling or furnishing meals are the ceiling prices fixed by Revised Maximum Price Regulation

[4] 7 F.R. 8609, 9005; 8 F.R. 544, 2922, 3367, 4785, 7322, 7671, 8376, 9998, 7826, 8677, 10571, 10732, 11380, 13296, 15191, 15609, 16426.

No. 148 for pork cuts and by Maximum Price Regulation No. 389 for sausage products. Nevertheless, you may, during any month, use the ceiling prices fixed by this regulation in selling to eating places if 80 percent or more of your total dollar sales of meat during the previous calendar month were retail sales to consumers, that is, to persons who buy the pork cuts or sausage products to be eaten by themselves or their families off of your premises.

[Sec. 5 amended by Am. 5, 8 F.R. 7682, Am. 8, 8 F.R. 12480, effective 9–8–43; and Am. 10, 9 F.R. 167, effective 1–8–44]

SEC. 6. *Post your ceiling prices.* Not later than June 21, 1943, you must post at your store your official OPA list of retail meat prices, showing ceiling prices for pork cuts and sausage products. You may use an exact copy of the OPA list as long as the printing is just as legible and at least as large. Put it on or at the counter of the meat department in your store in one or more places where your customers can easily see and read it. You must have at least one list posted for each 20 feet of meat counter space. You must get your official copies of the price lists for posting or copying from your war price and rationing board or from your district OPA office. You may, if you wish, underline on the lists you post, those pork cuts and sausage products which you carry. If you display any pork cut or sausage product, as in your show case, you must post on it your selling price for that cut or product.

[Sec. 6 amended by Am. 1, 8 F.R. 4253, effective 4–1–43; Am. 5, 8 F.R. 7682; Am. 8, 8 F.R. 12480, effective 9–8–43; and Am. 10, 9 F.R. 167, effective 1–8–44. For effective dates of Am. 5 see note following section 1]

SEC. 6a. *Descriptive labeling requirements.* (a) On and after November 1, 1943, fresh and smoked pork sausage and breakfast sausage, frankfurters, bologna, knackwurst, including all beef sausage other than Lebanon bologna, must bear a descriptive label in accordance with the provisions of this section. On and after February 26, 1944, Lebanon bologna, loaves, Braunschweiger, smoked and fresh liver sausage, liver cheese, liver pudding, New England, minced luncheon, Berliner or Berlin and Polish sausage must bear a descriptive label in accordance with the provisions of this section. A label satisfying the requirements of this section shall appear on each one and one-half pounds of frankfurters and pork or breakfast sausage stuffed in sheep or hog casings, and once on each piece of other sausage product stuffed in casings or packed in wrappers, including but not limited to pork sausage and breakfast sausage (other than that stuffed in sheep or hog casings), bologna, loaves, all beef sausage, New England, Berliner or Berlin, liver sausage and Polish sausage. The label may be a band or tag securely affixed to the sausage product or printed or stamped upon the outside of the casing or wrapper. A similar label also shall be stamped or printed upon the outside of the carton or other immediate container in which the sausage product is placed. Enamel display cases or trays are not immediate containers.

You may not have in your store refrigerator or cooler any sausage product subject to this regulation which has not been properly labeled, except fresh or smoked pork sausage and breakfast sausage, frankfurters, bologna or knackwurst, including all beef sausage other than Lebanon bologna, bought from a seller who has received from the Office of Price Administration written authorization, pursuant to section 4 (b) (4) (i) of Maximum Price Regulation No. 389, to sell such sausage products unlabeled, which authorization in no event may extend beyond December 31, 1943.

(b) Each label shall contain prominently and in easily legible form:

(1) The name of the kind of sausage product as used in Maximum Price Regulation No. 389 (Ceiling Prices for Certain Sausage Items at Wholesale) and in addition, if the seller desires, a trade name, provided it does not include the name of some other kind of sausage product priced under this regulation.

(2) The word "ingredients" followed by a list of the ingredients when the product is fabricated from two or more ingredients, not counting curing materials, condiments, spices and water. If there is only one ingredient, not counting curing materials, condiments, spices and water, and if the name of the kind of sausage includes the name of the ingredient, the ingredient need not be separately stated. The list of ingredients shall state the common or usual names of the ingredients in the order of their predominance by weight, except that curing materials, spices, condiments and water need not be shown, unless required by some other federal, state, or local regulation. The name of the ingredient shall be a specific name, not a general name such as, but not limited to, "pork", "beef", "pork head meat", "beef cheek meat", "hearts", "livers", "tripe", "cereal", "dried skimmed milk", etc. The word "pork", "beef", "veal", "mutton", "goat", shall be used in connection with all skeletal meat ingredients. If more than 3½ percent of extender is used, the label shall so state:

(3) Whatever of the following letters or words are appropriate to show the kind of casing used: H. C. for hog casing; S. C. for sheep casing; B. C. for beef casing; A. C. for artificial casing, except that no such designation is required for an artificial casing on which is printed the casing manufacturer's name or trade-mark; skinless, where artificial casings have been removed by the manufacturer. Where the same price applies to the sausage product in each kind of natural casing, the letters N. C., indicating natural casing, may be used. The label need not contain a designation of the kind of casing used where the same price applies to the sausage product no matter what kind of casing, carton or wrapper is used.

(c) The label must be left on the sausage product which you buy. Different types of the same kind of sausage product must not be put together in the show case. Sausage products which are alike, except for the kind of casing, container or wrapper used which affects the price, must not be put together in the show case.

[Sec. 6a added by Am. 5, 8 F.R. 7682; amended by Am. 8, 8 F.R. 12480, effective 9–8–43; Am. 9, 8 F.R. 15670, effective 11–24–43; and Am. 10, 9 F.R. 167, effective 1–8–44, except that paragraph (a) shall become effective as of 11–1–43. For effective dates of Am. 5 see note following section 1]

SEC. 7. *Records, sales slips and receipts.* After June 21, 1943, you shall keep the same kind of records you have customarily kept, showing the prices you charge for pork cuts and sausage products. You shall show the records to any representative of the Office of Price Administration upon request. If you have customarily given a customer a sales slip, receipt or similar evidence of purchase, you shall continue to do so. Furthermore, regardless of your previous custom, you shall, upon request by any customer, give a receipt showing the date, your name and address, the name and weight of each pork cut sold, the name, type, weight, and casing, container or wrapper identification of each sausage product sold, and the price you received for the pork cut or sausage product.

[Sec. 7 amended by Am. 5, 8 F.R. 7682; Am. 8, 8 F.R. 12480, effective 9–8–43; and Am. 10, 9 F.R. 167 effective 1–8–44. For effective dates of Am. 5, see note following section 1]

SEC. 8. *Licensing.* The provisions of Licensing Order No. 1,[1] licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

[Sec. 8 amended by Am. 8, 8 F.R. 12480, effective 9–8–43; and Supplementary Order 72, 8 F.R. 13244, effective 10–1–43]

SEC. 9. *Indirect price increases.* The price limitations set forth in this regulation shall not be evaded directly or indirectly by you; and you shall not require the purchaser to buy at any price other food products as a condition of selling pork cuts or sausage products.

[Sec. 9. amended by Am. 5, 8 F.R. 7682; and Am. 10, 9 F.R. 167, effective 1–8–44. For effective dates of Am. 5, see note following section 1]

SEC. 10. *Prohibitions.* On and after the date this regulation takes effect, if you sell or deliver any pork cut or sausage product at a higher price than your ceiling price fixed by this regulation, or if you agree, offer, solicit or attempt to do any of the foregoing, or if you otherwise violate any provision of this regulation, you are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended. Also, any person who in the course of trade or business buys from you at a price higher than your ceiling price, is subject to the criminal penalties and civil enforcement actions provided for by that act.

[Sec. 10 amended by Am. 5, 8 F.R. 7682; Am. 10, 9 F.R. 167, effective 1–8–44; and Am. 11, effective 3–1–44. For effective dates of Am. 5, see note following section 1]

ARTICLE II—SPECIAL PROVISIONS

SEC. 11. *How you figure the annual gross sales of your store in most cases.* (a) To find your annual gross sales, take your gross sales for the calendar year 1942. Include all sales, whether of foods or not, as shown on your books. A Federal Income Tax Return will be accepted as good evidence of your gross sales for all or any part of the calendar year 1942 which is covered by such return. If you own more than one store, figure the sales for each store separately, treating it as a separate retailer.

(b) If you were not in operation during the entire year 1942, you must divide your total gross sales from the time you began operation up to April 1, 1943 by the number of weeks you were in operation. This will give your weekly average gross sales. Multiply this figure by 52 and take the result as your "annual gross sales."

[Paragraph (b) as amended by Am. 9, 8 F.R. 15670, effective 11–24–43]

SEC. 12. *How you figure the annual gross sales of your store in special cases—*(a) *Department stores.* If you operate a department store, that is, a store in which the greater volume of business is in the sale of general merchandise and not foods, and you sell foods in a separate department, then you must find in what class your store falls by using only the gross annual sales of your food department.

(b) *Stores in which more than one retailer operates.* (1) If you sell foods in a retail store in which more than one retailer sells a complete line of the same general class of food, you will be treated as operating a separate retail store of your own and you must find its group by using your own separate sales.

[Subparagraph (1) as amended by Am. 7, 8 F.R. 9366, effective 7–13–43]

(2) If you sell food in a retail store in which there are other food retailers, none of whom sells a complete line of the same general class of food, you must find your annual gross sales by taking the combined annual gross sales of all the food retailers in that store.

SEC. 13. *How to find your annual gross sales if you are a new retailer.* If you open a retail store after March 31, 1943, which is not then a chain store, you must consider yourself a "Group 1 and 2" retailer and figure your ceiling prices accordingly. But after you have been in operation for three months you must determine again what group your store is in. To do this, take your gross sales for the three-month period and multiply by 4. If you own four or more stores which have been in operation for this three-month period, you must take your gross sales for each of these stores for the three-month period and multiply by 4. Use the result as your "annual gross sales" in order to find in what group your store or stores belong. If you then find that your store or stores no longer fall in "Group 1 and 2" but in "Group 3 and 4", you must take the ceiling prices for "Group 3 and 4" stores for the applicable zone or zones.

[Sec. 13 amended by Am. 7, 8 F.R. 9366, effective 7–13–43; and Am. 9, 8 F.R. 15670, effective 11–24–43]

SEC. 14. *Transfers of business or stock in trade.* If you acquire in any manner the business, assets or stock in trade of any store subject to this regulation after March 31, 1943, and you carry on the business or continue to deal in pork cuts in a store, separate from any other store previously owned or operated by you, then your ceiling prices should be the same as those of the former owner as if no transfer had taken place; unless as a result of the transfer the business changes from one group of stores to another, in which case your ceiling prices shall be those fixed for the group to which the store belongs after the transfer. You must keep all records sufficient to verify your ceiling prices. The former owner shall either preserve and make available, or turn over, to you all records of transactions prior to your acquiring the store which are necessary to enable you to comply with the record provisions of this regulation.

[Sec. 14 as amended by Am. 7, 8 F.R. 9366, effective 7–13–43]

SEC. 15. *Retail sales taxes.* Any tax upon, or incident to, a sale at retail of pork cuts covered by this regulation which is imposed by any statute of any state or subdivision thereof may be collected by you in addition to the ceiling price, if the statute does not prohibit you from stating and collecting the tax separately from the purchase price.

SEC. 16. *Certain stores in "Group 3 and 4" which may, upon certain conditions, use the prices of stores in "Group 1 and 2."* (a) If your store is in "Group 3 and 4," and does business in the manner outlined below, you may request permission under paragraph (b) to use the ceiling prices for "Group 1 and 2" stores:

(1) Most of your sales in your grocery department are made by sales clerks who assist customers in selecting, collecting and wrapping merchandise; and

(2) Your store generally offers to all its customers the services of (i) taking orders over the telephone, and (ii) carrying monthly charge accounts, and (iii) providing delivery service; and

(3) The general level of your prices for meat and grocery products is as high or higher than that maintained for such products by "Group 1 and 2" stores in the same community and is generally higher than the level of prices charged for similar products by "Group 3 and 4" stores; and

(4) The total gross margin on all sales in your store, if you are not a "chain" store, was more than 25% in your fiscal year 1941; or, if you are a "chain" store, the total gross margin on the combined sales of all the stores in your chain was more than 25% in your fiscal year 1941. If you were not in operation in 1941, your gross margin for the most recent fiscal year, or if you have not been doing business for a full fiscal year, for the most recent fiscal period, must be more than 25%.

(b) If your store does business in the way set forth above and you want to sell at the ceiling prices for "Group 1 and 2" stores you must by April 1, 1943, file with your State or District OPA office a request to use such ceiling prices. This request must be filed on a form which you may get from such OPA office. If you have filed this form, you may on the effective date of this regulation, use the ceiling prices of "Group 1 and 2" stores. However, OPA reserves the right to withdraw this permission, and if you receive a notice to such effect you must from that time forward use the ceiling prices for stores in "Group 3 and 4."

(c) The total gross margin which a "Group 3 and 4" store must have had in order to sell at the prices for a "Group 1 and 2" store has been changed from 21% to 25%. If your store is a "Group 3 and 4" store and has been selling, under the preceding paragraph of this section, at the prices for "Group 1 and 2" stores, and if the total gross margin of the store for the period referred to in paragraph (a) (4) was less than 25%, you must, beginning July 3, 1943, sell at the "Group 3 and 4" prices. If the total gross margin of the store was 25% or more, you may continue to sell at the "Group 1 and 2" prices.

[Sec. 16 amended by Am. 6, 8 F.R. 8944, effective 7–3–43; and Am. 7, 8 F.R. 9366, effective 7–13–43]

PART 1364—FRESH, CURED AND CANNED MEAT AND FISH PRODUCTS

[MPR 514]

GOAT MEAT

A statement of the considerations involved in the issuance of this Maximum Price Regulation No. 514 has been issued simultaneously herewith and filed with the Division of the Federal Register.*

So far as practicable, the Price Administrator has consulted and advised with representative members of the industry which will be affected by this regulation. In the judgment of the Price Administrator, the prices established herein are and will be generally fair and equitable and comply with the requirements of the Emergency Price Control Act of 1942, as amended, and Executive Orders No. 9250 and 9328, and will effectuate the purposes of said act and Executive orders.

Insofar as this regulation uses specifications and standards which were not, prior to such use, in general use in the trade or industry affected, or insofar as their use was not lawfully required by another Government agency, the Administrator has determined with respect to such standardization that no practicable alternative exists.

§ 1364.354 *Maximum prices for goat meat.* Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Orders No. 9250 and 9328, Maximum Price Regulation No. 514, Goat Meat, which is annexed hereto and made a part hereof, is hereby issued.

AUTHORITY: § 1364.354 issued under 56 Stat. 23, 765; Pub. Law 151, 78th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681.

ARTICLE I—GENERAL PROVISION

SECTION 1. *What this regulation does.* This regulation fixes dollar-and-cents ceiling prices on all sales of goat meat at both wholesale and retail. On and after March 1, 1944, the date this regulation takes effect, regardless of any contract, agreement, or other obligation, no person shall sell and/or deliver, and no person in the course of trade or business shall buy and/or receive any goat meat except the items listed in section 10 and section 15 of this regulation for which maximum prices have been established, or any product containing goat meat except with respect to items for which maximum prices have been established under Maximum Price Regulation No. 389, "Ceiling Prices for Certain Sausage Items at Wholesale", or Revised Maximum Price Regulation No. 169, "Beef and Veal Carcasses and Wholesale Cuts", and no person shall agree, offer, solicit or attempt to do any of the foregoing. But lower prices may be charged or paid.

SEC. 2. *Where this regulation applies.* The provisions of this regulation shall apply to the forty-eight states of the United States and to the District of Columbia.

SEC. 3. *Sales to which this regulation does not apply.* (a) The provisions of this regulation shall not be applicable to sales or deliveries of goat meat to a purchaser if prior to March 1, 1944, such meats have been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to the purchaser.

(b) The provisions of this regulation shall not be applicable to deliveries of goat meat made to any political subdivision or agency of any state or of the United States, under contracts entered into prior to March 1, 1944: *Provided,* That this exemption shall not be construed to permit the upward revision of any prices fixed in such contracts.

SEC. 4. *Relation to other regulations.* (a) The provisions of this regulation supersede the provisions of the General Maximum Price Regulation [1] and all regulations and/or orders issued by any district or regional office of the Office of Price Administration with respect to wholesale sales and/or deliveries of goat meat in the United States and with respect to retail sales and/or deliveries except as specified in Section 16 of this regulation.

(b) The maximum price at which a person may export any goat meat shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation [2] issued by the Office of Price Administration.

SEC. 5. *Indirect price increases.* No person shall evade any of the provisions of this regulation by any scheme or device and no person shall indirectly charge or receive for goat meat a price higher than the maximum prices permitted by this regulation. No person shall, as a condition of selling any goat meat, require a purchaser to buy any other meat or any other product.

SEC. 6. *Enforcement.* (a) On and after March 1, 1944, any person violating any provision of this regulation is subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for revocation of licenses provided by the Emergency Price Control Act of 1942, as amended.

SEC. 7. *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1 [3] issued by the Office of Price Administration.

ARTICLE II—PROVISIONS RELATING TO SALES AT WHOLESALE

SEC. 8. *How maximum wholesale prices are fixed*—(a) *General instructions.* The ceiling prices at wholesale for any sale of goat meat are found by looking at paragraph (a) of section 10 which lists the base prices by zones in dollars per hundredweight, for each kind of goat meat. Section 11 should then be examined to determine whether any additions may be made to these prices, and section 12 to determine whether any deductions are required. The base price for the zone plus the permitted additions, if any, minus the required deductions, if any, is the wholesale ceiling price.

(b) *Determining the zone in which the point of delivery is located*—(1) *Point of delivery.* The point of delivery is either the point at which local delivery begins, if local delivery is actually made, or the point at which the product is delivered to the buyer, if no local delivery is made.

(i) "Local delivery" means delivery by any vehicle, other than a rail carrier, made by the seller to the place of business of the buyer, or made to a point designated by a war procurement or government agency. A truck is not a place of business.

(ii) If no local delivery is made, the point at which the product is delivered to the buyer is the point where actual physical possession is taken by the buyer or where the product consigned to the buyer:

(*a*) Is received by a rail carrier for shipment at the railroad carload rate, or for shipment to an agency of the United States Government; or

(*b*) Is received by a common or contract carrier, other than a railroad; or

(*c*) Is received by an express company for shipment by express to a purveyor of meals, the charges of such carrier in all three instances being paid directly to such carrier by the buyer.

(2) *Determining the zone.* Having determined the point of delivery, the zone in which such point is located can be found by reference to section 21 of this regulation in which all the zones are described by States and counties.

SEC. 9. *Species identification requirements.* (a) No person shall sell, offer or attempt to sell, solicit, ship or deliver, and no person in the course of trade or business shall buy or receive any goat meat, unless the carcass meeting the specifications for goat carcass as defined in section 22, has been identified and marked with the word "Goat" on each hind leg, on the right and left sides of the loin and of the rib section and each shoulder so that the marking shall appear eight times upon the carcass; and the carcass meeting the specifications of kid goat carcass, or cabrito, as defined in section 22, has been identified and marked with the words "Kid Goat" on each side in the region of the loin.

(b) The species identification shall be in letters at least one-half inch in height and width, and shall be placed on the goat carcass with harmless marking fluid conforming to the formula for violet branding fluid approved by the United States Department of Agriculture, Bureau of Animal Industry, set forth in Appendix A hereof and incorporated herein as section 23.

(c) Any carton, box or barrel containing boneless goat meat or other goat meat items listed in section 10, excluding carcasses, shall have stamped or printed on it the words "Boneless Goat Meat" or the word "Goat" and the name of the goat meat item contained therein.

SEC. 10. *Wholesale Prices—Table of zone prices.* (All prices are on a dollar per hundredweight loose basis and do not include boxing, transportation or delivery costs. The price for any fraction of a hundredweight shall be reduced accordingly.)

SEC. 11. *Permitted additions to base prices*—(a) *For transportation and/or local delivery.* The following amounts may be added for transportation and/or delivery so long as no more than $0.50 per cwt. is added in any zone, except that up to $1.00 per cwt. may be added in Zones 2, 3 and 4:

(1) *Transportation from the place of slaughter to the point of delivery.* If the point of delivery is neither the place where the livestock was slaughtered nor another slaughtering, packing or processing plant, owned or controlled by the slaughterer, the seller may make one of the following transportation additions to the base prices for transporting the product to the point of delivery from the place of slaughter.

(i) Cost up to $0.75 per cwt., if the point of delivery and the place where the livestock was slaughtered are in Zone 2, 3, or 4.

(ii) Cost up to $0.25 per cwt. in all other zones, if the point of delivery and the place of slaughter are in the same zone.

(2) *Local delivery from the point of sale to the buyer.* If local delivery is made by the seller to the place of business of the buyer or to the designated delivery point of a war procurement or other government agency located within a radius of 25 miles of the point at which local delivery starts, $0.25 per cwt. may be added to the base price. If local delivery ends more than 25 miles from the point at which it started, there may be added:

(i) Cost up to $0.75 per cwt. for delivery from a point in Zone 2, 3, or 4.

(ii) Cost up to $0.50 per cwt. for delivery in all other cases.

(3) *Intermediate distributors.* If a wholesaler has paid a charge under either of the two preceding subparagraphs for transportation and/or local delivery, he may add the amount of such charge upon the resale of the meat, up to $0.25 per cwt., if the point of delivery is in Zones 1 or 5 to 10, inclusive, and up to $0.75 per cwt. elsewhere.

(b) *Packaging.* (1) For packaging or boxing goat meat, excluding carcasses, in shipping containers on domestic sales, $0.25 per cwt.

(2) For packaging boneless goat meat for export shipment, Federal Surplus Commodities Corporation specifications, $0.50 per cwt.

(c) *Sales to purveyors of meals.* For goat meat sold to purveyors of meals, $0.50 per cwt.

(d) *Wholesaler's selling addition.* On sales of goat meat a person who at the time of the sale is a wholesaler, may add $0.75 per cwt. to the applicable zone price: *Provided,* That no person shall charge the addition permitted by this section 11 (d) unless such person shall have filed with the appropriate regional office of the Office of Price Administration a certified statement that the person: (1) is engaged in the business of buying meat for resale other than at retail; and (2) does not own or control, in whole or in substantial part, any slaughtering plant or facilities, and is not owned or controlled, in whole or substantial part, by another person who owns or controls in substantial part any slaughtering plant or facilities. The filing of such a statement shall not preclude investigation by the Office of Price Administration of the facts relating to the nature of the business carried on by the person filing the statement, or any action or proceeding arising from such investigation.

(e) *Freezing.* For freezing and storage on sales to Federal Surplus Commodities Corporation, there may be added $0.35 per cwt.

SEC. 12. *Required deductions from base prices*—(a) *Carload discount.* For all goat meat delivered in a straight or mixed carload shipment or sold as part of a straight or mixed carload sale, the seller shall deduct $0.25 per cwt. from the applicable zone price.

(b) *Sales to processors.* For all goat carcasses sold to processors, the seller shall deduct $1.25 per cwt. from the applicable zone carcass price.

SEC. 13. *Records and reports.* (a) After February 29, 1944, every person making a sale other than at retail, and every person making a purchase in the course of trade or business of any goat meat subject to this regulation shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, his customary records including a complete and accurate record of each such purchase or sale, showing the date thereof, the name and address of the buyer and of the seller, the price charged and the price received, a description of the product and the quantity sold.

(b) Every person making a sale of goat meat subject to this regulation shall furnish to the purchaser at the time of delivery a written statement setting forth the name and address of the buyer and seller, identifying each such item sold, and setting forth the quantity and the weight thereof, and the price charged and received therefor, including a separate statement of any transportation and local delivery charge as provided by section 11 (a), except that if such separate statement of transportation charges is prohibited by local law, the seller shall maintain in his own record of the transaction a separate statement of any addition for transportation or local delivery which is included in the maximum price charged.

(c) Such person shall, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942, submit such reports to the Office of Price Administration and keep such other records in addition to or in place of the records required in paragraph (a) of this section, as the Office of Price Administration may from time to time require.

SEC. 14. *Licensing.* The provisions of Licensing Order No. 1,[4] licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

ARTICLE III—PROVISIONS RELATING TO SALES AT RETAIL

SEC. 15. *The zone retail prices.* The maximum retail prices for goat meat in each price zone as defined in section 21 are as follows:

MAXIMUM RETAIL PRICES IN CENTS PER POUND

Item	Zone 1	Zones 2 3, and 4	Zone 5	Zone 6	Zone 7	Zone 8	Zone 9	Zone 10

17. Tripe	8	5	6	6	7	7	8	8

[1] This item may be sold only in the form of carcasses or sides.

[4] 8 F.R. 13240.

SEC. 16. *What goat meat may be sold at retail.* After this regulation takes effect, the only goat meat which retailers may sell are those items which are given dollars-and-cents ceiling prices in section 15: *Provided, however,* That products containing goat meat for which maximum retail prices have not been established under this regulation may be sold at retail at maximum prices determined under the General Maximum Price Regulation, unless otherwise controlled by a specific price regulation. The retail cuts must be made in the manner described in section 22.

SEC. 17. *Species identification.* Every goat carcass must be marked with the word "Goat" if it is not a kid goat carcass as defined in section 22, and with the words "Kid Goat" if it is a kid goat carcass as defined in section 22, before it can be sold, offered for sale, or delivered to the retailer. The marking must be made in the manner prescribed in section 9 of this regulation. If the retailer slaughters the animal himself, he must mark the carcass in the manner designated. The species identification mark must be left on the retail cuts.

SEC. 18. *Ceilings must be posted.* Not later than March 21, 1944, any retailer selling goat meat must post at the counter of his meat department in one or more places, where it may be easily seen and read by his customers, the list of maximum retail prices applicable to his zone as set forth in the table in section 15. The list shall be printed in letters at least one inch in height and entitled "O. P. A. Ceiling prices for Goat Meat." If any goat meat is displayed, as in the show case, the retailer must display upon the meat the ceiling price for that item.

SEC. 19. *Records, sales slips, and receipts.* After February 29, 1944, the retailer shall keep the same kind of records he has customarily kept, showing the prices he is charging for goat meat. He shall show the records to any representative of the Office of Price Administration upon request. If the retailer has customarily given a customer a sales slip, receipt or similar evidence of purchase, he shall continue to do so. Furthermore, regardless of his previous custom, he shall, upon request by any customer, give a receipt showing the date, his name and address, the name of the goat meat item and weight sold and the price he received for it.

SEC. 20. *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 22. *Definitions.* When used in this regulation, the term:

(1) "Person" includes any individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing: *Provided,* That no punishment provided by this Maximum Price Regulation No. 514 shall apply to the United States or to any such government, political subdivision, or agency.

(2) "Seller" means any person who sells, supplies, disposes, barters, exchanges, transfers, or delivers, or contracts or offers to do any of the foregoing, including but not limited to a car route or packer's branch house. Where a person makes sales from more than one place of business, each separate place of business of such person shall be deemed to be a separate seller. Each distribution point from which a car route or car routes originate shall be deemed a separate seller.

(3) "Sales at retail" means sales to the ultimate consumer: *Provided,* That no wholesaler, processor, packer, slaughterer, branch house, hotel supply house, purchaser for resale, car route, commercial user, purveyor of meals, or government agency shall be deemed to be an ultimate consumer, except that a sale to a purveyor of meals on usual retail terms by a retailer at least 80% of whose sales of meat during the preceding calendar month were made to ultimate consumers shall be deemed a sale at retail.

(4) "Retailer" means a seller regularly and generally engaged in making sales at retail.

(5) "Carload" means:

(i) A shipment by rail of fresh or frozen wholesale meat cuts, and/or cured meat cuts, meat or processed products and/or carcasses, or any combination of the foregoing to a single delivery point, of at least the minimum weight upon which the railroad carload rate from the point of shipment to the delivery point, as evidenced by the tariffs of railroad carriers is based: *Provided,* That where the transportation charge for shipment of a lesser weight at the railroad carload rate would be lower than the transportation charge for such a shipment at the railroad less-than-carload rate, such lesser weight shall be considered a carload;

(ii) A shipment by motor truck or trucks to a single delivery point of 15,000 pounds or more of fresh or frozen wholesale meat cuts and/or cured meat cuts, meat or processed products and/or carcasses, or any combination of the foregoing, as a single bulk sale transaction; and

(iii) Any single bulk sale transaction wherein the buyer takes delivery at the seller's place of business of 15,000 pounds or more of fresh or frozen wholesale meat cuts and/or cured meat cuts, meat or processed products and/or carcasses, or any combination of the foregoing.

(6) "Purveyor of meals" means:

(i) Any restaurant, hotel, cafeteria or establishment which purchases meats and where meals, food portions or refreshments are served for a consideration.

(ii) The War Shipping Administration of the United States.

(iii) Any person operating an oceangoing vessel engaged in the transportation of cargo or passengers in foreign, coastwise or intercoastal trade, to the extent that meat is delivered to him as ship's stores for consumption aboard such vessel.

(iv) Any hospital, asylum, orphanage, prison or other similar institution, which is operated by any federal, state, or local government or agency thereof.

(v) "Contract school" means and includes any person who is feeding, pursuant to a written contract with an agency of the United States, personnel of the armed services of the United States, fed under the command of a commissioned or non-commissioned officer or other authorized representative of the armed services of the United States.

(7) "Wholesaler" means a person who buys goat meat for resale other than at retail and who does not own or control in whole or substantial part, any slaughtering plant or facilities, and who is not owned or controlled, in whole or in substantial part, by another person who owns or controls in substantial part any slaughtering plant or facilities.

(8) "Processor" means a person who manufactures products containing goat meat.

(9) "Goat meat" means the whole or any portion of the carcass of the goat or caprine animal of any age, including any by-product of goat or kid goat slaughter which is listed in section 10 or section 15.

(10) "Kid goat carcass" or "cabrito" means the entire carcass or side of the young goat slaughtered when approximately 20 weeks old or less, the whole carcass weighing not more than 15 pounds, dressed, and which has been dressed hide off; feet off at the ankle joints, head on or head off, all internal organs and viscera except kidneys removed, which shows evidence of milk feeding as denoted by the characteristics of the flesh and fat and which has the color and texture of the flesh and the color and consistency of the fat and bones characteristic of young kid goats. The liver of the kid goat may be sold with and considered a part of the kid goat carcass.

(11) "Goat carcass" means any goat carcass which has passed the kid goat or cabrito stage as defined in paragraph (10) of this section, and which is dressed skin off, feet off at the ankle or pastern joints, head removed and all internal organs except kidneys removed.

(12) "Boneless goat meat" means boneless meat from all parts of the goat carcass boned in accordance with the best commercial practice. In preparing this meat, all cords, sinews, neck straps, kidneys, and melts shall be excluded. No trimmable fat in excess of 8 percent in weight is to be left on the meat.

(13) When referring to goat meat, the term

(i) "Brains" means both brain lobes, the small knob at the base of the brain and a short piece of spinal cord.

(ii) "Cheek meat" means all the meat from the head, including the lips and glands.

(iii) "Hearts" means hearts with heart valve attached free of blood clots and with an aorta not over one inch in length.

(iv) "Kidneys" means kidneys free from spots and reasonably free from fat.

(v) "Livers" means livers from which the gall bladder and connective tissue have been removed and which are free of white spots.

(vi) "Sweetbreads" means the thymus glands. They are to be free from fat.

(vii) "Tongues" means goat tongues trimmed so as to leave the epiglottis on the tongue. The hinge bones are to be cut flush with the butt end of the tongue. All fat is to be trimmed from the base of the tongue.

(viii) "Tripe" means paunches (stomachs) thoroughly cleaned by washing and scalding according to B. A. I. instructions or similar good commercial methods.

(14) "Leg, whole or half" means the leg of the goat carcass sold in one piece or cut in halves. The legs are separated from the loin by cutting squarely in a line at a right angle to the chine bone, just exposing the end or point of the hip bone and leaving all of the hip bone in the leg. The cut shall be made in a straight line which is perpendicular to the contour of the outside or skin surface of the hindsaddle. The pair of legs is then split through the center to make the single leg.

(15) "Loin roast or loin chops." "Loin, double or single", means the part of the hindsaddle or hindquarter which

remains after the legs or leg have been removed. The hindsaddle or hind quarter is separated from the foresaddle or forequarter by cutting between the 12th and 13th ribs, following the curvature of the ribs close to the 12th rib to the point where the 12th rib turns, then completing the cut through the flank at a right angle to the chine bone. The loin is separated from the hindsaddle by cutting squarely in a line at a right angle to the chine bone, just exposing the end or point of the hip bone, leaving none of the hip bone in the loin. The cut shall be made in a straight line which is perpendicular to the outside or skin surface of the hindsaddle. The loin includes the 13th rib and is not trimmed, i. e. it includes the flank, kidney and fat. The double loin is split in half through the center of the chine bone to make two single loins. "Loin roast" means the single loin after removing the kidney, the suet surrounding the kidney and three inches of the flank. "Loin chops" means chops cut from the single loin after removing the kidney and three inches of the flank.

(16) "Rib roast or rib chops". The "rib, double or single", is made by cutting the foresaddle or forequarter, starting at a point on the 12th rib not more than four inches down from the point of the eye, cutting in a straight line to a point on the 5th rib which is not more than four inches from the inside protruding edge of the chine bone. It is then separated from the yoke or rattle by cutting between the 4th and 5th ribs following the curvature of the ribs close to the 4th rib. The double rib may be split through the center of the chine bone to make two single rib sections. "Rib roast" means either the double rib sold in one piece or the single rib sold in one piece. "Rib chops" means chops cut from the single rib by splitting between the ribs.

(17) "Yoke", "rattle" or "triangle" means the foresaddle or forequarter minus the rib which has been removed as described in paragraph 16 of this section. It consists of the neck, brisket, breast, foreshanks and shoulders. It may be split in half through the chine bone and neck bone.

(18) "Square cut chuck or shoulder, neck off, bone in," means a cut made from the yoke by cutting in a straight line starting at a point on the 4th rib not more than four inches from the inside protruding edge of the chine bone on the inside, cutting in a straight line through a point at the forward end of the first segment of the sternum or breast bone. This cut will separate the shoulder from the brisket, breast, and shank. When the shoulder has been separated from the breast and shank the only bone to show on the side of the shoulder other than the ribs is the arm bone. The full neck also shall be removed. The square cut shoulder may be split through the center of the chine bone.

(19) "Shoulder chops, blade or arm chops" means any chops cut from the cross-cut shoulder, and shall not contain any portion of the shank or neck. Shoulder chops also include chops cut from the rib which contain any segment of the shoulder blade bone or shoulder blade cartilage.

(20) "Stew meat—breast, flank, shank, neck, bone in" means either the breast, shank, flank or neck or any combination of them, sold as entire cuts, or separated into small pieces.

(21) "Boneless stew" means boneless meat from any part of the goat or kid carcass from which all bones have been removed. Head meat, glandular meats, blood, cartilage, and gristle, shall not be put into boneless stew.

(22) "Ground goat meat" means any part of the goat or kid carcass which has been boned and ground. Head meat, glandular meats, blood, cartilage, gristle, bone, cereal of any kind, or any other ingredient except seasoning shall not be put into ground goat meat.

SEC. 23. *Appendix A: Formula for meat marking fluid.* The following formula has been approved by the United States Department of Agriculture, Bureau of Animal Industry, Meat Inspection Laboratory, to be used for marking meats under the provisions of meat inspection laws:

Water (gallons)	45
Pure grain alcohol, 95 percent (gallons)	38
Granulated cane sugar (pounds)	100
Methyl violet (pounds)	10

The methyl violet is dissolved in the alcohol and a portion of the water; the sugar is dissolved in the remaining portion of the water and added to the methyl violet solution. Thorough stirring facilitates solution of the methyl violet.

It is not necessary that the above-mentioned formula be adhered to in every detail, but the proportions indicated should not be subjected to any considerable variation; otherwise the marking qualities of the fluid may be impaired. Instead of the pure grain alcohol specified in the formula, there may be employed pure grain alcohol, denatured according to Formula 33 of the United States Bureau of Internal Revenue. When such denatured alcohol is used, it should be employed in the proportion indicated above. No additional methyl violet should be added. Instead of granulated cane sugar, pure granulated glucose may be added in the same proportion, or heavy corn syrup, if of suitable purity, may be used, provided due allowance is made for the water introduced in that way. All the ingredients used in preparing the marking fluid must be free from poisonous and harmful substances.

Effective date. This Maximum Price Regulation No. 514 shall become effective March 1, 1944.

NOTE: The reporting and record keeping provisions of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 24th day of February 1944.

[RO 6A,[1] Amdt. 7]

MEN'S RUBBER BOOTS AND RUBBER WORK SHOES

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Ration Order 6A is amended in the following respect:

1. Section 2.16 is added to read as follows:

SEC. 2.16 *Transfers to and by the Procurement Division of the Treasury Department.* (a) Certificates need not be collected when rubber footwear is transferred by an agency of the United States Government to the Procurement Division of the Treasury Department, if the rubber footwear is acquired by the Procurement Division for transfer.

(b) The Procurement Division of the Treasury Department may dispose of the rubber footwear in the same way that an establishment is permitted by this order to transfer rubber footwear. (However, for that purpose, the Procurement Division need not register as an establishment.) Not later than the twentieth day following the month in which any transfer is made, the Procurement Division shall account to the National Office of the Office of Price Administration for certificates covering the number of pairs of each type of rubber footwear transferred.

This amendment shall become effective February 29, 1944.

FOOD RATIONING REGULATIONS FOR THE VIRGIN ISLANDS

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Ration Order 10 is amended in the following respects:

1. The paragraph preceding § 1407.601 is deleted and the following paragraph is substituted therefor:

Pursuant to the authority vested in the Office of Price Administration by Directive No. 1 of the War Production Board issued January 24, 1942, and by Food Distribution Administration Directives No. 3 and No. 9, issued February 15, 1943 and July 13, 1943, respectively, *It is hereby ordered*, That:

AUTHORITY: §§ 1407.601 to 1407.900, inclusive, issued under Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong., by Pub. Law 507, 77th Cong., and by Pub. Law 421, 77th Cong.; E.O. 9250, 7 F.R. 7671; WPB Directive No. 1; E.O. 9280, 7 F.R. 10179; F. D. A. No. 3, 8 F.R. 2005, F. D. A. No. 9, 8 F.R. 9600.

2. Section 1407.623 is added to read as follows:

§ 1407.623 *Commodities subject to this ration order.* (a) The following commodities are subject to this ration order:

(1) Corn meal.

3. Section 1407.662 is added to read as follows:

§ 1407.662 *Transfers to consumers.* (a) Notwithstanding the terms of any contract, agreement or commitment, regardless of when made, a distributor or other person may transfer a commodity subject to this ration order to a consumer, and a consumer may accept such transfer, only under the following conditions:

(1) At the time of transfer the transferor shall require presentation of a valid War Ration Book or Certificate issued to the transferee or a person on whose behalf he is acting and shall detach from such War Ration Book stamps designated for the particular commodity and for the period in which the transfer is made, or shall require surrender of a valid certificate having a weight value equal to the quantity of the rationed commodity transferred.

4. The table in § 1407.687 is amended to read as follows:

Ration periods	Stamp valid during ration period	Weight value of stamp
No. 1—Jan. 10 to Jan. 16, 1944.	Book 1 Stamp 1.	2 pounds of corn meal.
No. 2—Jan. 17 to Jan. 23, 1944.	Book 1 Stamp 2.	2 pounds of corn meal.
No. 3—Jan. 24 to Jan. 30, 1944.	Book 1 Stamp 3.	2 pounds of corn meal.
No. 4—Jan. 31 to Feb. 6, 1944.	Book 1 Stamp 4.	2 pounds of corn meal.
No. 5—Feb. 7 to Feb. 13, 1944.	Book 1 Stamp 5.	2 pounds of corn meal.
No. 6—Feb. 14 to Feb. 20, 1944.	Book 1 Stamp 6.	2 pounds of corn meal.
No. 7—Feb. 21 to Feb. 27, 1944.	Book 1 Stamp 7.	2 pounds of corn meal.
No. 8—Feb. 28 to Mar. 5, 1944.	Book 1 Stamp 8.	2 pounds of corn meal.

NOTE: In the municipality of St. Croix only, the value of Stamps No. 2 to No. 8, inclusive, is three pounds of corn meal.

5. Section 1407.704 is added to read as follows:

§ 1407.704 *Designation of amount of rationed commodities allowed per person served by institutional user.* (a) For computing the amount of the ration of a person for institutional use, pursuant to § 1407.703, the allowance per person served shall be 8 pounds per person per month of corn meal, except that in the municipality of St. Croix it shall be 12 pounds.

This amendment shall become effective January 10, 1944.

(Pub. Law 671, 76th Cong., as amended by Pub. Laws 89, 421 and 507, 77th Cong.; E.O. 9250, 7 F.R. 7671; WPB Dir. No. 1, E.O. 9280, 7 F.R. 10179; F.D. No. 3, 8 F.R. 2005; F.D. No. 9, 8 F.R. 9600)

[Rev. RO 13,[1] Amdt. 11]

PROCESSED FOODS

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Section 10.20 is added to read as follows:

SEC. 10.20 *Government agencies may transfer processed foods point free to the Procurement Division of the Treasury Department.* (a) No points need be given up for a transfer of processed foods by a government agency to the Procurement Division of the Treasury Department when the processed foods are acquired by the Procurement Division for sale or transfer.

(b) The Procurement Division of the Treasury Department may dispose of those processed foods only by a sale or transfer in the same way that a retailer is permitted to sell or transfer processed foods. (However, for that purpose, the Procurement Division need not register as a retailer.) Not later than the twentieth day following the month in which any transfer is made, the Procurement Division shall account to the Office of Price Administration for points equal to the point value of the processed foods sold or transferred under this paragraph.

This amendment shall become effective February 29, 1944.

PART 1439—UNPROCESSED AGRICULTURAL COMMODITIES

[MPR 515[2]]

SOYBEANS OF THE 1943 CROP

In the judgment of the Price Administrator the maximum prices herein established are generally fair and equitable and will reflect to producers of soybeans the highest of the prices required by the provisions of the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328.

A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Such specifications and standards as are used in this regulation have previously been promulgated and their use lawfully required by another Government Agency. So far as practicable the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

§ 1439.12 *Maximum prices for sales of soybeans.* Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328, Maximum Price Regulation No. 515 (Soybeans of the 1943 Crop) which is annexed hereto and made a part hereof, is hereby issued.

AUTHORITY: § 1439.12 issued under 56 Stat. 23, 765; Pub. Law 151, 78th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681.

Appendix A—Base price.

SECTION 1. *Applicability.* Except as provided in paragraph (a) of this section this regulation shall apply to all sales within the 48 states and the District of Columbia of the United States of raw and unprocessed soybeans of the 1943 crop.

(a) *Sales excepted.* This regulation shall not apply to

(1) Any sale or delivery of soybeans sold for use as seed for planting in 1944;

(2) Any sale or delivery of soybeans specially cleaned for use in the production of any products for human consumption not involving the extraction of soybean oil;

(3) Any sale or delivery of soybeans to the Commodity Credit Corporation pursuant to processors' contracts under the Commodity Credit Corporation 1943 soybean program;

(4) Any sale or delivery of soybeans by the Commodity Credit Corporation; or

(5) Any export sale of soybeans. The maximum price at which any person may export soybeans of the 1943 crop shall be determined in accordance with the provisions of the Second Revised Export Price Regulation.*

SEC. 2. *Sales at other than maximum prices.* (a) Regardless of any contract or obligation, no person shall sell or deliver, and no person shall, in the course of trade or business, buy or receive any soybeans whose transfer is covered by this regulation at a price above the maximum price established by this regulation, nor shall any person agree, solicit, offer or attempt to do any of the foregoing except as provided in the following subparagraph (1) of this paragraph (a).

(1) Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery, but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. Such authorization shall be given by an order issued by the Administrator or by any official of the Office of Price Administration having authority to act upon the pending request for a change in price or to give the authorization.

(b) Prices lower than the maximum prices established by this regulation may be charged or paid.

SEC. 3. *Special charges except as specifically provided.* The maximum prices herein provided shall not be increased by any other charges whatsoever including but not limited to duties, brokerages, commissions, storage, insurance, carrying or handling charges and charges for the extension of credit.

SEC. 4. *Addition of transportation tax.* Whenever a maximum price is determined by the addition of transportation charges, the seller may include as a part of such transportation charges the 3 percent transportation tax, when incurred, as provided for under section 620 of the Revenue Act of 1942.

SEC. 5. *Records and reports.* (a) Every seller subject to this regulation shall keep for inspection by the Office of Price Administration, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect his customary records including, if any, all bills, invoices and other documents relating to every sale or delivery of soybeans after the effective date of this regulation.

(b) Upon demand every such seller shall submit such records to the Office of Price Administration and shall keep such further records as the Office of Price Administration may from time to time require, subject to the approval of the Bureau of the Budget.

SEC. 6. *Evasion.* The maximum prices set forth in this regulation shall not be evaded in any manner whatsoever in connection with any offer, solicitation, agreement, sale, delivery, purchase or receipt of, or relating to soybeans alone, or in conjunction with any other charge, discount, premium or privilege, or by tying agreement or other trade understanding or by changing a previous business practice.

SEC. 7. *Enforcement.* Persons violating any provision of this regulation are subject to the license revocation or suspension provisions, civil enforcement actions, suits for treble damages and

criminal penalties as provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 8. *Licensing.* The provisions of Licensing Order No. 1 [4] licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended. These provisions do not apply to any producer selling soybeans produced by him.

SEC. 9. *Protests and petitions for amendment.* Any person desiring to file a protest against or seeking an amendment to any provision of this regulation may do so in accordance with the provisions of Revised Procedural Regulation No. 1 [5] issued by the Office of Price Administration.

SEC. 10. *Definitions.* The definitions set forth in the General Maximum Price Regulation shall apply to this regulation except as follows:

"Producer" means, with respect to any lot of soybeans, a person who grows or harvests the soybeans, whether land owner, landlord or tenant.

"Country elevator" means, with respect to any lot of soybeans, a person who has received the soybeans from producers or trucker-merchants and who has placed them in storage such as in an elevator or warehouse.

"Trucker-merchant" means, with respect to any lot of soybeans, a person who purchases soybeans at the farm from the producer and delivers them to a buyer by truck without warehousing.

"Actual lawful transportation charges necessarily incurred" includes a reasonable charge for transportation, not in excess of any lawful maximum price therefor, when such transportation service is furnished by a seller who owns or controls the means of transportation.

"Supplier" means, as to any seller, the person from whom he purchased the soybeans being priced.

SEC. 11. *Maximum prices for sales of soybeans*—(a) *Sales by a producer.* The maximum price for a sale by the producer of soybeans, bulk, shall be the applicable price set forth in Appendix A, regardless of where the purchaser takes delivery from the producer.

(b) *Sales by a trucker-merchant.* The maximum price for the sale by a trucker-merchant of soybeans, bulk, delivered to the purchaser, shall be the applicable price set forth in Appendix A, plus 1 cent per bushel plus a transportation charge for the transportation service rendered by him not exceeding the lowest common carrier rate between the points applicable to the shipment, or, if no such rate exists, the reasonable charge for such service.

(1) A trucker-merchant shall, with respect to every sale of soybeans by him, render an invoice to his purchaser stating separately the price for the soybeans and the transportation charge being made; the invoice shall also show the name and address of the producer, the quantity secured at that point, the date of purchase, and the name and address of the trucker-merchant.

(c) *Sales by a country shipper.* The maximum price for the sale of soybeans, bulk, by a country shipper, shall be the applicable price set forth in Appendix A, plus 5 cents per bushel, plus actual lawful transportation charges necessarily incurred by the seller in delivering to his purchaser from his storage facilities.

(d) *All other sales.* The maximum price for the sale of soybeans by any seller not specifically provided for in paragraphs (a)through (c) of this section, shall be the maximum price which the seller's supplier could lawfully have charged the seller, plus actual lawful transportation charges necessarily incurred by the seller in delivering to his purchaser, plus, to the extent permitted under subparagraph (1) of this paragraph, a maximum markup of 2½ cents per bushel if the seller warehouses the lot of soybeans being priced, or 1½ cents per bushel in all other cases.

(1) The aggregate markup for all sales by all sellers whose maximum prices are established under this section shall not exceed the applicable maximum markup specified in this paragraph, and the markup which a subsequent seller may add on resale is reduced or eliminated, as the case may be, by the amount of the markups taken by prior sellers establishing a maximum price under this paragraph (d).

APPENDIX A—BASE PRICES

All prices herein are for a bushel consisting of 60 pounds of soybeans free of dockage.

(a) *Base prices for soybeans of grades 2, 3 and 4.* The base prices per bushel for soybeans of grades 2, 3 and 4, as set forth in the Handbook of Official Grain Standards of the United States, issued by the United States Department of Agriculture, are as follows:

SCHEDULE I

	17.1% to 18% (incl.)		

(b) *Base prices for soybeans grading lower than U. S. Standard No. 4*—(1) *Excessive moisture content.* The base price per bushel for soybeans with a moisture content in excess of 18% shall be determined by deducting from the base price for a No. 4 soybean of the same class having 18% of moisture, 1½ cents per bushel for each full ½ percent of moisture in excess of 18%.

(2) *All other factors.* The base price per bushel for soybeans grading lower than U. S. Standard No. 4 because of any other factor shall be determined by deducting, either from the prices listed in Schedule I above for the U. S. No. 4 soybean of the same class and having the same moisture content or from the price determined under paragraph (a) of this section, whichever is applicable, all of the discounts applicable to the soybeans being priced and listed in Schedule II as follows:

SCHEDULE II

(The deductions specified herein are cumulative)

Grading Factor	*Deduction*
Test Weight	½ cent per bushel for each pound or fraction thereof under 49 pounds.
Splits	¼ cent per bushel for each full 5 percent in excess of 30 percent.
Damage—other than green damage.	[1] ½ cent per bushel for each 1% or fraction thereof in excess of 8%, up to 25%. 1 cent per bushel for each 1% or fraction thereof in excess of 25% up to 60%. 1½ cents per bushel for each 1% or fraction thereof in excess of 60%.
Green damage	[1] 1 cent per bushel for green damage in excess of 8% damage up to 15%. An additional 1 cent for each 5% or fraction thereof in excess of 15%.
Foreign material other than dockage.	Weight of foreign material in excess of 5%, rounded to nearest 1 percent, shall be deducted from total weight of soybeans delivered after dockage has been deducted.

[1] When soybeans contain total damage in excess of 8%, the first 8% total damage shall be considered to be damage other than green damage.

CARDED GREY AND COLORED-YARN COTTON GOODS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Section 1316.58a is added to read as follows:

§ 1316.58a *Applications for adjustment of maximum prices for denim.* (a) Any manufacturer required by direction of the War Production Board to produce denim may file an application for adjustment of the maximum prices applicable to denim which he produces.

(b) An adjustment will be granted to the extent that existing maximum prices are found by the Office of Price Administration to be lower than:

(1) Total unit cost of manufacturing and selling applicant's denim; or

(2) If the net profits before income taxes (computed in relation to net worth) currently realized by applicant from his total operations are less than twice those realized during the years 1936–1939, or less than 5.7%, then 102% of the total unit cost of manufacturing and selling applicant's denim. The adjustment will be made on the basis of applicant's denim production taken as a whole; it will be assumed that the denim card, as appropriately extended if necessary, establishes proper differentials between different finishes and different weights. Earnings of other companies owning, owned by, or affiliated with the applicant will be taken into consideration in comparing current profits with profits during 1936–1939.

(c) Any application filed hereunder shall conform with the instructions contained in Subpart B of Revised Procedural Regulation No. 1, issued by the Office of Price Administration.

(d) Any application filed hereunder may be denied in whole or in part, and any adjustment granted hereunder may be revoked or modified, if price relief is granted to applicant in any alternative manner consistent with the program outlined in a letter from the Director of Economic Stabilization to the Price Administrator and the Chairman of the War Production Board dated November 16, 1943 and any modifications thereof which have been or may be made.

This amendment shall become effective February 24, 1944.

NOTE: The reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 1351—FOOD AND FOOD PRODUCTS

[MPR 280,[1] Amdt. 42]

CAKE AND FLOUR MIXES

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.*

Maximum Price Regulation No. 280 is amended in the following respects:

1. Section 1351.801 (e) is amended to read as follows:

(e) *Cake mixes and flour mixes in bulk and "packaged" in quantities greater than 3 pounds.* All combinations of flour with any other ingredients in so far as their sale is not covered by Maximum Price Regulation 421,[2] 422,[3] 423,[4] or 462.[5]

2. Section 1351.803 is amended by adding the following sentence after the section headnote and before the paragraph designation (a) "The provisions of this section apply to sales of listed food products other than sales of cake mixes and flour mixes (referred to in § 1351.801 (e), above) made with enriched flour or containing any added enriching ingredient."

3. Section 1351.803b is added to read as follows:

§ 1351.803b *Maximum prices for sales of cake mixes and flour mixes made with enriched flour or containing any added enriching ingredient, in bulk and "packaged" in quantities greater than 3 pounds*—(a) *Explanation of this section.* The purpose of this section is to establish maximum prices for cake mixes and flour mixes (other than pancake mix and waffle mix) made with enriched flour or containing any added enriching ingredient, in bulk and "packaged" in quantities greater than 3 pounds. (Maximum prices for pancake mix and waffle mix, in sales by persons other than wholesalers and retailers, are governed by Maximum Price Regulation No. 462.) Prices established by this section are in effect on and after March 2, 1944.

(b) *Maximum prices.* (1) A seller's maximum price per pound or other unit to any class of purchasers for cake mix or flour mix, in bulk or "packaged" in quantities greater than 3 pounds, made with enriched flour shall be the sum of:

(i) His maximum price to the same class of purchasers under § 1351.803 for the same kind, grade, quality and container type and size of cake mix or flour mix that is not made with enriched flour and does not contain any added enriching ingredient; and

(ii) $0.125 per one hundred pounds of the finished product if all of the flour used is enriched flour, otherwise the figure which results from multiplying $0.125 by the result obtained by dividing the number of pounds or other units of enriched flour content by the number of pounds or other units of the entire flour content.

(2) A seller's maximum price per pound or other unit to any class of purchasers for cake mix or flour mix, in bulk or "packaged" in quantities greater than 3 pounds, not made with enriched flour, but containing any added enriching ingredient, shall be the sum of

(i) His maximum price to the same class of purchasers under § 1351.803 for the same kind, grade, quality and container type and size of cake mix or flour mix that is not made with enriched flour and does not contain any added enriching ingredient; and

(ii) The processor's actual cost for the added enriching ingredient or ingredients contained in the cake mix or flour mix: *Provided*, That in figuring the maximum price the seller shall exclude from the computation any actual cost for the added enriching ingredients in excess of $0.125 per one hundred pounds of the finished product. "Actual cost" means the amount (not in excess of his supplier's maximum price) which the processor pays for the added enriching ingredients delivered to his customary receiving point (less all discounts allowed him except the discount for prompt payment), plus his direct labor cost for adding those ingredients to the cake mix or flour mix being priced.

(c) *Individual authorizations of maximum prices.* If the processor's maximum price for any item of cake mix or flour mix made with enriched flour or containing any added enriching ingredient, in bulk or "packaged" in quantities greater than 3 pounds, cannot be determined under paragraph (b), he shall apply to the Office of Price Administration, Washington, D. C., for a maximum price. His application shall set forth (1) a description in detail of the item for which a maximum price is sought, including its grade and the brand name to be used, if any, the number of packages in each shipping case, and a statement of the facts which make it different from the most similar item for which he has determined a maximum price, identifying the similar item and stating its maximum price; (2) an itemized current cost breakdown of the item to be priced, showing separately, according to his own system of accounts or regularly prepared operating statements, all major component cost factors (e. g., direct costs—raw materials, packaging materials and direct labor; indirect costs, such as indirect labor, factory overhead and selling, advertising and administrative cost, together with an explanation showing the method of allocation of the indirect cost factors; and freight if sold on a delivered basis) indicating whether each cost item is an actual or an estimated cost, and the identical current cost breakdown of the most closely comparable food commodity which contributes substantially to his total volume of business; (3) the desired selling price for the item, including a statement showing the necessity for the desired selling price, any discounts or allowances which should be made applicable to the desired price, and (for comparison) the maximum selling price, with discounts and allowances, for the second commodity included in subparagraph (2), above; and (4) the method of distribution to be employed by the processor in marketing the new commodity (i. e., whether it is to be sold to wholesalers, retailers, consumers, persons who will further process the commodity, or other classes of purchasers). Upon receipt of such application the Office of Price Administration will authorize the maximum price or a method of determining the maximum price for the applicant or for sellers of the item generally including purchasers for resale or for a class of such purchasers.

Until a maximum price is authorized, the applicant may deliver the item but he may not render an invoice or receive payment for it.

Where any cost factor set forth in the application is an estimated amount, the processor shall file with the Office of Price Administration, Washington, D. C., not later than six months and not earlier than three months after his maximum price has been authorized, a statement showing the actual cost of that factor in his production of the item since the authorization of the maximum price.

(d) *Meaning of "processor".* "Processor" means a person who manufactures any part of what he sells of the kind of food product being priced.

4. Section 1351.816 (a) (13) and (14) are added to read as follows:

(13) "Added enriching ingredient" means any ingredient which is required to be present in enriched flour by the regulations promulgated under the Federal Food, Drug, and Cosmetic Act.

(14) "Enriched flour" means flour which conforms with the definition and standard of identity prescribed for enriched flour under section 401 of the Federal Food, Drug, and Cosmetic Act.

PART 1364—FRESH, CURED AND CANNED MEAT AND FISH PRODUCTS

[MPR 389,[1] Amdt. 11]

CEILING PRICES FOR CERTAIN SAUSAGE ITEMS AT WHOLESALE

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Maximum Price Regulation No. 389 is amended in the following respects:

1. Section 2 (a) is amended to read as follows:

(a) *General instructions.* (1) The ceiling price for any sale is found by looking at paragraph (a) of section 12, which lists the base price per hundredweight in dollars for each type of sausage. To this price should be added, first, the amount specified in paragraph (b) of that section for the zone in which the point of delivery is located and then, whatever other additions are made permissible by paragraph (c) of that section. The base price, plus the zone differential, plus the permitted additions is the ceiling price. An exception to the above rule for determining the ceiling price applying only to intermediate distributors of kosher sausage, all beef sausage and Type 1 special pork sausage is stated in the following paragraph.

(2) The ceiling price for a sale of kosher sausage, all beef sausage or Type 1 special pork sausage by an intermediate distributor shall be computed in accordance with the provisions of the preceding paragraph with the following exception: If the addition for transportation charges provided for in section 12 (c) (4) is added to the base price, the zone differential specified in section 12 (b) for the zone in which the sausage was manufactured shall be added to the base price in place of the zone differential specified in section 12 (b) for the zone in which the point of delivery is located.

2. Section 2 (b) (1) (i) is amended to read as follows:

(i) Local delivery means delivery by any vehicle, other than a rail carrier, made by the seller from the seller's place of business to the buyer's store door.

3. Item (1) (ii) of the price table in section 12 (a) is amended to read as follows:

Item—Kind of sausage and kind of casing	Type 1—special pork	Type 2—skeletal pork	Type 3—meat; by-products; cereal to 3½%	Type 4—meat by-products; cereal over 3½%
(ii) Smoked:				
Hog casings (H. C.) or skinless	----------	31.75	27.50	21.00
Artificial casings (A. C.)	----------	31.25	27.00	20.50
Beef rounds (B. C.)	----------	----------	25.00	18.50

Section 12 (c) (1) is amended to read as follows:

(1) *Selling costs.* One of the following amounts may be added to cover the cost of selling:

(i) On sales to wholesalers, peddler truck sellers and hotel supply houses	$0.50
(ii) On sales to retailers and purveyors of meals made by other than hotel supply houses	1.50
(iii) On peddler truck sales, as defined in the first paragraph and paragraph (1) of the definition in section 13 (a), to retailers and purveyors of meals located in Zone 9 North of the Potomac River	3.00
(iv) Except as provided in the preceding paragraph (iii), on peddler truck sales to retailers and purveyors of meals	2.50
(v) On sales to purveyors of meals by hotel supply houses	2.75

5. Section 12 (c) (2) is amended to read as follows:

(2) *Local delivery.* Where the seller makes local delivery to the buyer's store door, otherwise than by peddler delivery, and treats the point at which local delivery begins as the point of delivery for determining the zone differential to be added to the base price, he may add $0.25 per hundredweight if such delivery is completed within 25 miles of the point from which such local delivery starts, or $0.50 per hundredweight if such delivery is completed over 25 miles from such starting point. A store means a restaurant, hotel, or retail store, or a wholesaler's or hotel supply house's warehouse.

6. The definitions of "Type 3 smoked sausage" and "Type 4 smoked sausage" in section 13 (d) are amended to read as follows:

"Type 3 smoked sausage" means sausage made from the same meat and meat by-product ingredients as permitted in Type 3 fresh breakfast sausage, but cured before or during processing, stuffed in hog casings, beef rounds or artificial casings. It shall have a fat content not in excess of 45 percent, and a yield not in excess of 90 percent, and it may contain extender not exceeding 3½ percent of the finished weight.

"Type 4 smoked sausage" means sausage made from any proportions of meat and meat by-products, including that derived from goats, cured before or during processing, and stuffed in hog casings, beef rounds or artificial casings. It may contain extender not exceeding 15 percent of the finished weight. Water or ice may be added.

This amendment shall become effective February 25, 1944.

PART 1394—RATIONING OF FUEL AND FUEL PRODUCTS

[RO 5C,[1] Corr. to Amdt. 105]

MILEAGE RATIONING: GASOLINE REGULATIONS

Section 1394.8153 (b) is corrected by adding subparagraph (4) to read as follows:

(4) In the States of Georgia and Florida, no transfer in exchange for Class R coupons may be made by any dealer or by any licensed distributor from his retail facility, unless the transferor transports such gasoline from his place of business to some place of delivery selected by the transferee by means of delivery facilities, such as a tank truck, tank wagon or portable drums, which he maintains and regularly uses for the purpose of transporting gasoline in quantities of twenty-five (25) gallons or more, from that place of business to places of delivery selected by the transferees, except transfers made directly into the fuel tanks of motorboats.

This correction shall become effective February 25, 1944.

MILEAGE RATIONING: GASOLINE REGULATIONS FOR PUERTO RICO

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Ration Order 5E is amended in the following respects:

Section 4.1 is amended by the addition of a new paragraph (e) to read as follows:

(e) A Board may in its discretion deny the issuance or renewal of a ration for use with a passenger automobile or commercial motor vehicle if the Tire Inspection Record issued for such vehicle or an inspection of the tires held for use thereon shows that any of the tires mounted on the vehicle or declared or held for use thereon needs recapping and if in the judgment of the Board the issuance or renewal of such ration would permit the holder thereof to drive such passenger automobile or commercial motor vehicle beyond the point where such tire is recappable or in any other way would result in a waste of rubber.

This amendment shall become effective February 25, 1944.

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[Rev. RO 13,[2] Amdt. 12]

PROCESSED FOODS

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Revised Ration Order 13 is amended in the following respects:

1. Section 10.4 (a) is amended to read as follows:

(a) No points need be given up when a person moves stocks of processed foods from one of his establishments to another of his establishments of the same kind, if those establishments are registered together. For example, a person who has two "retail establishments" may move processed foods from one to the other, without exchanging points between them. (However, a record must be kept of the amount of stocks involved in each such movement.) When a person transfers processed foods between establishments of different kinds—for example, from his "wholesale establishment" to his retail establishment—points must be given up just as if those establishments were operated by different persons.

2. The following is inserted between the first and second sentences of section 14.4 (a) (1):

(1) * * * However, a consumer may apply for a certificate with which to replace processed foods only if he has given up points to acquire the foods which are lost, destroyed, stolen, or taken away. (Processed foods reported by a consumer at the time he registered for War Ration Book Two, and for which eight point stamps were removed from his war ration book, are deemed to be processed foods for which he has "given up" points.)

3. Section 14.4 (a) (1) is amended by substituting a semi-colon for the period at the end of (ii) and adding (iii) to read as follows:

(iii) A statement, if the applicant is a consumer, that he gave up points for the processed foods which were lost, destroyed, stolen, or taken away, or that stamps were removed from his War Ration Book Two for such foods.

This amendment shall become effective March 1, 1944.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

MEAT, FATS, FISH AND CHEESES

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Ration Order 16 is amended in the following respects:

1. The following is inserted between the first and second sentences of section 15.1 (a): "However, a consumer may apply for a certificate with which to replace foods covered by this order only if he has given up points to acquire the foods which are lost, destroyed, stolen, or taken away."

2. Section 15.1 (a) is amended by substituting a semicolon for the period at the end of (2) and adding (3) to read as follows:

(3) A statement, if the applicant is a consumer, that he gave up points for the foods which were lost, destroyed, stolen, or taken away.

This amendment shall become effective March 1, 1944.

PART 1420—BREWERY, WINERY AND DISTILLERY PRODUCTS

[MPR 445,[1] Amdt. 12]

DISTILLED SPIRITS AND WINES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation 445 is amended in the following respects:

1. The headnote of section 2.3 and paragraphs (a) and (b) of that section are amended to read as follows:

SEC. 2.3 *Maximum prices for bulk domestic whiskey and for bulk domestic brandy.*

NOTE: "Bulk domestic brandy" comprehends only brandy made from grapes. See definition of brandy in section 7.12 (a) (16).

(a) *Maximum prices for sales in bond.* Any seller's maximum price for a sale of bulk domestic whiskey in bond on an original proof gallon basis or on a regauged proof gallon basis, whether or not made by transfer of warehouse receipt or other evidence of title, shall be determined according to the age of the whiskey and the basis of sale as set forth in paragraph (c) of this section. Any seller's maximum price for a sale in bond of bulk domestic brandy in distiller's original barrels whether or not made by transfer of warehouse receipt or other evidence of title shall be determined according to the age of the brandy to be priced as set forth in paragraph (c) of this section.

Maximum prices set forth in Column 2 also include the amount of United States excise taxes at rates in effect on November 2, 1942.

4. Section 7.3a is added to read as set forth below and the headnote of section 7.3a is added in numerical order to the list of sections in sections 1.10, 2.5, 3.6, 4.11 and 5.9.

SEC. 7.3a *Distribution of packaged distilled spirits or wine.* Any corporation, unincorporated association, company or partnership desiring to transfer or distribute packaged distilled spirits or wine (in the form of warehouse receipts or otherwise) to its shareholders, or to representatives of or a trustee for its shareholders or members, or desiring to offer its shareholders or members as a class, the right to purchase packaged distilled spirits or wine from it either directly or through a trustee or other intermediary, shall file written notice of its intention to do so with the Office of Price Administration, Washington, D. C., at least thirty days prior to the date on which such transfer, distribution or offer is to be made. The notice shall contain a description sufficient to identify for pricing purposes all packaged distilled spirits and wine to be so transferred, distributed or offered for sale, a statement showing the terms of the transfer, distribution, or offer and the classes of shareholders or members to whom it is to be made, and shall be supplemented with such additional information as the Office of Price Administration may deem necessary and request for pricing purposes in the particular case. The Administrator may, on his own motion, at any time before or after receipt of such notice, issue an order establishing maximum prices for any or all persons who may sell packaged distilled spirits or wine to be so transferred, distributed or offered.

(b) No corporation, unincorporated association, company or partnership shall deliver or permit any packaged distilled spirits or wine (in the form of warehouse receipts or otherwise) to be delivered to its shareholders or members pursuant to the proposed transfer, or distribution or purchase right until thirty days after the notice provided for under paragraph (a) of this section has been filed.

This amendment shall become effective March 2, 1944.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

TITLE 36—PARKS AND FORESTS

Chapter II—Forest Service

PART 261—TRESPASS

REMOVAL OF TRESPASSING HORSES FROM UNCOMPAHGRE NATIONAL FOREST

Whereas a number of horses are trespassing and grazing on land in the Uncompahgre National Forest in the State of Colorado; and

Whereas these horses are consuming forage needed for permitted livestock, are causing extra expense to established permittees, and are injuring national-forest lands;

Now, therefore, by virtue of the authority vested in the Secretary of Agriculture by the Act of June 4, 1897 (30 Stat. 35, 16 U.S.C. 551), and the Act of February 1, 1905 (33 Stat. 628, 16 U.S.C. 472), the following order for the occupancy, use, protection, and administration of land in the Uncompahgre National Forest is issued:

Temporary closure from livestock grazing.[1] (a) The Uncompahgre National Forest is hereby closed for the period May 1, 1944 to November 30, 1945 to the grazing of horses, excepting those that are lawfully grazing on or crossing land pursuant to the regulations of the Secretary of Agriculture, or that are used in connection with operations authorized by such regulations, or that are used as riding, pack, or draft animals by persons traveling over such land.

(b) Officers of the United States Forest Service are hereby authorized to dispose of, in the most humane manner, all horses found trespassing or grazing in violation of this order.

(c) Public notice of intention to dispose of such horses shall be given by posting notices in public places or advertising in a newspaper of general circulation in the locality in which the Uncompahgre National Forest is located.

Done at Washington, D. C., this 23d day of February 1944.

Witness my hand and the seal of the Department of Agriculture.

TITLE 46—SHIPPING

Chapter III—War Shipping Administration

[General Order 10, Supp. 2]

PART 302—CONTRACTS WITH VESSEL OWNERS AND RATES OF COMPENSATION RELATING THERETO

FORMULAE FOR CALCULATING THE SEA SPEED OF A VESSEL

Whereas, 1. On May 14, 1942, the Administrator issued General Order 10 setting forth formulae for calculating the sea speed of vessels, which formulae reserved to the Administrator the right to demand a trial over a measured mile or other course approved by the Administrator, and further reserved the right to modify or supplement the formula from time to time;

2. The Administrator has heretofore entered into charter agreements with the owners of vessels providing for a scale of rates and values based upon speed, such speed to be determined in accordance with General Order 10, and has is-

sued insurance binders covering war risk insurance valuations based upon such speed determinations;

3. On December 8, 1942, the Administrator modified and supplemented General Order 10 by issuing Supplement 1 thereto;

4. It now appears that speed certificates calculated pursuant to General Order 10 and Supplement 1 thereto are not satisfactory for certain classes of vessels in that they produce a speed which is in excess of the fair and reasonable speed for the vessels so chartered or insured, and likewise in many instances in excess of the speed contemplated by the parties in connection with such charters and insurance agreements;

5. The Administrator desires to make necessary corrections and adjustments in the formulae set forth in General Order 10, and Supplement 1 thereto so as to avoid certifications of excessive and unreasonably high speeds for vessels chartered or insured by the Administrator;

Now, therefore, *It is hereby ordered*, That: General Order 10 and Supplement 1 thereto are modified, supplemented and superseded so as to read:

§ 302.44 *Method of calculating sea speed of vessels.* The speeds of vessels chartered or insured by the War Shipping Administration on the basis of speed calculations to be determined in accordance with General Order 10 shall be based upon the method of calculation described herein which calculation is to be submitted to the American Bureau of Shipping for checking and certification.

(a) The basis for calculations shall be the data on the vessel as certified in the register of the appropriate Classification Society. The American Bureau Record shall be used except for vessels not having this classification.

(b) The charts and methods outlined in the "Speed and Power of Ships" by D. W. Taylor shall be the basis for determining effective horsepower required, except that of the four methods given therein for wetted surface determination that based on Froude's formula shall be used. Calculations for effective horsepower required shall be made at a speed-length ratio of .60 and corrected to actual speed-length ratio by the cube rule.

(c) The maximum total continuous horsepower available for propulsion (I. H. P., S. H. P., B. H. P.) as determined from the register of the appropriate Classification Society shall be used as a basis for determining the shaft horsepower available except that, for all machinery of a steam reciprocating type, 90 mechanical efficiency shall be used with the I. H. P. The effective horsepower available to be used in conjunction with the speed calculations for single screw vessels shall be determined by multiplying the shaft horsepower available by an appropriate factor based on vessels of 450' length. For all vessels constructed subsequent to January 1, 1925 this factor shall be .50. For vessels constructed prior to January 1, 1925 this factor shall be .50 for vessels having 6,000 SHP or more, .47 for vessels having power less than 6,000 SHP but more than 3,000 SHP, and .44 for vessels having 3,000 SHP or less. The above factors are to be corrected for length with an increase or decrease of .1 per 150' of length that the vessel is greater or less than 450'. (For new vessels 0.4 at 300 feet and 0.6 at 600 feet, etc.)

For twin screw vessels the foregoing factors for single screw vessels shall be reduced by 10%.

§ 302.45 *Other provisions concerning calculation of sea speed; trial in deep water; determinations of the Administrator.* (a) At any time the Administrator has the privilege to request a trial in deep water, either on a standard deep water measured mile or other course approved by the War Shipping Administration. On this trial the operator shall determine to the satisfaction of representatives of the War Shipping Administration the speed at which the vessel runs when the engines are developing 80% of their normal power and the vessel has a mean draft corresponding to its assigned freeboard. All expenses, etc. in connection with such a trial shall be borne by the operator.

(b) Notwithstanding this order, the Administrator will consider the request of any owner for a waiver of the reduction in speed required under this supplement and the acceptance of a speed certificate computed in accordance with General Order 10, Supplement 1, upon submission by the owner of pertinent applicable data proving to the satisfaction of the Administrator that the speed of the vessel as determined in accordance with General Order 10, Supplement 1, is not in excess of fair and reasonable speed satisfactory to the Administrator, but the determinations of the Administrator in this respect shall be final and conclusive.

§ 302.46 *Effective date and applicability.* This order shall be effective as of May 14, 1942 and all certificates heretofore issued by the American Bureau of Shipping shall be corrected, where necessary, to reflect the foregoing if the changes herein are applicable. All certificates of the American Bureau of Shipping heretofore submitted to the Administrator which certify a speed differing from that produced by the foregoing calculations are hereby declared to be unsatisfactory to the Administrator, subject to the provisions of § 302.45 (b) hereof.

8. *Modification or supplementation of formulae.* The formulae set forth herein may be modified or supplemented by such other modifications or formula or formulae as may be adopted from time to time hereafter.

HOPE NATURAL GAS COMPANY

ORDER CONSOLIDATING PROCEEDINGS AND FIXING DATE OF HEARING

FEBRUARY 22, 1944.

Upon consideration of the following applications filed by Hope Natural Gas Company (hereinafter sometimes referred to as "Applicant") for certificates of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended:

(a) Application filed October 6, 1942 (Docket No. G-420), for authority to construct and operate at the West Virginia-Pennsylvania State line facilities to connect with the facilities of Mount Morris Gas Company and to authorize Applicant to sell natural gas to Mount Morris Gas Company for transportation and resale in Pennsylvania; [1]

(b) Application filed March 31, 1943 (Docket No. G-434), for authority to construct and operate 6⅔ miles of 12¾-inch natural-gas pipe line in Geary District, Roane County, West Virginia, to connect Applicant's pipe-line system with the pipe-line system of United Fuel Gas Company at the latter's Lewis Compressor Station for the purpose of increasing the deliverability of Applicant's pipe-line system to serve its present customers in West Virginia, Ohio and Pennsylvania; [2]

(c) Application filed December 16, 1942 (Docket No. G-435), for authority to construct and operate approximately 9¾ miles of 10-inch natural-gas pipe line in Clay District, Harrison County, West Virginia, extending from Applicant's Bridgeport Compressor Station to a point on Applicant's line H-17 leading to its Peora Compressor Station, and the installation and operation of a 500 horsepower gas engine at the Applicant's existing Bridgeport Compressor Station for the purpose of increasing the deliverability of Applicant's pipe-line system to serve its present customers in West Virginia, Ohio and Pennsylvania; [3]

(d) Application filed April 24, 1943 (Docket No. G-466), for authority to acquire from South Penn Natural Gas Company and to operate "such of the facilities hereinafter specified and located in Lewis and Doddridge Counties, West Virginia, as lawfully require such certificate under said section 7":

(i) 5,800 acres of operated leaseholds having drilled thereon some 123 oil wells;

(ii) 2,680 acres of unoperated leaseholds;

(iii) About 65 miles of gathering lines ranging in size from 1-inch to 10-inch;

(iv) One 695 H. P. compressor station with adjacent gasoline extraction plant;

(v) Miscellaneous property and facilities such as warehouses, dwellings and office buildings, meters and regulators; [4]

(e) Application filed December 7, 1943 (Docket No. G-511), for authority to construct and operate at Applicant's existing Cornwell Compressor Station, Kanawha County, West Virginia, the following described facilities:

(i) One gas engine driven gas compressor of 1,000 horsepower;

(ii) Two high stage gas compressors;

(iii) Gas and water coolers and other appurtenant equipment;

In addition, Applicant proposes to revamp some of its existing equipment located at the compressor station. The main changes proposed will consist of strengthening the present station piping system, the replacing of two low stage compressors by high stage compressors and of making a small extension to the present dehydration plant; [5]

(f) Application filed December 7, 1943 (Docket No. G-512), for authority to construct and operate a natural-gas dehydration plant and appurtenant equipment to be located at Applicant's existing Bridgeport Compressor Station in Harrison County, West Virginia; [6]

It appearing to the Commission that:

Good cause exists for consolidating the above-entitled matters for the purposes of hearing;

The Commission orders that:

(A) The proceedings in the above-entitled matters be and they are hereby consolidated for the purposes of hearing;

(B) A public hearing be held commencing on April 12, 1944, at 9:45 a. m., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., respecting the matters involved and the issues presented in these proceedings;

(C) Interested State commissions may participate in this hearing as provided in § 67.4 of the provisional rules of practice and regulations under the Natural Gas Act.

By the Commission.

GODFREY L. CABOT, INC., AND CABOT GAS CORP.

ORDER CONSOLIDATING PROCEEDINGS FOR HEARING AND SUSPENDING PROPOSED INCREASED RATES

FEBRUARY 22, 1944.

It appears to the Commission that:

(a) Godfrey L. Cabot, Inc., is engaged in the sale of natural gas to its wholly-owned subsidiary, Cabot Gas Corporation, and to Producers Gas Company pursuant to the rate schedules designated, respectively, Godfrey L. Cabot, Inc., Rate Schedule FPC No. 1 and Supplement No. 8 thereto and Godfrey L. Cabot, Inc., Rate Schedule FPC No. 5 and Supplement No. 2 thereto. Natural gas so obtained by Cabot Gas Corporation is in turn resold by it to Pavilion Natural Gas Company pursuant to Cabot Gas Corporation Rate Schedule FPC No. 1 and Supplements Nos. 1, 3 and 7 thereto.

(b) Cabot Gas Corporation sells natural gas at retail in the communities of Hume, Fillmore and Rossburg, New York, in addition to its wholesale sales to Pavilion Natural Gas Company. Producers Gas Company distributes and sells natural gas for ultimate public consumption in portions of Cattaraugus and Allegany Counties, New York. Pavilion Natural Gas Company distributes and sells natural gas for ultimate public consumption in Genesee, Livingston and Wyoming Counties, New York.

(c) By a telegram of January 8, 1944, the Commission authorized the New York State Natural Gas Corporation to make emergency deliveries of natural gas to Godfrey L. Cabot, Inc. Such deliveries are to meet the requirements of the customers of Godfrey L. Cabot, Inc., including Cabot Gas Corporation and Producers Gas Company.

(d) On February 14, 1944, Godfrey L. Cabot, Inc., filed rate schedules providing for the sale of the emergency natural gas referred to in paragraph (c), above, to Cabot Gas Corporation and Producers Gas Company at rates higher than those provided for in the rate schedules now in effect and referred to in paragraph (a), above. Such proposed increased rates are contained, respectively, in Supplement No. 10 to Godfrey L. Cabot, Inc., Rate Schedule FPC No. 1 and Supplement No. 3 to Godfrey L. Cabot, Inc., Rate Schedule FPC No. 5.

(e) On February 14, 1944, Cabot Gas Corporation also filed a schedule of increased rates for the sale to Pavilion Natural Gas Company of the emergency natural gas referred to in paragraph (c), above. Such rate schedule is designated Supplement No. 9 to Cabot Gas Corporation Rate Schedule FPC No. 1.

(f) Unless suspended by Commission order, Supplement No. 10 to Godfrey L. Cabot, Inc., Rate Schedule FPC No. 1, Supplement No. 3 to Godfrey L. Cabot, Inc., Rate Schedule FPC No. 5 and Supplement No. 9 to Cabot Gas Corporation Rate Schedule FPC No. 1 will become effective as of March 15, 1944, pursuant to the provisions of the Natural Gas Act and the amended provisional rules of practice and regulations thereunder.

(g) The proposed increased rates provided for in the aforesaid supplemental rate schedules may result in excessive rates to Cabot Gas Corporation, Producers Gas Company and Pavilion Natural Gas Company and may place an undue burden upon ultimate consumers of natural gas.

(h) By an order entered February 2, 1944, In the Matter of Godfrey L. Cabot, Inc., and Cabot Gas Corporation, Docket No. G-523, the Commission suspended certain other proposed increased rates of those two companies and ordered a hearing thereon. The matters in Docket No. G-523 and in this proceeding may involve substantially similar issues.

The Commission finds that:

(1) It is necessary, desirable, and in the public interest that a hearing be

held concerning the lawfulness of the proposed increased rates for the sale of emergency gas and that such proposed increased rates be suspended pending hearing and decision thereon.

(2) Good cause exists for consolidating for purposes of hearing this matter (Docket No. G–529) and the matters involved in Docket No. G–523.

The Commission orders that:

(A) This matter (Docket No. G–529) and the matters involved in Docket No. G–523 be and they are hereby consolidated for the purposes of hearing.

(B) A public hearing be held commencing on March 7, 1944, at 9:45 a. m., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue, N.W., Washington, D. C., concerning the lawfulness of the proposed increased rates, subject to the jurisdiction of the Commission, contained in Supplement No. 10 to Godfrey L. Cabot, Inc., Rate Schedule FPC No. 1, Supplement No. 3 to Godfrey L. Cabot, Inc., Rate Schedule FPC No. 5, Supplement No. 9 to Cabot Gas Corporation Rate Schedule FPC No. 1, and concerning the proposed increased rates suspended in Docket No. G–523.

(C) Pending such hearing and decision thereon, Supplement No. 10 to Godfrey L. Cabot, Inc., Rate Schedule FPC No. 1, Supplement No. 3 to Godfrey L. Cabot, Inc., Rate Schedule FPC No. 5 and Supplement No. 9 to Cabot Gas Corporation Rate Schedule FPC No. 1, insofar as those schedules provide for increased rates other than for the sale of natural gas for resale for industrial use only, be and they are hereby suspended until August 15, 1944, or until such time thereafter as such increased rates shall be made effective in the manner prescribed by the Natural Gas Act.

(D) During the period of such suspension, the rates of Godfrey L. Cabot, Inc., to Cabot Gas Corporation and Producers Gas Company contained, respectively, in Godfrey L. Cabot, Inc., Rate Schedule FPC No. 1 and Supplement No. 8 thereto and Godfrey L. Cabot, Inc., Rate Schedule FPC No. 5 and Supplement No. 2 thereto, and the rates of Cabot Gas Corporation to Pavilion Natural Gas Company contained in Cabot Gas Corporation Rate Schedule FPC No. 1 and Supplements Nos. 1, 3, and 7 thereto shall remain and continue in full force and effect, except insofar as such schedules may be for the sale of natural gas for resale for industrial use only.

(E) At the hearing in these matters, the burden of proof to show that the proposed increased rates are just and reasonable shall be upon Godfrey L. Cabot, Inc., and Cabot Gas Corporation, as provided in section 4 (e) of the Natural Gas Act.

(F) Interested State commissions may participate in said hearing as provided in § 67.4 of the provisional rules of practice and regulations under the Natural Gas Act.

By the Commission.

OFFICE OF PRICE ADMINISTRATION.

[Order A–1 Under MPR 188, Amdt. 28]

DENNING'S POINT BRICK CO., ET AL.

MODIFICATION OF MAXIMUM PRICES

Amendment No. 28 to Order No. A–1 under § 1499.159b of Maximum Price Regulation No. 188. Manufacturers' maximum prices for specified building materials and consumers' goods other than apparel.

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Subparagraph (a) (6) of Order No. A–1 is amended to read as follows:

(a) *Modification of maximum prices of Maximum Price Regulation No. 188.* The provisions of Maximum Price Regulation No. 188 as applied to certain commodities subject thereto are modified in accordance with § 1499.159b of Maximum Price Regulation No. 188 as hereinafter provided.

* * * * *

(6) *Modification of maximum prices for Hudson River common brick sold in the Metropolitan New York City Area—* (i) *Scope of modification.* The maximum prices fixed by this subparagraph apply to manufacturers' sales of Hudson River common brick in the Metropolitan New York City area and to the resale of such brick by persons other than manufacturers.

"Hudson River common brick" means a standard size, kiln run, soft mud brick produced by the Denning's Point Brick Company, Brockway, New York; East Kingston Brick Company, Incorporated, East Kingston, New York; The Jova Brick Works, Roseton, New York; The Hutton Company, Kingston, New York; Powell and Minnock Brick Works, Incorporated, Coeymans, New York; Roah Hook Brick Company, Coeymans, New York; Sutton and Suderley Brick Company, Coeymans, New York; and The Terry Brothers Company, Kingston, New York.

The term also includes standard size salmon or Number 2 brick; barium treated brick; special color brick; brick selected for facing purposes; oversize or jumbo brick, uncolored or colored; and a Hard Brick, such as that manufactured by the Nassau Brick Company, Inc., Farmingdale, New York, which meet Federal Specification Physical Requirements "E–2, H Grade" SS–B–656, issued June 28, 1932.

"Metropolitan New York City area" means that area of New York State lying east of the Hudson River and west of a line directly connecting Ossining, New York with Rye, New York and that portion of Long Island and New York City which lies west of the boundary between Nassau and Suffolk Counties. It also includes Staten Island, the west bank of the Hudson River south of Haverstraw, New York, and the waters of the Passaic and the Hackensack Rivers, and the tributary waters of such rivers, as far north as Passaic, New Jersey, and Hackensack, New Jersey, respectively.

(ii) *Maximum prices for producers.* (a) On and after February 26, 1944, no producer may sell, offer to sell, or deliver any kiln run, standard size Hudson River common brick, and no person may buy or receive, in the course of trade or business, any kiln run, standard size Hudson River common brick from a producer thereof, at a price higher than $14.00 per M delivered in the Metropolitan New York City area.

(b) On and after February 26, 1944, no producer may sell, offer to sell, or deliver any oversize, or jumbo Hudson River common brick of any type, or any standard size Hudson River common brick of a special type, such as barium treated brick, special color brick, or brick selected for facing purposes, and no person may buy or receive, in the course of trade or business, any such brick from a producer thereof at a price higher than the following maximum prices: The maximum price which each producer may charge for such brick is the maximum price which he was permitted to charge for such brick under the provisions of Maximum Price Regulation No. 188, plus $1.00 per M for standard size brick of any type other than kiln run commons or $1.25 per M for oversize, or jumbo Hudson River common brick of any type delivered in the Metropolitan New York City area.

(c) The maximum prices fixed in subdivisions (a) and (b) for producers are subject to an allowance of $1.00 per thousand for unloading, and $0.50 per thousand for cash payment. The terms under which such allowances are given shall not be made more onerous to the purchaser than those in effect in March 1942.

(d) On and after February 26, 1944, no producer may sell, offer to sell, or deliver any "H" Grade Hudson River common brick and no person may buy or receive, in the course of trade or business any "H" Grade Hudson River common brick from a producer thereof, at a price higher than the producer was permitted to charge for such brick under the provisions of Maximum Price Regulation No. 188, plus $1.00 per thousand for standard size brick or $1.25 per thousand for oversize or jumbo brick.

(e) The maximum prices fixed in subdivision (d) for producers are subject to an allowance of $0.50 per thousand for cash payment. The terms under which such allowances are given shall not be made more onerous to the purchaser than those in effect in March 1942.

(iii) *Notification to purchasers by producers.* Every producer of Hudson River common brick shall send the following notice to every purchaser of such brick at the time of billing:

Amendment No. 28 to Order No. A–1 under § 1499.159b of Maximum Price Regulation No. 188 granted us a price increase on Hudson River common brick. The prices charged you for Hudson River common brick are not higher than the maximum prices which we are permitted to charge you under the provisions of that amendment. The amendment also provides that any person purchasing and taking delivery of Hudson River common brick in the Metropolitan New York City area, as defined in the amendment, for resale in substantially the same form, may add to his maximum price for each class of purchaser $1.00 for standard size Hudson River common brick and $1.25 for oversize, or jumbo brick as determined under the General Maximum Price Regulation.

This notice is given to you at the express direction of the Office of Price Administration.

(iv) *Maximum prices for dealers.* (a) On and after February 26, 1944, any person who purchases and takes delivery of Hudson River common brick in the Metropolitan New York City area, as defined in (i) above, for resale in substantially the same form, may sell and deliver to any destination Hudson River common brick at the maximum price which he was permitted to charge for such brick under the provisions of the General Maximum Price Regulation plus any increase in cost resulting from the adjustments permitted herein for producers, but in no event to exceed $1.00 per M for standard size Hudson River common brick of any type or $1.25 per M for oversize, or jumbo Hudson River common brick.

(b) The maximum prices fixed under (a) above shall be subject to at least the same extension of cash, quantity, and other discounts, the same absorption of transportation charges, and the same rendition of services as the seller extended, absorbed, or rendered on comparable sales to purchasers of the same class during March 1942.

This Amendment No. 28 shall become effective February 26, 1944.

GEORGIA TALC CO., ET AL.

AUTHORIZATION OF MAXIMUM PRICES

Order No. 19 under Order No. A–2 under Maximum Price Regulation No. 188. Manufacturers' maximum prices for specified building materials and consumers' goods other than apparel.

For the reasons set forth in an opinion, issued simultaneously herewith, and pursuant to paragraph (a) (10) of Order No. A–2 under § 1499.159b of Maximum Price Regulation No. 188, *It is hereby ordered*, That:

(a) Specific authorization is hereby granted to the Georgia Talc Company, the Western Carolina Talc Company, and the Southern Talc Company, all of Asheville, North Carolina, to increase their established maximum prices for sawed talc and soapstone crayons established by Maximum Price Regulation No. 188, as amended, by an amount not in excess of 5 percent per gross, f. o. b. mill.

(b) Any person purchasing sawed talc or soapstone crayons from the companies named above may resell such products at prices not in excess of his established maximum price therefor, adjusted upwards by an amount not in excess of his actual dollars-and-cents increase in cost resulting from the increases permitted the companies listed above by virtue of paragraph (a) hereof.

The Georgia Talc Company, the Western Carolina Talc Company, and the Southern Talc Company shall submit such reports to the Office of Price Administration as it may from time to time require.

This order may be revoked or amended at any time.

This Order No. 19 shall become effective February 26, 1944.

Regional and District Office Orders.

[Region I Order G–35 Under 18 (c)]

FIREWOOD IN VERMONT

Order No. G–35 under section 18 (c) of the General Maximum Price Regulation. Firewood in Vermont.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of Region I of the Office of Price Administration by section 18 (c) of the General Maximum Price Regulation, as amended by Amendment 33, it is hereby ordered:

(a) *Maximum prices for firewood.* For firewood sold or delivered in the State of Vermont the maximum prices established by the General Maximum Price Regulation are modified, so that the maximum prices for firewood sold or delivered in the State of Vermont in the transactions listed below shall be the prices (in dollars and cents) specified in paragraph (d) hereof.

(b) *Evasion.* (1) The price limitations set forth in this Order No. G–35 shall not be evaded, whether by direct or indirect methods in connection with an offer, solicitation, agreement, sale, delivery, purchase, or receipt of, or relating to firewood in the State of Vermont, alone or in conjunction with any other commodity or by way of commission, service,

transportation, or any other charge or discount, premium or other privilege, or by tying-agreement or other trade understanding or otherwise.

(2) The maximum prices established in this Order No. G–35 shall not be increased by any charges for the extension of credit or by any decrease in the time customarily allowed for payment, and shall be decreased for prompt payment to the same extent that the price would have been decreased for prompt payment on March 1, 1942.

(c) *Definitions.* The definitions set forth in section 302 of the Emergency Price Control Act, as amended, and in section 20 of the General Maximum Price Regulation shall apply to the terms used in this Order except when the context otherwise requires and except that the terms listed below shall be construed as follows:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons or the legal successor or representative of any of the foregoing and includes the United States, or any Government, or any of its political subdivisions, or any agency of any of the foregoing.

(2) "Firewood" means any wood prepared and intended for consumption as fuel.

(3) "Cordwood" means any firewood so prepared that at least 80% consists of cleft wood or merchantable body wood in the round of desirable species.

(4) "Hardwood cordwood" is divided into two classifications:

(i) "First quality hardwood cordwood" means any cordwood containing only straight sticks of wood cut from any deciduous trees, such as beech, birch, maple, hickory, oak and similar species, and not containing any large knots, crotches, or decay. Such sticks must be at least three (3) inches in diameter.

(ii) "Second quality hardwood cordwood" means any cordwood cut from any deciduous tree which does not meet the requirements set forth in the definition of first quality hardwood cordwood in paragraph (c) (4) (i) above. Second quality hardwood cordwood may contain sticks of knotty, crotched or heart rotted character.

(5) "Softwood cordwood" means all cordwood other than hardwood cordwood.

(6) "A cord". A cord shall contain 128 cubic feet of wood. A cord of 16-inch wood shall contain the equivalent of three piles of wood 4 feet high, 8 feet long and 16 inches wide. A cord of 12-inch wood shall contain the equivalent of four piles of wood 4 feet high, 8 feet long and 12 inches wide. No cord of wood of any length shall contain less than 128 cubic feet of wood. Because of the widespread practice in Vermont of selling firewood by the "run", and to insure that there shall be no misunderstanding of the meaning of this term, this order establishes that:

(i) A run of 12 inch wood shall contain 32 cu. ft.

(ii) A run of 16 inch wood shall contain 42⅔ cu. ft.

(iii) A run of 24 inch wood shall contain 64 cu. ft.

(7) "Fitted wood" shall be cordwood firewood suitable for stove use, sawed and split to buyer's order.

(8) "Slab wood" means the refuse, except sawdust and bark not adhering to the wood, from sawing any logs.

(9) "Wood waste" means edging, bobbin wood, clippings, and any other wooden material, except sawdust and slab wood, produced in the course of milling or processing of wood.

(10) "Delivered" means deposited on or at premises designated by the buyer.

(11) "Kindling wood" shall mean any hardwood or softwood, including wood waste, split and prepared so as to be primarily used to start or kindle a fire.

(12) "Retail yard" is an establishment which meets all of the following tests:

(i) It customarily purchases from others all or a portion of firewood it offers for sale.

(ii) It regularly maintains stocks of different types of firewood defined in this Order.

(iii) It maintains storage facilities and processing equipment.

(iv) It is prepared to make and does make prompt deliveries of the various types of firewood out of its yard stock, in small or large quantities to ultimate consumers.

(d) *Maximum prices for firewood sold or bought in the State of Vermont:* (1) On and after the effective date of this Order No. G–35 no person shall sell or deliver, and no person shall buy or receive any firewood in the State of Vermont at prices higher than the maximum prices set forth in Tables I and II hereinafter set forth.

(2) In sales of fitted wood two dollars ($2.00) per cord may be added to the maximum prices for cordwood listed in Table I below.

(3) The classifications of firewood listed herein in Tables I and II may be mixed but the maximum prices of each sale of mixed firewood shall be the maximum price for the classification in the mixture having the lowest established maximum price.

(4) In sales of unseasoned or green firewood the seller shall deduct ten (10) per cent from the applicable maximum price established in Table I.

[Region II Order G–4 Under SR 15]

FLUID MILK IN NEW JERSEY

Order No. G–4 under § 1499.75 of Supplementary Regulation 15 to the General Maximum Price Regulation. Adjusted maximum prices for fluid milk sold and delivered in glass or paper containers to subdealers in Milk Marketing Area No. 4 in the State of New Jersey.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Office of Price Administration by § 1499.75 of Supplementary Regulation 15 to the General Maximum Price Regulation, *It is hereby ordered*, That:

(a) On and after February 26, 1944, the maximum price of fluid milk sold or delivered by milk processors at wholesale in glass or paper containers to subdealers in that portion of the State of New Jersey hereinafter defined as Milk Marketing Area No. 4, shall be the seller's maximum price as determined under § 1499.2 of the General Maximum Price Regulation or the applicable adjusted maximum price for the particular grade and quantity specified in the following schedule, whichever is higher.

Type of milk	Average daily quantity on weekly basis	Adjusted maximum price
Grade A or premium milk	1 to 300 quarts	13½¢ per qt.
	301 quarts or more	13½¢ per qt.
	Pint (any quantity)[1]	7½¢ per pt.
	Half-pint (any quantity)[1]	4½¢ per ½ pt.
Milk with butterfat content in excess of 4% but not grade A or premium milk.	1 to 120 quarts	13½¢ per qt.
	121 to 1200 quarts	13¢ per qt.
	1201 quarts or more	12½¢ per qt.
	Pint (any quantity)[1]	7½¢ per pt.
	Half-pint (any quantity)[1]	3¾¢ per ½ pt.
Milk with 4% butterfat content or less but not grade A or premium milk.	1 to 120 quarts	12½¢ per qt.
	121 to 1200 quarts	12¢ per qt.
	1201 quarts or more	11½¢ per qt.
	Pint (any quantity)[1]	6¾¢ per pt.
	Half-pint (any quantity)[1]	3½¢ per ½ pt.

[1] Where permitted by Food Distribution Order No. 11 issued by the Food Distribution Administration.

(b) Where the adjusted maximum price is a unit figure containing a fraction of a cent, the seller must multiply such fractional unit figure by the total number of units in each sale or series of sales for which a single collection is made. Where the resulting amount contains a fraction of a cent, the seller shall adjust the maximum price to the nearest full cent, except that if the fraction should be a half-cent, the seller shall adjust the maximum price to the next higher full cent.

(c) This order is subject to revocation or amendment by the Regional Administrator or by the Price Administrator at any time hereafter, either by special order or by price regulation issued hereafter or by supplementary order which may be contrary hereto.

(d) *Geographical applicability.* This order applies to all sales of fluid milk in glass or paper containers to subdealers who resell such milk within the geographical limits of Milk Marketing Area No. 4 in the State of New Jersey as hereinafter defined.

(e) Unless the context manifestly otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, shall apply to other terms herein.

(f) *Definitions.* (1) "Fluid milk" means cow's milk produced, processed, distributed and sold for human consumption in fluid form as whole milk.

(2) "Subdealer" means any milk dealer handling milk within that portion of the State of New Jersey known as Milk Marketing Area No. 4, who purchases fluid milk in glass or paper containers from processors and resells all such milk to consumers, stores, hotels, restaurants and institutions within said area in the same containers as those in which he purchases it from such processors.

(3) "Milk processor" means a person who processes fluid milk and sells such milk in paper or bottle containers to subdealers.

(4) "Grade A or Premium milk" means "New Jersey Grade A Pasteurized Milk" or "New Jersey Grade A Raw Milk" as defined in "Official Grades for Raw and Pasteurized Milk and Cream" issued by the Secretary of Agriculture of the State of New Jersey in January 1939 as revised February 1, 1942.

(5) "Milk with butterfat content in excess of 4% but not Grade A or Premium Milk" means "New Jersey Grade B Pasteurized Milk" as defined in "Official Grades for Raw and Pasteurized Milk and Cream" issued by the Secretary of Agriculture of the State of New Jersey in January 1939 as revised February 1, 1942 and containing a butterfat content in excess of 4%.

(6) "Milk with 4% butterfat content or less but not Grade A or Premium Milk" means "New Jersey Grade B Pasteurized Milk" as defined in "Official Grades for Raw and Pasteurized Milk and Cream" issued by the Secretary of Agriculture of the State of New Jersey in January 1939 as revised February 1, 1942 and containing a butterfat content of 4% or less but not less than 3.5%.

(7) "Milk Marketing Area No. 4" means that portion of the State of New Jersey consisting of the counties of Bergen, Essex, Hudson, Middlesex, Morris, Passaic, Somerset and Union.

This order shall become effective February 26, 1944.

(56 Stat. 23, 765; Pub. Law 151, 78th Cong.; E.O. 9250, 7 F.R. 7871 and E.O. 9328, 8 F.R. 4681)

[Region II Order G–29 Under RMPR 122]

PENNSYLVANIA ANTHRACITE IN NASSAU AND SUFFOLK COUNTIES, N. Y.

Order No. G–29 under §§ 1340.260 and 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122. Solid fuels sold and delivered by dealers. Pennsylvania anthracite delivered by dealers in Nassau and Suffolk Counties, except Fishers Island, State of New York—Coal Area III.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Office of Price Administration by §§ 1340.260 and 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, it is hereby ordered:

(a) *What this order does*—(1) *Dealers' maximum prices; area covered.* If you are a dealer in "Pennsylvania anthracite", this order fixes the maximum prices which you may charge, and if you are a purchaser in the course of trade or business, this order fixes the maximum prices which you may pay, for certain sizes and quantities of "Pennsylvania anthracite" (hereinafter called simply "anthracite") delivered to or at any point in the zones comprising State of New York—Coal Area III. That area consists of three zones, as follows:

Zone 1—Zone 1 includes all of Nassau County.

Zone 2—Zone 2 includes all of Suffolk County except the towns of Southampton, East Hampton, Southold and Shelter Island.

Zone 3—Zone 3 includes the towns of Southampton, East Hampton, Southold, except Fishers Island, and Shelter Island, in Suffolk County.

(2) *Schedules of prices, charges and discounts.* The applicable prices, authorized charges, and required discounts, from which you shall determine the maximum prices for designated sizes and quantities of anthracite delivered within

Zones 1, 2 and 3 are set forth in Schedules I, II and III, respectively.

(3) *To what sales this order applies.* If you are a dealer in anthracite you are bound by the prices, charges and discounts, and by all other provisions of this order for all deliveries within Zones 1, 2 and 3.

You shall determine the maximum price for "direct-delivery" sales, as hereinafter defined, by reference to the appropriate schedule of this order covering the zone to which delivery is made, whether or not you are located in one of the three zones.

You shall determine your maximum price for a "yard" sale, as hereinafter defined, by reference to the appropriate schedule of this order covering the zone in which the purchaser takes physical possession or custody of the anthracite.

(b) *What this order prohibits.* Regardless of any contract or other obligations, you shall not:

(1) Sell or, in the course of trade or business, buy anthracite of the sizes and in the quantities set forth in the schedules herein, at prices higher than the maximum prices computed as set forth in paragraph (c) of this order, although you may charge, pay or offer less than maximum prices.

(2) Obtain any price higher than the applicable maximum price by

(i) Changing the discounts authorized herein, or

(ii) Charging for any service which is not expressly requested by the buyer, or

(iii) Charging for any service for which a charge is not specifically authorized by this order, or

(iv) Charging a price for any service higher than the Schedule price for such service, or

(v) Using any tying agreement or requiring that the buyer purchase anything in addition to the fuel requested by him, except that a dealer may comply with requirements or standards with respect to deliveries which have been or may be issued by an agency of the United States Government.

(vi) Using any other device by which a higher price than the applicable maximum price is obtained, directly or indirectly.

(c) *How to compute maximum prices.* You must figure your maximum prices as follows:

(1) *Use the schedule which covers your sale.* (Schedule I applies to sales on a "Direct-delivery" basis, "Yard sales," and "Sales of bagged coal," within Zone 1. You will find Schedule I in paragraph (d). In like manner, Schedules II and III apply to similar sales in Zones 2 and 3, respectively. You will find Schedule II in paragraph (e) and Schedule III in paragraph (f).

(2) Take the dollars-and-cents figure set forth in the applicable schedule, for the sizes and quantity you are selling.

(3) Deduct from that figure the amount of the discount which you are required to give, as specified in each schedule. Where a discount is required, you must state it separately on your invoice.

(4) If, at your purchaser's request, you actually render him a service for which this order authorizes a charge, you may add to the figure obtained as above no more than the maximum authorized service charge. You must state that charge separately on your invoice. The only authorized service charges are those provided for in the schedules.

(5) If you deliver a fraction of a net ton, even if less than one-half ton, and the applicable schedule provides a discount on the basis of one ton or one-half ton, you shall allow a proportionate discount, making your calculation to the nearest full cent. For example, if you are required to deduct 50¢ per ton for cash payment, you shall deduct 38¢ for three-quarters of a ton and 13¢ for one-quarter of a ton.

(6) If you deliver a fraction of a net ton, but not less than one-half ton, and the applicable schedule provides a service charge on the basis of one ton, you shall add no more than a proportionate service charge, making your calculation to the nearest full cent. For example, if the transaction permits a service charge of 50¢ per ton, you shall not add more than 38¢ for performance of that service in connection with the delivery of three-quarters of a ton.

(d) *Schedule I.* Schedule I establishes specific maximum prices for certain sizes of anthracite in certain specific quantities, delivered to or at any point within Zone I. There is a separate table of prices for "Direct-Delivery" sales, "Yard Sales", and "Sales of Bagged Coal" in 25 lb. paper bags.

(1) *Sales on a "Direct-Delivery" Basis.* For sales of anthracite of the sizes and in the quantities specified:

Size	Per net ton	Per net ½ ton	Per 100 pounds for sales of 100 pounds or more but less than ½ ton	Per 50 pound paper bag

Screenings "A"[1]	5.00	5.00		
Screenings "B"[1]	2.10	2.10		

[1] See definition in paragraph (r) (5).

Required discounts. You shall deduct from the prices set forth in Table (2) of this schedule, on sales and deliveries of all sizes except screenings in quantities of ½ ton or more, a discount of 50¢ per net ton and 25¢ per net ½ ton, where payment is made within ten days after delivery. Nothing herein requires you to sell on other than a cash basis.

(3) *"Sales of bagged coal" (maximum price per 25 lb. bag):*

Size	Delivered at dealer's yard		Delivered to retail stores	Sales to ultimate consumer
	To dealers for resale	To consumers		
Nut	$0.23	$0.25	$0.25	$0.28

(e) *Schedule II.* Schedule II establishes specific maximum prices for certain sizes of anthracite, in certain specific quantities, delivered to or at any point within Zone 2. There is a separate table of prices for "Direct-Delivery" sales, "Yard Sales", and "Sales of Bagged Coal" in 25 lb. paper bags.

(1) *Sales on a "direct-delivery" basis.* For sales of anthracite of the sizes and in the quantities specified:

Size	Per net ton	Per net ½ ton	Per 100 pounds for sales of 100 pounds or more, but less than ½ ton	Per 50 pound paper bag
Broken, egg				
Stove, nut	$15.20	$8.10	$1.00	$0.55

Screenings "A"[1]	7.00	3.50		
Screenings "B"[1]	4.10	2.05		

[1] See definition in paragraph (r) (5).

Required discounts. You shall deduct from the prices set forth in Table (1) of this schedule, on sales and deliveries of all sizes except screenings, a discount of 50¢ per net ton, and 25¢ per net ½ ton, where payment is made within ten days after delivery. Nothing herein requires you to sell on other than a cash basis.

Maximum Authorized Service Charges (per net ton)

Special service rendered at the request of the purchaser:	
"Carry" or "wheel" (except for sales amounting to less than ½ ton)	$1.00
Carrying upstairs provided that the coal is carried not less than one full flight above the ground floor. This charge shall be in addition to any charge for "carry" or "wheel"	1.00

(2) *"Yard sales".* For sales of anthracite of the sizes and in the quantities specified to dealers and to consumers:

Size	Per net ton, for sales of ½ ton or more		Per 100 pounds for sales of 100 pounds or more but less than ½ ton	Per 50-pound paper bag
	To dealers for resale	To consumers

Rice	11.70	6.35		
Barley	9.20	5.10		
Screenings	4.10	2.05		

Required discounts. You shall deduct from the prices set forth in Table (1) of this schedule on sales and deliveries of all sizes except screenings, a discount of 50¢ per net ton and 25¢ per net ½ ton, where payment is made within five days after delivery. Nothing herein requires you to sell on other than a cash basis.

Maximum Authorized Service Charges

Special service rendered at the request of the purchaser:	
"Carry" or "wheel" (except for sales amounting to less than ½ ton).	$1.00 per net ton
Carrying upstairs, provided that the coal is carried not less than one full flight above the ground floor. This charge shall be in addition to any charge for "carry" or "wheel".	$1.00 per net ton
On all deliveries to the Town of Shelter Island.	$2.00 per truckload. If more than one delivery is made from one truckload, this charge shall be apportioned among the recipients of the fuel, on a tonnage basis.

(2) *"Yard sales."* For sales of anthracite of the sizes and in the quantities specified:

Size	Per net ton for sales of ½ ton or more	Per 100 pounds for sales of 100 pounds or more but less than ½ ton	Per 50-pound paper bag
Broken, egg			
Stove, nut	$14.75	$0.90	$0.50
Pea	13.20	.80	.45
Buckwheat	11.05	.75	
Rice	10.70		
Barley	8.20		
Screenings	2.10		

Required discounts. You shall deduct from the prices set forth in Table (2) of this schedule, on sales and deliveries of all sizes except screenings, in quantities of ½ ton or more, a discount of 50¢ per net ton and 25¢ per net ½ ton, where payment is made within five days after delivery. Nothing herein requires you to sell on other than a cash basis.

(3) *"Sales of bagged coal" (maximum price per 25 lb. bag).*

Size	Delivered at dealer's yard		Delivered to retail stores	Sales to ultimate consumer
	To dealers for resale	To consumers		
Nut	$0.23	$0.25	$0.25	$0.28

(g) *Commingling.* If you sell one size of anthracite, commingled with another size of anthracite, your maximum price for the combination shall be the maximum price established in this order for the smallest of the sizes so commingled, whether the sale be a "Direct-delivery" sale, "Yard sale", or "Sale of bagged coal", except in the following situation. Where a purchaser requests that two or more sizes of anthracite be commingled in one delivery, then, and in that event, if those sizes are separately weighed at the point of loading, or when bagged, the dealer may commingle those sizes in the truck or other vehicle, or in the bags, in which the delivery is made. The price for anthracite so commingled shall be calculated on the basis of the applicable per net ton price or, in the case of bagged coal, on the basis of the applicable bagged price, for each size in the combination, and the invoice shall separately state the price, so determined, for the quantity of each size in the combination.

(h) *Ex Parte 148; freight rate increase.* Since the Ex Parte 148 freight rate increase has been rescinded by the Interstate Commerce Commission dealers' freight rates are the same as those of December 1941. Therefore, you may not increase any schedule price on account of freight rates.

(i) *Addition of increase in suppliers' maximum prices prohibited.* You may not increase the specific maximum prices established by this order to reflect, in whole or in part, any subsequent increase to you in your supplier's maximum price for the same fuel. The specific maximum prices already reflect increases to you in your supplier's maximum prices occurring up to the effective date of this order. If increases in your supplier's maximum prices should occur after such date, as the result of any amendment to or revision of a maximum price regulation issued by the Office of Price Administration governing sales and deliveries made by such suppliers, the Regional Administrator will, if he then deems it to be warranted, take appropriate action to amend this order to reflect such increases.

(j) *Taxes.* If you are a dealer subject to this order, you may collect, in addition to the specific maximum prices established herein, provided you state it separately, the amount of the Federal tax upon the transportation of property imposed by section 620 of the Revenue Act of 1942 actually paid or incurred by you, or an amount equal to the amount of such tax paid by any of your prior suppliers and separately stated and collected from you by the supplier from whom you purchased. On sales to the United States or any agency thereof, or to the State of New York or any political subdivision thereof, you need not state this tax separately.

(k) *Adjustable pricing.* You may not make a price adjustable to a maximum price which will be in effect at some time after delivery of the anthracite has been completed; but the price may be adjustable to the maximum price in effect at the time of delivery.

(l) *Petitions for amendment.* Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, except that the petition shall be filed with the Regional Administrator and acted upon by him.

(m) *Right of amendment or revocation.* The Regional Administrator or the Price Administrator may amend, revoke or rescind this order, or any provision thereof, at any time.

(n) *Applicability of other regulations.* If you are a dealer subject to this order, you are governed by the licensing provisions of Licensing Order 1, Licensing Order 1 provides, in brief, that a license is required of all persons making sales for which maximum prices are established. A license is automatically granted. It is not necessary to apply for the license. The license may be suspended for violations in connection with the sale of any commodity for which maximum prices are established. If your license is suspended, you may not sell any such commodity during the period of suspension.

(o) *Records.* If you are a dealer subject to this order, you shall preserve, keep, and make available for examination by the Office of Price Administration, a record of every sale of anthracite hereunder, showing the date, the name and address of the buyer, if known, the per net ton price charged, and the solid fuel sold. The solid fuel shall be identified in the manner in which it is described in the order. The record shall also state separately each service rendered and the charge made for it.

(p) *Posting of maximum prices: Sales slips and receipts.* (1) If you are a dealer subject to this order, you shall post all your maximum prices (as set forth in the applicable schedule or schedules of this order) in your place of business in a manner plainly visible to and understandable by the purchasing public.

(2) If you are a dealer subject to this order, you shall, except for a sale of less than one-half ton, give each purchaser a sales slip or receipt showing your name and address, the kind, size, and quantity of the anthracite sold to him, the date of the sale or delivery and the price charged, separately stating the amount, if any, of the required discounts which must be deducted from, and the authorized service charges and the taxes, which may be added to the specific maximum prices prescribed herein.

In the case of all other sales, you shall give each purchaser a sales slip or receipt containing the information described in the foregoing paragraph, if requested by such purchaser or if, during December 1941, you customarily gave purchasers such sales slips or receipts.

(q) *Enforcement.* (1) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this order are urged to communicate with the New York District Office of the Office of Price Administration, or with the Price Panel of the appropriate War Price and Rationing Board.

(r) *Definitions and explanations.* When used in this Order No. G-29, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(2) "Sell" includes sell, supply, dispose, barter, exchange, lease, transfer, and deliver, and contracts and offers to do any of the foregoing. The terms "sale", "selling", "sold", "seller", "buy", "purchase", and "purchaser" shall be construed accordingly.

(3) "Dealer" means any person selling anthracite of the sizes set forth in the Schedule herein, and does not include a producer or distributor making sales at or from a mine, a preparation plant operated as an adjunct of any mine, or a briquette plant.

(4) "Pennsylvania anthracite" means all coal produced in the Lehigh, Schuylkill and Wyoming regions in the State of Pennsylvania.

(5) The sizes of "Pennsylvania anthracite" described as broken, egg, stove, nut, pea, buckwheat, rice, barley and screenings shall refer to the same sizes of the same fuel as were sold and delivered in the State of New York—Coal Area III with such designation during December 1941.

"Screenings A" are screenings derived from the primary or initial screening of egg, stove, nut, pea, and buckwheat sizes of anthracite, before any of these sizes have been reclaimed from screenings.

"Screenings B" are the resultant screenings after buckwheat and larger sizes of anthracite have been reclaimed from "Screenings A".

(6) "Direct-delivery", except with respect to sales in 100 lb. lots, means delivery to the buyer's bin or storage space by dumping or chuting directly from the seller's truck or vehicle, or, where such delivery to the buyer's bin or storage space is physically impossible, by discharging at the point nearest and most accessible to the buyer's bin or storage space and at which the coal can be discharged directly from the seller's truck. "Direct delivery" in 100 lb. lots shall mean depositing in buyer's bin or other storage space designated by buyer.

(7) "Carry" and "wheel" refer to the movement of coal to buyer's bin or storage space in baskets or other containers, or by wheelbarrow or barrel, from seller's truck or vehicle, or from the point nearest and most accessible to the buyer's bin or storage space at which the coal is discharged from the seller's truck in the course of "direct delivery".

(8) "Yard sales" means sales accompanied by physical transfer to the buyer's truck or vehicle at the yard, dock, barge, car, or at a place of business of the seller other than at seller's truck or vehicle.

(9) "Delivered at dealer's yard" as applied to "sales of bagged coal", means physical transfer at the dealer's yard to the purchaser's truck or other vehicle.

(10) "Delivered to retail stores" as applied to "sales of bagged coal", means deposit in that part of the store designated by the purchaser.

(11) "Sales to ultimate consumer" as applied to "sales of bagged coal", means sales by dealers, other than sales at a dealer's yard, whether or not delivered to the consumer's premises.

(12) Except as otherwise provided herein, or as the context may otherwise require, the definitions set forth in Sections 1340.255 and 1340.266 of Revised Maximum Price Regulation No. 122 shall apply to terms used herein.

(s) *Effect of order on Revised Maximum Regulation No. 122.* This order shall supersede Revised Maximum Price Regulation No. 122, except as to any sales or deliveries of solid fuels not specifically subject to this order.

Effective date. This order shall become effective February 23, 1944.

NOTE: The record-keeping provisions of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

OFFICE OF WAR MOBILIZATION.

UNIFORM TERMINATION ARTICLE FOR GOVERNMENT FIXED PRICE WAR SUPPLY CONTRACTS

RECOMMENDATIONS OF JOINT CONTRACT TERMINATION BOARD

At the time of the issuance by this office of the directive order to all procurement agencies dated January 8, 1944 (9 F.R. 478), which made effective a uniform termination article for government fixed price war supply contracts, it was stated that certain exceptions thereto were under consideration. The directive order accordingly required that situations in which it was deemed impracticable to use the article should be reported to this office for further instructions. Such reports having been made, that order is hereby amended to include the following provisions in order to make effective certain exceptions recommended by the Joint Contract Termination Board:

1. The Uniform Termination Article for Fixed Price Supply Contracts, providing for termination at the option of the Government, (which was promulgated by the Office of War Mobilization in its directive order of January 8, 1944, and which incorporates by reference the Statement of Principles for Determination of Costs Upon Termination of Government Fixed Price Supply Contracts) will be used, from the dates fixed as provided in paragraph 2 below, by the War, Navy and Treasury Departments, the Maritime Commission, Defense Plant Corporation, Defense Supplies Corporation, Metals Reserve Company, Rubber Reserve Company and Foreign Economic Administration, in all fixed price contracts made by them for the manufacture in continental United States of war supplies and equipment, unless exempted by the Office of War Mobilization prior to the execution of the contract: *Provided,*

That any such department or agency may elect not to use the article in any of the following classes of contracts:

a. Contracts for an amount of less than $50,000 regardless of the date of delivery;

b. Contracts for an amount of less than $500,000 providing for delivery within six months;

c. Letters of intent and other preliminary contractual arrangements which contemplate the subsequent execution of formal contracts;

d. Contracts of Governmental departments, agencies and instrumentalities with instrumentalities of the Government or with States or subdivisions or instrumentalities thereof;

e. Contracts for the purchase of a material which is manufactured either as a by-product or a co-product in an integrated operation from a common raw material source in such manner that the cost of its manufacture is not susceptible of separate determination;

f. Contracts or purchase orders made in the name of and on behalf of the Government, by a contractor under a cost or cost plus contract with the Government, for the purchase of materials, supplies and equipment required for or in connection with the construction of Government owned plants and facilities;

g. Contracts, including so-called pool orders and commitment contracts, for the production of materials, supplies and equipment which provide that completed items produced under the contract and furnished to the Government shall be paid for at a price intended to exclude profit;

h. Requirement or open end contracts.

2. The article will be used by the above mentioned agencies and departments in all contracts executed more than thirty days after the publication of the article and statement by the particular department or agency, which publication shall take place as soon as practicable. The earlier use of the article is optional with the department or agency.

3. Each of the above mentioned departments or agencies will give to holders of existing contracts (exclusive of those within any classes excepted under paragraph 1a to h) the earliest practicable opportunity, by regulation or otherwise, to amend their contracts to include the article, in substitution for any existing provision for termination thereof without regard to default and for the convenience or at the option of the Government.

4. Any other department or agency of the Government contracting for the manufactuer of war supplies and equipment in continental United States under fixed price contracts will use the article in such contracts wherever it deems such use to be feasible.

NORTHERN STATES POWER COMPANY (MINNESOTA)

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 22d day of February 1944.

Northern States Power Company (Minnesota), a registered holding company which is also a public-utility company and a subsidiary of Northern States Power Company (Delaware), a registered holding company, having filed a declaration, and amendments thereto, pursuant to sections 6 and 7 of the Public Utility Holding Company Act of 1935, regarding the issue and sale by competitive bidding, pursuant to the requirements of Rule U-50, of $5,000,000 principal amount of its First Mortgage Bonds, Series due February 1, 1974; and the issue and sale to commercial banks of 2¼% Serial Notes in the principal amount of $4,000,000; and

The Commission having, on February 9, 1944, filed its findings and opinion and entered an order herein permitting said declaration to become effective, subject to the condition that the issue and sale of the bonds should not be consummated until the results of the competitive bidding had been supplied by amendment and a further order should have been entered in these proceedings; and

The declarant having, on this date, filed an amendment to said declaration stating in substance that it had received six bids for said bonds and had, subject to the approval of this Commission, accepted the bid of a group of underwriters headed by Lehman Brothers of 100.0699% of the principal amount, plus accrued interest from February 1, 1944 to the date of delivery, for 2¾% bonds which bonds are to be resold to the public for 101% of the principal amount thereof, plus accrued interest from February 1, 1944 to the date of delivery; and

The Commission, having examined the completed record, finding that there is no necessity for the imposition of terms and conditions with respect to the price and terms at which said bonds are to be issued and sold;

It is ordered, That said declaration, as amended, be, and it is hereby permitted to become effective forthwith, subject to the terms and conditions prescribed by Rule U-24.

By the Commission.

DECLARATION OF EFFECTIVENESS OF AMENDED PLAN

Declaration of effectiveness of amended plan of the New York Stock Exchange pursuant to Rule X-10B-2 (d) [§ 240.10B-2 (d)].

The Securities and Exchange Commission, having previously declared effective a plan for special offerings, and certain amendments thereto, filed pursuant to Rule S-10B-2 (d) by the New York Stock Exchange; and the New York Stock Exchange, on February 11, 1944, having filed a further amendment to its plan for such special offerings;

The Securities and Exchange Commission having given due consideration to the special offering plan of the New York Stock Exchange as amended and having due regard for the public interest and for the protection of investors, pursuant to the Securities Exchange Act of 1934, particularly sections 10 (b) and 23 (a) thereof, and Rule X-10B-2 thereunder, hereby declares the amended special offering plan of the New York Stock Exchange as filed on February 11, 1944, to be effective, on condition that if at any time it appears to the Commission necessary or appropriate in the public interest or for the protection of investors so to do, the Commission may suspend or terminate the effectiveness of said plan by sending at least ten days' written notice to the Exchange.

Effective February 17, 1944.

By the Commission.

FLORIDA POWER CORP. AND GENERAL GAS AND ELECTRIC CORP.

SUPPLEMENTAL ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 24th day of February 1944.

Florida Power Corporation, a subsidiary of General Gas & Electric Corporation, a registered holding company, having filed a declaration pursuant to section 7 of the Public Utility Holding Company Act of 1935 concerned with the issuance and sale, in accordance with Rule U-50 promulgated under the act, of $16,500,000 principal amount of First Mortgage Bonds dated January 1, 1944, and maturing January 1, 1974; and

The Commission having by order dated February 16, 1944, permitted such declaration, as amended, to become effective subject to the provision that the declarant report the results of the competitive bidding, as required by Rule U-50 (c) and comply with such supplemental orders as the Commission might enter in view of the facts disclosed thereby; and

Florida Power Corporation having made such report to the Commission in the form of a further amendment to the declaration herein, setting forth the action taken to comply with Rule U-50 and specifying the proposals which have been received for the purchase of said bonds pursuant to the invitation for competitive bids, and stating that Florida Power Corporation has accepted a bid for said bonds from a group of underwriters headed by Kidder, Peabody & Co. of 103.-7799, plus accrued interest from January 1, 1944, to the date of delivery, such bonds to bear interest at the rate of 3⅜% per annum and that said bonds are to be resold to the public at 104.8257 and accrued interest, representing a spread to the underwriter of 1.0458; and

The Commission having examined the record and finding no basis for imposing terms and conditions with respect to the price, spread, and distribution thereof, at which such bonds are to be issued and sold;

It is ordered, That said declaration, as amended, be and hereby is permitted to become effective forthwith, subject to the terms and conditions contained in the said order of the Commission in this matter dated February 16, 1944.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

UTILITIES EMPLOYEES SECURITIES CO., ET AL.

NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 24th day of February 1944.

In the matter of Utilities Employees Securities Company, File No. 70-740; Stanley Clarke, Trustee of Associated Gas and Electric Company, Denis J. Driscoll and Willard L. Thorp, trustees of Associated Gas and Electric Corporation, General Gas & Electric Corporation, Associated Utilities Corporation, File No. 70-741; New England Gas and Electric Association, File No. 70-743; Noel T. Dowling, James V. Gilloon, Jr., Joseph A. Shields, Trustees under Pension Trust Agreement dated December 14, 1937, as amended, File No. 70-746.

The Commission having, on August 12, 1943, approved a plan of liquidation pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935, for

Utilities Employees Securities Company (Uesco), a subsidiary of Associated Gas and Electric Company, Associated Gas and Electric Corporation and Associated Utilities Corporation, registered holding companies, and having at the same time reserved jurisdiction:

• • • to approve or disapprove any claims that may be asserted for fees or expenses in connection with the liquidation and dissolution of Utilities Employees Securities Company, exclusive of expenses and compensation of the Welfare Trustees, for which provision has been made in the plan herein approved;

and

Uesco having filed its post-effective Amendment No. 3, transmitting the following claims filed against it in connection with its liquidation and dissolution:

	For services	For expenses
James V. Gilloon Jr.	$7,000.00	$163.00
Noel T. Dowling	6,000.00 or 9,000.00	138.78
Frederick L. Kane	25,000.00	750.00
Joseph A. Shields	50,000.00	100.00
Magill & Horrigan	35,000.00	

Said Shields, Dowling, and Gilloon being Trustees under the Pension Trust Agreement, dated December 14, 1937, as Amended (Pension Trustees), the holder, during these proceedings, of all the common stock of Uesco and of 700 shares of the preferred stock thereof; and said Kane and Magill being attorneys for said Pension Trustees; and said Shields and Gilloon, furthermore, being members of the Board of Directors of Uesco; and

It appearing to the Commission that it is appropriate and in the public interest and in the interest of investors and consumers that a hearing be held in connection with the post-effective amendment;

It is ordered, That a hearing on such matters under the applicable provisions of the Act and the rules of the Commission thereunder, and in connection with the reservation of jurisdiction of the Commission in approving the plan of liquidation of Uesco, be held on March 21, 1944, at 10:30 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such day the hearing room clerk in room 318 will advise as to the room in which such hearing will be held.

It is further ordered, That Henry C. Lank, or any other officer of the Commission designated for that purpose shall preside at that hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That, without limiting the scope of issues presented by said post-effective amendment, particular attention be directed at said hearing to the following matters and questions:

(1) Whether the individual applicants should to any extent or in any manner be compensated by Uesco;

(2) Whether the efforts of individual applicants have been of any benefit to, necessary, or in the interests of Uesco, its security holders, the distributee companies, or their employees, the creditors of Associated Gas and Electric Company and of Associated Gas and Electric Corporation, or the general public;

(3) Whether any of the individual applicants have represented conflicting claims; and

(4) Whether such requests for compensation, as presented, are reasonable in light of the time spent, the size and assets of Uesco, effect on the liquidation of Uesco, extent of unnecessary duplication of effort, and other relevant factors;

(5) Generally, whether the services for which compensation is sought were appropriately performed in compliance with the Public Utility Holding Company Act of 1935 and of other applicable statutes.

By the Commission.

WAR MANPOWER COMMISSION.

DALLAS, TEXAS

MINIMUM WARTIME WORKWEEK

Designation of the Dallas, Texas Area as subject to Executive Order No. 9301.

By virtue of the authority vested in me as Regional Manpower Director of Region No. X by § 903.2 of War Manpower Commission Regulation No. 3, "Minimum Wartime Workweek of 48 Hours," (8 F.R. 7225), and having found that such action will aid in alleviating labor shortages which are impeding the war effort, I hereby designate the Dallas, Texas Area as subject to the provisions of Executive Order No. 9301.

I. For the purposes of this designation, the Dallas, Texas Area shall include:

Dallas County, Texas.

II. The effective date of this designation is November 1, 1943.

III. Not later than the effective date, each employer in the Dallas, Texas Area shall, in accordance with War Manpower Commission Regulation No. 3:

(a) Extend to a minimum wartime workweek of 48 hours, the workweek of any of his workers whose workweek can be so extended without involving the release of any worker;

(b) If extension of the workweek of any of his workers to a minimum wartime workweek of 48 hours would involve the release of any workers, submit to the Area Manpower Director the number and occupational classification of the workers whose release would be involved, together with proposed schedules for their release, and thereafter extend such workweek when and as directed in schedules authorized by the War Manpower Commission;

(c) File an application for a minimum wartime workweek of less than 48 hours for those workers engaged in employment in which the employer claims that a workweek of 48 hours would be impracticable in view of the nature of the operations, would not contribute to the reduction of labor requirements, or would conflict with any Federal, State or local law or regulation limiting hours of work.

Date of issuance: September 30, 1943.

Chapter IX—War Production Board

Subchapter B—Executive Vice-Chairman

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 3, as Amended Feb. 26, 1944]

§ 944.23 *Priorities Regulation 3*—(a) *Purpose of this regulation.* This regulation states the rules for the use of preference ratings, what kind of purchase orders or services may be rated and how a rating may be put on an order. It also places restrictions on the use of ratings and includes lists of products for which ratings may not be used at all or for which certain kinds of ratings may not be used. In general this regulation should be consulted before using a rating whether it was gotten directly from the War Production Board or from a customer.

(b) *Definitions.* For the purposes of this regulation:

(1) "Person" and "material" mean the same thing they do in Priorities Regulation 1.

(2) "Assignment" of a preference rating. A preference rating is assigned to a person when the War Production Board or someone that it has authorized issues an order or preference rating certificate giving him the right to use the rating.

(3) "Application" of a preference rating. A preference rating is applied when the person to whom it is assigned uses the rating. A rating is applied also when any governmental agency which is authorized by the War Production Board rates an order for delivery of material directly to it.

(4) "Extension" of a preference rating. A preference rating is extended when it is used by the person to whom it is applied or extended by another person.

(c) *Use of ratings in general.* (1) When a regulation, preference rating order or preference rating certificate assigns a rating to any person, either by naming him or by describing the class of persons to which he belongs (as is done in the schedules to CMP Regulation 5), that person may apply the rating to get delivery of material or the performance of certain services. Also, a person may under certain conditions extend a rating which has been applied or extended to his deliveries of material, but not one applied to services. More detailed rules as to how and when ratings may be applied or extended are set out below in this regulation.

(2) When a War Production Board order or certificate states the quantities and kinds of material or the particular services which are rated, the person to whom it is assigned may use the rating to get only that quantity and kind of material or that particular service named in the order or certificate. If the quantities of material are not stated in the order or certificate assigning the rating it may be applied only to get the minimum amount needed.

(3) No person may place rated orders for more material than he is authorized to rate even though he intends to cancel some of the orders or reduce the quantity of material ordered to the authorized amount before it is all delivered.

(d) *When ratings may be extended for material.* The following provisions of this paragraph (d) apply to all extensions of preference ratings to get deliveries of material, unless they are modified by or are inconsistent with the provisions of any particular order.

(1) A manufacturer of Class B products under the Controlled Materials plan and a holder of Form WPB-2613 (formerly PD-870) may not extend his customers' ratings (except AAA) as explained in more detail in CMP Regulation 3 and in Priorities Regulation 11B.

(2) When a person has received a rated order for the delivery of material, he may extend the rating to get the material which he will deliver on that order, or which will be physically incorporated in material which he will deliver. If the material is to be processed, this includes the portion of it which would normally be consumed or converted into scrap or by-products in the course of processing.

(3) If a person has made delivery of material, or has incorporated it into other material which he has delivered on a rated order, he may extend the rating to replace it in his inventory. However, if after delivering the material he still has a practicable working minimum inventory he may not extend the rating to replace the material delivered; and if by making the delivery his inventory is reduced below this minmium, the rating may be extended to get only the amount necessary to restore the inventory to a practicable working minimum. Any material ordered to replace in inventory must be substantially the same as the material which the person delivered or incorporated in the material which he delivered, except for minor variations in size, shape or design. Substitution of less scarce materials which do not substantially alter the purpose for which the material is to be used is, however, permitted. The Conservation Division of the War Production Board from time to time publishes a list showing the relative scarcity of materials, entitled "Materials Substitution and Supply List." The latest copy may be obtained from any War Production Board office.

(4) A person to whom a rating has been applied or extended to get material may not extend that rating to get containers or closures to pack the material; nor may he extend it to get any material for his own plant improvement, expansion or construction, or to get machine tools or other items which he will carry as capital equipment, or to get business machines for his own use whether purchased or leased, or to get maintenance, repair or operating supplies for his own use. Other orders or regulations, such as CMP Regulation 5 and some orders in the "P" series, assign ratings which may be used by the proper persons to get maintenance, repair or operating supplies and minor capital additions.

(e) *Additional restrictions upon use of ratings for certain materials.* Because of special circumstances which exist with respect to certain materials and products, the use of preference ratings to get items on Lists A or B attached to this regulation is restricted as follows:

(1) *Items as to which preference ratings have no effect; List A.* Any item on List A may be produced or delivered without regard to preference ratings. No person shall apply or extend any rating to get any of these items and no person selling any such item shall require a rating as a condition of sale. Any rating purporting to be applied or extended to any such item shall be void and no person shall give any effect to it in filing an order.

(2) *Items to which blanket MRO ratings do not apply; List B.* Blanket MRO ratings may not be applied to get any item on List B, except as permitted by the list. A blanket MRO rating means a rating assigned by CMP Regulation 5 or 5A, or by any other War Production Board regulation, order (including an order in the "P" series), form or certificate which assigns a rating for maintenance, repair or operating supplies without specifying the kind and quantity of the material to which the rating may be applied. Where the quantity of material is specified in terms of dollar value only, the rating is a blanket MRO rating. No person shall give any effect to any rating applied to his deliveries of any item on List B if he knows or has reason to believe that it is a blanket MRO rating. Any blanket MRO rating applied to an order for any item on List B which was not delivered before the date the item was added to the list shall be deemed void. The restrictions of this paragraph are not applicable when the blanket MRO rating is applied to get an item on the list for use on board ship, but in such a case the rating may not be extended by the person to whom it is applied.

(3) *Illustration.* A manufacturer of a product listed in Schedule II of CMP Regulation 5 is assigned a rating of AA-2 for operating supplies. He may not use the rating to buy wooden shelving for his own use since it is on List B. A contractor has received an order bearing a rating of AA-3 to install wooden shelving in an Army camp. He may extend that rating to get the wooden shelving from the manufacturer since in this case the shelving is production material as to him and not operating supplies. If, however, wooden shelving were on List A instead of List B, neither rating could be used.

(f) *Use of ratings for services*—(1) *Ratings may not be used for personal services.* Preference ratings may never be used to get labor or personal services

as distinct from services performed in the course of a regular business involving the use of plant, machinery or equipment owned by the person furnishing the services. For example, ratings may be used to get a repair job done in a repair shop as explained below but may not be used to compel an individual employee to work on a repair job or to obtain the services of a consulting engineer.

(2) *Three cases where ratings may be used for services.* There are only three situations in which a preference rating may be used to get services, as distinct from the production or delivery of material:

(i) *A rating assigned for the purpose.* If the War Production Board assigns a rating to a named person to get specified services, he may use the rating for that purpose.

(ii) *For processing.* When a person has a rating which he may use to get processed material, he may (unless prohibited by another regulation or order) furnish the unprocessed material to a processor and use the same rating to get it processed.

(iii) *For repairs.* A blanket MRO rating may be applied by the person to whom it is assigned to get his plant, machinery or equipment repaired even if the repair job does not involve the delivery of repair parts or materials. See paragraph (e) (2) for definition of a blanket MRO rating. A rating assigned on Form WPB–541 (formerly PD–1A) or WPB–542 (formerly PD–3A), or any other rating which may be applied to the delivery of specific repair parts or materials, may also be applied to the installation of the repair parts or materials or to the repair job alone if it is found that installing the parts or materials is not necessary. However, in the case of ordinary plumbing, heating, electrical, automotive or refrigeration repairs, a rating may not be applied to repair work even if the rating is expressly applicable to repair parts or materials. As used in this subparagraph, "repair" means to fix a plant, machinery or equipment after it has broken down or when it is about to break down. "Repair" does not mean upkeep or maintenance service such as periodic inspection, cleaning, painting, lubricating, etc.

(3) *Ratings for services only may not be extended.* A person to whom a rating for services, as distinct from the production or delivery of material, has been applied or extended may not extend the rating for any purpose.

(g) *How to apply or extend a rating.* (1) When a person applies or extends a preference rating he must put the rating (and symbol, if appropriate) on the order together with a certification signed as prescribed in Priorities Regulation 7.

He may use the standard certification set out in that regulation, or if he prefers the following:

CERTIFICATION

The undersigned purchaser hereby represents to the seller and to the War Production Board that he is entitled to apply or extend the preference ratings indicated opposite the items shown on this order, and that such application or extension is in accordance with Priorities Regulation 3 as amended, with the terms of which the undersigned is familiar.

_____
(Name of Purchaser)

_____
(Address)

By _____
(Signature and Title of Duly Authorized Officer)

_____
(Date)

(2) If the order is placed by telegraph the person placing the order may include in the telegram the words "ratings certified" or words to that effect and the requirements for signature under Priorities Regulation 7 will be complied with if the copy of the telegram kept by the person placing the order is signed or authorized in the manner provided in that regulation.

(3) A rating may be applied or extended by telephone only if the telephone order requires shipment within 7 days. The person placing the order must state the rating which is being applied or extended and must place the certification on the confirmation of the order or, if it is not confirmed in writing, must put it on his written record of the order. The seller must make a note in his records that the rating was received over the telephone.

(4) When a person applies or extends a rating he shall also include on his purchase order or contract any information which may be required by any applicable War Production Board order. However, he is not required to include the serial number of the preference rating certificate assigning the rating.

(5) Each person who applies or extends a rating must keep at his regular place of business all documents including purchase orders and preference rating orders and certificates which authorize him to apply or extend the rating. These documents, orders and certificates must be kept in such a way that they can be readily segregated and furnished to representatives of the War Production Board for inspection.

(6) When either certification authorized in this paragraph (g) is used it will not be necessary to use any other certification in order to apply or extend a preference rating, nor will it be necessary to furnish a copy of any preference rating order no matter what any regulation, preference rating order or preference rating certificate says unless it expressly states that this regulation does not apply. This does not affect the requirements of Priorities Regulation No. 9 (§ 944.30) when ratings are applied to certain types of exports, in which case its terms control.

(7) No person shall knowingly purport to apply or extend a preference rating to any order unless he is entitled to do so. No person shall apply or extend a rating for material or services after he has received the material or after the services have been performed, and any person who receives such a rating shall not extend it.

(h) *Provisions applicable to extensions; deferment and grouping.* No matter what any applicable preference rating order or certificate may say,

(1) No person may extend any rating to replace inventory after three months have passed from the time he could have first extended it;

(2) When a person has two or more ratings of the same grade which were assigned by different preference rating certificates or orders he may combine them and extend them to one delivery; and

(3) When a person has two or more ratings of different grades, or where they were assigned by the same or different certificates or orders, he may extend them to deliveries under one purchase order. However, the purchase order must show the amount of each material to which a particular grade of rating is extended. If the type and quantity of the material is such that the supplier can readily determine the exact effect of the extension of the rating on his production and delivery schedule from percentage figures alone, then the purchase order may show the amount of the material to which the particular grade of rating is extended on a percentage basis; otherwise, it must be shown as a separate item. In order to avoid production or delivery of material in quantities smaller than the minimum commercially practicable a person may combine ratings of different grades and extend the rating of the lowest grade to the total production or delivery.

(i) *Restrictions in other orders.* When any person applies or extends a rating he shall be subject to any applicable rule or restriction which may be set forth in the order of the War Production Board which assigns the rating or any other order which regulates transactions in the material or the facilities for which he is using the rating. This includes restrictions as to the kind and amount of material to which ratings may be applied or extended, requirements for written approval of any particular transaction, restrictions on certain uses of material or facilities and any other rules which may be applicable to the particular transaction. However, the rules of paragraphs (g) (4) and (g) (6) apply unless some other order or certificate expressly says that they do not.

Issued this 26th day of February 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

LIST A

The following items may be delivered without regard to any War Production Board preference ratings:

Chemicals of the following types manufactured or produced for exclusive use in the petroleum industry, as petroleum industry is defined in Preference Rating Order P–98–b:

a. Antioxidants (gum inhibitors) for motor fuels.

b. Chemical additives and compound bases for heavy duty gasoline engine, diesel engine and aviation engine oils.

c. Chemical additives and compound bases for hypoid gear oils.

d. Synthetic catalysts for oil cracking operation.

e. Synthetic catalysts for cufnene and codimer manufacture.

f. Synthetic catalysts for petroleum isomerization operations.

g. Synthetic catalysts for petroleum sweetening operations.

Communications services.

Dental burs.

Electric energy.

Gas, manufactured combustible, of the type generally distributed by utilities.

Gas, natural.

Petroleum; restricted products as defined in Order M–201.

Steam heating, central.

Sterilizer equipment, as defined in Order L–266.

Track-laying tractor repair parts (See Limitation Order L–53–b).

Ice.

Tobaccos.[1]

Vegetable, fish, marine animal and animal fats and oils, whether edible or inedible, and including their by-products and residues (whether resulting from refining, distillation, saponification, pressing or settling).[1]

Sulfated, sulfonated, and sulfurized fats and oils.[1]

Tall oil.[1]

Wool grease.[1]

Soap (other than metallic).[1]

Fatty acids.[1]

Food for human or animal consumption.[1]

Glycerine.[1]

Graphite crucibles.

Pig iron.

LIST B

Blanket MRO ratings, as defined in paragraph (e) (2), may not be used to obtain the items on this list. If a rating is needed the list, application may be made on Form to get a specified quantity of any product on WPB–541 (formerly PD–1A) or on any other form which may be designated for a particular product or person in a War Production Board order.

Adhesive tape backed with cellophane or similar transparent material derived from cellulose.

Animal traps.

Anti-freeze, all types.

Athletic and sport equipment.

Auger Bits, Type 1 as defined in Schedule VIII to Order L–157.

Automotive maintenance equipment as defined in Limitation Order L–270.

Automotive replacement batteries as defined in Limitation Order L–180.

Automotive replacement parts as defined in Limitation Order L–158.

Award emblems, badges, buttons and other similar award pins (not including identification badges).

Blowers and industrial vacuum cleaners governed by Limitation Order L–222.

Capping, closing and sealing machinery and equipment for cans, jars and bottles (other than screw capping machines) having a retail sales value of $25 or more, inclusive of motor, as listed in Schedule A of Order L–332 (except for replacement of existing machinery or equipment).

Cast iron ware, as defined by Limitation Order L–30–c.

Cellophane and cellulose acetate film less than three one thousandths (0.003) of one inch thick.

Cellulose caps or bands of any gauge.

[1] Subject to FD Regulation No. 1 of the War Food Administration.

Chemicals listed in Direction No. 5 of this regulation. (See that direction for MRO ratings which may be used.)

Chinaware.

Civilian defense devices: any device, equipment, instrument, preparation or other material designed or adapted for use in connection with:

a. Air raid warnings or detection of the presence of enemy aircraft; or

b. Blackouts or dimouts; or

c. The protection of civilians, either individually or collectively, against enemy action or attack.

Clocks and watches.

Closures and closing devices required for packaging products to be shipped or delivered, as follows:

a. Closures for glass containers.

b. Gummed stay and sealing tape, paper and cloth.

c. Paper and paperboard bottle caps, closures, and hoods.

Containers, fabricated (in knock-down or set-up form, whether assembled or unassembled) required for packaging products to be shipped or delivered. For the purpose of this item the word "containers" shall not include steel strapping, shipping reels and skids, or any item which is specifically excluded from the following sub-items (such as "shell containers" in sub-item f.). It shall, however, include but is not limited to:

a. Bags, all types, and specialty envelopes (including those made of paper, textile, combinations of materials, transparent films, metallic foils, parchment, kraft or sulphite).

b. Baskets and hampers.

c. Cans, as defined in Order M–81.

d. Collapsible tubes.

e. Cooperage, tight and slack.

f. Fibre cans, fibre tubes (except shell containers), fibre bottles, fibre mailing cases, and fibre drums.

g. Folding and set-up boxes (paperboard).

h. Gas cylinders, as defined in M–233.

i. Glass containers.

j. Ice cream cans (paperboard) and paraffin cartons and pails.

k. Paper cups and paper food containers (except as otherwise stated in Direction 2 of this regulation).

l. Paper milk containers.

m. Steel shipping drums as defined in Order L–197.

n. Wooden and fibre inner containers.

o. Wooden and fibre shipping containers and parts, as defined in Order P–140.

Corrugated and solid fibre sheets, not constituting "shipping containers" or "parts" as defined in Order P–140.

Cutlery, as defined in any order of the L–140 series.

Electronic intercommunicating systems, including public address systems.

Enameled ware, as defined by Limitation Order L–30–b.

Filing cabinets, wooden.

Fire protective equipment, including

a. Couplings, playpipes and allied fittings;

b. Fire hose, hose dryers, racks and reels;

c. (Revoked.)

d. Fire pumps;

e. Fire sprinkler systems;

f. Foam generators;

g. Indicator posts;

h. Lightning rod systems;

i. Piped extinguishing systems;

j. Portable fire extinguishers;

k. Stirrup pumps;

l. Water spray nozzles.

Flatware.

Frying pans.

Fuel.

Furniture for any use, except furniture specifically designed for schools.

Galvanized ware and non-metal coated metal articles as governed by Limitation Order L–30–a (except for funnels, oil and gasoline cans having a capacity of from 1 to 5 gallons, inclusive, and flexible spout measures).

Glass tableware.

Glass tumblers.

Kitchen ware, heavy duty (except ratings applied by a food "processor" as defined in Order L–292:

a. Bakery utensils;

b. Butcher benches;

c. Butcher blocks;

d. Canopies or hoods;

e. Carriers, food;

f. Carriers, tray;

g. Coffee mills and grinders;

h. Counters, cafeteria, lunch and serving;

i. Counter protectors;

j. Cutters, french fry;

k. Cutters, meat, bone and fish;

l. Dispensers, milk and cream;

m. Display racks;

n. Dough dividers;

o. Dough troughs;

p. Knife sharpeners and grinders;

q. Pans, cold;

r. Potato mashers;

s. Potato and vegetable parers or peelers;

t. Racks, bread (bakery);

u. Racks, dump (bakery);

v. Racks, pans (bakery);

w. Sandwich units;

x. Slicers, meat and bread;

y. Tables, bakers;

z. Tables, cooks, chef, salad and work;

aa. Tables, soiled and clean dish;

bb. Toaster stands;

cc. Tray stands;

dd. Trucks, food;

ee. Urn stands;

Insulation blowing machines complete, and the following parts thereof:

(a) Internal combustion engines, or electric motors.

(b) Blowers.

(c) Speed reduction units.

Kitchen household and miscellaneous articles governed by Limitation Order L–30–d.

Laboratory instruments and equipment, including parts thereof. (Except ratings assigned by Preference Rating Orders P–43, P–68, P–89, and P–98–b, and ratings assigned pursuant to Orders P–56, P–68 and P–73.)

Lawn mowers, including power and gang mowers.

Light power driven tools (as defined in L–237) which had a producer's list price on October 15, 1942, of more than $175. The following types only:

a. Abrasive belt finishing machines (excluding wet and dry type)

b. Band saw machines (excluding gear driven)

c. Jointers

d. Lathes, bench and floor types as follows:

Metal spinning and woodworking

e. Radial saws

f. Routers

g. Scroll and jig saws

h. Shapers, vertical spindle

i. Table saws

Lighting fixtures, fluorescent (as defined in Order L–78), and incandescent (as defined in Order L–212), and electric floodlights. Blanket MRO ratings of AA–2 or higher may, however, be used.

Lockers, wooden, for offices and factories.

Medical, surgical and dental equipment and supplies (except parts for the maintenance or repair of existing equipment) including:

a. Anaesthesia and oxygen equipment and accessories;
b. Atomizers;
c. Clinical thermometers;
d. Crutches;
e. Dental consumable supplies;
f. Dental equipment and appliances (except dental lathes);
g. Diagnostic instruments and apparatus;
h. Electric light bulbs for diagnostic instruments;
i. Hearing aids;
j. Hospital and medical rubber drug sundries;
k. Hospital enamelware and stainless steel ware;
l. Hypodermic needles and syringes;
m. Operating and examining room furniture;
n. Operating and examining room lights;
o. Opthalmic goods.
p. Orthopedic appliances including splints, belts and trusses;
q. Physical therapy equipment and supplies;
r. Sterilizers;
s. Surgical dressings;
t. Suture needles;
u. Sutures;
v. X-ray equipment and supplies.

Medical, surgical and dental instruments.

Medicinal preparations, including vitamins.

Monorail system and additions thereto, except one complete addition valued at less than $200.00.

Pails and tubs, wooden, including wooden mop pails.

Paper and paperboard and products manufactured therefrom and molded pulp products; excluding carbon paper, tracing paper, reproduction paper, sensitized paper, engineering graph paper, chemically treated paper for engineering use, litmus paper and filter paper and paper tags.

Pencils, mechanical.
Pencils, wood cased.
Pens, fountain.
Pen holders.
Pen nibs, steel.
Photographic film sensitized, as controlled by Order L–233.
Pins, common and safety.
Precision measuring instruments and testing equipment—Preference Rating Order E–9.

Printing and publishing:
a. Printed matter including items such as letterheads, envelopes, forms and printed and ruled stationery;
b. Processed printing plates;
c. Type metal, stereotyping metal and electrotype backing-metal;
d. Printing paper, paperboard and binders' board;
e. Book cloth;
f. Blankbook and loose-leaf binders, metal parts and units;
g. Mechanical bindings.

Radio transmitters, receivers and transceivers.

Signal and alarm equipment, including:
a. Central Station, proprietary, auxiliary and automatic fire alarms;
b. Watchman's time recording, burglar, bank vault, holdup and intrusion systems.

Slide rules, precision, engineering, having a list price of $7.50 or more.

Venetian blinds.

Wire intercommunicating systems.

Wooden shelving.

Woodworking machinery having a producer's list price (as defined in Order L–311) of more than $175.

NOTE: Lists A and B of this regulation will, in general, be revised on or about the 15th of every second month. Another revision may be expected about April 15, 1944.

INTERPRETATION 1, REVOCATION

Interpretation 1 of Priorities Regulation 3 is hereby revoked. (Issued Nov. 17, 1943.)

INTERPRETATION 2

The restrictions on the use of ratings for the items on Lists A and B apply to orders for such items which had been placed before the date the item was put on the list but were not yet filled. (Issued Nov. 17, 1943.)

INTERPRETATION 4

A great many orders of the War Production Board permit the delivery of materials pursuant to preference ratings assigned by a P–19–h Order, or by an order in the P–19 series. Forms CMPL–224 and CMPL–127 are generally used in place of orders in the P–19 series. It is expressly stated on Form CMPL–224:

"This authorization is issued in lieu of preference rating order of the P–19 series. Any reference in any order of the War Production Board to said preference rating orders shall constitute a reference to this authorization."

It is set forth in CMPL–127:

"This authorization is issued in lieu of Preference Rating Order P–19–h or P–55. Any reference in any order of the War Production Board to said Preference Rating Order P–19–h or P–55 shall constitute a reference to this authorization."

Consequently, it is proper for any person to deliver material or equipment pursuant to a rating assigned by Forms CMPL–224 or CMPL–127, if he is permitted under existing orders of the War Production Board to deliver said material pursuant to a rating assigned by a P–19–h order or an order in the P–19 series. (Issued Aug. 13, 1943.)

INTERPRETATION 5

(a) *Restrictions of other orders on use of ratings or delivery.* The provisions of paragraph (e) relate only to the items which appear on the lists. When any other order of the War Production Board restricts the use of preference ratings to obtain any product, or restricts delivery of a product in any way, those restrictions are applicable even though that product is not listed in Priorities Regulation 3 (§ 944.23). This rule specifically applies to the items which were on List C before the amendment of August 10, 1943.

(b) *"Masking" tape.* Blanket MRO ratings may be used to get industrial pressure sensitive adhesive tape (paper and cloth), also called "masking" tape. This type of tape is not included in "Gummed stay and sealing tape, paper and cloth."

This interpretation is not applicable to adhesive tape backed with cellophane or similar transparent materials derived from cellulose which may not be obtained with blanket MRO ratings. (Issued Dec. 18, 1943.)

INTERPRETATION 6

EFFECT OF PREFERENCE RATING CERTIFICATE REFERRING TO PRODUCT OF A PARTICULAR MANUFACTURER

(a) When a preference rating certificate in assigning a rating to a product describes the product by its trade name or by the manufacturer's name and catalogue number, the rating may ordinarily be used to get the product from any manufacturer if the model actually obtained is substantially identical in size, operation and function with that named in the certificate.

(b) The rule stated in the preceding paragraph is consistent with the statement in paragraph (c) (2) of Priorities Regulation 3 (§ 944.23), that a preference rating may be applied only to the specific quantities and kinds of material authorized. Ordinarily a reference in a preference rating certificate to a particular product of a particular manufacturer is no more than a shorthand way of describing the product. It is safe to assume, unless the certificate clearly states otherwise, that what is being rated is a certain kind and size of product which may be obtained from any manufacturer who makes that kind and size. If it is intended to confine the rating to a particular product of a particular manufacturer, the certificate should say so explicitly. (Issued Sept. 8, 1943.)

INTERPRETATION 7

LIMITATIONS ON THE RIGHT TO USE RATINGS TO GET MATERIALS PROCESSED

(a) *What this interpretation covers.* This interpretation explains the limitations on the use of a preference rating assigned to the delivery of a material to get material processed under paragraph (f) (2) (ii) of the regulation.

(b) *Controlled materials.* Preference ratings cannot be used to buy controlled materials (steel, copper, and aluminum in controlled material form) from a producer or warehouse and consequently no rating may be used to get material processed into a controlled material by a producer or warehouse. There is one exception to this general rule which is covered by paragraph (d–1) of CMP Regulation No. 8, which assigns a preference rating to steel producers for use in getting steel processed into a controlled material form.

(c) *Class B products.* Paragraph (g) (3) of CMP Regulation No 1 prohibits allotments of controlled materials to B product manufacturers except by the War Production Board and, as explained in Interpretation No. 16 to CMP Regulation No 1, also prohibits a customer from furnishing controlled materials to a B product manufacturer. A special exception to this general rule is provided in Direction 36 to CMP Regulation No. 1. In all cases not covered by the exception, it is improper for a person to furnish controlled materials to a B product manufacturer for processing and consequently no preference rating can be used to get such processing done. In this connection, attention is called to the fact that all products, whether Class A products or Class B products, which are bought for use as maintenance, repair, or operating supplies are treated as though they were Class B products. This is covered by paragraph (k–1) (2) of CMP Regulation No. 1. As pointed out in Interpretation No. 13 to CMP Regulation No. 1, a Class A repair part is handled on a Class B basis and therefore paragraph (g) (3) of the regulation is applicable.

(d) *Ratings not to interfere with authorized controlled material orders.* While a person who has been assigned a rating to get material may use the rating to get the use of the facilities of a controlled materials producer to have the material processed (if the material, when processed, is not a controlled material) rated orders for the use of a controlled materials producer's facilities must not interfere with the acceptance, production, or delivery of orders which he is permitted to fill under paragraph (t) (3) of CMP Regulation No. 1. Attention is called to Interpretation No. 4 to Priorities Regulation No. 1 on this subject. (Issued Nov. 18, 1943.)

INTERPRETATION 8

ELECTRONIC INTERCOMMUNICATING SYSTEMS AND WIRE INTERCOMMUNICATING SYSTEMS

List B of Priorities Regulation 3 (§ 944.23) forbids the use of blanket MRO ratings to obtain electronic intercommunicating systems or wire intercommunicating systems. This restriction applies only to getting systems not yet installed. Therefore, blanket MRO ratings may be used to obtain repair parts and materials for existing intercommunicating systems. Also, those blanket MRO ratings which may be used for minor capital additions, may within prescribed dollar limits be used to add stations to an existing intercommunicating system to bring it to its designed capacity. Thus, if an intercommunicating system is designed for 16 stations, with only 12 stations originally installed, four stations may be added by the use of blanket MRO ratings. However, an expansion beyond the 16 stations, or any enlargement of or an extension beyond the designed capacity, may not be obtained by use of blanket MRO ratings.

In conjunction with the above interpretation, it should be pointed out that a related item, signal and alarm equipment, also appears on List B of Priorities Regulation 3. With respect to signal and alarm equipment, blanket MRO ratings may be used to get parts and materials for repair and maintenance of existing equipment. However, since signal and alarm equipment is generally installed without a specific margin of unused designed capacity, no additions or extensions by the use of blanket MRO ratings are permitted. (Issued Jan. 6, 1944.)

INTERPRETATION 9

CERTAIN MRO RATINGS ASSIGNED UNDER P–98–b ARE NOT BLANKET MRO RATINGS

Paragraph (e) (2) of Priorities Regulation 3 prohibits the use of a "blanket MRO rating" to get any item on List B. See that paragraph for a definition of a "blanket MRO rating". Some of the items which are on List B also appear on Schedule B of Preference Rating Order P–98–b. That schedule provides a way to get a rating for the items which appear on it so that such P–98–b ratings will not be "blanket MRO ratings". These ratings are assigned to specific purchase orders for a specific kind and quantity of the material desired.

Therefore, when a rating assigned pursuant to Schedule B of P–98–b (as evidenced by the symbol MRO–P–3) is applied to a purchase order for any item which is set out on Schedule B of that order that rating is valid, despite the fact the item is also on List B of Priorities Regulation 3.

The order does not require the purchaser to furnish a copy of his approved purchase order to the supplier, and the supplier should give effect to the rating and certification unless he knows or has reason to believe that the purchase order has not been rated as provided in Schedule B of Order P–98–b. (Issued Jan. 24, 1944.)

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 3, Interpretation 3, as Amended Feb. 26, 1944]

FIRE PROTECTIVE EQUIPMENT

The following interpretation was issued with respect to Priorities Regulation 3:

Blanket MRO ratings may be used to obtain repair parts and material for existing fire protective equipment, but may not be used to obtain end items of fire protective equipment. The term "Fire protective equipment", on List B attached to Priorities Regulation 3, includes only end items and does not include materials or parts required for the repair or maintenance of existing fire protective equipment.

For example, a fire extinguisher or a fire hose coupling is an end item of fire protective equipment and therefore may not be obtained on blanket MRO ratings, whereas a part required to repair an extinguisher or coupling is not an end item and therefore may be obtained on blanket MRO ratings. Similiarly, blanket MRO ratings may not be used to obtain a fire sprinkler system nor to extend an existing sprinkler system, but such ratings may be used to repair or replace sprinkler heads which have been opened up by fire or damaged in any other way. However, blanket MRO ratings may not be used to repair or replace new equipment which is still usable.

Issued this 26th day of February 1944.

[CMP Reg. 5 as Amended Feb. 26, 1944]

MAINTENANCE, REPAIR AND OPERATING SUPPLIES

§ 3175.5 *CMP Regulation 5*—(a) *Purpose and scope.* (1) The purpose of this regulation is to provide a uniform procedure for obtaining maintenance, repair and operating supplies, both in the case of controlled materials obtained by use of allotment symbols under the Controlled Materials Plan and in the case of materials or products obtained by preference ratings. Persons requiring maintenance, repair and operating supplies, in any form, in such quantities as are available from warehouses or distributors under CMP Regulation No. 4, or at retail without preference ratings or allotments, may obtain the same without using the procedure provided in this regulation, but subject to all applicable limitations in War Production Board regulations and orders.

(2) The provisions of this regulation shall not apply to any governmental agency (other than Claimant Agencies) or to any institution, as the same are defined in paragraphs (b) (1) and (b) (2) of CMP Regulation No. 5A, regardless of whether it is engaged in the production of any product or in any activity or service listed in any schedule attached to this regulation or not. Procedures for the obtaining of maintenance, repair and operating supplies by such governmental agencies and by such persons and institutions are provided under CMP Regulation No. 5A. This regulation is also inapplicable to certain purchases by Claimant Agencies or for export as more fully provided in paragraph (g).

(3) [Deleted Feb. 26, 1944]

NOTE: Canadians will obtain MRO in the United States under Canadian Order PO 5 B.

(b) *Definitions.* Maintenance, repair and operating supplies and minor capital additions (which are sometimes collectively referred to as "MRO") have the following meanings in this regulation and in other War Production Board regulations and orders unless otherwise indicated:

(1) "Maintenance" means the minimum upkeep necessary to continue a facility in sound working condition, and "repair" means the restoration of a facility to sound working condition when the same has been rendered unsafe or unfit for service by wear and tear, damage, failure of parts or the like: *Provided,* That neither maintenance nor repair shall include the improvement of any plant, facility or equipment, by replacing material which is still usable, with material of a better kind, quality or design, except as provided in paragraph (b) (3) of this regulation.[1]

(2) "Operating supplies" means any materials or products which are normally carried by a person as operating supplies according to established accounting practice and are not included in his finished product, except that materials included in such product which are normally chargeable to operating expense may be treated as operating supplies. The term also includes such items as hand tools purchased by their employer for use only in his business, in those cases where they would constitute operating supplies under established accounting practice if issued to employees without charge.[2]

(3) Minor capital additions may be obtained under the procedures provided for in this regulation for obtaining maintenance, repair and operating supplies where the cost of the minor capital addition does not exceed $500 (excluding the purchaser's cost of labor) for any one complete capital addition. The term "one complete capital addition" includes a group of items customarily purchased together and all items which would normally be purchased as part of a single project or plan. No capital addition shall be subdivided for the purpose of coming within this paragraph, and where the capital addition involves construction, authorization to construct must be obtained to the extent required by Conservation Order L–41 or by any other applicable order or regulation of the War Production Board.[3]

(4) Production materials required by a manufacturer for physical incorporation in his products, which products he sells for use as maintenance, repair or operating supplies, may be obtained as provided in CMP Regulation No. 1 and in CMP Regulation No. 3, and such production materials shall not be deemed maintenance, repair or operating supplies, as to such manufacturer.

[1] See also Interpretation No. 8: Repairs which are capitalized must be treated as capital additions.

[2] See also: Interpretation No. 4: Material for the manufacture of containers is a production material; Direction No. 2: Steel shoe wire is to be treated as an operating supply; Direction No. 4: Stitching wire is to be treated as an operating supply; Direction No. 7: Welding rod is not an operating supply when used in manufacturing; Direction No. 9: Employees may use their employer's rating to buy hand tools and (Direction 11) safety equipment; Direction 16: Broom wire is to be treated as an operating supply.

[3] See also Interpretation No. 9: Relationship of L–41 and CMP Regulation No. 5. Direction No. 15: MRO Symbol and Rating may be used to buy installation materials where authorization to construct is not required under L–41.

(c) *Controlled materials.* (1) Subject to the quantity restrictions contained in paragraph (f) of this regulation, any person engaged in the business of producing any product or conducting any business listed in Schedule I or II, requiring delivery of any controlled material, for maintenance, repair or operating supplies in the conduct of such business,[4] may obtain the same by placing on his delivery order substantially the following certification (or the alternative form of certification provided in CMP Regulation No. 7), signed manually or as provided in Priorities Regulation No. 7:

CMP allotments symbol MRO—The undersigned certifies, subject to the criminal penalties for misrepresentation contained in section 35 (A) of the United States Criminal Code, that the controlled materials covered by this order are required for essential maintenance, repair or operating supplies, to be used for a purpose listed in Schedule I or Schedule II of CMP Regulation No. 5 and that delivery thereof will not result in a violation of the quantity restrictions contained in paragraph (f) of said regulation.

NOTE: Unnumbered paragraph deleted Feb. 26, 1944.

An order bearing such certification shall constitute an authorized controlled material order.

(2) [Deleted Feb. 26, 1944]

(3) [Deleted Feb. 26, 1944]

(d) *Preference ratings for maintenance, repair and operating supplies.* (1) Subject to the quantity restrictions contained in paragraph (f) of this regulation, orders calling for delivery of maintenance, repair or operating supplies other than controlled materials (regardless of whether such supplies be Class A products, Class B products, or other products or materials) are hereby assigned preference ratings as follows:

(i) AA–1 for maintenance or repair of facilities required for producing any product or conducting any business listed in Schedule I or for necessary operating supplies for such production or business;

(ii) AA–2 for maintenance or repair of facilities required for producing any product or conducting any business listed in Schedule II or for necessary operating supplies for such production or business; and

(iii) AA–5 for necessary maintenance or repair of facilities required for producing any product or conducting any business not listed in Schedule I or Schedule II or for necessary operating supplies for any such purpose.[5]

(2) A preference rating assigned under this paragraph (d) shall be applied only by use of the following certification (or the alternative form of certification provided in CMP Regulation No. 7), signed manually or as provided in Priorities Regulation No. 7:

Preference rating ------- (specify rating)—MRO. The undersigned certifies, subject to the criminal penalties for misrepresentation contained in section 35 (A) of the United States Criminal Code, that the items covered by this order are required for essential maintenance repair or operating supplies; that this order is rated and placed in compliance with CMP Regulation No. 5; and that the delivery requested will not result in a violation of the quantity restrictions contained in paragraph (f) of said regulation.

(3) [Deleted Feb. 26, 1944]

(e) *Plants engaged in several activities.* If a single plant or operating unit is engaged in several activities which are not all listed on the same schedule (or if some are so listed and others are unlisted), and it is impracticable to apportion requirements for maintenance, repair and operating supplies between such activities, the principal activity alone shall be considered for purposes of determining whether controlled materials may be obtained under paragraph (c) of this regulation and also for determining which preference ratings may be applied under paragraph (d).

(f) *Quantity restrictions.* A person who uses the MRO rating or symbol assigned by this regulation must not buy any more material and products than is permitted under this paragraph.

(1) *General quota.* A person must not order for delivery[6] in any calendar quarter MRO (maintenance, repair and operating supplies) costing more than one-fourth of what he spent for MRO in 1942 (or his fiscal year ending nearest to December 31, 1942).

(2) *Seasonal quota.* A person engaged in a seasonal business must not order MRO for delivery[6] in any calendar quarter in an amount more than the amount he spent for MRO in the corresponding quarter of 1942. A person may choose either the seasonal quota explained in this paragraph or the general quota explained in sub-paragraph (1) above, but he may not afterwards change to the other quota without special authorization by the War Production Board.

(3) *Quota for new businesses.* In the case of a plant or other operating unit which was not in operation during the base periods mentioned in subparagraphs (1) or (2) above, the person operating the plant may take as a quota the amount he spent for MRO during the first quarter of 1943 (or during the part of the quarter the plant was in operation) reasonably adjusted for seasonal or other variable factors. However, he must first notify the War Production Board, in writing, of the base which he is taking, why he is selecting that base, and what adjustments he has made. In the case of a plant starting operations after February 28, 1943, MRO may be bought under this regulation in the minimum amounts necessary for operation up to $5,000 per quarter. If more than this amount is needed, application may be made to the War Production Board as provided in paragraph (f) (8).

(4) *When increased quotas can be used as a base.* If a person's quota has been increased by specific authorization of the War Production Board pursuant to application, he may continue to operate on the basis of the increased quota. However, if a substantial part of the increase was to take care of an abnormal situation, as for example, where he required a large amount of special tools and equipment in order to produce a new product, he may not use that increased quota as a base.

NOTE: Former subparagraph (4) deleted Feb. 26, 1944, because obsolete.

(5) *How to figure the quota.* In figuring his quota, a person must include every expenditure during the base period which he charged to a maintenance, repair or operating supplies account. He must not include any expenditure which was charged to a capital account. In each quarter he must charge against his quota (i) everything he buys for MRO, whether he uses the MRO rating and symbol, or another rating or symbol, or no rating; and (ii) material and products he buys for minor capital additions for which he uses the MRO rating or symbol. (Note, that in deciding whether a single capital addition falls within the cost limits of paragraph (b) (3), the cost of all material and products must be included whether a preference rating or symbol is used or not). In figuring his quota, a person may at his option exclude the cost of his own labor, or the cost of any item on List A or B of Priorities Regulation No. 3, as long as he excludes cost of such items both from the computation of the quota and from charges against the quota.

(6) *Records.* Each person who is subject to this paragraph (f) must figure his quota and must keep his computation and supporting work sheets in his files for two years after his last purchase under the regulation. He must indicate on his computation any election which he makes under this paragraph (f), and in the case of paragraph (f) (3) "Quota for new businesses" or (f) (4) "When increased quotas can be used as a base", he must indicate the base which he selects. He must also maintain a record of his expenditure for a period of not less than two years.

(7) *Treatment of separate plants.* A person who has several plants or other operating units which maintain separate records of maintenance, repair and operating supplies shall treat each of them separately for purposes of complying with the provisions of this paragraph (f).

NOTE: Paragraph (7), formerly (2), redesignated Feb. 26, 1944.

(8) *Applications for increased quota.* In any case where the quota provided in this paragraph (f) is not enough for necessary operations, a person may apply for a larger quota by letter in triplicate sent to the War Production Board, Washington 25, D. C., Reference: CMP Regulation 5, stating the relevant facts.

(9) *Persons who use less than $5,000 a year worth of MRO not limited.* The quantity restrictions in this paragraph (f) shall not apply to persons whose aggregate requirements of maintenance, repair and operating supplies do not exceed $5,000 per year.

(10) *Further reports and limitations in special cases.* The War Production Board may, by further regulations or orders, require specified persons or classes of persons to file applications or reports regarding their requirements of maintenance, repair and operating supplies and may prescribe specific quantitative limits for the same, either larger or smaller than the limits provided above in this paragraph (f).

NOTE: Paragraphs (9) and (10), formerly (8) and (6), redesignated Feb. 26, 1944.

(g) *Special provisions for Claimant Agencies, exports and ship repairs.* Maintenance, repair and operating supplies, required either by a Claimant Agency (except for the purposes mentioned in Schedule I or II) or for export, as regular procurement items covered by specific programs, and material required for ship repairs programmed by the Maritime Commission, shall not be obtained under this regulation, but, if they are controlled materials or Class A products, shall be obtained only by the use of allotments in the same manner as production materials under CMP Regulation No. 1, and, if they are other materials or products, shall be obtained only by such preference ratings as may be specifically assigned for the purpose.

(g–1) *Use of customer's or tenant's MRO symbol and rating.* (1) Any person (such as a service repair shop) engaged in the business of doing maintenance or repair work for others may use the same allotment symbol and preference rating (including any allotment symbol or preference rating assigned for MRO by CMP Regulation 5A or any P or U order) to obtain materials needed in the performance of the work which his customer would be entitled to use if the customer did the work himself. The cost of materials used in the performance of maintenance or repair work shall be treated as expenditures of the customer for the purpose of computing his quantity restrictions under paragraph (f). A person engaged in such business may, instead, request an allotment of controlled materials and a preference rating by applying to the War Production Board on Form CMP–4B, but, if he does so, he must use that method exclusively and may not use a customer's rating or symbol.

(2) A landlord may use his tenant's allotment symbol and rating to obtain maintenance, repair and operating supplies (including controlled materials) for the leased property if the tenant is engaged in the production of a product or in a business listed in Schedule I or II or if the tenant is assigned a rating or symbol for MRO CMP Regulation 5A or by any P or U order; but if the same property is occupied by several tenants and the supplies are not for the exclusive benefit of a single tenant the landlord may only use a tenant's rating if 75 percent or more of the leased property is leased to tenants on Schedule I or II and, in such case, if any are on Schedule II, he can only use the AA–2 rating.

(3) A person who leases equipment to others which he agrees to keep in good order may use either his own or his customer's rating and symbol (regardless of whether the rating is assigned by this regulation or CMP Regulation 5A or any order in the P or U series) to get materials needed to repair and maintain the equipment.

(h) *Restrictions on use of MRO symbol, rating, and materials.*—(1) *Use of symbol and rating.* No person shall use the MRO symbol or the preference rating assigned to him by this regulation to get anything except materials which he needs for essential maintenance, repair or operating supplies, or minor capital additions as permitted by paragraph (b) (3). If he is assigned different ratings by this regulation for different businesses and it is practicable to segregate his purchases, he must not use a higher rating to get material for a purpose for which he is assigned a lower rating. If it is not practicable for him to segregate his purchases, paragraph (e) explains what rating he may use.

(2) *Use of material.* If a person has bought material under this regulation for MRO and then finds that he has another use for it, he may use the material for the other purpose if a preference rating or allotment symbol is assigned to him by any certificate or order for that purpose. However, if he uses the material for another use he may not replace it in inventory by use of the rating or symbol assigned by this regulation. If he replaces it, he must use the rating or symbol assigned for the purpose for which the materials were used. Also, if he uses material bought under this regulation for another use, his records must be adequate to show that his purchases of material are substantially proportionate to his authorized uses. For example, a manufacturer has a rating of AA–2 under this regulation for MRO and also has a rating of AA–3 for a construction project. He may take lumber from his MRO inventory which he bought on the AA–2 rating and use it on the construction job, but if he replaces it in his inventory he must use the AA–3 rating for this purpose, so that he will not, in effect, have filled both his MRO and his construction requirements at the AA–2 rating. Exchanges of this kind may be made only where the material is acquired in good faith for use as MRO. The manufacturer may not use the AA–2 ratings to get lumber if he is getting it specifically for use in the construction project.

(i) *Inventory restrictions.* Nothing in this regulation shall be deemed to authorize any person to receive any delivery of maintenance, repair or operating supplies if acceptance thereof would increase his inventory above a practicable working minimum as provided in § 944.14 of Priorities Regulation No. 1 or would exceed the inventory limitations prescribed for such person by CMP Regulation No. 2, or by any other applicable regulation or order of the War Production Board.

(j) *Additional assistance in individual cases.* Any person requiring maintenance, repair or operating supplies who is unable to obtain them with the rating assigned to him by this regulation, and any person requiring any controlled material for maintenance, repair or operating supplies who is not listed in Schedule I or II and who is unable to obtain it from a warehouse or distributor under CMP Regulation No. 4 may apply to the nearest local office of War Production Board on Form WPB–541 (formerly PD–1A) for a higher rating, or the right to use the MRO symbol to obtain controlled materials. Application for an increase in the quantity of expenditures for maintenance, repair and operating supplies permitted by paragraph (f) of this regulation shall, however, be filed in the manner specified in subparagraph (8) of paragraph (f).

(k) *Effect on other orders and procedures.* (1) The preference ratings and allotment symbols assigned by this regulation may be used by any person, unless he is engaged in an activity or business which is covered by an order in the P or U series which specifically provide that the ratings assigned by CMP Regulation No. 5 may not be used.

(2) [Deleted Feb. 26, 1944]

[4] See also Interpretation No. 5: Conduct of business includes general offices, branch offices, salesrooms, et cetera.

[5] See also: Direction No. 3: Rerating of orders placed before May 16 is not compulsory; Direction No. 5: Farmers are not entitled to use AA–5 rating.

[6] See also: Direction No. 8: Quota may be determined on a receipt basis.

(3) [Deleted Feb. 26, 1944]

(4) When an order in the "E", "L" or "M" series assigns a specific preference rating to deliveries of any particular material to be used by a particular industry or for a specific purpose, such preference rating shall control and the preference ratings hereby assigned may not be applied.

NOTE: Remainder of paragraph (k) (4) deleted Feb. 26, 1944.

(5) Nothing in this regulation shall be construed to relieve any person from complying with any applicable priorities regulation or order of the Warr Production Board (including orders in the "E," "L" and "M" series) or with any order of any other competent authority.

(l) *Industry reclassification.* Any person who is of the opinion that the business activity in which he is engaged should be listed in Schedule I, if it is listed in Schedule II, or should be listed in either Schedule I or Schedule II, if it is not listed in either of such schedules, may apply to have such activity so listed by filing a letter, in triplicate, with the appropriate Industry Division setting forth the relevant facts and the reasons why he considers such request should be granted.

The War Production Board may cause such activity to be listed in one of the schedules attached to this regulation or, in special cases, may permit the applicant to operate under this regulation to the same extent as though his business activity were included in one of such schedules.

(m) *Records.* Each person acquiring maintenance, repair or operating supplies pursuant to this regulation shall keep and preserve, for a period of not less than two years, accurate and complete records of all such supplies so acquired, and used, which shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(n) *Communications.* All communications concerning this regulation should be addressed to: War Production Board, Washington 25, D. C., Ref: CMP Regulation No. 5.

(o) *Restriction on use of ratings.* The preference rating assigned by this regulation cannot be used to get any of the items shown on List A or B of Priorities Regulation No. 3.

(p) *Penalties for misrepresentation.** The placing of any order bearing a certification or symbol as provided by this regulation shall constitute a representation, subject to the criminal penalties of section 35 (A) of the United States Criminal Code (18 U. S. C. 80), that the person placing the order is entitled, under the terms of this regulation to use of the symbol or preference rating indicated thereon.

Issued this 26th day of February 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

*Formerly paragraph (h) (1).

SCHEDULES

Preference Rating AA-1 may be used for MRO by those businesses listed with the numeral "I", AA-2 by those with "II", others use AA-5 (paragraph (d)).

Manufacture of the following products:

Unfabricated and semi-fabricated metal products

Schedule	
I	Ferro-alloys (except producers to whom serial numbers have been issued under Order P-68).
I	Iron products including pig iron, pipe, wire, wrought iron and foundry products (except producers to whom serial numbers have been issued under Order P-68).
I	Non-ferrous metal and non-ferrous metal alloy unfabricated and semi-fabricated products, including castings, ingots, shot, bar, forgings, sheet, strip, tubing, extrusions and wire and wire products.
I	Steel rolling mill and foundry products, including semi-finished steel, bars, pipe, plates, sheets, strip, castings, forgings, structural shapes, piling, tin plate, terne plate, black plate, tubing, rails, track accessories, wheels, tires, axles, wire and wire products (except producers to whom serial numbers have been issued under Order P-68).

Intermediate metal products

I	Bearings, ball and roller.
I	Bolts, nuts, rivets, washers, screws and pins.
I	Bushings, journal bearings and sleeve bearings.
I	Crankshafts.
I	Cylinders, hydraulic actuating.
I	Fittings, pipe.
I	Gaskets, packings and grease retainers.
II	Metal stampings.
I	Nails, brads, staples and tacks.
I	Pipe, fabricated.
I	Plate, fabricated (steel).
I	Railroad frogs, switches and crossings.
I	Screw machine products.
I	Springs.
II	Strapping, metal, round and flat (including seals).
I	Structural steel (fabricated).
I	Tanks, metal storage.
I	Tubing and hose, flexible (metallic).
I	Valves.

Chemical products

I	Chemicals and allied products for industrial and military use (excluding automobile body polish and top dressing; candles; cleaning and polishing preparations for metal, leather, floors and furniture; household dyes; ink and ink eradicators; incense; toiletries and cosmetics, perfumes, powders and creams, manicure preparations, hair dressings, dyes, shampoos and tonics; dentrifices and depilatories).
I	Colors and pigments.
I	Drugs, medicinals, pharmaceuticals and biologicals.
II	Dry cleaning preparations.
I	Paints, varnishes and lacquers.
II	Printing ink.
II	Soap, soap chips, flakes and powders.

General industrial equipment

I	Air conditioning and refrigeration equipment; industrial and commercial.

General industrial equipment—Continued

Schedule	
I	Boilers, 100 lbs. pressure and over.
II	Boilers, below 100 lbs. pressure.
II	Bottling machines.
I	Condensers: steam, surface, jet and barometric.
I	Control valves and regulators, industrial type.
I	Conveyors and conveyor systems.
I	Cranes, hoists, winches and derricks.
II	Dust collecting equipment, industrial.
I	Fans, blowers and exhausters, excluding propeller type and commercial ventilating fans.
I	Furnaces and ovens, industrial.
I	Heat exchangers, as defined in official CMP B Product List.
I	Instruments, industrial types.
I	Lubricating equipment, industrial.
I	Metal working machinery, equipment, attachments and accessories; including machine tools, bending, die casting; die molding, extruding and forging machines; foundry machinery, equipment and supplies; heat treating equipment; hydraulic and mechanical presses; rolling mills and allied equipment; shears, punches and nibblers; welding equipment and apparatus; wire drawing and wire-working machinery; diamond dies; metal cutting tools; and welding rods and electrodes.
I	Meters, gas and water.
II	Packaging machinery; including packaging machines, bag filling and closing machines, case packers and case sealing machines, wrapping machines.
I	Power transmission equipment, mechanical and hydraulic.
I	Pulverizers, coal.
I	Pumps.
II	Presses, baling.
I	Pressure vessels, as defined in official CMP B Product List.
I	Compressors and dry vacuum pumps.
I	Safety equipment, industrial.
II	Sewing machines, industrial.
I	Speed changers.
II	Spraying equipment, industrial.
I	Stokers.
I	Trucks and tractors, industrial; hand and power operated.
I	Tube cleaners and expanders.
I	Turbo-blowers and turbo-exhausters.
II	Vacuum cleaners, industrial.

Special industry machinery

II	Automotive maintenance equipment.
II	Broom, brush and mop making machinery.
I	Ceramics manufacturing machinery.
I	Chemicals producing machinery.
II	Cooperage machinery.
II	Cotton ginning, compressing and delinting machinery.
II	Distillery machinery (except beverage).
I	Drilling equipment, oil field, including rigs and accessories.
I	Drilling machinery, water well.
I	Drug and pharmaceutical machinery.
I	Dry kilns and redriers for wood treatment.
I	Fertilizer machinery and equipment.
II	Food and food processing machinery and equipment, except food dehydration machinery.
I	Food dehydration machinery.

Special industry machinery—Continued

Schedule	
I	Gas generating, conditioning and gas producing equipment and apparatus.
I	Glass container making machinery.
I	Glass making machinery.
II	Hemp, flax and similar fibre decorticating machinery.
II	Leather working machinery.
I	Logging and sawmill machinery and equipment.
II	Metal container and closure making machinery.
I	Mining machinery and equipment.
I	Oil machinery and equipment; animal, fish, vegetable.
I	Ore milling machinery and equipment.
II	Optical and opthalmic goods making machinery.
I	Paint and varnish making machinery.
II	Paper and fiber container making machinery.
II	Papermill, pulp mill and paper products machinery.
I	Petroleum refinery machinery and equipment.
I	Plastics molding machinery.
II	Printing trades machinery and equipment.
I	Rubber working and tire making, retreading, recapping and repairing machinery.
II	Sewer cleaning machinery and equipment.
I	Smelting and refining equipment.
I	Stone products manufacturing machinery.
II	Textile machinery.
I	Water conditioning equipment.
II	Wood boxmaking machinery.
I	Woodworking machinery.
II	Special industry machinery not elsewhere listed, excluding tobacco manufacturing machinery and equipment and cosmetics machinery.

Construction machinery and equipment

I	Drilling and boring machinery, earth and rock.
I	Power cranes and shovels, draglines, buckets, stiff-leg derricks, and dredges.
I	Scrapers, maintainers and graders.
I	Tractors, track-laying and wheel types.
I	Tractor mounted construction equipment, including angle-dozers, bull-dozers, and power control units.
I	Winches and hoists, contractors elevating.
II	Other construction machinery and equipment, not elsewhere listed.

Military type products

I	Aircraft, including airframes, engines, propellors, instruments, components, maintenance, and concurrent spares, and air borne equipment.
I	Airplane landing mats.
I	Ammunition.
I	Ammunition boxes and chests.
I	Ammunition and explosive loading machinery and equipment.
I	Artillery, including railway and seacoast.
I	Barrage balloon equipment.
I	Bombs, depth charges, mines and torpedoes.
I	Combat tanks and parts, including engines.
I	Communication equipment, military.
I	Explosives.

Military type products—Continued

Schedule	
I	Fire control and other combat instruments.
II	Insignia, military.
I	Machine guns, ground and hand arm.
I	Motor cycles, side cars and parts, including power cycles.
I	Motor vehicles, military, including armored cars, scout cars, half-tracks and other military motor vehicles, including bodies, engines, parts and accessories.
I	Naval armament and weapons.
I	Navigation instruments.
I	Pyrotechnics, including flares and signals.
I	Radio and radar equipment and components.
I	Safety equipment, military, including masks, inhalators, rescue breathing apparatus, goggles, helmets, protective clothing and footwear, and decontamination apparatus.
I	Searchlights, anti-aircraft.
I	Ships, vessels, and other watercraft, including elevators, turbines, engines, equipment and parts.
I	Tanks and anti-tank armament and weapons.
I	Weapons, anti-aircraft.
I	Weapons, not elsewhere listed.
II	Products for military use not elsewhere listed.

Electrical products

I	Anodizing equipment.
I	Batteries, dry cell.
I	Batteries, storage.
II	Bells, buzzers, chimes, gongs, horns and other sound signalling devices (electric).
I	Capacitors.
I	Carbon brushes.
I	Cut-outs and fuse links, electric (heavy duty).
II	Electric appliances, commercial and domestic, all types.
I	Electrical apparatus for internal combustion engines.
I	Electrical connectors.
I	Electroplating equipment.
II	Flashlight cases.
I	Fuses.
I	Infra-red heating and drying equipment.
I	Instruments, electrical measuring.
II	Lamp bulbs and tubes, except aircraft.
II	Lamps and lanterns.
I	Lighting equipment and accessories, aircraft, airport and marine.
II	Lighting equipment and accessories other than aircraft, airport and marine.
II	Lighting fixtures.
I	Magnets, electrical lifting.
I	Motor controls and control equipment.
I	Motors, generators and motor generator sets.
I	Physio-therapy apparatus.
I	Pole-line hardware and insulators.
I	Rectifiers; mercury arc.
I	Regulators.
I	Searchlights and floodlights.
I	Sparkplugs.
II	Street and highway traffic control signals and controllers.
I	Switchgear, panel and distribution boards.
I	Synchronous condensers and frequency changers.
I	Transformers.
I	Tubes, electronic and rectifier.
I	Wire and cable, insulated.
I	Wiring devices and conduits (electric).
I	X-ray apparatus and tubes.

Engines, turbines and generator sets

Schedule	
I	Engines, internal combustion, and accessories.
I	Engines, steam.
I	Generator sets.
I	Turbines.

Communication equipment

I	Alarm and signal systems, protective.
I	Radio equipment and components.
I	Wire communication equipment.
I	Other communication equipment.

Transportation equipment

I	Bicycles.
I	Brakes, air, and airbrake actuating mechanism.
I	Hardware, transportation equipment.
I	Locomotives, railroad; parts and accessories.
I	Motor vehicles, bodies, engines, parts and accessories, nonmilitary; including buses, motorized fire apparatus and automobile trailers for attachment to passenger cars.
I	Railroad cars, parts and accessories.
I	Railroad and transit maintenance-of-way equipment.
I	Railroad and transit signal equipment.
I	Railroad and transit track equipment.
I	Street and rapid transit cars, parts and accessories.
II	Wagons, carts, sleds, sleighs and other non-motorized vehicles.

Building materials

I	Asbestos building materials.
II	Asphaltic building products.
II	Building mesh.
II	Cement, Portland.
II	Concrete building products.
II	Doors and windows.
II	Gypsum building products.
I	Hard board.
II	Hardware, builders.
II	Metal moulding and trim.
II	Mineral wool, industrial.
II	Plumbing fixtures, fittings and trim, and sanitary ware.
II	Radiators, convectors and blast heating coils.
II	Screen cloth.
II	Sheet metal building products.
II	Structural insulation and fibre board.
II	Weatherstripping.
II	Wire fence, posts and gates.
II	Products for structural use not elsewhere listed.[7]

Miscellaneous products

I	Abrasive products.
I	Agricultural machinery, implements and equipment, excluding farm and garden hand tools.
I	Asbestos textiles.
II	Baby carriages and similar equipment.
II	Bag and bale ties.
II	Beds, bedsprings and mattresses.
II	Bells, gongs and other non-electric signalling devices.
I	Blast detonating equipment, industrial.
I	Blue printing developing and drying machines.
II	Brooms, brushes, mops.

Miscellaneous products—Continued

Schedule	
I	Buoys.
II	Burners, gas, oil and combination.
I	Carbon products, industrial.
II	Caskets, coffins, burial cases and vaults.
II	Ceramic and clay products.
I	Chains.
II	Church goods.
II	Clocks and watches, including chronometers, except aircraft.
II	Closures, all types.
I	Coke and coke oven by-products (except producers to whom a serial number has been issued under Order P–68).
II	Containers: all types except fiber drums, gas cylinders and ton containers, and nailed wooden boxes and crates.
I	Containers; fiber drums, gas cylinders and ton containers, and nailed wooden boxes and crates only.
I	Cooking stoves and ranges, domestic, including laundry stoves, hot plates, and portable ovens.
I	Cooking equipment, commercial.
II	Cork products.
II	Cutlery.
II	Dishwashing machinery, commercial.
II	Elevators and escalators.
II	Fans, ventilating (commercial).
II	Findings, apparel and shoe.
I	Fire extinguishers, carbon dioxide.
II	Fire protection equipment, including portable and fixed fire extinguishers and systems other than carbon dioxide types; stirrup pumps; automatic sprinkler systems; fire hose, hose dryers, racks, reels and related products; and fire hydrant indicator posts and stand pipe equipment.
I	Fishing equipment, commercial.
II	Floor coverings, linoleum and felt base.
II	Floor finishing and floor maintenance machines, as defined by WPB Order L–222.
II	Food preparation and serving fixtures, equipment and appliances, commercial.
II	Furniture.
I	Glass products: fibrous glass products for military, industrial and structural use, and technical glass for military and industrial use.
II	Glass Products: not elsewhere listed, excluding mirrors.
II	Hairpins, bob pins and hair curlers.
II	Hardware, not elsewhere listed.
I	Heating equipment (except electric) including heating system controls and hot water equipment.
II	Hooks and eyes, slide and snap fasteners, buckles, buttons and miscellaneous apparel findings.
II	Houses, mobile and prefabricated.
I	Ice.
II	Identification badges, emblems, pin tickets, plates, tags not military.
I	Instruments, apparatus, equipment, supplies and appliances; dental.
I	Instruments and apparatus; laboratory.
I	Instruments and equipment; engineering (including surveyors' drawing and mathematical).
I	Instruments and apparatus; analytical and industrial testing.
I	Instruments, equipment, supplies; surgical and medical, including orthopedic appliances.
I	Instruments and lenses; optical.
II	Instruments; musical.
I	Jewel bearings.
II	Kitchen, household and other miscellaneous articles, as defined in WPB Order L–30.
II	Lamps and lanterns, non-electric.
II	Laundry, dry cleaning and pressing machinery, commercial.
II	Laundry machinery, domestic.
II	Lawn mowers, hand and power.
II	Leather and leather products.
I	Lenses and instruments; optical.
II	Loose leaf binders.
II	Morticians' goods.
II	Needles.
II	Office machinery.
II	Office supplies, including marking devices.
II	Ophthalmic goods.
II	Pens and pencils.
I	Photographic equipment, apparatus and materials, excluding projection apparatus.
II	Phonographs, parts, records and needles.
II	Pins, common and safety.
I	Plastic products: moulding and laminating.
II	Projection apparatus.
II	Pulp and paper and paper products.
II	Razors and blades.
I	Refractories.
I	Refrigerators and parts (domestic).
II	Rope.
I	Rubber and rubber products.
II	Scales and balances, industrial and commercial.
I	Sensitized film and paper.
II	Sewing machines.
II	Textiles and clothing.
II	Time stamps and recording devices.
II	Tools, farm and garden, edge and hand.
I	Tools; including edge tools, hand tools, mechanics hand service tools, gauges and machinists precision measuring tools, files and rasps; excluding farm and garden edge and hand tools.
II	Traps and cages, animal.
II	Unit heaters and unit ventilators.
II	Vitreous enameled products.
II	Wood products.
II	Products for military, industrial and structural use not elsewhere listed.

Conduct of the following businesses or activities

Schedule	
II	Cotton ginning and compressing.
II	Construction.
I	Detinning.
II	Drainage and irrigation.
I	Electrical and mechanical repair shops for industrial, commercial and agricultural equipment; and public, industrial and commercial transportation equipment.[8]
I	Electro-plating, galvanizing and other metal treating and finishing.
II	Engraving on metal.
I	Fabricating and rifting mica.
I	Feed and grain (stock and poultry) processing and storage.
I	Fishing, commercial.
II	Hemp, flax, and similar fiber decortication.
I	Industrial food manufacturing, processing, packaging, preservation and storage, (except soft drink and alcoholic beverages, and chewing gum). Restaurants, hotels, retail stores, and farms are not included in this category.[9]
I	Logging operations, sawmills, veneer mills, plywood mills, planing mills, shingle mills, and dry kilns operated in connection with sawmills.
I	Military and Naval establishments: camps, posts, bases, stations, air fields and depots.
II	Motion picture production.
I	Operation of ships, vessels and other craft, except pleasure vessels.[10]
II	Printing and publishing, including blueprinting and allied reproduction.
I	Public utilities; gas, light, power, water and central heating and sanitation (except producers as defined in Utilities Order U–1).
I	Public transportation, terminal and dock facilities, including stevedoring.[11]
I	Petroleum and natural gas production, transportation, refining and marketing (except to the extent covered by P–98 (b).
II	Refrigeration (commercial) other than food.
II	Scrap salvage, sorting and processing.
I	Seed processing, packaging, preservation and storage.
I	Ship repair and maintenance.
I	Slag recovery and disposal.
I	Smelting and refining (except producers to whom a serial number has been issued under P–73).
II	Solid fuel distribution and marketing including only those dealers with equipped yards (a dealer with an equipped yard is one who regularly maintains storage and sorting facilities as a part of his own operations, and loading, carrying and other machinery for handling and weighing).
II	Tire and tube recapping, retreading and vulcanizing.
I	Vegetable oil extraction.
II	Warehousing, metal.
II	Warehouses: public: dry and open storage.
I	Warehouses, refrigerated; perishable food products.
I	Wire communications industries (except operators as defined in Utilities Orders U–3 and U–4).

List of directions 1 through 17 to CMP Regulation No. 5 as revised:

(1) How to Obtain Aluminum Pattern Equipment under CMP.
(2) Steel Shoe Wire.
(3) Rerating not Compulsory—Obsolete.
(4) Stitching Wire for the Printing and Publishing Industry.
(5) Farmers.
(6) Ships of Friendly Foreign Nations.
(7) Welding Rod.
(8) Determining Quantity Restrictions on a Receipt Basis.
(9) Hand Tools Purchased by Employees—Revoked December 20, 1943. Covered by Direction 4 to Priorities Regulation No. 3.
(10) Welding Rod for Repair Shops—Revoked January 28, 1944. Covered by CMP Regulation No. 9A.
(11) Safety Equipment Purchased by Employees—Revoked December 20, 1943. Covered by Direction 4 to Priorities Regulation No. 3.
(12) Rerating not Compulsory—Obsolete.
(13) Quota and Expenditure Records—Revoked. February 26, 1944. Superseded by paragraphs (f) (5) and (f) (6).
(14) Use of MRO Symbol by Manufacturers of Roll Roofing, Shingles and Corkboard.
(15) Use of MRO Symbol and Rating to Buy Installation Materials where Authorization to Construct is not Required under L–41.
(16) Broom Wire.
(17) Motion Picture Theaters.

[8] See also Interpretation No. 6: Public transportation means common carriers: Direction No. 10: Welding rods for service repair shops.

[9] See also Interpretation No. 7 relating to distribution of food products.

[10] See also Direction No. 6: ships of friendly foreign nations.

[11] See also Interpretation No. 6: Public Transportation means common carriers.

INTERPRETATION 1

(NOTE: List A has been supplanted by List B of Priorities Regulation No. 3. Reference should be made to the items listed there.)

Office supplies are not included in List A of CMP Regulation No. 5 and consequently the procedures provided by the regulation may be used to obtain such supplies provided they do not come within the following categories which are specifically mentioned in List A:

Item

2. Printed matter and stationery. This refers only to printed matter and items such as letterheads, envelopes and forms.

3. Paper, paperboard, and products manufactured therefrom; molded pulp products.

5. Office machinery or office equipment.

Safety shoes are included in List A of the regulation and consequently the procedures provided by the regulation may not be used to obtain them. Safety shoes are not included among the items constituting exceptions to item 6 of the list. (Issued April 5, 1943.)

INTERPRETATION 2

A person who is permitted to get controlled materials under paragraph (c) (1) of CMP Regulation No. 5 for maintenance, repair and operating supplies is not entitled to use the MRO symbol for purposes of allotting controlled materials to others. For example, a manufacturer of a product listed in Schedule I or Schedule II of the regulation requires a spring as a repair part. He may use the MRO symbol to place an authorized controlled material order for steel which he will fabricate into the spring which he requires, but if he buys the spring from a spring manufacturer, he may not make an allotment with the MRO symbol to the spring manufacturer. The spring manufacturer receives his allotment direct from the War Production Board as provided in paragraph (k–1) of CMP Regulation No. 1. (Issued April 20, 1943.)

INTERPRETATION 3

NOTE: Interpretation 3 superseded by subsequent amendments.

INTERPRETATION 4

NOTE: Interpretation 4 was revoked Nov. 19, 1943.

INTERPRETATION 5

GENERAL OFFICES, BRANCH OFFICES, SALESROOMS, ETC.

The ratings and symbol assigned by CMP Regulation No. 5 to a particular business may be used to obtain maintenance, repair and operating supplies for general offices, branch offices, salesrooms and other facilities essential to the conduct of the business. (Issued May 20, 1943.)

INTERPRETATION 6

COMMON CARRIERS

Persons engaged in "public transportation" are included in Schedule I of CMP Regulation No. 5. This term includes any person who holds himself out to the general public as engaged in transportation, regardless of how he is classified under any Federal or State statute. Any person who would be considered a common carrier under common law is included within the term.

A private or contract carrier is not included. (Issued May 20, 1943.)

INTERPRETATION 7

MANUFACTURE AND DISTRIBUTION OF FOOD PRODUCTS

(a) "Industrial food manufacturing, processing, packaging, preservation and storage" is included in Schedule I of CMP Regulation No. 5 and persons engaged in such occupation are entitled to use a rating of AA–1 and the MRO symbol in purchasing maintenance, repair and operating supplies needed in connection with the conduct of their business.

(b) Distribution of food products, as distinct from their production, does not constitute industrial food manufacturing or processing under Schedule I and is not included elsewhere in Schedule I or II of the regulation. Persons engaged in selling food products which they do not produce are only entitled to use the AA–5 rating to obtain maintenance, repair and operating supplies for their business.

(c) In those cases where a person is engaged in both producing and distributing food products he may, under paragraph (e) of the regulation, obtain his entire maintenance, repair and operating supply requirements at the rating assigned to the principal activity in which he is engaged where, and only where, it is impracticable to apportion requirements to his several activities. (Issued May 27, 1943.)

INTERPRETATION 8

CAPITALIZED REPAIRS

Products or materials needed for repairs or replacements which are capitalized cannot be obtained under CMP Regulation No. 5 [§ 3175.5] except to the extent permitted by paragraph (b) (3) of the regulation relating to minor capital additions costing less than $500. (Issued July 17, 1943.)

INTERPRETATION 9

RELATIONSHIP BETWEEN CMP REGULATION NO. 5 AND CONSERVATION ORDER L–41

(a) Order L–41 requires War Production Board authorization before beginning any construction work except in those cases where the order expressly states that authorization is not necessary.

(b) CMP Regulation No. 5 (§ 3175.5) may not be used to get materials or products for any construction work of the type which requires authorization under Order L–41, unless the authorization specifically says that CMP Regulation No. 5 may be used.

(c) In those cases where specific War Production Board authorization is not required before beginning construction, and where the materials needed for the construction cost no more than $500, CMP Regulation No. 5 may be used to buy materials and products needed for the construction. (Issued July 29, 1943.)

INTERPRETATION 10

CONCRETE AND AGGREGATES

The term "products for structural use not elsewhere listed" appearing under "Building Materials" on Schedule II of CMP Regulation No. 5 includes light-weight aggregates, ready-mixed concrete and pre-mixed bituminous concrete. (Issued Nov. 9, 1943.)

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 5, Direction 13, Revocation]

Direction 13 to CMP Regulation No. 5 is hereby revoked. The provisions of the direction are included in paragraph (f) of CMP Regulation No. 5 as amended February 26, 1944.

Issued this 26th day of February 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 9A, Direction 2]

USE OF MATERIAL TO INSTALL EQUIPMENT

The following direction is issued pursuant to CMP Regulation 9A.

(a) A repairman may use only up to $25 worth of material purchased under CMP Regulation 9A to install any unit of cooking, plumbing, heating, or used air-conditioning or refrigeration equipment.

(b) If a new air-conditioning or refrigeration system has been authorized under the provisions of Order L–38, and authorization to construct under L–41 has been granted if necessary, a repairman may use up to $250 worth of material purchased under CMP Regulation 9A to install the new system.

(c) This direction does not increase the amounts of material which a repairman can buy under CMP Regulation 9A.

Issued this 26th day of February 1944.

PART 3274—MACHINE TOOLS AND INDUSTRIAL SPECIALTIES

[General Limitation Order L–237, as Amended Feb. 26, 1944]

LIGHT POWER DRIVEN TOOLS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply for defense, for private account, and for export, of light power driven tools and materials entering

into the production thereof; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3274.26 *General Limitation Order L–237*—(a) *Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether incorporated or not.

(2) "Producer" means any person engaged in the production, manufacture, or assembly of light power driven tools.

(3) "Supplier" means any person (other than a producer) whose business consists in whole or in part of the sale, distribution, or transfer from stock or inventory of light power driven tools; "supplier" includes wholesalers, distributors, jobbers, dealers, retailers, branch warehouses or other distribution outlets controlled by producers and other persons performing a similar function.

(4) "Light power driven tool" means any new power driven tool, whether powered by electric motor, belt drive, or pneumatic or hydraulic means, listed on Schedule A hereof, as amended from time to time, irrespective of the use for which it is designed, or the use to which it may be put, whether for the working of metals, wood or any other substance, which power driven tool had a producer's list price on October 15, 1942, of $350 or less; exclusive, however, of floor finishing, floor maintenance and floor sanding machines as defined in General Limitation Order L–222 and exclusive of portable tools, and exclusive of automotive maintenance equipment as defined in Limitation Order L–270.

(5) "Portable tool" means any light power driven tool which in the course of normal use is lifted, held and operated by not more than two persons.

(6) "Producer's list price" means the sale price at which the producer's catalogue or other price publication listed the light power driven tool. If the producer manufactures a light power driven tool for a particular supplier and does not list the tool in his catalogue or other price publication, the producer's list price shall be the price listed by the supplier in his catalogue or price publication. In either case the price shall be exclusive of the motor, motor drive, or any attachments for the tool unless these are initially built into the basic tool itself as an integral part thereof, in which case the "producer's list price" shall mean the sale price at which the producer or supplier listed the light power driven tool as an assembled unit.

(b) *Restrictions.* (1) Beginning with March 1944 no producer shall fabricate or assemble during any calendar month more light power driven tools by dollar value (producer's list price less maximum published discount) than 50% of the quantity by invoiced dollar value shipped by him during the second and third preceding months. For example, the dollar value of production in March taken at the producer's list price less his maximum published discount cannot exceed 50% of the invoiced dollar value of shipments in December and January. However, a producer may exceed this limit to the extent necessary to permit him to fill specific purchase orders rated AA–5, or higher, actually received by him.

(2) No producer or supplier shall sell, transfer or deliver to any person any light power driven tool except on orders bearing a preference rating of AA–5 or higher: *Provided, however,* That the provisions of this paragraph (b) (2) shall not apply to the sale, transfer or delivery of any light power driven tool by one supplier to another supplier.

(3) [Revoked Feb. 26, 1944]

NOTE: For restriction on the use of blanket MRO ratings for certain types of light power driven tools see List B of Priorities Regulation No. 3.

(4) No supplier shall accept delivery of any light power driven tool which will increase his inventory of that size and type of tool (irrespective of manufacturing make) beyond five in number; and no producer or supplier shall deliver or cause to be delivered to any supplier any light power driven tool which the delivering producer or supplier knows or has reason to believe will increase the receiving supplier's inventory of that size and type of tool (irrespective of manufacturing make) beyond five in number. However eight units of each size and type shall be the limit of a supplier's inventory if the supplier is located in Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, Wyoming, North Dakota, South Dakota, Nebraska, Kansas, Oklahoma or Texas.

(5) The prohibitions and restrictions imposed by this order on sales, transfers, and deliveries shall apply to sales, transfers, or deliveries from one branch, division or section of a single enterprise to another branch, division, or section of the same or any other enterprise under common ownership or control; and the delivery and inventory restrictions of paragraph (b) (4) hereof shall apply separately to each branch, division, or section of a single enterprise under common ownership or control.

(c) *Inapplicability of other orders.* Light power driven tools covered by this Order L–237 are specifically excluded from General Preference Order E–1–b as amended March 8, 1943. Producers who produce both light power driven tools under Limitation Order L–237 and machine tools under General Preference Order E–1–b must conform to the applicable provisions of each order, unless otherwise specifically directed by the War Production Board.

(d) *Applicability of regulations.* This order and all transactions affected hereby are subject to all applicable provisions of the regulations of the War Production Board as amended from time to time.

(e) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priorities control and may be deprived of priorities assistance.

(f) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter, in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(g) *Communications.* All reports to be filed, appeals and other communications concerning this order should be addressed to: War Production Board, Tools Division, Washington 25, D. C., Ref: L–237.

Issued this 26th day of February 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

SCHEDULE A

NOTE: Items "Arbor saws • • •," "Power arbor presses" deleted, Feb. 26, 1944.

LIGHT POWER DRIVEN TOOLS FOR WORKING OF METAL, WOOD, OR OTHER SUBSTANCES

Band saw machines (excluding woodworking only of 17" wheel diameter and larger).
Table saws (excluding woodworking only larger than 12" blade diameter or 2 H. P.)
Single spindle drill presses, including drill press heads—bench and floor types.
Multiple spindle drill presses, including drill press heads—bench and floor types.
Radial drills.
Tapping machines.
Shapers, ram type.
Shapers, vertical spindle (excluding woodworking only 3 H. P. or larger).
Milling machines—bench and floor types.
Grinders and buffers—bench and floor types as follows:
General purpose, including drill grinders, but excluding belt driven bench grinders.
Carbide tool.
Surface grinders, including tool, cutter and chip breaker types.
Cylindrical grinders.
Tool post grinders.
Disc (disk) grinding and finishing machines.
Saw grinders.
Tap grinders.
Abrasive belt finishing machines.
Cutoff machines, including radial (excluding woodworking only).
Hack saw machines.
Lathes, bench and floor types as follows:
Engine.
Metal spinning and woodworking, excluding those designed for woodworking only.
Polishing and buffing.
Flexible shaft machines.
Pipe and bolt threading machines.
Scroll and jig saws.
Jointers.
Routers (excluding woodworking only over 2 H. P.).
Filing machines.
Honing machines.
Lapping machines.
Polishing heads, excluding belt driven bench models.

PART 3284—BUILDING MATERIALS

[Limitation Order L–236, Schedule III, as Amended Feb. 26, 1944]

MARINE FITTINGS HARDWARE

§ 3284.64 *Schedule III to Limitation Order L–236*—(a) *Definitions.* For the purposes of this schedule:

(1) "Producer" means any person who forges, manufactures, fabricates, or assembles marine fittings hardware as defined in paragraph (a) (2) of this schedule.

(2) "Marine fittings hardware" means turnbuckles, shackles, thimbles, rope sockets, hooks, cleats, and chocks, as listed in Tables I through VII of this schedule.

(b) *Simplified practices.* After February 26, 1944, no producer shall manufacture, fabricate or assemble items of marine fittings hardware listed in Tables I through VII of this schedule which fail to conform with the sizes, types, grades and provisions set forth in those tables.

(c) *Exceptions.* The provisions of this schedule do not apply to:

(1) Parts manufactured for repair of marine fittings hardware.

(2) Marine fittings hardware manufactured, fabricated or assembled to fill a contract for the Army, Navy, Maritime Commission or War Shipping Administration, provided such contract for marine fittings hardware was executed prior to October 14, 1943.

(3) Marine fittings hardware manufactured, fabricated or assembled in establishments wholly owned and operated by the Navy.

(4) Marine fittings hardware specially designed and constructed for use on or operation of lifeboats, lifeboat equipment or lifelines.

(5) Marine fittings hardware specially designed and constructed for use on or operation of aircraft or underwater craft.

(6) Turnbuckles, rope sockets or rope thimbles less than ¼ inch in size.

(7) Turnbuckles specially designed and constructed for use on radio antenna.

(8) Hooks manufactured for attachment as an integral part of a chain hoist, electric hoist or tackle block.

(9) Hoist hooks larger than sizes 15 or 35 and grab or slip hooks larger than 1" size.

(10) Chocks larger than 18" length.

(d) *Permitted finishes.* Finish of marine fittings hardware may be galvanized, lead coated, painted or self-colored.

(e) *Restriction on marine fittings hardware for pleasure boats.* No producer shall manufacture any marine fittings hardware designed for use on pleasure boats.

Issued this 26th day of February, 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

TABLE I—FORGED, FABRICATED AND PIPE TURNBUCKLES

Forged and pipe turnbuckle bodies may be made with either round or hexagon ends. Pipe turnbuckles shall not be made with hexagon body.

Turnbuckles up to and including ¾" diameter may be equipped only with eyes, jaws, open hooks, sister hooks and stubs or combinations thereof. Turnbuckles ⅞" diameter and larger may be equipped only with eyes, jaws and stubs or combinations thereof.

(1) *Open type turnbuckles (forged or fabricated).* The following sizes only may be manufactured. Sizes are the amount of take-up in inches and the diameter in inches of end fittings.

Takeup (inches):	Diameter (inches)
4	¼
4½	5/16
5	½
6	⅜, ½, ⅝, ¾, ⅞, 1, 1⅛, 1¼
9	½, ⅝, ¾
12	½, ⅝, ¾, ⅞, 1, 1⅛, 1¼, 1½, 1¾, 2
18	¾, ⅞, 1, 1⅛, 1¼, 1½, 1¾, 2, 2½, 3
24	1, 1¼, 1½, 1¾, 2, 2½, 3
36	2, 2½
48	2½, 3, 3½

(2) *Pipe turnbuckles.* The following sizes only may be manufactured. Sizes are the diameter in inches of the end fittings. ½, ⅝, ¾, ⅞, 1, 1¼, 1½, 1¾, 2, 2½, 3.

(3) *Turnbuckle bodies.* Turnbuckle bodies (without fittings) may only be manufactured in the sizes specified for open type turnbuckles and in addition the following sizes.

6 inch takeup—1⅜, 1½, 1⅝, 1¾, 1⅞, 2, 2⅛, 2¼, 2⅜, 2½, 2⅝, 2¾, 3, 3¼, 3½ and 4 inch diameters.

9 inch takeup—3¼, 3½, 4, 4½, 5 and 5½ inch diameters.

Exception. Special types and sizes of turnbuckles may be made for use by the Navy if approval is given by the Chief of the appropriate Navy Bureau, the Supervisor of Shipbuilding of the Navy or the Inspector of Naval Materials.

TABLE II—FORGED SHACKLES

Oval pin shackles may be made for Army, Navy and Maritime Commission use only. The following types and sizes only may be manufactured. Sizes are the diameter in inches of the body stock in the bow of the shackle.

Screw pin, round pin and oval pin anchor shackles. ¼, 5/16, ⅜, 7/16, ½, ⅝, ¾, ⅞, 1, 1⅛, 1¼, 1⅜, 1½, 1¾, 2, 2¼, 2½, 3, 3¼, 3½.

Bolt anchor shackles. ¾, ⅞, 1, 1⅛, 1¼, 1⅜, 1½, 1¾, 2, 2¼, 2½.

Screw pin, round pin and oval pin chain shackles. ¼, 5/16, ⅜, 7/16, ½, ⅝, ¾, ⅞, 1, 1⅛, 1¼, 1⅜, 1½, 1¾, 2, 2¼, 2½, 3, 3¼, 3½.

Bolt chain shackles. ¾, ⅞, 1, 1⅛, 1¼, 1⅜, 1½, 1¾, 2, 2¼, 2½, 3, 3¼, 3½.

Exception. Special types and sizes of shackles may be made for use by the Navy if approval is given by the Chief of the appropriate Navy Bureau, the Supervisor of Shipbuilding of the Navy or the Inspector of Naval Materials.

TABLE III—ROPE THIMBLES

The following sizes only may be manufactured. Sizes are the width of the rope channel in inches.

Thimbles for Manila rope. ¼, 5/16, ⅜, 7/16, ½, 9/16, ⅝, 11/16, ¾, ⅞, 1, 1⅛, 1¼, 1⅜, 1½, 1¾, 2, 2¼, 2¾, 3½, 4.

Thimbles for wire rope. ¼, 5/16, ⅜, 7/16, ½, 9/16, ⅝, ¾, ⅞, 1, 1⅛, 1¼, 1⅜, 1½, 1⅝, 1¾, 1⅞, 2, 2½, 3, 3½, 4.

Heavy towing thimbles. 2½, 3, 3½, 4.

TABLE IV—ROPE SOCKETS

The following sizes only may be manufactured. Sizes are for the accommodating rope diameter in inches. ¼, 5/16, ⅜, 7/16, ½, 9/16, ⅝, ¾, ⅞, 1, 1⅛, 1¼, 1⅜, 1½, 1⅝, 1¾, 1⅞, 2, 2⅛, 2¼, 2⅜, 2½, 2⅝, 2¾, 2⅞, 3.

TABLE V—FORGED HOIST, GRAB AND SLIP HOOKS

Eye hoist hooks may be equipped with thimbles of the sizes permitted in Table III. Shank hoist hooks may be equipped with swivel eye. All hoist hooks may be equipped with safety device. The following sizes only may be manufactured. Numbers are taken from the catalog of J. H. Williams & Company/and from catalog 130 of the Thomas Laughlin Company for use as a guide. Similar products of other manufacturers are permitted. Sizes of grab and slip hooks are for the accommodating size of chain in inches.

Shank hoist hook. Numbers 2, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14 and 15.

Regular eye hoist hook. Numbers 22, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34 and 35.

Reversed eye hoist hook. Numbers 22, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34 and 35.

Grab hooks. ¼, 5/16, ⅜, 7/16, ½, ⅝, ¾, ⅞, 1.

Slip hooks. ¼, 5/16, ⅜, 7/16, ½, ⅝, ¾, ⅞, 1.

TABLE VI—CLEATS

The following types and sizes may be manufactured. Sizes are length in inches.

Awning cleats. 3, 3½, 6, 8.

Boat cleats. 2, 4, 6, 8, 10, 12, 14.

Ship cleats. 10, 12, 15, 18, 24, 30, 36.

Barge cleats. 40, 42, 42½.

Dock cleats. 30, 36, 42, 42½.

NOTE: Jam cleats and shoulder cleats are excluded from the limitations of this schedule.

TABLE VII—CHOCKS

The following types and sizes may be manufactured. Sizes are length in inches.

Bow chocks. 4, 6, 8, 10, 12, 15, 18.

Straight or stern chocks. 4, 6, 8, 10, 12, 15, 18.

Closed chocks. 4, 6, 8, 10, 12, 15, 18.

Dock chocks. 14, 16, 18.

Double head chocks. 4½, 6, 7½, 9.

NOTE: Built up or fabricated chocks, roller chocks and collision chocks are excluded from the limitations of this schedule.

PART 3284—BUILDING MATERIALS

[Limitation Order L–327]

AIRCRAFT LIGHTING EQUIPMENT

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of materials used to produce aircraft lighting equipment for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3284.48 *Limitation Order L–327*—(a) *Definitions.* For the purposes of this order "aircraft lighting equipment" means any light or lamp assemblies (whether portable or not) specifically designed or constructed for use on aircraft, either for purposes of illumination or indication. The term includes all parts, equipment, and devices specifically designed or constructed for use in conjunction with such light or lamp assemblies. The following are examples of types of assemblies included in this definition:

(1) "Landing light," meaning a light or lamp assembly, including any retractable mechanism or adapter, designed to illuminate the ground or other area for

the purpose of facilitating the landing of aircraft;

(2) "Position light," meaning a light or lamp assembly used on aircraft to indicate its position and direction of motion;

(3) "Anchor or riding light," meaning a light or lamp assembly used on floating aircraft to indicate its position when anchored;

(4) "Formation light," meaning a light or lamp assembly used to facilitate formation flying;

(5) "Recognition light," meaning a light or lamp assembly used for the identification of friendly aircraft;

(6) "Instrument light," meaning a light or lamp assembly used to illuminate or irradiate aircraft instruments;

(7) "Cabin light," meaning a light or lamp assembly designed for the purpose of illuminating the interior of aircraft;

(8) "Signal light," meaning a light or lamp assembly designed to be operated manually for the purpose of signaling from aircraft;

(9) "Indicator light," meaning a light or lamp assembly which indicates a condition or the functioning of a device or indicates some action taken or to be taken;

(10) "Approach light," meaning a light or lamp assembly mounted on aircraft and designed for the purpose of facilitating the landing of aircraft on aircraft carriers.

The term "aircraft lighting equipment" does not include pyrotechnic devices, gunsights or bombsights, indicator lights incorporated as an integral part of radio and radar apparatus, or aviation ground lighting equipment as defined in Order L-235.

(b) *Restrictions on manufacture, sale, and delivery.* On and after April 10, 1944, no person may manufacture, assemble, sell or deliver any aircraft lighting equipment except:

(1) Aircraft lighting equipment certified by The Aeronautical Board of the United States, Washington, D. C., as conforming to specifications or drawings issued by such Board, or

(2) Aircraft lighting equipment certified by the Matériel Command of the Army Air Forces of the United States, Wright Field, Dayton, Ohio, as conforming to specifications or drawings issued by or acceptable to such Command, to the extent that Aeronautical Board specifications or drawings are not applicable, or

(3) Aircraft lighting equipment certified by the Bureau of Aeronautics of the Navy Department of the United States, Washington, D. C., as conforming to specifications or drawings issued by or acceptable to such Bureau, to the extent that Aeronautical Board specifications or drawings are not applicable, or

(4) Aircraft lighting equipment certified by the Civil Aeronautics Administration of the U. S. Department of Commerce, Washington, D. C., as conforming to the Civil Air Regulations, or

(5) Aircraft lighting equipment to be used only for purposes of experimentation, research and development, or test, or

(6) Aircraft lighting equipment specifically authorized in writing by the War Production Board. (Each person filing a request for authorization pursuant to this subparagraph shall provide information by letter in triplicate, including the following: Description of lighting equipment and/or accessories, giving type, specification, drawing numbers, and value; quantity; customer's name and location; purchase order number and date received; delivery schedule; prime contract number; and reasons why equipment certified under paragraphs (b) (1), (b) (2), (b) (3), or (b) (4) of this order cannot be used), or

(7) Parts required for the maintenance and repair of existing aircraft lighting equipment, and complete assemblies where required for replacement of aircraft lighting equipment damaged beyond repair, to the extent that equipment certified under paragraphs (b) (1), (b) (2), (b) (3), or (b) (4) of this order is impracticable for such replacement.

(c) *Restrictions on installation.* On and after April 10, 1944, no person may install any aircraft lighting equipment unless the manufacture, assembly, sale, and delivery of such equipment is permitted under the provisions of paragraph (b) of this order or unless specific authorization to install such equipment has been obtained from the War Production Board in the manner prescribed in paragraph (b) (6) of this order.

(d) *Table of acceptable aircraft lighting equipment.* The table supplementing this order lists certain types, drawings, and specifications of acceptable aircraft lighting equipment and manufacturers whose products have been certified under paragraphs (b) (1), (b) (2), (b) (3), and (b) (4) of this order. This table will be brought up to date from time to time.

(e) *Applicability of regulations.* This order and all transactions affected by it are subject to all present and future regulations of the War Production Board.

(f) *Appeals.* Any appeal under the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of appeal.

(g) *Communications.* All communications and appeals concerning this order shall be addressed to War Production Board, Building Materials Division, Lighting and Fixtures Section, Washington 25, D. C., Ref: L-327.

(h) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

NOTE: The reporting requirements of this order have been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

Issued this 26th day of February 1944.

PART 3291—CONSUMERS DURABLE GOODS

[General Limitation Order L-260-a, as Amended Feb. 26, 1944]

FURNITURE

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of wood for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3291.66 *General Limitation Order L-260-a*—(a) *Restriction on use of wood.* Beginning with the first quarter of 1944, no person may use in any quarter in the manufacture and crating of furniture more than 21% of the amount of wood which he used for these purposes in 1943. Use of wood shall be measured in board feet, and wood shall be considered used in the quarter in which it is first changed from the form in which received or is first assembled in that form. In computing his use of wood bought otherwise than by board measurement, a manufacturer may convert it to board feet by any reasonable and consistent method, which he must explain in reporting under paragraph (d) below. This paragraph (a) does not apply to the use of plywood or veneer, and the use of these materials in 1943 must be excluded in determining the base on which the percentage is reckoned.

(b) *Restriction on receipts of wood.* After December 31, 1943 no furniture manufacturer may accept any delivery of wood which, added to all inventory on hand, will give him a supply, at the rate of operation permitted by this order, for more than six months from the date of receipt in the case of lumber (excluding dimension stock), or for more than three months from the date of receipt in the case of wood purchased in other forms (including dimension stock, plywood, and veneer). (For example, a manufacturer who is permitted under paragraph (a) to use 20,000 board feet a month and buys half of it in the form of lumber and half in other forms may not accept deliveries which will result in an inventory of more than 60,000 board feet of lumber and 30,000 board feet of wood in other forms.) The restrictions of this paragraph (b) do not apply to:

(1) Receipt, by a manufacturer whose inventory is within the above limits, of the minimum quantity in which he normally buys.

(2) Receipt of wood which was in the inventory of another furniture manufacturer before January 1, 1944.

(3) A delivery which is specifically permitted by the War Production Board upon application addressed to the Board, Washington 25, D. C. Ref: L-260-a.

(c) *Freezing of certain grades and species and report to Central Procurement Agency.* (1) Every furniture manufacturer must file a report with the Central Procurement Agency of the U. S. Army Engineers, Washington 25, D. C., not later than December 15, 1943, describing by species, grade, size and amount, all graded lumber which he has in inventory of grade #1 common or better of the following species: ash, beech, yellow birch, hickory, hard maple, oak, rock elm. Each species is to be listed on separate sheets approximately 8½ x 11 inches in size. This does not apply to manufacturers who have less than a carload of these woods in the aggregate. A copy of the letter must also be sent to the War Production Board, Washington 25, D. C., Ref: L-260-a.

(2) Beginning not later than April 15, 1944 and every 3 months afterwards (July 15, October 15, January 15, April 15) every furniture manufacturer must file with the Central Procurement Agency and the War Production Board a similar report listing all graded lumber of the same species, but covering only grades above #1 common, which he has received or has sorted out of ungraded lumber between the date of the previous report and the day of filing.

(3) A manufacturer may, if he prefers, file reports as often as he accumulates a carload or more of lumber of the specified grades to be reported.

(4) A furniture manufacturer who has or receives ungraded lumber of the above species may not use it until he has graded it so that the required grades can be reported.

(5) A furniture manufacturer may not use or dispose of any of the lumber required to be included in the above reports except that (i) during December 1943 he may use for furniture 30% of the amount of these species used for furniture in the third quarter of 1943; (ii) he may use it to make furniture to be delivered under contract or subcontract to or for the account of the United States Army or Navy, the Maritime Commission, or the War Shipping Administration, to the extent required by the applicable specifications; (iii) he may sell it to the Central Procurement Agency; (iv) he may use or dispose of it for other purposes if the Central Procurement Agency has told him that it does not wish to buy it; (v) any lumber reported and remaining in inventory 60 days after date of reporting may be used or disposed of. Any such use must be within the total limits permitted by paragraph (a) of this order.

(6) Physical segregation of inventories is not required in complying with this paragraph (c) as long as the restrictions are observed with respect to equivalent amounts of lumber of the same grade and species and size.

(d) *Other reports.* (1) On or before January 15, 1944, every furniture manufacturer and also every person who manufactured furniture during 1941 even if he no longer manufactures it, must file with the War Production Board, Ref.: L-260-a, a report by letter showing the total number of board feet of wood (excluding plywood and veneer) used in the manufacture and crating of furniture during 1941 and 1943.

(2) This paragraph (d) does not apply to a furniture manufacturer who makes only furniture parts for sale to other furniture manufacturers.

(e) [Deleted Feb. 26, 1944]

(f) *Equitable distribution to retailers.* It is the policy of the War Production Board that furniture not required to fill rated orders be distributed equitably to retailers giving due regard to established trade connections but also to the needs of dealers whose usual supplies have been cut off and diverted, and to the increased needs of certain areas caused by war conditions. If voluntary compliance with this policy is not found to be sufficient, the War Production Board may direct furniture manufacturers or wholesalers to sell to specified outlets or to outlets in specified areas.

(g) *Used and waste wood excluded.* This order does not apply to wood that has been previously used or to waste consisting of pieces of one board foot or less normally trimmed or edged in the course of production at a sawmill or elsewhere.

(h) *Small manufacturers excluded.* This order does not apply to any furniture manufacturer in any quarter in which his sales of furniture are less than $5,000 provided that his sales did not exceed $20,000 in any of the years 1941, 1942 or 1943.

(i) *Definitions.* (1) The term "furniture manufacturer" as used in this order includes any person who makes or assembles any furniture or wooden parts for furniture.

(2) "Furniture" includes all articles commonly known as furniture, but does not include refrigerators, lockers, shelving, factory and industrial equipment, and built in cabinets.

(j) *Budget Bureau approval.* All reporting requirements in this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 26th day of February 1944.

WAR PRODUCTION BOARD,

Recording Secretary.

PART 3294—IRON AND STEEL PRODUCTION, MAINTENANCE, REPAIR, AND SUPPLIES[1]

[Preference Rating Order P-68 as Amended Feb. 26, 1944]

§ 3294.31[1] *Preference Rating Order P-68*—(a) *Purpose and scope.* This order describes the procedure by which a producer (as defined herein) obtains material for maintenance, repair, operating supplies and extraordinary maintenance and repair (as defined herein). With respect to such producers, this order supersedes CMP Regulation No. 5, and none of the provisions of that regulation shall apply to any such producer, and no such producer shall obtain any material under that regulation, except as specified in this order. However, delivery may be made and accepted on any delivery order placed pursuant to CMP Regulation No. 5 prior to October 1, 1943. However, privileges under other orders and regulations of the War Production Board granted to persons on Schedules I and II of CMP Regulation No. 5 shall be considered as applicable to producers operating under this order. For example, Order E-5-a on gauges and precision measuring hand tools classifies a person on Schedules I and II of CMP Regulation No. 5 as an "approved user." Producers operating under Order P-68 are in the same position providing that certification clauses and all other provisions of such other orders are complied with. Construction for which priorities assistance is not given under this order is covered by Conservation Order L-41.

(b) *Definitions.* (1) "Producer" means any plant or group of plants physically situated within the limits of the United States, its territories, or its possessions, actually engaged in the production of any one or more of the materials or products listed in Schedule A, and to which a serial number has been issued as provided in paragraph (c).

(2) "Maintenance" means the minimum upkeep necessary to continue in sound working condition a facility used in the production of any one or more of the materials or products listed in Schedule A, and "repair" means the restoration of such a facility to sound working condition when the same has been rendered unsafe or unfit for service by wear and tear, damage, failure of parts or the like: *Provided*, That neither maintenance nor repair shall include the improvement of any plant, facility or equipment, by replacing material which is still usable, with material of a better kind, quality or design, except as provided in paragraph (b) (4).

(3) "Operating supplies" means any materials or products which are normally carried by a producer as operating supplies according to established accounting practice and are not included in his finished product, except that materials included in such product which are normally chargeable to operating expense may be treated as operating supplies. The term shall also include such items as hand tools, purchased by the producer for sale to his employees for use only in his business, in those cases where they would constitute operating supplies under established accounting practice if issued to employees without charge.

(4) Minor capital additions and replacements may be obtained under the procedures provided for in this order for obtaining ordinary maintenance, repair, and operating supplies where the cost does not exceed $500 (excluding the purchaser's cost of labor) for any one complete capital addition, or $2500 (excluding the purchaser's cost of labor for any one replacement. The terms "one complete capital addition" and "one replacement" include a group of items customarily purchased together and all items which would normally be purchased as part of a single project or plan. No capital addition or replacement shall be subdivided for the purpose of coming within this paragraph. The same procedure may be used for obtaining up to $500 worth of material needed to install any piece of processing machinery or

[1] Formerly Part 1002, § 1002.1.

equipment or to relocate any piece of machinery or equipment (whether used for processing or not).

(5) "Extraordinary maintenance and repair" means the relining of blast furnaces, the rebuilding of coke ovens, soaking pits, heating furnaces and other facilities where the purpose is to restore such facilities to their rated capacity and the cost of the controlled materials and the Class A and B products (excluding the purchaser's cost of labor) exceed $2,500, but does not include projects whose object is increase in rated capacity or expansion of facilities, nor projects involving redesign of facilities where such redesign would require structural alterations to the facility. The term covers major jobs that have to be done infrequently but which can be foreseen and for which authority to proceed may be obtained well in advance.

(6) "Replacement" is restricted to the replacement of equipment which is in such condition that it is unsuitable for further use, and such replacement may only be for the purpose of maintaining production of existing facilities at their rated capacity. In a case where, though equipment may still be usable, further repairs would involve an excessive loss of production or expenditure of material in view of the results to be obtained, the producer may apply for assistance under paragraph (j), or through filing an application on Form WPB-3196, where the value of the replacement is less than $2,500. The term does not include replacement of equipment which is not substantially in kind, or which would result in appreciable betterment or improvement, or which would increase production or be an addition to present facilities.

(c) *Issuance of serial numbers.* A serial number may be issued by the War Production Board under this order to a plant or group of plants physically situated within the limits of the United States, its territories, or its possessions, and actually engaged in the production of any one or more of the materials or products listed in Schedule A, and may be denied or cancelled by the War Production Board in appropriate cases. In taking such action and in granting priorities assistance, the War Production Board will consider the importance to national defense of the present and prospective output of materials to be produced, the consumption of critical material involved, and the importance to national defense of competing demands for such material.

Ordinary Maintenance, Repair, and Operating Supplies

(d) *Controlled materials.* (1) A producer may obtain steel, copper and aluminum in the form of controlled materials (as defined in CMP Regulation No. 1) for ordinary maintenance, repair, or operating supplies by endorsing or accompanying his delivery order with the certification prescribed in paragraph (f). An order bearing this certification constitutes an authorized controlled material order.

(2) [Revoked Feb. 28, 1944]

(e) *Other material.* A preference rating of AA-1 is hereby assigned to producers for the purchase of ordinary maintenance, repair or operating supplies other than controlled materials (regardless of whether such supplies be Class A products, Class B products, or other products or materials). This rating may be applied by a producer by endorsing or accompanying his delivery order with the certification prescribed in paragraph (f).

(f) *Certification.* Delivery orders placed pursuant to paragraph (d) or (e) must be endorsed or accompanied by a certification in substantially the following form, signed manually or as provided in Priorities Regulation No. 7.

CMP Allotment Symbol S-8

Preference Rating AA-1 S-8

Order authorized under Preference Rating Order P-68.

The use of the foregoing certification shall constitute a representation by the producer to the seller and to the War Production Board, subject to the penalties of section 35A of the United States Criminal Code, that to the best of the producer's knowledge and belief he is authorized under applicable War Production Board orders and regulations to place the delivery order, to receive the items ordered for the purpose for which ordered, and to use the above preference rating or allotment number or symbol for this purpose.

(g) *Restrictions on receipts and inventory.* (1) No producer who uses an allotment symbol or preference rating assigned under this order may receive during any calendar year an aggregate amount of ordinary maintenance, repair and operating supplies exceeding 120% of his aggregate expenditures for ordinary maintenance, repair and operating supplies during the calendar year 1942.

(2) Nothing in this regulation authorizes any person to receive any delivery of maintenance, repair, or operating supplies if it would increase his inventory above a practicable working minimum as provided in § 944.14 of Priorities Regulation No. 1 or would result in a violation of the inventory limitations of CMP Regulation No. 2. No inventory limitations of any other order or regulation of the War Production Board shall be applicable.

(h) *Restrictions on use.* Material obtained under paragraphs (d) and (e) may, when necessary to prevent delays, be used for construction projects, for replacements valued at over $2,500, or for extraordinary maintenance and repair, if the same material has been approved by the War Production Board for such use in the particular project or installation, but the only rating that may be used to replace such material in inventory is the rating assigned to the project on which it was used.

Replacements Over $2,500 and Extraordinary Maintenance and Repair

(i) *All materials.* To obtain priorities assistance for material needed for replacements valued at over $2,500 or for extraordinary maintenance and repair, a producer must apply on form WPB-3196, to the Maintenance and Repair Section, Steel Division, War Production Board, Washington 25, D. C. The priorities assistance granted generally by this order for maintenance, repair and operating supplies may not be used for replacements valued at over $2,500 or for extraordinary maintenance and repair. A producer may obtain materials for replacements valued at over $2,500 or for extraordinary maintenance and repair, as provided in paragraphs (d) and (e), through use of the S-8 symbol and the rating assigned, if, but only if, such use is specifically authorized. Orders placed for such materials must be certified in accordance with paragraph (f), and must show the serial number assigned by the War Production Board on the applicable Form WPB-3196.

General Provisions

(j) *Additional assistance in individual cases.* If the sound working condition of a producer is adversely affected by any provision of this order or by inability to obtain material essential for repair, maintenance or operating supplies, the producer may apply to the War Production Board for additional assistance by letter, in triplicate, giving the reasons why such assistance is essential. In case of breakdown, imminent breakdown, or other emergency, the application may be made by telegraph or telephone.

(k) *Communications.* All communications concerning this order should be addressed to War Production Board, Washington, D. C., Ref: P-68.

(l) *Effect on other orders.* Nothing in this order shall be construed to relieve any person from complying with any applicable regulation or order of the War Production Board or with any order of any other competent authority.

(m) *Records and reports.* Each person acquiring maintenance, repair, or operating supplies pursuant to this order shall keep and preserve, for a period of not less than two years, accurate and complete records of all such supplies so acquired, and used, which shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board. The record-keeping and reporting provisions of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(n) *Violations.* Any person who wilfully violates any provisions of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 26th day of February 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

SCHEDULE A

1. Iron, pig iron, and ferroalloys.
2. The following iron and steel products, including alloys: Ingots, blooms (including forged), billets (including forged), slabs (including forged), tube rounds, sheet and tin bars, structural shapes, piling, plates (universal and sheared), rails, tie plates, track spikes, splice bars, rail joints, hot rolled bars (including hoops and bands and concrete reinforcing bars), cold finished bar, pipe and tubes (except conduit), wire rods, wire as drawn (not including further fabrications therefrom), black plate, tin and terne plate, sheets, strip, tool steel bars (including high speed), steel wheels and axles (for railroad use only), railroad locomotive tires, armor plate, ordnance forgings, drop and upset forgings, heavy forgings, iron and steel castings (rough as cast), skelp, rolling mill rolls, ingot molds and stools.
3. Coke for use in the production of pig iron and ferroalloys.

PART 3302—SERVICE EQUIPMENT

[General Limitation Order L-54-c, as Amended Feb. 26, 1944]

OFFICE MACHINERY

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain materials used in the production of office machinery for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3302.11 *General Limitation Order L-54-c—(a) Definitions.* For the purposes of this order:

(1) "Office machinery" means machinery, including attachments thereto, of the classes included in Lists I, II and III attached to this order as they may be amended from time to time.

(2) "New" office machinery means office machinery which has not been delivered to any person acquiring it for use. The term shall not describe any machine which has been delivered for trial, loan, rental or demonstration at any time prior to March 14, 1942. "Used" office machinery means office machinery other than new office machinery.

(3) "Restricted office machinery" means:

(i) Any new office machinery included in List I.

(ii) Any used punched card tabulating machinery which is in, or which hereafter comes into, the possession of its manufacturer for any purpose other than mere repair or reconditioning, regardless of its age.

(4) "Manufacturer" means any person manufacturing new office machinery or sets of parts, to the extent that he is engaged in such manufacture, and shall include majority-owned sales, distribution, and manufacturing subsidiaries. In some cases a person who owns the patents, patterns, jigs, fixtures, and other means for making a particular kind of office machinery, and who customarily markets that kind of machinery under his own brand name, does not fabricate and assemble the machinery himself but arranges for someone else to do part or all of the work of fabricating and assembling. In such cases the person who owns the equipment, patents, and brand name is the manufacturer for purposes of this order. However, to the extent that production is permitted by this order he may arrange with someone else to do the work for him, in accordance with his usual practice.

(5) "Dealer" means any wholesaler, retailer or other distributor of restricted office machinery other than a sales or distribution subsidiary of a manufacturer, and shall include any person, firm or corporation normally receiving restricted office machinery on consignment.

(6) "Delivery" means any physical transfer of restricted office machinery, and includes transfers for trial, loan, rental, demonstration or other use.

(7) "Army", "Navy" and "Maritime Commission" mean the War Department, the Navy Department, and the Maritime Commission, respectively, but shall not include any privately operated plant, shipyard, training school, or other enterprise controlled or financed by the Army, Navy, Maritime Commission, or any other agency of the United States Government, nor any plant or shipyard privately operated on a cost-plus-fixed-fee basis under the control or direction of the Army, Navy, Maritime Commission, or any other agency of the United States Government.

(8) "Lend-Lease purchaser" means any person requesting authorization to receive delivery of restricted office machinery for export to any country, the government of which is entitled to the benefits of the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States."

(9) "Sets of parts" means parts for office machinery produced at plants in the United States for shipment to foreign countries for assembly into new office machinery of the types included in List I.

(10) "Dollar value" means

(i) With respect to assembled new office machinery, the retail list price of such machinery to customers located in the United States;

(ii) With respect to sets of parts, the retail list price to customers located in the United States of the number of units of assembled machinery into which such sets of parts can be assembled.

(11) "Non-electric" machines are machines which are assembled without electric motors and which are not designed for the addition of electric motors at a future time.

(12) [Deleted Jan. 5, 1944]

(b) *Restrictions on production—(1) List I classes.* A manufacturer may produce any class of new office machinery included in List I, and sets of parts for export, only to fill orders approved by the War Production Board on Form WPB-1688 and Form WPB-2798 certificates, and also to maintain an inventory worth up to 20 percent of the dollar value of machinery of the same class billed to customers and sets of parts exported during the calendar year 1941. This means that unless a manufacturer's inventory is below the 20 per cent figure he may not produce for inventory, even to replace what he has delivered from inventory to filled approved orders. Dollar value figures must be used in calculating production for inventory, unless the manufacturer has customarily leased his product instead of selling it. In that case, the manufacturer may base his production for inventory on the number of machines assembled and the number of sets of parts exported during 1941. With respect to Classes 14 to 19 on List I, inclusive, production of office machinery for inventory under an authorization issued by the War Production Board before February 26, 1944, may take place only as part of the production allowed by this paragraph, and not in addition to it. Any inventory of those classes of office machinery held by a manufacturer on February 26, 1944, for delivery without restriction, or to fill orders approved by the War Production Board on Form WPB-1688 and Form 2798 certificates, is part of his inventory within the meaning of this paragraph. On the other hand, production of those classes of office machinery under an authorization issued before February 26, 1944, for delivery only to customers mentioned in the authorization is not affected by the restrictions of this paragraph (b) (1). Also, machinery produced under the authorization and being held for delivery to those customers is not part of the manufacturer's inventory.

(2) *List II classes.* No manufacturer shall fabricate, cause to be fabricated, or contract to purchase, parts for the assembly of any new office machinery included in List II and no manufacturer shall assemble any new office machinery included in List II.

(3) *List III classes.* During each calendar quarter a manufacturer may produce new office machinery of any class in List III up to a total dollar value of not more than 20 per cent of the dollar value of machinery of the same class billed to customers during the calendar year 1941. Any production during the quarter under an authorization issued by the War Production Board prior to February 26, 1944, is part of the production

allowed by this paragraph (b) (3) and not in addition to it.

(4) *Repair and service parts.* The restrictions upon the manufacturer of new office machinery contained in this paragraph (b) shall not apply to the manufacture of parts to be used to service or repair any kind of office machinery included in Lists I and II.

(5) *Discontinued new office machinery.* No manufacturer shall fabricate parts for any new office machinery or assemble any new office machinery of any kind which he has elected to deliver free of all restrictions pursuant to paragraph (g) of this order.

(6) *Special authorizations.* Notwithstanding the restrictions of paragraph (b) or paragraph (g) of this order, the War Production Board may from time to time in writing specifically authorize one or more manufacturers to fabricate, to cause to be fabricated, to contract to purchase, to assemble, or to manufacture in any manner, specified quantities of parts or machinery restricted by paragraph (b) or paragraph (g) or both.

(c) *Restrictions on delivery*—(1) *General restrictions.* Regardless of the terms of any contract of sale or purchase, or other commitment, or of any preference rating, or any preference rating order, no manufacturer or dealer shall deliver any restricted office machinery or sets of parts therefor (other than machines which may be delivered free of restrictions pursuant to an election under paragraph (g) of this order) except upon receipt of and pursuant to the terms of Form WPB–2798 (respecting deliveries to the Army, Navy or Maritime Commission or sets of parts for export) or Form WPB–1688 (respecting deliveries to all other persons) approved by the War Production Board.

(2) *Sequence of deliveries.* Except when specifically directed otherwise in writing by the War Production Board, the sequence of deliveries of machines authorized on Forms WPB–2798 and WPB–1688 shall be determined by the delivery dates specified on such forms. If a form specifies a delivery date prior to the date on which it is received by the supplier named therein, the form shall be treated by the supplier as calling for delivery on the day when it was received by him. If a supplier receives two or more forms specifying the same delivery date for identical machines, he shall make delivery of the machines in the order in which the forms were received by him.

(3) *Intracompany deliveries.* Without further authorization, a manufacturer may for the purpose of redelivery, but not for use, deliver restricted office machinery from one branch, division or section of his enterprise, including majority-owned sales, distribution and manufacturing subsidiaries, to another branch, division or section of the same enterprise, including majority-owned sales, distribution and manufacturing subsidiaries, except that he may not deliver to a subsidiary, branch, or other outlet located outside the United States, its territories, and possessions.

(4) *Delivery to dealers and returns to manufacturers.* Without further authorization, dealers may return restricted office machinery to any manufacturer willing to accept the same and manufacturers may accept all such restricted office machinery from dealers. Without further authorization, manufacturers or dealers may deliver restricted office machinery to dealers in the following instances only:

(i) To fill an order approved by the War Production Board on Form WPB–2798 or WPB–1688 already received by such dealer or to replace restricted office machinery delivered by such dealer from his inventory to fill an order approved by the War Production Board on any such form, *Provided*, That such dealer has furnished to the manufacturer or to the other dealer a photostat, or other certified copy, of the approved Form WPB–2798 or WPB–1688, as provided in Priorities Regulation No. 5.

(ii) To store or display such restricted office machinery on the dealer's premises in the United States, its territories and possessions, provided that the restricted office machinery so stored or displayed is in the absolute control and ownership of the manufacturer or delivering dealer and may be removed, transferred or shipped by such manufacturer or delivering dealer at any time in his discretion.

(5) *Deliveries under Utilities Order U–5.* The issuance of an authorization on Form WPB–2798 or on Form WPB–1688 to deliver a time stamp machine, a time recording machine, or collateral equipment shall constitute a preference rating of AA–5 or higher within the meaning of § 4504.1, Utilities Order U–5, for the particular items authorized to be delivered.

(6) *Special authorizations.* Notwithstanding the restrictions of paragraph (c) of this order, the War Production Board may from time to time in writing specifically authorize one or more manufacturers or dealers, or both, to deliver specified quantities of restricted office machinery.

(7) *Deliveries of non-electric machines by manufacturers.* Manufacturers may deliver non-electric adding machines and non-electric duplicating machines to the extent permitted by paragraphs (c) (1) to (c) (6) of this order, inclusive (e. g., to fill an Army, Navy or Maritime Commission order pursuant to the terms of an approved Form WPB–2798, or to fill an order for export pursuant to an approved Form WPB–1688). In addition, in each calendar quarter and without further authorization, a manufacturer may deliver to purchasers within the United States, other than the Army, the Navy and the Maritime Commission, new assembled non-electric adding machines and new assembled non-electric duplicating machines worth not more than the applicable percentage of the dollar value of the same type of machines (both electric and non-electric) billed to his customers during the calendar year 1941. Any portion of this amount undelivered by the end of any quarter may be delivered free of restrictions during subsequent quarters to domestic purchasers, other than the agencies named, in addition to the percentage which the manufacturer is regularly entitled to deliver.

The percentage applicable to unrestricted deliveries of non-electric adding machines is in the first table. The percentages applicable to unrestricted deliveries of non-electric duplicating machines by manufacturers who make only non-electric duplicating machines are in the second table. The percentages applicable to unrestricted deliveries of non-electric duplicating machines by manufacturers who make both electric and non-electric duplicating machines are in the third table:

TABLE No. 1

Manufacturer's total 1941 adding machine billings:	*Applicable percentage per quarter (per cent)*
Any amount	4.5

TABLE No. 2

Manufacturer's total 1941 duplicating machine billings:	*Applicable percentage per quarter (per cent)*
Under $50,000	25
$50,000 to $100,000	18.75
$100,000 to $250,000	15
Over $250,000	6.25

TABLE No. 3

Manufacturer's total 1941 duplicating machine billings:	*Applicable percentage per quarter (per cent)*
Under $100,000	12.5
$100,000 to $500,000	10
$500,000 to $2,000,000	7.5
$2,000,000 to $4,000,000	2.5
Over $4,000,000	2

(8) *Deliveries of non-electric machines by dealers.* Dealers may deliver new non-electric adding machines and new non-electric duplicating machines to the extent permitted by paragraphs (c) (1) to (c) (6) of this order, inclusive (e. g., to fill an Army, Navy or Maritime Commission order pursuant to the terms of an approved Form WPB–2798, or to fill an order for export pursuant to an approved Form WPB–1688). In addition, without further authorization dealers may deliver new non-electric adding machines and new non-electric duplicating machines to purchasers within the United States, other than the Army, the Navy, and the Maritime Commission.

(d) *Special procedures and information.* (1) Private contractors engaged in construction work for the Army, Navy, Maritime Commission or Defense Plant Corporation, and private operators of any plant, shipyard, training school or other enterprise controlled or financed, on a cost-plus-fixed-fee basis or otherwise, by the Army, Navy, Maritime Commission or any other agency of the United States Government shall, when requesting restricted office machinery on Form WPB–1688, furnish a certification by the Government inspector assigned to the project (1) that no Government equipment is available for use in lieu of the equipment requested, (2) that the contractor or operator has no equipment available from any other source for use in lieu of the equipment requested, and (3) that the equipment requested is to be used exclusively by the contractor's or operator's private personnel for the duration of the project on work which the contractor is required to perform under the terms of his contract.

(2) [Deleted Jan. 5, 1944]

(3) [Deleted Jan. 5, 1944]

(4) [Deleted Jan. 5, 1944]

(e) *Sets of parts.* (1) No person shall deliver any sets of parts for export from the United States unless the War Production Board has authorized such delivery on Form WPB–2798. Application for authority to export sets of parts shall be made on Form WPB–2798 and shall indicate therein or by accompanying letter the number of units of new office machinery into which such sets of parts can be assembled, the model numbers of such machinery and the retail price of such machinery to customers located in the United States. Nothing in this order shall be construed to authorize any exportation without an export license.

(2) No manufacturer manufacturing and delivering sets of parts for export shall directly or indirectly import any new office machinery of the kind listed in List I, except by permission of the War Production Board in writing.

(f) *Reports.* Each manufacturer must send a monthly report to the War Production Board on Form WPB–1263. Separate reports must be made on this form with regard to non-electric adding machines and non-electric duplicating machines.

(g) *Election to cease manufacture and to deliver without restrictions.* Any manufacturer who prefers to cease manufacture of any particular kind, model or type of new office machinery and to obtain authorization to deliver his existing stock of such machinery free of the restrictions of this order, rather than to continue manufacture and delivery of such machinery subject to the terms of this order, may make application for authorization to make unrestricted delivery. Such application must set forth the kind, model or type of new office machinery to which the application relates, the model or style numbers of such machinery, the applicant's inventory of such machinery as of the date of the application and the total dollar value of such inventory. Such authorization shall extend to the manufacturer to whom it is addressed and to any dealer possessing stocks of such kind, model or type of machine; and such manufacturer shall notify his dealers of any authorization received under this paragraph.

Nothing in this paragraph (g) shall be construed to entitle any applicant to disregard any provisions of this order until specific authorization of the War Production Board in writing is received by such applicant and then only to the extent of, and subject to the conditions contained in, such authorization.

(h) *Bureau of the Budget approval, Form WPB–2798, Form WPB–1688, Form WPB–1263 and the form of application for authorization to make unrestricted delivery of new office machinery contained in paragraph (g) have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.*

(i) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance.

(j) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(k) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(l) *Communications.* All communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Service Equipment Division, Washington 25, D. C., Ref.: L–54–c.

Issued this 26th day of February 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

LIST I

1. Accounting machines, bookkeeping machines, and billing machines (accounting principle). Also continuous forms handling machines typewriter principle, having carbon paper handling devices constructed as an integral part of the machine, and collateral equipment, except autographic registers.
2. Adding machines.
3. Addressing machines, including but not limited to embossing machines for plates, and stencil-cutting machines embodying typewriter principle.
4. Calculating and computing machines.
5. Duplicating machines, including but not limited to ink ribbon, gelatin, spirit, stencil and reproducing typewriter principle machines and Multilith and Davidson duplicators.
6. Machines and collateral equipment intended for use for dictating purposes.
7. Microfilm machines designed for office functions.
8. Office composing machines (changeable type, changeable horizontal and vertical spacing, uniform impression).
9. Payroll denominating machines.
10. Punched card tabulating and accounting machines.
11. Time recording machines except watchmen's clocks.
12. Time stamp machines.
13. Combination dictating and telephone recording equipment.
14. Check handling machines (including cancelling, cutting, dating, endorsing, numbering, protecting, signing, sorting and writing machines).
15. Coin handling machines (including counting, sorting, and wrapping machines).
16. Currency counting machines.
17. Envelope handling machines (including contents folding, mailing, opening, sealing, stuffing, and mail room folding machines).
18. Postal permit mailing machines.
19. Post office cancelling machines.

LIST II

1. Cash (registering) machines.
2. Perforating machines (marking and cancelling).
3. Stamp affixing machines.

LIST III

1. Autographic registers.
2. Change making machines.
3. Shorthand writing machines.

INTERPRETATION 1

Interpretation 1 has been superseded by subsequent amendments. (Issued Jan. 5, 1944.)

INTERPRETATION 2

(1) An authorization to deliver restricted office machinery, issued on Form WPB–1688 or on Form WPB–2798, is not a preference rating certificate within the meaning of Interpretation No. 3. Accordingly, that interpretation is inapplicable to such authorizations.

(2) If permission to deliver office machinery is granted on Form WPB–2798 or on Form WPB–1688, the only person to whom the supplier may deliver the machinery is the applicant named in the form. Moreover, the supplier named in the form is the only manufacturer or dealer who is authorized to deliver the machinery to the applicant. However, other manufacturers and dealers may deliver the machinery described in the form to the supplier named in the form pursuant to paragraph (c) (4) (i) of Order L–54–c.

(3) Form WPB–1688 requires the applicant to state the "name of manufacturer" of the machinery to be delivered. This is an essential part of the description of the machinery which the War Production Board authorizes the supplier to deliver pursuant to paragraph (c) (1) of Order L–54–c. The supplier may not deliver to the applicant machinery produced by another manufacturer, even though his product is similar to the machinery produced by the manufacturer named in the form WPB–1688 approved by the War Production Board. (Issued Nov. 8, 1943.)

PART 1196—COMPRESSORS

[General Limitation Order L–100, Revocation]

Section 1196.1 *General Limitation Order L–100* is revoked. This revocation does not affect any liabilities incurred under the order. The order is superseded by Orders L–123 and M–293.

Issued this 28th day of February 1944.

PART 1226—GENERAL INDUSTRIAL EQUIPMENT

[Limitation Order L–123, as Amended Feb. 28, 1944]

Section 1226.1 General Limitation Order L–123 is hereby amended to read as follows:

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain critical materials (including components) and facilities used in the manufacture of general industrial equipment for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 1226.1 *General Limitation Order L–123*—(a) *Equipment which may not be delivered without an AA–5 or better rating.* No person (including a manufacturer, distributor, or dealer) shall accept any order for or deliver, and no person shall accept delivery of, any new item of the following equipment (more fully described in the attached List A) except for an order bearing a preference rating of AA–5 or higher:

1. Air filters.
2. Air washers.
3. Arc welding machines.
4. Baling presses.
5. Compressors.
6. Ceramic machinery and equipment.
7. Concrete products machinery.
8. Dust collectors, industrial.
9. Dynamometers (electric type) and rotary converters.
10. Electric motors and generators (fractional horsepower).
11. Fans, blowers and exhausters.
12. Flexible metallic hose, tubing and fittings.
13. Heat exchangers.
14. High pressure blowers.
15. Lifting magnets.
16. Oil filtering and re-refining machines.
17. Ovens, industrial; drying, curing and finish-baking types.
18. Paper shredders.
19. Pressure vessels (including air receivers).
20. Pumps.
21. Stationary steam engines.
22. Wire working machinery.

Deliveries within a company. The above restriction applies to deliveries from one department (a branch, division, or section) of a single organization to another department of the same organization when the item is for incorporation into other machinery produced by that organization, or when it is for installation and operation for the organization's own use.

The restriction does not apply to deliveries from one department to another of the same organization, of items which it is to resell as such.

(b) *Certain transactions for which, no rating is required by this order.* The above restriction does not apply to the following transactions:

(1) *Repair parts.* Delivery of repair parts for any item (but no complete item may be considered as a repair part and delivered under this exemption, even though it could be used as a component part of another item or of machinery not covered by this order).

(2) *Farm supplies.* When items which are farm supplies under Priorities Regulation 19 are delivered in accordance with that regulation.

(3) *Petroleum industry item.* When items used in the petroleum industry and covered by Order P–98–c are delivered in accordance with that order.

(4) *Items no longer needed.* When an item is returned to the person from whom it was obtained, or when it can no longer be used for the purpose for which priorities assistance was given to help obtain it and the holder disposes of it in accordance with applicable provisions of Priorities Regulations 1 or 13.

(5) *Items ordered and put in transit before the restriction became applicable.* The completion of delivery of items which had been placed in the hands of a common or contract carrier for shipment to the customer prior to the date upon which the restriction in (a) became applicable.

(6) *Certain orders rated below AA–5 but unfilled when restriction became applicable.* Delivery to fill any rated order which was rated below AA–5 and could have been filled just before the date upon which the restriction in (a) became applicable without violating any WPB order, rule or regulation.

(7) *Deliveries of machinery not covered by this order.* The delivery of new machinery, not covered by this order, into which an item has been incorporated as a necessary component part (or which is delivered in unassembled condition with an item which is a necessary component part, for assembly at the site of installation).

(8) *Used items.* The delivery of any item which has been sold to a person acquiring it for use, and put into regular use by him.

(9) *Specific authorizations.* Deliveries specifically authorized or directed by the War Production Board.

(10) *The replacement of a fractional horsepower electric motor or generator which is traded-in when repair is needed.* When a fractional horsepower electric motor or generator is delivered to a householder or other user solely for replacement of a used one which needs repair and the seller, in accordance with his regular business practice, takes the broken down or defective motor or generator in trade and repairs it or delivers it to another person who will repair it (whenever repair is practicable) so that it will be resold under similar conditions (or scraps it promptly when repair is impracticable).

(It must be noted that no repairman or other person may deliver such an item unless he either complies with the foregoing conditions, or receives a AA–5 or higher rating for the delivery from his customer, even though he has obtained the items under a regulation or order which assigns a rating for repair or maintenance purposes, such as the following: CMP Regulations 5, 5A, or 9A; or Orders L–79, P–126, or P–148.)

This exemption permits a dealer not having repair facilities to deliver such a traded-in motor or generator, if it is repairable, to the manufacturer or some other supplier who will repair it or have it repaired within a reasonable time, and get one in exchange without a AA–5 or higher rating. The manufacturer or other supplier who is asked to deliver a new item to a dealer in exchange for a used one is responsible for determining if the traded-in item is repairable.

(11) *Portable air compressors owned and used in a rental business.* When portable air compressors owned by a person engaged in the business of renting them, are leased by the owner. This exemption does not apply to the sale of a new item by such owner, or to the original purchase of the items by him.

(c) *Miscellaneous provisions*—(1) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as issued and amended from time to time.

(2) *Violations.* Any person who wilfully violates any provision of this order or who, in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter, in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal. The letter should be filed with the field office of the War Production Board in the district in which is located the plant or branch of the appellant to which the appeal relates.

(4) *Communications.* All reports required to be filed hereunder, and all communications (except appeals) concerning this order, shall, unless otherwise directed, be addressed to the War Production Board, General Industrial Equipment Division, Washington 25, D. C. Ref. L–123.

Issued this 28th day of February 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

LIST A

Under paragraph (a) of the order, a rating of AA–5 or better is required for delivery of a new item of equipment in any class described below. Exceptions to this rule are listed in paragraph (b). "Item" means any new piece of equipment. Where a class description covers an item sometimes sold with a motor or other driving unit and sometimes without, in either case the item is subject to the restrictions of the order.

Component parts for the repair or manufacture of an item are not subject to the order as items in that class. However, if a particular part is itself within some other class as described below, then it is subject to the order.

1. *Air filters.* Any equipment or device designed to filter or strain air or other gaseous matter for the purpose of removing dust or other particles of material. Excluded are filters designed for filtering the air in domestic or other space heating plants, centrifugal types, electric precipitators, and carbon absorbers.

2. *Air washers.* Any equipment or device designed to wash air, including spray washers and scrubbers.

3. *Arc welding machines.* Any machine or device designed to use, transform, or generate electricity (either direct or alternating current) for the deposit of metal by the electric arc process. Excluded are: Welding cable, electrode holders and arc welding electrodes.

4. *Baling presses.* Any machine or device designed to compress bulky materials into compact bundles or bales. Included are types for handling ferrous and non-ferrous scrap, paper, rubber, textiles, or miscellaneous waste materials. Excluded are balers which are farm machinery and equipment covered by Orders L–257 or L–257–a.

5. *Compressors.* Any portable or stationary machine or apparatus of the reciprocating type, designed to compress or exhaust air or other gas. Excluded are (i) items for use in therapeutic machines; (ii) items especially designed and fabricated solely for incorporation into or repair of other machinery (not compressors) produced by the same manufacturer; (iii) items for use in a refrigerating or air conditioning system, as defined in Order L–38.

6. *Ceramic machinery and equipment.* Any machine or device designed to crush, mix, prepare, form, cut, fire, burn, or otherwise process raw ceramic materials into finished ceramic products. "Ceramic products" includes structural clay products such as brick, tile, terra cotta and flue block, sewer pipe and drain tile, conduit, sanitary pottery, paving brick, flower pots, decorative pottery, artware pottery, tableware pottery, stoneware, crockery, earthware, and porcelain.

7. *Concrete products machinery.* Any machine or apparatus designed to mix, prepare, form or otherwise process concrete or its components into block, brick, pipe or conduit. Included are block machines, pipe machines, mixers, skip hoists, off-bearing hoists, pallets, forms, and their accessories and attachments of any size or kind.

8. *Dust collectors, industrial.* Any equipment or device designed to collect or filter dust from air, flue gases, or other gas.

9. *Dynamometers.* Electric type; and rotary convertors.

10. *Electric motors and generators (fractional horsepower).* Any machine or device containing an armature or similar rotating part and designed to transform electric energy into mechanical energy, or mechanical energy into electric energy, or to transform or amplify electric energy of one type, voltage, or frequency into another, if built in a frame size smaller than frame size 203 (or frames smaller than those corresponding to one horsepower, 1800 RPM, 60 cycle, 2 or 3 phase). Excluded are starting motors, generators and magnetos designed for use in automotive vehicles covered by order L–158, or in internal combustion engines.

11. *Fans, blowers and exhausters.* Any device or machine which moves, compresses, or exhausts air or other gases by centrifugal, rotary or axial means. Excluded are: (i) ceiling, air circulator, desk, wall bracket, portable window, and portable pedestal type fans covered by Limitation Order L–176; (ii) items specially designed and fabricated solely for incorporation into or repair of other machinery (such as pulverizers, stokers, and boilers) produced by the same manufacturer; (iii) propeller type fans for use as a part of internal combustion engines; (iv) high pressure blowers included in Item 14 of this List A.

12. *Flexible metallic hose, tubing and fittings.* Any quantity of such hose, tubing or fittings, not electric conduit type.

13. *Heat exchangers.* Any equipment or apparatus consisting of an assembly, bundle, or nest of one or more bare or finned tubes (metallic or non-metallic) or metal plates, or any shell or pressure vessel for containing the same, designed for the transfer or exchange of heat between two or more fluids (liquids, gases or vapors). Excluded are the following: (i) Any item which is direct fired or installed within a flue gas passage; (ii) any item which permits direct contact involving physical mixing of the fluids (other than direct contact boiler feed water heaters); (iii) any steam surface condenser designed to condense exhaust steam from a prime mover to maintain a minimum exhaust pressure; (iv) any item for use on aircraft; (v) any radiator-type cooler; (vi) any unit heater, convector, unit ventilator, unit cooler or blast coil when any such item is for space heating or cooling or industrial space heating or drying; (vii) any indirect water heater, commonly referred to as a storage water heater and consisting of a heating element installed in a hot water storage tank for heating and storing hot water for any purpose; (viii) any indirect water heaters consisting of a coil or nest of tubes installed in a shell or pressure vessel with a diameter of 12 inches or less, or with an internal cross sectional area of 113 square inches or less when not circular in cross section, and used for supplying hot water for any purpose; (ix) any item of non-metallic construction for use in a chemical supplemental laboratory; (x) items specially designed and fabricated solely for incorporation into or repair of other machinery (not heat exchanger) produced by the same manufacturer; and (xi) items for use in a refrigerating or air conditioning system, as defined in Order L–38.

14. *High pressure blowers.* Any blower, compressor, exhauster, or vacuum pump of the rotative type, designed for pressure differential of 1½ pounds or more per square inch (including any diesel engine supercharger or scavenger, or any ballast unloading blower). Excluded are items for use in a refrigerating or air conditioning system, as defined in Order L–38.

15. *Lifting magnets (electric).* Circular types, 5 inches in diameter and larger.

16. *Oil filtering and re-refining machines.* Any equipment or device designed to filter, or to re-refine by heating or bleaching, lubricating or cutting oils which have been used. Excluded are centrifuges.

17. *Ovens, industrial, drying, curing and finish-baking types.* Any oven of the types used in industrial or commercial processes for drying, curing, or finish-baking ceramic, concrete, plastic or other products, except food or food products. Excluded are heat treating furnaces.

18. *Paper shredders.* Any machine or device designed to cut paper into narrow shreds, as used in the destruction of confidential papers or the preparation of packaging materials. Excluded are shredders for reprocessing waste into new paper.

19. *Pumps.* Any mechanically operated mechanism of the rotary, centrifugal or reciprocating type, designed for raising, circulating or otherwise moving any liquid. Included are pumps sold separately, or with a driving unit. Excluded are the following: (i) pumps specially designed and fabricated solely for incorporation into or repair of other machinery (not pumps) produced by the same manufacturer; (ii) pumps for use as parts of internal combustion engines, or parts of motor vehicles of the types covered by Order L–158; (iii) pumps for use as parts of fire fighting equipment of the types covered by Order L–43; (iv) pumps which are farm machinery and equipment as defined in Order L–257; (v) service station type measuring and dispensing pumps; (vi) the following pumps when designed and used solely for heating of building space; condensate return pumps and hot water circulating pumps; (vii) pumps of the sanitary type for milk or egg processing; (viii) pumps ordinarily used for construction contractors' purposes or by construction contractors for dewatering and supply, as defined in Order L–192.

20. *Pressure vessels (including air receivers of all sizes and types).* Any sealed carbon steel or alloy steel vessel or shell designed to withstand internal or external pressure for the purpose of retaining one or more fluids (liquids, gases, or vapors). Excluded are the following types: (i) direct fired vessels, such as boilers; (ii) vessels designed to contain water under pressure for domestic supply; (iii) vessels for transportation; (iv) vessels designed as heat exchangers or enclosures therefor (included in Item 13 of this List A); (v) vessels designed for cooking or preparing food stuffs; (vi) field assembled storage vessels such as spheres and spheroids; (vii) vessels, other than air receivers, with a liquid capacity of less than 30 cubic feet.

21. *Stationary steam engines.* Any steam engine not designed for use in locomotives or other equipment used for transportation purposes, not marine.

22. *Wire working machinery.* Any new machine or equipment having a value of more than $100 designed to cut, form, or fabricate any product from wire. Excluded are rubber covering machines, strainers and stoppers, vulcanizers of all types, and wire tying machines.

PART 3208—SCHEDULED PRODUCTS

[General Scheduling Order M–293, Direction 1, As Amended Feb. 28, 1944]

ACTIONS WITH RESPECT TO FREEZING OF SCHEDULES

The following direction is issued pursuant to General Scheduling Order M–293:

(a) All actions taken by the War Production Board under Order M–293 or under any of the provisions of other orders covering products which were or have become M–293 products, with respect to the freezing of schedules or the approval of individual transactions remain fully effective as provided in Priorities Regulation 18 and are not affected by any amendment of M–293 or of any table to that order. This means that, wherever the designation of an item under Order M–293 is changed by an amendment to a table, or an item is removed from a table, or wherever an item under a scheduling order becomes an M–293 product and is removed from such other scheduling order of the War Production Board, manufacturers of the item in question must continue to observe any frozen schedules or specific directions which they received under the earlier procedure, unless the schedule or direction is amended under Priorities Regulation 18.

(b) Where the placing of a purchase order was approved for a Class Y item, or for a product covered by similar procedure under any other War Production Board order which was or has become an M–293 product, the approval remains effective and the person with whom the purchase order is placed must accept and schedule the same accordingly, even if he receives it after the item is reclassified.

Issued this 28th day of February 1944.

PART 3208—SCHEDULED PRODUCTS

[General Scheduling Order M–293, Direction 2]

APPLICABILITY OF TABLES 3–15

The following direction is issued pursuant to General Scheduling Order M–293.

(a) Except as provided in this Direction, Tables 3–15, other than Table 7, issued pursuant to General Scheduling Order M–293 as amended September 17, 1943, remain effective under the provisions of General Scheduling Order M–293 as amended February 10, 1944 until those tables are amended.

(b) The classification of any product on any table as a Z product must be disregarded. Where a product is designated Z only, it is an undesignated product.

(c) Old orders which have been previously reported to the War Production Board on the form required by the appropriate table of M–293 at the time the report was filed need not be included on a new form specified for the product by an amendment to the table. The manufacturer may report old orders on the form he used before but must report all new orders on the form shown in the appropriate table.

This direction shall become effective March 1, 1944.

Issued this 28th day of February 1944.

PART 3257—ALIPHATIC-HYDROXY-CARBOXYLIC ACIDS

[Allocation Order M–321, Revocation]

CITRIC ACID

Section 3257.1 *Allocation Order M–321* is hereby revoked. This revocation does not affect any liabilities incurred under the order. Citric acid is subject to allocation under General Allocation Order M–300 (Appendix C, Schedule 6), issued simultaneously with this revocation.

Use, delivery and acceptance of delivery of citric acid prior to April 1, 1944, will be authorized on the basis of applications filed monthly in the form heretofore prescribed in Order M–321.

Until April 1, 1944, the small order exemption will continue to be 125 lbs. per person per month, and thereafter allocations and small order exemptions will be on a quarterly basis.

Issued this 28th day of February 1944.

PART 3285—LUMBER AND LUMBER PRODUCTS

[Conservation Order M–361, Direction 4 [1]]

DELIVERIES OF SOUTHERN YELLOW PINE LUMBER TO MANUFACTURERS AND REPAIRERS OF RAILROAD ROLLING STOCK AND PASSENGER CARRIERS AND MANUFACTURERS OF NEW TRUCK AND TRAILER BODIES

The following direction is issued pursuant to Conservation Order M–361:

(a) This direction which is issued in accordance with Order M–361, paragraph (d), tells how manufacturers and repairers of railroad rolling stock and passenger carriers and manufacturers of new truck and trailer bodies may get the restricted southern yellow pine lumber they need without having to file on Form WPB 2720. The manufacturer or repairer may use either the procedure outlined in this direction or file on Form WPB 2720. It is not necessary for you to use one procedure to the exclusion of the other; that is, either procedure may be used from time to time as is most convenient to you.

(b) Any person who gets restricted southern yellow pine lumber under this direction for the production or repair of locomotives, cars, passenger carriers, or for the production of new truck or trailer bodies, must endorse the following certification on his purchase orders:

All restricted southern yellow pine lumber covered by this purchase order or contract is required in order to enable me to fulfill an authorized production schedule for the production of locomotives, cars and passenger carriers, or for their repair, or for the production of new truck or trailer bodies. Delivery may be made to me under Direction 4 to Order M–361, with the terms of which I am familiar.

Duly authorized official

(c) Any producer may sell, ship, or deliver restricted southern yellow pine lumber (either directly or through one or more intervening persons) to fill any order or contract bearing such a certificate, just as if the order were certified in the way prescribed by paragraphs (b) (1) or (b) (2) of Order M–361. The use of the above form of certificate by the buyer and delivery by the producer is subject to all the terms and conditions of M–361 with respect to certified orders, so far as applicable. No one may use the certificate to get more lumber than the minimum necessary to enable him to fulfill his authorized schedules for the production of locomotives, cars and passenger carriers, for repairs of locomotives, cars and passenger carriers, or for the production of new truck and trailer bodies. For example, no one may get lumber under this direction for such purposes as bridges, buildings, grain doors, and the like, or for the repair of truck bodies. This direction does not affect purchases from firms other than producers, and does not permit distribution yards to get lumber by certificate merely because they sell to railroads or car manufacturers.

(d) Manufacturers and repairers who get any part of their lumber through the use of the above certification shall report on Form WPB 3537 thirty days after the end of each calendar quarter, furnishing the information called for on the form. The companies furnishing this information will be relieved of the necessity of providing the information called for in column (c) and item (3) on the forms WPB 2720 filed by them for lumber not covered by this direction. This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(e) For the purposes of this direction "locomotive", "car", "passenger carrier", and "truck and trailer body" mean the same thing they are defined as meaning in Orders L–97, L–97a, L–101, and L–253 respectively.

Issued this 28th day of February 1944.

PART 3285—LUMBER AND LUMBER PRODUCTS

[Conservation Order M–361, Direction 5]

DELIVERIES OF SOUTHERN YELLOW PINE TO PRODUCERS OF STEEL AND OTHER CONTROLLED MATERIALS

The following direction is issued pursuant to Conservation Order M–361:

(a) This direction, which is issued in accordance with Order M–361, paragraph (d), tells how a person producing controlled materials may get the restricted Southern yellow pine lumber he needs without having to file on Form WPB–2720. A producer of controlled materials may use either the procedure outlined in this direction or file Form WPB–2720. It is not necessary for you to use one procedure to the exclusion of the other; that is, either procedure may be used from time to time as is most convenient to you.

(b) Any person who gets restricted Southern yellow pine lumber for the production of controlled materials, including maintenance or repair of his plant and boxing or crating controlled materials which he produces, must endorse the following certificate on his purchase orders:

All restricted Southern yellow pine lumber covered by this purchase order or contract is required in order to enable me to produce and deliver controlled materials which I have been directed or authorized to produce. Delivery may be made to me under Direction 5 to Order M–361, with the terms of which I am familiar.

Producer.

Duly authorized official.

(c) Any producer may sell, ship, or deliver restricted Southern yellow pine lumber (either directly or through one or more intervening persons) to fill any order or contract bearing such a certificate, just as if the order were certified in the way prescribed by paragraphs (b) (1) or (b) (2) of Order M–361. The use of the above form of certificate by the buyer and delivery by the producer is subject to all the terms and conditions of M–361 with respect to certified orders, so far as applicable. No one may use the certificate to get more lumber than the minimum necessary to enable him to produce and deliver controlled materials he is authorized or directed to produce, including maintenance and repair of his plants producing controlled materials and boxing and crating the controlled materials for shipment. No one may use the certificate to get boxes, and no maker of boxes to sell to others can use the certificate to get lumber. "Captive plants" as defined in PR–3, Direction 3 may use the certificate to obtain lumber to make boxes. Lumber obtained under this direction by any person for maintenance and repair may not exceed 10% of the total he gets under the direction.

(d) Manufacturers who get any part of their lumber through the use of the above certification shall report to the Lumber Division, War Production Board, by letter within thirty days after the end of each calendar quarter stating the entire amount of Southern yellow pine lumber delivered to them during the quarter, whether obtained under this direction or in some other way and stating the percent of all lumber used during the quarter for maintenance and repair of plant. This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(e) For the purposes of this direction "controlled materials" means steel, copper, and aluminum, as specified in CMP Regulation 1, paragraph (b) (1) and in the forms and shapes indicated in CMP Regulation 1, Schedule 1.

Issued this 28th day of February 1944.

PART 3285—LUMBER AND LUMBER PRODUCTS

[Conservation Order M–364, Direction 4]

DELIVERIES OF HARDWOOD LUMBER TO MANUFACTURERS AND REPAIRERS OF RAILROAD ROLLING STOCK AND PASSENGER CARRIERS, AND MANUFACTURERS OF NEW TRUCK AND TRAILER BODIES.

The following direction is issued pursuant to Conservation Order M–364:

(a) This direction which is issued in accordance with Order M–364, paragraph (d), tells how manufacturers and repairers of railroad rolling stock and passenger carriers and manufacturers of new truck and trailer bodies may get the restricted hardwood lumber they need without having to file on Form WPB 2720. The manufacturer or repairer may use either the procedure outlined in this direction or file on Form WPB 2720. It is not necessary for you to use one procedure to the exclusion of the other; that is, either procedure may be used from time to time as is most convenient to you.

(b) Any person who gets restricted hardwood lumber under this direction for the production or repair of locomotives, cars, passenger carriers, or for the production of new truck or trailer bodies, must endorse the following certification on his purchase orders:

All restricted hardwood lumber covered by this purchase order or contract is required in order to enable me to fulfill an authorized production schedule for the production of locomotives, cars and passenger carriers, or for their repair, or for the production of new truck or trailer bodies. Delivery may be made to me under Direction 4 to Order M–364, with the terms of which I am familiar.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[General Conservation Order M-217, Interpretation 4]

FOOTWEAR

The following official interpretation is issued to Conservation Order M-217:

The definition of "price range" in paragraph (b) (11) of Conservation Order M-217 states that price range shall have the usual trade significance so long as the highest list price in the range does not exceed the lowest by more than 10% or 25¢ a pair, whichever is the greater. The January 12, 1944 amendment in paragraph (b) (10) (iii) of the order allows manufacturers of misses' and children's and youths' and boys' footwear to consider their production in each type up to a wholesale price of $1.75 a pair as one line. This does not, however, permit manufacturers to add 25¢ to the $1.75 and consider all misses' and children's and youths' and boys' footwear up to $2.00 as falling within the line. The exemption added by the amendment is one superimposed upon the existing treatment of price lines and cannot be construed to apply to any footwear having a net wholesale price of more than $1.75.

PART 3293—CHEMICALS

[General Allocation Order M-300 as Amended Feb. 28, 1944]

CHEMICALS AND ALLIED PRODUCTS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of those chemicals and allied products subject to this order for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3293.1000 *General Allocation Order M-300*—(a) *Purpose and effect.* The purpose of this general allocation order is to provide a central framework for allocation of chemicals and allied products. Materials subject to this order are listed in Appendices A, B and C attached.

Three general systems of allocation are provided for in this order, following the outline of allocations now in general use for chemicals. Appendix A materials are allocated on customers' Form WPB-2945 (formerly PD-600) and suppliers' Form WPB-2946 (formerly PD-601). Appendix B materials are allocated on suppliers' Form WPB-2947 (formerly PD-602), on the basis of certified statements of proposed use from each customer. Appendix C materials are allocated on suppliers' Form WPB-2947 (formerly PD-602), on the basis of applications on customers' Form WPB-2945 (formerly PD-600) for large orders and certified statements of end use to the supplier from customers ordering intermediate quantities.

A separate schedule under this general order is issued for each subject material. The schedule details the information required for applications, and may contain special exemptions or additional requirements modifying the terms of the general order.

The appendices in this order outline the requirements for applying for each material and show the governing schedule numbers.

The general order will be reissued from time to time with all changes to date. New or amended schedules will be issued at the same time, as far as possible. Schedules remain in effect until individually amended and will not be reissued each time the general order is reissued.

(b) *Definitions.* For the purpose of this order:

(1) "Material" means any chemical or allied product listed in Appendix A, B or C, as defined in the schedule governing that material.

(2) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons whether incorporated or not.

(3) "Supplier" means any person who produces or imports a material or who purchases a material for resale as such.

(4) "Initial allocation date" means the date when a material first becomes subject to allocation under this order, or when it first became subject to allocation under another order prior to its transfer to this order, whichever date is earlier.

Appendix A Materials—General Requirements

(c) *Delivery, acceptance of delivery, and use.* On and after the initial allocation date, no supplier of an Appendix A material shall deliver it to any person, no person shall accept delivery of an Appendix A material from a supplier, and no person shall use an Appendix A material, except as specifically authorized in writing by the War Production Board upon application under this order.

Appendix B Materials—General Requirements

(d) *Delivery and use by suppliers.* On and after the initial allocation date, no supplier of an Appendix B material shall use or deliver it to any person, except as specifically authorized in writing by the War Production Board upon application under this order.

(e) *Certified purchase orders.* With respect to material ordered for delivery on and after the initial allocation date:

(1) Each person ordering an Appendix B material from a supplier shall furnish a certified statement of end use with his purchase order in accordance with Appendix D.

(2) Each person shall use material delivered on a certified purchase order only as certified, unless advised by his supplier that a particular specified use has been denied or limited by the War Production Board or unless otherwise specifically authorized in writing by the War Production Board. However, any person not a supplier may redeliver material to a supplier without restriction.

(3) Each supplier within a week after receipt of authorization to ship shall notify his customer of denial in whole or in part by the War Production Board of any item or items on a certified purchase order placed by the customer.

Appendix C Materials—General Requirements

(f) *Delivery.* On and after the initial allocation date, no supplier of an Appendix C material shall deliver it to any person, except as specifically authorized in writing by the War Production Board upon application under this order.

(g) *Acceptance of delivery.* On and after the initial allocation date, no person shall accept delivery during any allocation period from all suppliers of an aggregate quantity of an Appendix C material in excess of the quantity specified in Column 3 of Appendix C, except as specifically authorized in writing by the War Production Board upon application under this order.

(h) *Use.* On and after the initial allocation date, no person shall use an Appendix C material except as follows:

(1) As specifically authorized in writing by the War Production Board upon application on Form WPB-2945 (formerly PD-600); or

(2) For the purpose and in the quantity stated in the use certificate furnished with the purchase order against which the material was delivered, unless advised by the supplier that a particular specified use has been denied or limited by the War Production Board.

(i) *Certified purchase orders.* (1) Each person ordering an aggregate quantity of an Appendix C material within the limits specified in Column 4 of Appendix C from all suppliers for delivery during any allocation period, shall furnish each supplier with a use certificate in accordance with Appendix D.

(2) Each supplier within a week after receipt of authorization to ship shall notify his customers of denial in whole or in part by the War Production Board of any item or items on their certified purchase orders.

Additional Reports and Certificates—Special Requirements

(j) *Past use and inventory report.* Periodic or one-time reports on Form WPB-3442 covering past use and inventory may be required by the applicable schedule.

(k) *Supplementary use certificates.* Persons required to file statements of use with respect to materials subject to this order may be required by the applicable schedule to obtain supplementary statements of use from their customers.

Existing Stocks on Initial Allocation Date

(l) *Suppliers' stocks.* The restrictions on delivery and use of Appendix A, B, and C materials shall apply to all stocks of each supplied on the initial allocation date. Stocks of suppliers who resell exclusively on small orders are exempted by paragraph (o) (4).

(m) *Exemption for stocks of suppliers who consume.* If a supplier customarily maintains inventories of an Appendix A, B or C material for his own consumption separately, both physically and on his books, from his inventory of the material for sale, his stocks on the initial allocation date for his own consumption shall be subject to the provisions of the following paragraph (n) regarding consumers' stocks and not to the restrictions of paragraph (l) above regarding suppliers' stocks. Prior to the initial allocation date, no supplier shall transfer any more material to his inventory as a consumer than his rated orders for derivatives of the material compared with his rated orders for the material itself would permit under Priorities Regulation No. 1.

(n) *Consumers' stocks.* Any person not a supplier may freely use, deliver or accept delivery of any Appendix A, B or C material which he had in stock on the initial allocation date or which was in transit consigned to him prior to that date, unless otherwise expressly provided in the applicable Schedule (indicated by asterisk in Column 7 of Appendix A).

Small Order Exemption

(o) *Small order deliveries by suppliers.* A supplier may fill small orders without application or specific authorization, if he delivers not more than the small order exemption quantity specified in Appendix A, B or C to any customer in any allocation period, if he has received small order certificates when so required, and if the total amount delivered does not exceed the sum of the following:

(1) The amount which he has been specifically authorized, upon application on the applicable supplier's form (WPB-2946 or 2947) to deliver on small orders;

(2) The amount which he has received pursuant to specific authorization or certification for redelivery on small orders;

(3) The amount which he himself acquired on small orders and has not used for other purposes;

(4) The amount which he had on hand on the initial allocation date, if he sells exclusively on small orders.

(p) *Acceptance of delivery and use of small order quantities.* Any person during each allocation period may use and accept delivery of the small order exemption quantity provided in Appendices A, B and C for each material, provided that:

(1) The total accepted from all suppliers during each allocation period shall not exceed in the aggregate one small order exemption quantity;

(2) Quantities received under the small order exemption shall be used only for experimental purposes if additional quantities of the material are received during the same allocation period on specific allocation;

(3) Use of the material is subject to any special limitations on use contained in the applicable schedule (noted with a "u" in the small order exemption columns of Appendices A, B and C);

(4) Acceptance is subject to the filing of a special small order cerificate when required by the applicable schedule (noted with a "c" in the small order columns of Appendices A and C).

Territorial and Import-Export Provisions

(q) *Territorial limitations.* This order shall apply only to acts occurring within the forty-eight States and the District of Columbia, unless otherwise provided in the applicable schedule.

(r) *Imports.* Application and authorization under this order shall not be required for importation of an Appendix A, B and C material into the United States, acceptance of delivery of the material by the consignee and delivery by such consignee to, and acceptance by, any person who purchased or contracted to purchase the material prior to its importation. No person who acquires an Appendix A, B or C material under this exemption shall use it after the initial allocation date except as specifically authorized in writing by the War Production Board upon application under this order. Nothing contained in this order limits the requirements of General Imports Order M-63.

(s) *Exports.* (1) No supplier shall export or deliver for export on Appendix A, B or C material after the initial allocation date except as specifically authorized in writing by the War Production Board upon application under this order, or except to fill exempt small orders. A producer who is also an exporter shall treat the export part of his operations as a separate entity for the purpose of this order. An exporter applying on Form WPB-2945 (formerly PD-600) for allocation and to the Foreign Economic Administration for an export license for the same material subject to this order, shall file both sets of applications together with the Foreign Economic Administration.

(2) Authorized deliveries for export must be made within the authorized period, unless the exporter notifies the supplier and the War Production Board in writing that delivery must be postponed to a later specific period, in which case the limitation of duration of authorization in paragraph (t) is automatically waived, subject to any special directions from the War Production Board. After an exporter has accepted an authorized delivery for export he may export the material at any time to the destination for which allocation was made without further application or authorization under this order.

Duration of Authorizations

(t) *Duration of authorization for delivery.* If it is not practicable for a supplier to make all deliveries in the allocation period for which authorized, he may complete them as early as practicable in the next month. However, authorization shall terminate if the purchaser fails to place his order before the end of the allocation period or if the purchaser requires postponement of delivery beyond 10 days after the allocation period.

(u) *Duration of authorization for acceptance of delivery.* A purchaser may accept delivery after the allocation period but shall notify the War Production Board and hold the material intact subject to direction from the War Production Board if he knows or has reason to believe that the shipment was made after the authorization for delivery had expired.

(v) *Duration of authorization for use.* Authorization for use on Form WPB-2945 (formerly PD-600) shall be valid during the allocation period for which the authorization was issued and the following month. Any unused portion remaining thereafter shall not be used for any purpose until further authorized or directed by the War Production Board.

Action by War Production Board

(w) *Individual actions.* In addition to regular allocations under this order, the War Production Board may at any time issue special directions to any person with respect to:

(1) Use, delivery or acceptance of delivery of an Appendix A, B or C material; or

(2) Production or processing of an Appendix A, B or C material; or

(3) Preparation and filing of forms and certificates required by this order or by its schedules, subject to approval by the Bureau of the Budget when required by Federal Reports Act of 1942.

Miscellaneous Provisions

(x) *Miscellaneous provisions*—(1) *Toll arrangements.* In the case of any toll arrangement where raw materials are converted into any Appendix A, B or C material by any person for the owner of the raw materials, the owner shall be considered the producer for the purpose of applications and authorizations under this order, and the Appendix A, B or C material may be delivered to him without restriction.

(2) *Laboratories.* This order is subject to the provisions of Supplementary Order P-135-a, which contains optional

provisions for filing of small order and end use certificates by laboratories ordering reagent chemicals, and for acceptance by laboratories of small order deliveries of reagent chemicals.

(3) *Equivalent quantities.* The provisions of this order relate to quantities of material and not to the identity of any particular lot of material.

(4) *Full container adjustments.* A specifically authorized delivery (not including an exempt small order delivery) may be increased to the extent necessary to avoid shipping partly filled containers, if a container in the nearest practicable size is used. The excess quantity shall be deducted from subsequent authorized shipments to the same customer. The person accepting overshipment shall hold the excess material as an advance shipment on subsequent allocations, and shall use it only for the purpose authorized for the subsequent allocation against which it is credited, or shall hold it in inventory subject to further directions from the War Production Board.

(5) *Allocated inventory.* Material which is allocated for inventory shall not be used or disposed of for any purpose, except as specifically directed by the War Production Board. Material which has not been used for the purpose for which it was allocated shall revert to inventory as if originally allocated for inventory. Pending receipt of material allocated for a particular purpose, stocks on hand may be used for that purpose. The quantity withdrawn from allocated inventory must be replaced upon receipt of the allocated material.

(6) *Applicability of regulations.* This order, its schedules, and all transactions affected thereby, are subject to all applicable War Production Board regulations, as amended from time to time.

(7) *Approval of reporting requirements.* Forms WPB–2945, 2946, 2947 and 3442, and the instructions in this order and in its Appendices and schedules for applications and reports regarding materials subject to this order, have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(8) *Violations.* Any person who wilfully violates any provision of this order or of its schedules or who, in connection with such order or schedule, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priority assistance.

(9) *Communications to War Production Board.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Chemical Bureau, Washington 25, D. C.; Ref: M–300—(specify applicable schedule number).

Issued this 28th day of February 1944.

APPENDIX D—USE CERTIFICATE GENERAL INSTRUCTIONS

(1) Each person required to file a use certificate with a purchase order for material subject to this order shall furnish the supplier with a certified statement of proposed use of the material in substantially the following form, either placed on or attached to the purchase order:

(*Statement of quantity of listed material required for each specified product and end use—see instructions in the applicable schedule and the instructions in paragraphs (10) and (11) of Appendix E for description of proposed use.*)

USE CERTIFIED—REF. M–300

_____
Name of purchaser

By: _____
(Signature and title of duly authorized officer)

(2) In the event two or more end uses are involved in a single purchase order, the amount of the material required for each use shall be listed as a separate item. Each item shall bear an identifying number so that it will be possible for the supplier to advise his customer by purchase order number and item number as to the action taken in the supplier's application for authorization to make delivery.

(3) A written purchase order placed by any department or agency of the United States Government pursuant to the Act of March 11, 1941 (Lend-Lease Act) shall constitute a use certificate for the purpose of this order, if the purchase order specifies the Lend-Lease contract or requisition number.

(4) A certified statement on Form WPB–2945 (formerly PD–600), or on any equivalent form, of quantities of material ordered for each intended product and end use, shall constitute a use certificate for the purpose of this order.

(5) The special certificate specified in Supplementary Order P–135–a may be used by laboratories when applicable instead of the above certificate.

APPENDIX E—FORMS WPB–2945, 2946 AND 2947—GENERAL INSTRUCTIONS

CUSTOMERS' FORMS

Customers' Form WPB–2945 (formerly PD–600). Each person requiring specific authorization to use or accept delivery of a material subject to this order shall file application on Form WPB–2945 in the manner prescribed therein, subject to the following general instructions:

(1) *Where to obtain copies.* Copies may be obtained at local field offices of the War Production Board.

(2) *Special instructions in schedules.* The applicable schedule may contain special instructions for applying for the particular material, supplementing or modifying the following general instructions.

(3) *When application is required.* Application for specific authorization is required for use or acceptance of delivery during any allocation period of a quantity exceeding the small order exemption in Column 5 of Appendix A, or of a quantity specified in Column 3 of Appendix C, or for use of an Appendix A, B or C material which has previously been allocated for a different purpose or for inventory.

(4) *Time of filing.* Application for regular allocation shall be filed or mailed in time to reach the War Production Board on or before the date specified in Column 3 of Appendix A or C.

(5) *Number of copies and where to file.* Prepare five copies, retain one, send one (reverse side blank) to the supplier, if any, and send three copies (original certified) to the War Production Board, Chemicals Bureau, Washington 25, D. C., Reference M–300–_____ (specify schedule number). Exporters, however, when applying to the Foreign Economic Administration for an export license for material for which War Production Board allocation is requested, shall send both sets of applications to the Foreign Economic Administration.

(6) *Applications regarding suppliers and inventory.* When applying only for use from inventory, specify "Inventory" as supplier in the heading. When applying for material from other companies as suppliers, file separate sets of applications for each supplying company. A combined application may be made to accept delivery and use material from another company as supplier, and to use an additional quantity from inventory. It will be presumed that applications which name another company in the heading as supplier relate only to acceptance of delivery and use of material from that supplier, unless it is clearly indicated that part of the application relates to use of an additional quantity from inventory. This may be indicated by specifying the requested quantity from inventory separately in Column 2 (quantities requested) and by specifying in Column 10 (Remarks) "From Inventory").

(7) *Heading.* Fill in as indicated, specifying as WPB Order No., "M–300–_____" (specify Schedule number).

(8) *Table I.* Specify in the heading the allocation period for which authorization for acceptance of delivery or use is sought.

(9) *Columns 1 and 2.* Fill in as indicated, subject to the instructions in the applicable Schedule.

(10) *Column 3.* Specify the proposed primary use of the material sought in terms of the proposed primary product to be made from the material (as indicated in the applicable Schedule), or specify the use as for resale, export or inventory of the requested material in original form.

(11) *Column 4.* Fill in as follows:

Opposite any primary product in Column 3 which is subject to allocation, specify in Column 4 only the allocation order number (and Schedule number, if allocated under General Allocation Order M–300).

Opposite any primary product in Column 3 which is not under allocation, specify in Column 4 the end use accurately and briefly, giving Army or Navy specification or contract numbers, or Lend-Lease requisition and contract numbers, when practicable.

Opposite "resale" in Column 3, suppliers shall write into Column 4 "upon further authorization" or "for exempt small orders". Suppliers who resell in both large and small quantities should specify "upon further authorization" for the total quantity ordered, and should apply on their suppliers' Form WPB–2946 or 2947 for authorization to deliver an aggregate quantity for small orders.

Opposite "export" in Column 3 specify in Column 4 the name of the individual company or governmental agency to whom, or for whose account, the material will be exported, the country of destination, and the governing export license or contract number, unless Lend-Lease, in which case merely specify the Lend-Lease contract and requisition number.

Opposite "inventory" in Column 3, write into Column 4, "subject to further authorization".

(12) *Columns 9 and 10.* Leave blank, except for remarks, if any, in Column 10.

(13) *Tables II, III and IV.* Fill in as indicated except as otherwise provided in the applicable schedule. In Columns 15 and 16, report entire physical inventory, whether or not subject to valid authorization or exemption on the dates specified. Suppliers who both sell and consume the material shall keep separate accounts of their sales and consumption inventories, reporting only the latter on customers' Form WPB–2945.

(14) *Table V.* Fill in only when and as required by the applicable schedule.

SUPPLIERS' FORMS

Suppliers' Forms WPB–2946 and 2947 (formerly PD–601 and 602). Each supplier requiring specific authorization to make delivery shall file application on Form WPB–2946 for an Appendix A material and on Form WPB–2947 for an Appendix B or C material, in the manner prescribed in these forms, subject to the following general instructions:

(15) *Where to obtain copies.* Copies may be obtained at local field offices of the War Production Board.

(16) *Special instructions in schedule.* The applicable schedule may contain special instructions for applications to deliver the particular material, supplementing or modifying the following general instructions.

(17) *When application to deliver is required.* Application for specific authorization to deliver an Appendix A, B or C material is required for any delivery by a supplier after the initial allocation date which is not subject to small order exemption.

A supplier who wishes to divert to his own use any part of his own production shall list his own name on the applicable supplier's form as in the case of any other customer, in addition to applying on customer's Form WPB–2945 (formerly PD–600) when so required.

(18) *Time of filing.* Applications for regular allocation shall be filed or mailed in time to reach the War Production Board on or before the date specified in Column 4 of Appendix A or Column 3 of Appendix B or Column 6 of Appendix C.

(19) *Number of copies and where to file.* Prepare five copies, retain one, and send four copies (original certified) to the War Production Board, Chemicals Bureau, Washington 25, D. C., Reference M–300 ——— (specify schedule number).

(20) *Number of sets.* File a separate set of forms for each separately located plant or distributing point, unless otherwise expressly provided in the applicable schedule.

(21) *Heading.* Fill in as indicated, specifying as WPB Order No. "M–300 ——". (specify schedule number).

(22) *Table I.* Fill in as indicated on Form WPB–2946 (formerly PD–601). List customers alphabetically, as far as practicable. On Form WPB–2947 (formerly PD–602) group customers according to end use and list alphabetically within each group, as far as practicable. If the applicant supplier wishes to use any part of his own production, he should list his own name as a customer on his supplier's form as in the case of any other customer. An aggregate quantity may be requested for exempt small orders without listing individual customers' names. In the case of Appendix C materials specify "WPB–2945" without further use description in Column 1–a of Form WPB–2947 opposite the names of customers who have filed copies of Form WPB–2945 with the applicant supplier.

(23) *Table II.* Fill in as indicated. In Column 10 and 13 report stocks on physical inventory basis regardless of whether any part of the stock is subject to valid authorization to deliver on the date specified. In Column 16, specify a quantity no greater than what is estimated will be available for allocation during the requested allocation period, taking into account undelivered balances on still valid prior authorizations.

PART 3293—CHEMICALS

[General Allocation Order M–300, Schedule 5]

PEROXYGEN CHEMICALS

§ 3293.1005 *Schedule 5 to General Allocation Order M–300*—(a) *Definition.* "Peroxygen chemicals" mean any one or more of the following: hydrogen peroxide; sodium peroxide; sodium perborate.

(b) *General provisions.* Peroxygen chemicals are subject to allocation under General Allocation Order M–300 as Appendix B materials. The initial allocation date is April 1, 1944. The allocation period is the calendar month.

(c) *Small order exemption.* The small order exemption, per month, for each of the peroxygen chemicals (i. e., the amount which any person may receive from all suppliers) is as follows:

(1) Hydrogen peroxide (100 volume equivalent), 600 pounds.
(2) Sodium peroxide, 75 pounds.
(3) Sodium perborate, 25 pounds.

(d) *Supplier's application on Form WPB–2947.* (1) Each supplier requiring authorization to use or deliver the peroxygen chemicals shall file application on Form WPB–2947 (formerly PD–602) on or before the 20th day of the month preceding the month for which allocations are sought. A separate set of forms shall be prepared and filed for each of the peroxygen chemicals for which authorization to use or deliver is requested.

(2) Each supplier shall list, individually, the names of customers who have placed orders for more than the quantity permitted for small orders. No such individual order shall be listed or filled unless the customer has filed with the supplier the required end-use certificate. In addition, an item should be included for "small orders received" which shall show the aggregate quantity requested to fill small orders without listing the names of the individuals placing the small orders. A supplier may also request, as a separate item, an estimated quantity to cover "small orders anticipated."

(3) Normally the War Production Board will issue its authorizations and directions on Form WPB–2947 and, in addition to making individual allocations for listed customers, will allocate a lump sum for small orders.

(4) Form WPB–2947 should be completely filled in. The unit of measure for the peroxygen chemicals is pounds. No

grade need be specified except as to hydrogen peroxide in which case the volume of the material shall be stated. In Columns 5 and 5-a of Table I the supplier may, but need not, enter the quantity which he recommends for delivery. In Column 7 of Table I the supplier should enter a statement of the average monthly purchases made by each customer listed in Column 1 during the six months period of January to June, inclusive, 1943.

(e) *Customer's certificate of end use.* (1) Each person ordering for delivery in any month more than the quantities of any of the chemicals permitted by the small order exemption shall furnish to each supplier with whom an order is placed a certified statement of the proposed use of such chemicals. The certification shall be in the form and subject to the instructions set forth in Appendix D of General Allocation Order M-300.

(2) Customers' orders accompanied by such certifications should be in the hands of suppliers not later than the 14th day of the month preceding the period during which delivery is sought. This is necessary to enable suppliers to file on time their requests for allocations with the War Production Board.

(3) A certificate shall separately list each of the peroxygen chemicals ordered and shall also separately state the quantity of each of the peroxygen chemicals required for a particular primary product and end use.

(4) No supplier shall deliver any of the peroxygen chemicals to any person when he knows or has reason to believe such person's certificate to be false; but in the absence of such knowledge or reason to believe, the supplier may rely on the certificate.

(f) *Customer's one-time report.* (1) Each person (excluding government departments or agencies) who orders for delivery in any month more than the exempt quantity of any of the peroxygen chemicals shall file with the War Production Board—one time only with respect to any one of such chemicals—a report on Form WPB-3442. A separate report should be filed for each of the peroxygen chemicals so ordered. This report is required for the purpose of advising the War Production Board as to the quantity of each of the peroxygen chemicals consumed during the calendar year 1943. A report for each of the peroxygen chemicals shall be filed not later than the 20th day of the month preceding the month during which delivery of such chemical is sought, but in any case need not be filed before March 20, 1944.

(2) Copies of Form WPB-3442 may be obtained at local field offices of the War Production Board. One signed copy shall be forwarded to the War Production Board, Washington 25, D. C. In Section I, above Column (c) specify "calendar year, 1943"; Columns (d) to (g), inclusive, may be left blank. No grade need be specified except in the case of hydrogen peroxide, in which case the volume of the material should be specified in Column (b). In Section II, Column (b) the date to be specified is December 31, 1943; in Column (c) the date to be specified is the last day of the month preceding the month in which the report is filed. Column (2) may be left blank.

(g) *Communications to the War Production Board.* All reports required to be filed hereunder and all communications concerning this schedule shall, unless otherwise directed, be addressed to War Production Board, Chemicals Bureau, Washington 25, D. C., Reference: M-300.

NOTE: Forms WPB-2947 and 3442 and the instructions in this schedule and the appendices of order M-300 for applications for the peroxygen chemicals have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 28th day of February 1944.

PART 3293—CHEMICALS

[General Allocation Order M-300, Schedule 6]

CITRIC ACID

§ 3293.1006 *Schedule 6 to General Allocation Order M-300*—(a) *Definition.* "Citric Acid" means hydroxy tricarballylic acid from whatever source derived, in dry form only.

(b) *General provisions.* Citric acid is subject to the provisions of General Allocation Order M-300 as an Appendix C material. The initial allocation date is July 1, 1943, when citric acid was first put under allocation by Allocation Order M-321 (revoked). The allocation period is the calendar month through March, 1944, and is the calendar quarter commencing with the second quarter of 1944.

After April 1, 1944, a customer may purchase 440 lbs. or less per quarter from all suppliers without restriction, must furnish use certificates with each order when seeking delivery of between 440 and 15,000 lbs. per quarter from all suppliers, and must file on Form WPB-2945 for 15,000 lbs. or more per quarter from all suppliers.

(c) *Special provisions.* Use, delivery and acceptance of delivery prior to April 1, 1944, will be authorized on the basis of applications filed in the form heretofore prescribed in the citric acid Order M-321 (revoked). The small order exemption prior to April 1, 1944, is 125 lbs. per person per month.

(d) *Supplier's application on Form WPB-2947.* Each supplier seeking authorization to deliver shall file application on Form WPB-2947 (formerly PD-602). The filing date is the 10th of the month preceding the proposed delivery quarter. Send three copies (one certified) to War Production Board, Chemicals Bureau, Washington 25, D. C., Ref. M-300-6. The unit of measure is pounds. Specify grade as crude, technical, anhydrous, crystalline, granular, U. S. P., C. P., reagent, or other specified grade. File a separate set of forms for each different grade of citric acid. A consolidated set of forms may be filed for all plants. In Table I first list in Column 1 the names of customers who have filed WPB-2945 forms with the applicant and in Column 1a specify "WPB-2945"; second, list in Column 1 the names of customers who have filed use certificates with the applicant and in Column 1a transcribe the uses stated in such certificates; third, specify in Column 1 "aggregate small order deliveries" and leave Column 1a blank; fill in other columns as indicated. Leave columns blank relating to rolling stock requirements. Fill in Table II as indicated. Inventory of citric acid previously allocated for the supplier's own manufacturing use should not be reported on Form WPB-2947 (but should be reported in Table II of Form WPB-2945).

(e) *Customers' applications for authorization on WPB-2945.* Each person seeking delivery for 15,000 lbs. or more per quarter from all suppliers shall file application for authorization on Form WPB-2945 (formerly PD-600). The filing date is the first day of the month preceding the requested allocation quarter. Send three copies (one certified) to the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref. M-300-6, one copy (reverse side blank) to the supplier and retain one copy. The unit of measure is pounds. Specify grade as crude, technical, anhydrous, crystalline, granular, U. S. P., C. P., reagent or other specified grade. In Column 3 specify primary products as liquid beverages, beverage powders, foods, sodium citrate, potassium citrate, ferric ammonium citrate, ammonium citrate, citrate of magnesia, effervescent salts, or as other specified products, or the primary use may be specified as resale, inventory, or export of citric acid as such. In Column 4 specify end use (see paragraph (11) of Appendix E) and indicate percent of product required for each of the following:

Direct Army or Navy contracts.
Post exchanges.
Ship service stores.
Commissaries.
Canteens.
Civilian.
Export.
Lend-Lease.

Fill in Tables II and III as indicated, specifying inventory in Table II on a physical basis regardless of authorizations or exemptions. However, a supplier who keeps separate inventories of citric acid, both physically and on his books, for the purpose of sale and for his own manufacturing use, shall report in Table II only his inventory for his own use. Leave Tables IV and V blank.

(f) *Certified uses with purchase orders.* Each person placing purchase orders for delivery of between 440 and 15,000 lbs. per quarter in the aggregate from all suppliers shall furnish each supplier with a certified statement of proposed use in the form prescribed in Appendix D of General Allocation Order M-300. Describe proposed use as shown in paragraph (e) above.

(g) *One-time report.* Each person seeking authorization to use or accept delivery of citric acid in excess of 440 lbs. per calendar quarter shall mail to or file with the War Production Board a report of inventory and past use on Form WPB-2772 at least ten days prior to the initial filing of a use certificate or a WPB-2945 form pursuant to this order, whichever is filed first. Any person who has filed this form once in accordance with this schedule or Allocation Order M-321 (revoked) need not file it again.

(h) *Approval of reporting requirements.* Forms WPB-2947, 2945 and 2772 and the instructions in this schedule and the appendices of Order M-300 for applications and reports concerning citric acid have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(i) *Communications to War Production Board.* All reports filed hereunder and all communications concerning this schedule shall, unless otherwise directed, be addressed to War Production Board, Chemicals Bureau, Washington 25, D. C., Ref. M-300-6.

Issued this 28th day of February 1944.

PART 3293—CHEMICALS

[Allocation Order M-373]

VITAMIN A

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of Vitamin A for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3293.601 *Allocation Order M-373*—(a) *Definitions.* (1) "Vitamin A" means vitamin A derived from or contained in fish liver oils or fish viscera oils, in crude or refined form. The term includes, but is not limited to Vitamin A concentrates and esters and Vitamin A in blended oils. The term does not include pro-vitamins A such as caretones, cryptoxanthin, etc.; nor Vitamin A contained in oils which have less than 1000 USP-XII units of Vitamin A per gram, or in oils in which the number of USP-XII units of Vitamin A per gram is less than five times the number of USP-XII units of Vitamin D per gram; nor Vitamin A in cod liver oil; nor Vitamin A in standard dosage form (tablets, capsules, ampuls, solutions, etc.) or in retail pharmaceutical packages; nor Vitamin A compounded or mixed in foods or feeds.

(2) "Concentrate" means any concentrate of Vitamin A derived from fish liver oils, fish viscera oils, other fish oils, or from fish livers or viscera if the concentration of Vitamin A in the product is increased beyond four times that in the original oil, or in the case of livers or viscera, beyond four times that of the oil which would have been obtained by ordinary extraction methods.

(3) "Supplier" means any producer, importer, concentrator, or blender, or any person who purchases Vitamin A for resale as such without further processing or admixture, but does not include an exporter.

A supplier who also exports Vitamin A shall treat his export operations as a separate entity from his other operations for the purpose of this order.

(4) "Use" means the incorporation of Vitamin A into pharmaceutical preparations, feeds, foods and the like, and includes blending and concentrating Vitamin A and the packaging of Vitamin A into retail pharmaceutical units. Authorization to use Vitamin A for any purpose carries with it authorization to perform all intermediate operations.

(5) "Unit of measure" is expressed in terms of USP-XII units of Vitamin A determined either on the basis of animal assay or spectrophotometric analysis.

Requirements for February and March 1944

(b) *Restrictions on acceptance of delivery.* During the period from February 28 to March 31, 1944, inclusive, no person shall accept delivery of more than 500,000,000 USP-XII units of Vitamin A in the aggregate from all suppliers, except Vitamin A in transit consigned to him on February 28, 1944, or except as specifically authorized in writing by the War Production Board upon application pursuant to Appendix B.

(c) *Restrictions on delivery.* No supplier shall deliver Vitamin A which he knows or has reason to believe would be accepted in violation of paragraph (b) above.

(d) *Restrictions on use.* During the period from February 28 to March 31, 1944, inclusive, no person shall use more Vitamin A than 12% of the quantity which he used during all of 1943, except as specifically authorized in writing by the War Production Board upon application pursuant to Appendix B. In computing quantities used currently and during the base period, exclude quantities used in fulfillment of U. S. Government contracts or subcontracts.

Requirements Beginning April 1, 1944

(e) *Restrictions on delivery, acceptance of delivery and use.* Beginning April 1, 1944, no supplier shall deliver Vitamin A to any person, no person shall accept delivery of Vitamin A from a supplier, and no person shall use Vitamin A, except as specifically authorized in writing by the War Production Board upon application pursuant to Appendices B and C.

(f) *User's one-time base period report.* Each person (including a supplier), at or before the time when he files his initial application in accordance with Appendix B for authorization to use or accept delivery of Vitamin A, shall file a one-time report on his past use and inventory in accordance with Appendix A.

(g) *Small order exemption.* Specific authorization is not required for:

(1) Acceptance of delivery and use by any person of 500,000,000 USP-XII units or less of Vitamin A in the aggregate during any calendar month from all suppliers.

(2) Delivery by any supplier to any customer in any calendar month of 500,000,000 USP-XII units or less if the total amount delivered on all such small orders does not exceed the sum of the following:

(i) The amount which he has been specifically authorized, upon application pursuant to Appendix C, to deliver on small orders;

(ii) The amount which he has been specifically authorized, upon application pursuant to Appendix B, to receive or use for the purpose of filling small orders;

(iii) The amount which he himself acquired on small orders and has not used for other purposes;

(iv) The amount which he had on hand on April 1, 1944, if he sells exclusively on small orders.

(h) *Allocated inventory.* Vitamin A allocated for inventory shall not be used or disposed of for any purpose, except as specifically directed by the War Production Board. Material which has not been used for the purpose for which it was allocated shall revert to inventory as if originally allocated to it. Applications for authorization to use Vitamin A allocated for inventory shall be filed pursuant to Appendix B. Pending receipt of Vitamin A allocated for a particular purpose stocks on hand may be used for that purpose, provided that the quantity withdrawn is replaced upon receipt of the allocated Vitamin A.

(i) *Toll arrangements.* In the case of any toll arrangement where vitamin A is produced, concentrated, blended or otherwise processed or used by another person for the owner of the vitamin A, the owner shall apply for any necessary authorizations and shall be subject to the limitations of this order as if he were performing the operation himself, but deliveries between the owner and the processor under the toll arrangement may be made without restriction.

(j) *Duration of authorization for delivery.* If it is not practicable for a supplier to make all deliveries in the month for which authorized, he may complete them as early as practicable in the next month, but the authorization shall terminate if the purchaser fails to place his order before the end of the authorized delivery month or if the purchaser requires postponement of delivery beyond ten days after the authorized month.

(k) *Duration of authorization for acceptance of delivery.* A purchaser may accept delivery after the authorized month, but shall notify the War Production Board and hold the vitamin A intact subject to direction from the War Production Board, if he knows or has reason to believe that the shipment was made after the authorization for delivery had expired.

(l) *Duration of authorization for use.* Authorization for use shall be valid during the authorized month and the following month. Any unused portion at the end of the period shall not be used for any purpose until further authorized or directed by the War Production Board, upon application for use from inventory pursuant to Appendix B.

(m) *Special directions.* The War Production Board at any time may at its

discretion, issue special directions to any person with respect to:

(1) Delivery or acceptance of delivery of vitamin A;

(2) Preparation of applications and reports under Appendices A, B or C, subject to approval of the Bureau of the Budget when required by Federal Reports Act of 1942.

(n) *Notification of customers.* Each supplier is requested to notify his regular customers as soon as possible of the requirements of this order, but failure to receive such notice shall not excuse any person from complying with the terms hereof.

(o) *Miscellaneous provisions*—(1) *Applicability of regulations.* This order and all transactions affected hereby are subject to all applicable War Production Board regulations, as amended from time to time.

(2) *Limitation Order L–40.* In addition to the restrictions of this order, the use of vitamin A is subject to the provisions of Limitation Order L–40 (§ 3293.6) as amended.

(3) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(4) *Communications to War Production Board.* All reports required to be filed hereunder and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Bureau, Washington 25, D. C., Ref. M–373.

Issued this 28th day of February 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

APPENDIX A—INSTRUCTIONS FOR FILING USERS' ONE-TIME BASE PERIOD AND INVENTORY REPORT

Each person (including a supplier) seeking authorization to use or accept delivery of vitamin A shall file a one-time report on his stocks and past use of vitamin A on Form WPB–3442 in accordance with the following instructions:

Form WPB–3442. Copies may be obtained at local field offices of the War Production Board.

Time of filing. The report should be filed when application is first made on Form WPB–2945 (formerly PD–600) in accordance with Appendix B for authorization to use or accept delivery of Vitamin A.

Number of copies. Two copies should be prepared, of which one shall be retained by the person reporting and one certified copy shall be filed with the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref. M–373.

Heading. 1—Specify Vitamin A.
2—Specify Million USP–XII Units.
3—Specify M373.
Fill in other spaces as indicated.

Section I. In column (a) specify primary products as pharmaceuticals, foods, feeds, etc. In column (b) specify grades in terms of potency ranges in accordance with the instructions in Appendix B for column 1. Fill in the headings of columns (c) (d) (e) and (f) as follows:

Column (c)—1942—excluding Gov. orders.
Column (d)—1943—excluding Gov. orders.
Column (e)—1942—Gov. orders only.
Column (f)—1943—Gov. orders only.
Fill in these columns as indicated and leave column (g) blank.

Section II. Specify potency ranges in column (a) as in Section I, Column (b), above. Fill in the headings of columns (b) (c) and (d) as follows, and fill in the columns accordingly:

Column (b)—January 1, 1944.
Column [1] (c)—March 1, 1944.
Column (d)—January 1, 1944.

APPENDIX B—INSTRUCTIONS FOR FILING APPLICATION FOR SPECIFIC INSTRUCTION TO ACCEPT DELIVERY OF AND USE VITAMIN A

Each person seeking authorization to use or accept delivery of vitamin A (more than 500,000,000 USP–XII units per month) shall file application on Form WPB–2945 (formerly PD–600) in the manner prescribed therein, subject to the following instructions:

Form WPB–2945 (formerly PD–600). Copies may be obtained at local field offices of the War Production Board.

Time of filing. Application shall be made in time to insure that copies will reach the supplier and the War Production Board on or before the 15th day of the month preceding the month for which authorization to use or accept delivery is sought.

Number of copies. Prepare five copies, retain one, send one to the supplier and send three copies (original certified) to the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref. M–373. Omit supplier's copy if applying only for use from inventory.

Number of sets. Applications for acceptance of delivery shall be made on separate forms for each supplier. A single set of forms may be used for application to accept delivery and use a quantity from a supplier, and to use an additional quantity from inventory.

Exports. Exporters applying simultaneously for an export license and a WPB allocation for export shall send both sets of applications to the Foreign Economic Administration, which will transmit the WPB–2945 forms to the WPB with its recommendation.

Heading. Under the name of chemical, specify vitamin A; under WPB order number, specify M–373; under unit of measure specify "Million USP–XII units." If the application is exclusively for use from inventory specify "From Inventory" in space for supplier's name. Otherwise fill in as indicated.

Table I. Specify in the heading, the month and year for which authorization to use or accept delivery is sought.

Column 1. Specify "grade" in terms of potency range, in accordance with the following symbols:

20	1– 20 Thousand USP–XII Units per Gram
40	20– 40 Thousand USP–XII Units per Gram
60	40– 60 Thousand USP–XII Units per Gram
100	60–100 Thousand USP–XII Units per Gram
150	100–150 Thousand USP–XII Units per Gram
200	150–200 Thousand USP–XII Units per Gram
over 200	over 200 Thousand USP–XII Units per Gram

Column 2. Specify separately the quantity in millions USP–XII units sought for each different requirement indicated in columns 3 and 4.

Column 3. Fill in as follows:

Multivitamin tablets, capsules or liquids (specify separately)
Vitamin A and D tablets, capsules or liquids (specify separately)
Vitamin A tablets, capsules or liquids (specify separately)
Ampuls
Margarine
Feed
Feed Concentrates
Other—(specify)
For blending
For concentrating
For inventory (in original form)
For export (in original form)
For resale(in original form)

Column 4. Opposite any product in Column 3 (other than "for blending" or "for concentrating") specify in Column 4 whether the product is for Army, Navy, Lend-Lease, other specified Government agency, or commercial customer, and where practicable specify contract or specification numbers. Opposite "for blending", "for concentrating", "for inventory" or "for resale" in Column 3, write in Column 4, "subject to further authorization", except in the case of suppliers who resell exclusively on small orders, in which case "for small orders of 500,000,000 USP–XII Units or less per person per month" may be specified in Column 4.

Opposite "for export" in Column 3, specify in Column 4, the name of the individual, company, or Governmental agency to whom or for whose account the vitamin A will be exported, the country of destination and governing export license or contract numbers, unless Lend-Lease, in which case merely specify the Lend-Lease contract and requisition number.

Column 10. If the application is partly to accept delivery and use Vitamin A from a supplier and partly to use Vitamin A in inventory, specify in Column 10, "From Inventory" opposite quantities in Column 2, which relate to use from inventory.

Table II. Fill in as indicated. In Column II, specify "grade" in terms of potency range symbols as described in the Column 1 instructions above. In Columns 15 and 16 exclude from stocks, quantities authorized for use on the dates specified.

Table III. Fill in as indicated.

Table IV. Leave blank.

Table V. In Column 23, specify potency ranges in accordance with Column 1 instructions above; in Column 24, specify in the heading "Balance authorized for use ----------" (specify first day of current month) and fill in the column accordingly; and in Column 25 specify in the heading "Estimated balance authorized for use ----------" (specify first day of requested allocation month) and fill in the column accordingly.

APPENDIX C—INSTRUCTIONS FOR FILING APPLICATION FOR SPECIFIC AUTHORIZATION TO MAKE DELIVERIES OF VITAMIN A

Each producer or distributor seeking authorization to make delivery of Vitamin A during any month shall file application on Form WPB–2946 (formerly PD–601) in the manner prescribed therein and subject to the following instructions.

WPB–2946 (formerly PD–601). Copies may be obtained at the local field offices of the War Production Board.

Time of filing. Applications shall be filed in time to insure that copies will reach the War Production Board on or before the 20th day of the month preceding the month for which authorizations to make delivery are requested.

Number of copies. Prepare four copies, retain one and send three (original certified) to the War Production Board, Chemicals Bureau, Washington 25, D. C. Ref. M–373.

Heading. Under name of chemical, specify vitamin A; leave grade space blank; under WPB Order No., specify M–373; under unit of measure, specify Million USP–XII Units; and otherwise fill in as indicated.

Table I. Fill in as indicated, listing customers alphabetically and including all who have sent in copies of Form WPB–2945 listing the applicant as supplier. In Column 3, specify "grade" in terms of potency range symbols specified below for Table II, Column 8.

Each producer seeking authorization to use his own production of vitamin A shall list his own name as a customer in his supplier's Form WPB–2946 application, and shall file a separate application for use on consumer's Form WPB–2945 in accordance with Appendix C above.

An aggregate amount may be requested for "orders for less than 500,000,000 USP–XII Units per month" without specifying individual customers' names.

Table II. Fill in as indicated. In columns 10 and 13 exclude quantities authorized for use or delivery on the dates specified. Specify "grade" in Column 8 in terms of potency range, using the following symbols.

20	1– 20 Thousand USP–XII Units per Gram
40	20– 40 Thousand USP–XII Units per Gram
60	40– 60 Thousand USP–XII Units per Gram
100	60–100 Thousand USP–XII Units per Gram
150	100–150 Thousand USP–XII Units per Gram
200	150–200 Thousand USP–XII Units per Gram
over 200	over 200 Thousand USP–XII Units per Gram

NOTE: Forms WPB–2945, 2946 and 3442, and the instructions in Appendices A, B, and C, have been approved by the Bureau of the Budget in accordance with Federal Report Act of 1942.

[F. R. Doc. 44–2856; Filed, February 28, 1944; 11:35 a. m.]

[1] If filing after March, 1944, specify in Column (c) the first day of the next month.

PART 1347—PAPER, PAPER PRODUCTS, RAW MATERIALS FOR PAPER AND PAPER PRODUCTS, PRINTING AND PUBLISHING

[MPR 400,[1] Amdt. 2]

MERCHANTS' PRICES FOR FINE PAPERS AND CERTAIN PAPERBOARDS

A statement of considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 400 is amended in the following respects:

1. Section 1 (b) (3) and (b) (4) are added to read as follows:

(3) The provisions of this section shall not be applicable to sales or deliveries at the retail level, including sales to ultimate consumers, such as artists, illustrators, photographers and the like. Such sales are subject to the General Maximum Price Regulation.

(4) The provisions of this section shall not be applicable to sales or deliveries in cases where the total sales price computed under this regulation is less than $1.00. Such sales are subject to the General Maximum Price Regulation.

2. Section 2 is amended by adding at the end thereof the following paragraph:

The provisions of this section are not applicable to sales or deliveries of "specialty papers" as defined in section 18. Such sales are subject to the General Maximum Price Regulation.

3. Section 18 is amended by adding at the end thereof a new paragraph to read as follows:

A paper shall be considered a "specialty paper" when it fulfills all three of the following qualifications:

(a) When it is made by the manufacturer expressly and solely to fulfill an unusual requirement of a particular user or class of users.

(b) When it is neither comparable with, nor a variation of, a standard mill grade or a grade which is regularly offered for sale by the manufacturer.

(c) When it possesses one or more physical or chemical qualities not attainable in the manufacturer's standard grades.

This amendment shall become effective March 3, 1944.

GRAY IRON CASTINGS

Sections 1421.164 (a) (2), (10), 1421.166 (a), (b), (c) (1), (e), (f) are amended, §§ 1421.164 (a) (16), 1421.166 (g) are added, § 1421.157 (f) is revoked by Amendment 7, effective March 1, 1944, so that Maximum Price Regulation 244 shall read as follows:

In the judgment of the Price Administrator, it is necessary and proper to establish maximum prices for sales of gray iron castings by a specific maximum price regulation.

A statement of the considerations involved in the issuance of this Regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.[2] In the judgment of the Price Administrator the maximum prices established by this Maximum Price Regulation No. 244 are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250. So far as practicable, the Price Administrator has advised and consulted with members of the industry which will be affected by this Regulation.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and in accordance with Procedural Regulation. No. 1,[3] issued by the Office of Price Administration, Maximum Price Regulation No. 244 is hereby issued.

Sec.

AUTHORITY: §§ 1421.151 to 1421.169, inclusive, issued under 56 Stat. 23, 765; Pub. Law 151, 78th Cong.; E.O. 9250, 7 F.R. 7871 and E.O. 9328, 8 F.R. 4681.

§ 1421.151 *Maximum prices for gray iron castings.* (a) On and after October 26, 1942, regardless of any contract, agreement, lease or other obligation, no person shall sell or deliver gray iron castings, and no person shall buy or receive gray iron castings in the course of trade or business, at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1421.166; and no person shall agree, offer, solicit or attempt to do any of the foregoing: *Provided*, That (1) if the purchaser shall receive from the seller a written affirmation that to the best of his knowledge, information and belief the price charged does not exceed the maximum price established by this Maximum Price Regulation No. 244 and that the seller has complied with all other provisions (including the filing requirements of § 1421.161) of this regulation, and if in such case the purchaser shall have no knowledge of the maximum price and no cause to doubt the accuracy of the affirmation, the purchaser shall have complied with this section; and (2) where the contract of sale has been entered into on or before October 25, 1942, the parties thereto may make and accept deliveries of the castings required or specified in such contract and the seller may render bills or invoices for such castings to the purchaser at the contract price, subject to adjustment of said price in accordance with the maximum prices established by this Maximum Price Regulation No. 244 within a period not to exceed 30 days after the billing or invoicing.

(b) The provisions of paragraph (a) of this section prohibiting purchasers from paying in excess of the maximum prices shall not be applicable to any war procurement agency or any contracting officer thereof, and any such contracting officer or any paying finance officer shall be relieved of any or every liability, civil or criminal, imposed by this Maximum

Price Regulation No. 244 or by the Emergency Price Control Act of 1942, as amended.

(c) The provisions of this section shall not be applicable to sales or deliveries of gray iron castings to a purchaser if prior to October 26, 1942, such castings have been received by a carrier other than a carrier owned or controlled by the seller for shipment to such purchaser.

(d) Nothing in this Maximum Price Regulation 244 or in the General Maximum Price Regulation shall be applicable to any seller of gray iron castings, in his capacity as such seller, whose net sales of such castings totalled the sum of $40,000 or less for the calendar year of 1942: *Provided*, That each such seller (1) shall comply with the provisions of § 1421.160 (a) of this Maximum Price Regulation 244, (2) shall file with the appropriate regional office of the Office of Price Administration on or before January 15, 1943, a signed statement in duplicate of his total net sales of gray iron castings for the calendar year of 1942, and (3) shall file with such regional office on or before the 15th day of the month following each quarter-year beginning with the first calendar quarter of 1943, a signed statement in duplicate of his total net sales of gray iron castings for the previous quarter, and if such sales in any quarter exceed the sum of $12,500, such seller shall be subject to all the provisions of Maximum Price Regulation 244 from the 15th day of the month following such quarter until so long a time as Maximum Price Regulation 244 remains in effect, except as provided in the following paragraph (e). The term "net sales" as used in this paragraph (d) and the following paragraph (e) means total sales of gray iron castings, less returns and allowances, billed or invoiced to purchasers.

[Paragraph (d) added by Am. 2, 7 F.R. 10781, effective 12-26-42, and amended by Am. 5, 8 F.R. 4721, effective 4-14-43]

(e) Any seller of gray iron castings whose net sales thereof totalled the sum of $40,000 or less in any calendar year subsequent to the calendar year of 1942, may petition within 30 days following the close of such calendar year to the Regional Administrator of the appropriate Regional Office of the Office of Price Administration for, and the Regional Administrator may grant, an order excluding such seller, in his capacity as such seller, from the provisions of Maximum Price Regulation 244 and the General Maximum Price Regulation. Until such petition is granted, the seller shall be subject to all the provisions of Maximum Price Regulation 244. Such petition shall state the seller's total net sales of gray iron castings for the preceding calendar year and an estimate of his total net sales of such castings for the year in which an order of exclusion is sought. If an order of exclusion is granted to the seller, he shall be required to submit on or before the 15th day of the month following each quarter-year beginning with the quarter in which the order of exclusion falls, a signed statement in duplicate of his net sales of gray iron castings for the previous quarter, and if such sales in any quarter exceed the sum of $12,500, such seller shall be subject to all the provisions of Maximum Price Regulation 244 from the 15th day of the month following such quarter until so long a time as Maximum Price Regulation 244 remains in effect, except that he may again petition for an order of exclusion as provided in this paragraph (e) if his total net sales of gray iron castings do not exceed the sum of $40,000 in a calendar year.

[Paragraph (e) added by Am. 2, 7 F.R. 10781, effective 12-26-42]

[NOTE: Supplementary Order No. 31 (7 F.R. 9894; 8 F.R. 1312, 3702) provides that: "Notwithstanding the provisions of any price regulation, the tax on transportation of all property (excepting coal) imposed by section 620 of the Revenue Act of 1942 shall, for purposes of determining the applicable maximum price of any commodity or service, be treated as though it were an increase of 3% in the amount charged by every person engaged in the business of transporting property for hire. It shall not be treated, under any provision of any price regulation or any interpretation thereof, as a tax for which a charge may be made in addition to the maximum price."]

[NOTE: Revised Supplementary Order No. 34 (8 F.R. 12404) permits, under certain conditions, the addition of extra packing expenses to be added to maximum prices on sales to procurement agencies of the United States.]

§ 1421.152 *Applicability of General Maximum Price Regulation.* The provisions of this Maximum Price Regulation No. 244 supersede the provisions of the General Maximum Price Regulation with respect to sales and deliveries for which maximum prices are established by this regulation.

§ 1421.153 *Less than maximum prices.* Lower prices than those set forth in this Maximum Price Regulation No. 244 may be charged, demanded, paid or offered.

§ 1421.154 *Export sales.* The maximum price at which a person may export any gray iron castings shall be determined in accordance with the provisions of the Revised Maximum Export Price Regulation[1] issued by the Office of Price Administration.

§ 1421.155 *Federal and State taxes.* Any tax upon, or incident to, the sale, delivery, processing, or use of a gray iron casting, imposed by any statute of the United States or statute or ordinance of any state or subdivision thereof, shall be treated as follows in determining the seller's maximum price for such casting:

(a) *As to a tax in effect between August 1, 1941 and February 1, 1942, inclusive.* (1) If the seller paid such tax, or if the tax was paid by any prior vendor, irrespective of whether the amount thereof was separately stated and collected from the seller, but the seller did not customarily state and collect separately from the purchase price during the period from August 1, 1941 to February 1, 1942, inclusive, the amount of the tax paid by him or tax reimbursement collected from him by his vendor, the seller may not collect such amount in addition to the maximum price, and in such case shall include such amount in determining the maximum price under this Maximum Price Regulation No. 244.

(2) In all other cases if, at the time the seller determines his maximum price, the statute or ordinance imposing such tax does not prohibit the seller from stating and collecting the tax separately from the purchase price, and the seller does state it separately, the seller may collect, in addition to the maximum price, the amount of the tax actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased, and in such case the seller shall not include such amount in determining the maximum price under this Maximum Price Regulation No. 244.

(b) *As to a tax or increase in a tax which becomes effective after February 1, 1942.* If the staute or ordinance imposing such tax or increase does not prohibit the seller from stating and collecting the tax or increase separately from the purchase price, and the seller does separately state it, the seller may collect, in addition to the maximum price, the amount of the tax or increase actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased.

§ 1421.156 *Adjustable pricing and pricing during the pendency of an application for adjustment or petition for amendment.* (a) It is permitted under this maximum price regulation to provide in a contract that the price shall be adjustable to a price not higher than the maximum price in effect at the time of delivery.

(b) Where an application for adjustment has been filed pursuant to § 1421.157 (a) of this regulation and the applicant claims to meet the requirements of subparagraph (3) under paragraph (a) of said section, he may, pending the issuance of an order granting or denying the application and without securing the express permission of the Office of Price Administration, enter into or offer to enter into contracts and may make deliveries at the price requested in the application. In an appropriate situation, where a petition for amendment or application for adjustment requires extended consideration and the applicant or petitioner does not claim to meet the requirements of subparagraph (3) under § 1421.157 (a), the Administrator or, in a case properly before him, the regional administrator for the appropriate regional office of the Office of Price Administration may, upon application, grant permission to the applicant or petitioner to enter into or offer to enter into contracts and to make deliveries at the price requested in the application or petition. Whether or not the applicant or petitioner claims to meet the requirements of subparagraph (3) under § 1421.157 (a), if the order issued denies the application or petition in whole or in part, the contract price shall be revised downward to the maximum price ordered, and if any payment has been made at the

requested price, the applicant or petitioner shall be required to refund the excess. If a request for review is filed by the applicant seeking an adjustment in accordance with § 1300.17 of Revised Procedural Regulation No. 1, the applicant, pending action by the Administrator, may enter into or offer to enter into contracts and may make deliveries at the price requested in the application. If the order issued by the Administrator denies the application in whole or in part, the contract price shall be revised downward to the maximum price ordered, and if any payment has been made at the requested price, the applicant shall be required to refund the excess.

[§ 1421.156 as amended by Am. 4, 8 F.R. 3629, effective 3-27-43]

§ 1421.157 *Petitions and applications for amendment, adjustment or exception.* (a) Any seller of gray iron castings may file an application for adjustment of his maximum prices for any or all such castings: *Provided*, That he is prepared to show:

(1) That his maximum prices for such castings are below his costs of producing them, or are inadequate to maintain continued production of such castings, and

(2) That such castings are necessary to the war effort, and either

(3) That he has entered into or proposes to enter into Government contracts or subcontracts under such contracts for the sale of such castings, or

(4) That unless adjustment is granted applicant will cease or will not undertake production of such castings, and as a result the purchaser will be materially handicapped in its operations for one or more of the following reasons:

(i) Applicant possesses special knowledge and experience in the production of such castings,

(ii) No other foundry properly equipped to produce such castings is located within a convenient distance of purchaser,

(iii) There is a general shortage in the type of facility possessed by applicant for the production of such castings,

(iv) The purchaser will be unable to procure such castings from another satisfactory source except at prices higher than those requested by applicant.

Such adjustments may be granted by the Administrator or by the Regional Administrator for the appropriate regional office of the Office of Price Administration, and shall be based upon a consideration of changes in applicant's costs of production, his over-all returns and such other circumstances as may be pertinent to the maintenance of an adequate supply of gray iron castings needed for the war effort.

Applications for adjustment under this paragraph (a) shall be filed in accordance with the provisions of Revised Procedural Regulation No. 1 issued by the Office of Price Administration, except that they shall be filed with the appropriate regional office of the Office of Price Administration. Such applications shall be submitted on Form 344:3-A or on Forms 344:3-A and 344:3-B, whichever is applicable, in accordance with the instructions accompanying said forms. Copies of these forms may be obtained from the Office of Price Administration, Washington, D. C., or from any of its field offices.

[Paragraph (a) amended by Am. 1, 7 F.R. 8942, effective 11-4-42 and Am. 3, 8 F.R. 3002, effective 3-13-43]

(b) [Revoked]

[Paragraph (b) amended by Am. 1 and revoked by Am. 3]

(c) Any person seeking an amendment of any provision of this Maximum Price Regulation No. 244 may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

[Paragraph (c) as amended by Am. 1, 7 F.R. 8942, effective 11-4-42]

(d) [Revoked]

[Paragraph (d) revoked by Am. 1]

(e) *Supplementary Order No. 9[6] and Procedural Regulation No. 6[7] not to apply.* Supplementary Order No. 9 issued by the Office of Price Administration dealing with applications for adjustment under Procedural Regulation No. 6 of maximum prices of sales pursuant to Government contracts or subcontracts shall not apply to applications for the adjustment of the maximum price of a gray iron casting.

[Paragraph (e) added by Am. 3, 8 F.R. 3002, effective 3-13-43]

[Note: Supplementary Order No. 28 (7 F.R. 9619) provides for the filing of applications for adjustment or petitions for amendment based on a pending wage or salary increase requiring the approval of the National War Labor Board.]

(f) [Revoked.]

[Paragraph (f) added by Am. 6, 8 F.R. 13722, effective 10-11-43; revoked by Am. 7, effective 3-1-44]

§ 1421.158 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 244 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to gray iron castings, alone or in conjunction with any other commodity, or by way of commission, service, transportation, or other charge or discount, premium or other privilege, or by tying-agreement, or other trade understanding or otherwise: without limiting the generality of the foregoing, the price limitations set forth in Maximum Price Regulation No. 244 shall not be evaded by improper classification of any gray iron casting, improper application of extras, splitting of orders into small quantities or exchange of patterns in order to increase prices, or by decreasing or discontinuance of cash discounts.

§ 1421.159 *Enforcement* (a) Persons violating any provisions of this Maximum Price Regulation No. 244 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 244 or any price schedule, regulation or order issued by the Office of Price Administration, or of any acts or practices which constitute such a violation, are urged to communicate with the nearest district, state, field, or regional office of the Office of Price Administration, or its principal office in Washington, D. C.

§ 1421.159a *Licensing.* The provisions of Licensing Order No. 1,[8] licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

[§ 1421.159a added by Supplementary Order No. 72, 8 F.R. 13244, effective 10-1-43]

§ 1421.160 *Records and reports.* (a) Each person selling gray iron castings shall preserve and keep for inspection by the Office of Price Administration for so long a period as the Emergency Price Control Act of 1942 as amended remains in effect, all available records of prices, costs, pricing methods, delivery charges, allowances and discounts, on all sales of gray iron castings made by such seller during the period from August 1, 1941 to February 1, 1942, inclusive.

(b) Each person making a sale of gray iron castings on or after October 26, 1942, shall keep for inspection by the Office of Price Administration for so long a period as the Emergency Price Control Act of 1942, as amended, remains in effect, complete and accurate records of each such sale, showing (1) the date thereof, (2) the name and address of the buyer and seller, (3) the list price or prices, if any, on the date of sale, (4) net price or prices after adjustment for discounts or other allowances, and (5) where the sale is made pursuant to a contract or agreement entered into on or after October 26, 1942, and the total selling price exceeds fifty dollars, records substantiating the maximum prices if the castings are priced under paragraph (a) or (e) of Appendix A (§ 1421.166) or summary of the calculations made in computing the maximum prices if the castings are priced under paragraph (b) of Appendix A. The data specified in (1), (2), (3) and (4) of this paragraph (b) shall be kept for inspection by the Office of Price Administration for the same period by each person making a purchase of gray iron castings in the course of trade or business.

[Paragraph (b) as amended by Am. 2, 7 F.R. 10781, effective 12-26-42]

(c) Each person making a purchase or sale of gray iron castings in the course of trade or business shall submit such reports to the Office of Price Administration and keep such other records in addition to or in place of the records required in paragraphs (a) and (b) of this section as the Office of Price Administration may from time to time require.

§ 1421.161 *Filing of prices and pricing methods.* (a) Each person selling gray iron castings shall file with the appropriate Regional Office of the Office of Price Administration within thirty days after the effective date of this Maximum Price Regulation No. 244, three copies, duly certified as being true and correct, of his published price lists in effect between August 1, 1941 and February 1, 1942, inclusive, and a statement, duly signed and sworn to, submitted in triplicate, of his customary extras, discounts and allowances in effect during such period; if such person had no such published price lists or no such customary extras, discounts and allowances, he shall file a sworn statement to that effect with the appropriate Regional Office. A list of the Regional Offices of the Office of Price Administration and the states and territories covered is set forth in Appendix D, incorporated herein as § 1421.169.

[Note: Revised Supplementary Order No. 23 (8 F.R. 6175) provides that no document filed pursuant to any price regulation or procedural regulation issued by the Office of Price Administration before May 17, 1943 need be sworn to or affirmed, except that protests and documents filed in support thereof shall continue to be sworn to or affirmed as provided in Revised Procedural Regulation No. 1.]

(b) Each person selling gray iron castings shall file with the appropriate Regional Office of the Office of Price Administration on or before January 15, 1943, three copies of Form 344:2 to be supplied by or obtained at any Regional Office of the Office of Price Administration, showing in the detail required by such form information as to wage rates, overhead rates, cost of materials, profit margins and pricing methods in effect for such seller at each of his foundries on February 1, 1942. If any seller who is excluded from the requirement of filing Form 344:2 by reason of the provisions of § 1421.151 (d) later is required to file said form, he shall file said form in accordance with this paragraph (b) within thirty days after he becomes subject to this Maximum Price Regulation as provided in § 1421.151 (d).

[Paragraph (b) as amended by Am. 2, 7 F.R. 10781, effective 12-26-42]

§ 1421.162 *Transfers of business or stock in trade.* If the business, assets, or stock in trade of any person producing gray iron castings are or have been sold or otherwise transferred after February 1, 1942, and the transferee carries on the business or continues to produce the same type of gray iron castings in an establishment separate from any other establishment previously owned or operated by him, the maximum prices of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had taken place, and his obligations to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available, or turn over, to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record and filing of price provisions of this regulation.

§ 1421.163 *Maximum prices for new sellers other than transferees.* Each person engaged in, or who proposes to engage in, the business of selling gray iron castings who was not in such business at his present foundry on February 1, 1942, and who is not a transferee as described in § 1421.162, shall file a proposed pricing method for computing maximum prices with the Iron and Steel Branch of the Office of Price Administration, Washington, D. C., for approval. Such proposed pricing method shall be submitted on Form 344:2 issued by the Office of Price Administration. The various pricing factors included in such pricing method shall be computed as follows:

(a) Direct labor costs shall be based upon the labor rates which were actually in effect for such seller in his gray iron operations on February 1, 1942 for each classification of direct labor, or, if labor rates for any classification of direct labor were not in effect for such seller on February 1, 1942, on labor rates no higher than the rates for such classification of direct labor prevailing for such seller's competitors in the same area on February 1, 1942. Overtime labor may be included in cost in accordance with the provisions of § 1421.166 (f) of this regulation.

(b) Direct material costs shall be based upon the costs to such seller on February 1, 1942 for such materials, or, if the seller had no such costs at that time, on his present costs for such materials, but in any case such costs may not exceed the applicable maximum prices for such materials established by the Office of Price Administration.

(c) In determining whether items of labor or material costs are direct or indirect, the seller shall employ the same classifications and criteria which he used on February 1, 1942, or, if he was not engaged in the production of gray iron castings at that time, the classifications and criteria which he would have then used.

(d) Overhead rates shall be the overhead rates in effect for such seller for a similar class of work on February 1, 1942, or, if no overhead rates were in effect for such seller for a similar class of work on February 1, 1942, the overhead rates shall be the rates such seller would have used on February 1, 1942 for a similar class of work. (Note: Two classes of work shall be considered not similar if the overhead rates on such classes would be materially different.)

(e) Mark up, margin, or profit shall be the mark up, margin, or profit which such seller would have used on February 1, 1942 if he had been in the business of selling gray iron castings at that time.

(f) Subcontracted machinery service costs may be computed at current levels as provided in § 1421.166 (b) (5) of this regulation.

The proposed pricing method shall be approved as filed or approved subject to such adjustments, conditions and limitations as the Office of Price Administration may provide, or shall be disapproved within twenty days from the time it is received by said Iron and Steel Branch, and in the event the Office of Price Administration does not send out in writing its approval or disapproval within twenty days as provided herein, the proposed pricing method shall be deemed approved. Pending approval or disapproval by the Office of Price Administration, the seller may sell, offer to sell and deliver gray iron castings at prices determined in accordance with the requested pricing method, but such prices shall be subject to adjustment, and the seller shall state in his contracts, offers and invoices that such prices are subject to adjustment, in accordance with the maximum prices resulting from the pricing method which is approved by the Office of Price Administration, and refunds shall be given of any payments made which are in excess of such maximum prices.

[§ 1421.163 as amended by Am. 4, 8 F.R. 3629, effective 3-27-63]

§ 1421.164 *Definitions.* (a) When used in this Maximum Price Regulation No. 244 the term:

(1) "Administrator" means the Price Administrator of the Office of Price Administration, Washington, D. C., or such person as he may appoint or designate to carry out any of his duties.

(2) "Appropriate Regional Office" means the Regional Office of the Office of Price Administration for the region in which the foundry of the seller is located: *Provided*, That if the seller owns and operates two or more gray iron foundries located in two or more Office of Price Administration regions, the term "appropriate regional office" shall mean the Regional Office of the Office of Price Administration for the region in which the central operating office of the seller is located.

[Subparagraph (2) as amended by Am. 7, effective 3-1-44]

(3) (i) "Gray iron castings" means all ferrous or ferrous base castings other than steel (including manganese steel), malleable or high alloy castings,[9] sold either with or without subsequent processing thereon, such as (without limitation), machining, galvanizing, plating, japanning, and treating, but does not include: (a) gray iron castings sold in an assembly with other materials (except bolts, nuts, screws, rivets or other industrial fastenings), (b) gray iron castings purchased from the seller on which the purchaser has performed subsequent

[9] The terms "steel castings", "manganese steel castings", "malleable iron castings" and "high alloy castings" are defined in Revised Price Schedule No. 41 (8 F.R. 12992, 13846) and Maximum Price Regulations 235 (7 F.R. 8218, 8948), 241 (7 F.R. 8427, 8941, 8948; 8 F.R. 325, 4733, 12016, 13737) and 214 (7 F.R. 7001, 8948, 10302), respectively; reference should be made to these definitions.

processing, (c) gray iron castings sold as another commodity by a regular manufacturer of such other commodity or by a purchaser from such manufacturer, and (*d*) gray iron castings for which maximum prices are established by Revised Maximum Price Regulation No. 236 [10] issued by the Office of Price Administration.

(ii) A seller of gray iron castings is considered a regular manufacturer of another commodity when (*a*) he represents himself in the trade as a manufacturer of such other commodity through the issuance of catalogues, price lists or other advertising matter, circulated generally to the trade, in which such commodity is designated by name, (*b*) he owns the patterns used for the production of such other commodity, and (*c*) he customarily produces such other commodity for, and sells such commodity from, stock. A seller of gray iron castings who believes that he is a regular manufacturer of another commodity, but who does not meet each of the requirements specified in the foregoing items (*a*), (*b*), and (*c*) may nevertheless be considered a regular manufacturer of another commodity if he is recognized in the trade as a source of supply of such other commodity and he applies to the Office of Price Administration for a determination, or the Office of Price Administration makes a determination without such application, that he is a regular manufacturer of such other commodity.

[Subparagraph (3) as amended by Am. 4, 8 F.R. 3629, effective 3-27-43]

(4) "Export" or "export sale" means any sale of a gray iron casting located within the Continental United States by a seller in the Continental United States to a purchaser outside thereof in which the casting sold is transported from the Continental United States to a point outside thereof and includes any sale of the exported casting by an agent of the exporter or by a corporation owned or controlled by the exporter within a period of two years after the date of shipment of the casting from the Continental United States: *Provided*, That it shall not include such a sale if the agent or subsidiary has processed, fabricated or otherwise substantially changed the form of the casting exported, or if the sale by the agent or subsidiary is through a regularly established retail outlet owned or operated by the agent or subsidiary.

(5) "Machinery service" means any operation in the processing, machining, welding, treating, finishing, testing, inspecting, adjusting, maintaining, repairing or rebuilding of a gray iron casting owned by another or of a product owned by another, which, as a result of such operation, becomes a gray iron casting.

(6) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government or any of its political subdivisions, or any agency of any of the foregoing.

(7) "Pricing method" means the formula by which the seller computes a price for gray iron castings, whether such formula is described to the purchaser or is merely the seller's device for computing costs of labor and materials, other costs, and margin, mark-up or profit.

(8) "Published price list" means a list or schedule of prices for a number of gray iron castings, whether or not the prices contained therein are tentative or subject to change without notice, in which such castings are designated either by weight or quantity or both, or by name or pattern number, submitted by the seller to more than one purchaser or prospective purchaser of the types of castings represented in the schedule.

(9) [Revoked]

[Subparagraph (9) revoked by Am. 6, 8 F.R. 13722, effective 10-11-43]

(10) "Sold or offered for sale" means (i) sold or delivered, or (ii) if no sales or deliveries were made, contracted to be sold, or (iii) if no sales, deliveries or contracts to sell were made, included in a published price list.

[Subparagraph (10) as amended by Am. 7, effective 3-1-44]

(11) "Substantially the same" when used with reference to two or more gray iron castings, means that they are substantially the same in design, specifications and weight, and that they are produced by the same type of pattern equipment.

(12) "Government contract" means any contract with the United States or any agency thereof or with the government of any country whose defense the President deems vital to the defense of the United States under the terms of the Act of March 11, 1941, entitled "An Act to promote the defense of the United States" or with any agency of any such government.

[Subparagraph (12) added by Am. 3, 8 F.R. 3002, effective 3-13-43]

(13) "Seller" shall include sellers of gray iron castings who are producers and those who are not producers. For the purpose of determining maximum prices under paragraph (b) of § 1421.166 of this regulation, but for no other purpose, if a seller owns and operates a number of different foundries each such foundry shall be considered a separate seller.

(14) "Producer of gray iron castings" and "producer" mean a person who is engaged in the business of casting the gray iron and shall include such person whether or not he performs subsequent processing on such castings or causes subsequent processing to be performed on such castings by another, the producer retaining title to the castings.

(15) "Foundry" includes, in the case of a seller of gray iron castings who is not a producer, a plant, establishment or place of business.

[Subparagraphs (13), (14) and (15) added by Am. 4, 8 F.R. 3629, effective 3-27-43]

(16) "Subcontract" means any purchase order or agreement to perform all or any part of the work required under, or to make or furnish any commodity needed for the performance of, another Government contract or subcontract thereunder.

[Subparagraph (16) added by Am. 7, effective 3-1-44]

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 as amended shall apply to other terms used herein.

§ 1421.165 *Effective date.* This Maximum Price Regulation No. 244 (§§ 1421.151 to 1421.169, inclusive) shall become effective October 26, 1942.

[Issued October 21, 1942]

§ 1421.165a *Effective dates of amendments.* [Effective dates of amendments are shown in notes following the parts affected.]

§ 1421.166 *Appendix A: Maximum prices for gray iron castings*—(a) *Base period maximum prices.*[11] (1) Where the casting to be priced is identical with a casting which the seller sold or offered for sale in the period between August 1, 1941 and February 1, 1942, the maximum price for such casting is the highest net price at which the casting was sold or offered for sale by the seller during such period: *Provided*, That the maximum price for such casting to a purchaser to whom the casting was sold or offered for sale by the seller in the period between August 1, 1941 and February 1, 1942 shall be the highest net price at which the seller sold or offered for sale the casting to such purchaser during such period. As used in this paragraph (a), the term "net price" means the price at which the casting was sold or offered for sale, adjusted for the seller's applicable customary charges, discounts, quantity differentials and allowances in effect between August 1, 1941 and February 1, 1942.

(2) Where the casting to be priced is not identical with a casting which the seller sold or offered for sale in the period between August 1, 1941 and February 1, 1942, but is substantially the same as a casting which the seller sold or offered for sale during such period to the purchaser to whom the casting is being priced, the maximum price for such casting to such purchaser shall be the highest net price at which the casting which is substantially the same was sold or offered for sale by the seller to such purchaser during such period.

(3) Notwithstanding any provision to the contrary contained in subparagraphs (1) and (2) of this paragraph, the seller may, in computing his maximum price of a gray iron casting under these subparagraphs (1) and (2), add to the maximum price of such casting which would otherwise be arrived at, an amount to compensate for the cost of overtime labor, such amount to be separately invoiced and computed in the manner set forth in paragraph (*f*) of this section.

[Paragraph (a) amended by Am. 6, 8 F.R. 13722, effective 10-11-43, and Am. 7, effective 3-1-44. Heading of paragraph (b) as amended by Am. 7]

(b) *Formula maximum prices: castings which cannot be priced under paragraph (a) of this section because they do not fall within the classifications of paragraph (a).* The maximum price for each such casting shall be computed by the seller on the following basis:

(1) *Pricing method.* (i) The seller shall employ the applicable pricing method which was in use at the foundry on February 1, 1942, and which has been or will be filed with the Office of Price Administration in accordance with section 1421.161 herein, employing each of the pricing factors reflected in such method at the levels prevailing at such time, except as specified in subparagraph (5) hereinbelow, including: direct labor rates (applied in accordance with subparagraph (2) below); direct material costs (applied in accordance with subparagraph (3) below); overhead (burden) rates (applied in accordance with subparagraph (4) below); subcontracted machinery service costs (applied in accordance with subparagraph (5) below); and mark-up, margin or profit (applied in accordance with subparagraph (6) below): *Provided however*, That in the case of a seller of a gray iron casting who is not the producer thereof, such seller shall compute his maximum price for such casting by adding to the price at which he purchased such casting, not to exceed the maximum price of the casting under this Regulation for the producer thereof, a mark-up, margin or profit determined in accordance with subparagraph (6) of this paragraph (b), and by adjusting this sum in accordance with the following subdivision (ii): *And provided further*, That the seller may, in computing his maximum price of a gray iron casting under this paragraph, add to the maximum price of such casting which would otherwise be arrived at, an amount to compensate for the cost of overtime labor, such amount to be separately invoiced and computed in the manner set forth in paragraph (*f*) of this section.

[Subparagraph (i) amended by Am. 4, 8 F.R. 3629, effective 3-27-43 and Am. 6, 8 F.R. 13722, effective 10-11-43]

(ii) The price arrived at by use of the pricing method shall be adjusted for all applicable charges, discounts, quantity differentials or other allowances in use at the foundry on February 1, 1942.

[Subparagraph (ii) as amended by Am. 6]

(2) *Direct labor rates.* (i) Direct labor costs shall be based upon the labor rates prevailing in the foundry on February 1, 1942, for each classification of direct labor. If on February 1, 1942 average or piece rates were used, such average or piece rates must be applied, and, in computing such piece rates, the seller shall use the base hourly rates and method in effect for him on February 1, 1942. In determining whether items of labor cost are direct or indirect, the seller shall employ the same classifications and criteria which he used on February 1, 1942.

(ii) [Revoked]

[Subparagraph (ii) revoked by Am. 6]

(3) *Direct material costs.* The seller shall compute direct material costs on a basis no higher than the costs to him of such materials on February 1, 1942, not to exceed the applicable maximum prices thereof established by the Office of Price Administration and, in determining whether items of material costs are direct or indirect, the seller shall employ the same classifications and criteria which he used on February 1, 1942.

(4) *Overhead (burden) rates.* The seller shall employ overhead or burden rates not in excess of the overhead or burden rates used in his pricing method on February 1, 1942, and he shall compute and apply such rates by the identical method which he used on that date.

(5) *Subcontracted machinery service costs.* To the extent that the pricing method includes or is based on prices paid for subcontracted machinery services, the seller shall use the actual prices paid or to be paid for such services, not in excess of the maximum prices established for such services by the Office of Price Administration, together with such additional charge, if any, as was in effect for such seller on February 1, 1942 for such subcontracted machinery services: *Provided*, That no overhead, mark-up, margin or profit may be figured on such additional charge.

(6) *Mark-up, margin or profit.* The seller shall use the mark-up, margin or profit which he used at the foundry on February 1, 1942, for the same type or classification of castings and customers, and which has been or will be filed with the Office of Price Administration in accordance with § 1421.161 herein.

(c) *Reports and recomputation of maximum prices of gray iron castings priced in accordance with paragraph (b) of this section.* (1) Except as hereinafter specified, the seller is required to make one recomputation of the maximum price for a gray iron casting priced under paragraph (b) of this section (but not under any other paragraph of this section) to determine whether his cost estimates are in accordance with his production experience (for example, the seller may have first estimated that five man-hours of molding time would be required in the production of the casting, whereas his production experience demonstrates that only four man-hours are necessary; in such a case the recomputed maximum price will be based on four man-hours of molding time rather than five). Overtime additions pursuant to paragraph (f) of this section shall not be deemed recomputations of maximum prices within the meaning of this paragraph. The recomputed maximum price shall be determined in accordance with the rates and pricing method set forth in paragraph (b) of this section and such price shall, subject to the provisions of § 1421.166 (b) (1) (ii) and § 1421.166 (f) of this regulation, thereafter, be the maximum price for the casting. Only one recomputation shall be made and it shall be made by the seller in pricing the first order received after completion of the order for which the original maximum price was computed, except that the seller shall make a second recomputation if the first recomputation was made or required to be made before the seller produced one hundred molds of the casting which is being priced. Where a second recomputation is required, it shall be made by the seller in pricing the first order received after completion of the order for which the first recomputation was made.

[Subparagraph (1) as amended by Am. 7, effective 3-1-44]

(2) In any case in which a seller, in accordance with the preceding subparagraph (1) of this paragraph (c), recomputes a maximum price which is higher than the maximum price earlier estimated, he shall file a report with the appropriate Regional Office of the Office of Price Administration containing:

[10] Revised Maximum Price Regulation No. 236 (7 F.R. 985; 8 F.R. 1681, 5170) establishes maximum prices in the Eastern part of the United States for heating boiler conversion parts; reference should be made to the definitions set forth in this Regulation No. 236.

[11] Examples of the method of computing base-period maximum prices are as follows: Assume that the seller sold or offered for sale in the period between August 1, 1941 and February 1, 1942 (hereinafter referred to as the "base-period") to purchasers A and B, but not to purchaser C, a casting which is identical to the casting to be priced and that the highest net prices to purchasers A and B in the base-period were 7¢ and 8¢ per pound, respectively. If the seller proposes to sell the casting to C, his maximum price is 8¢ per pound (subject to the provisions of § 1421.166 (a) (3) on overtime). The seller's maximum price to purchaser A would be 7¢ per pound and to purchaser B would be 8¢ per pound (subject to the provisions of § 1421.166 (a) (3) on overtime).

Assume that no casting which is identical to the casting to be priced was sold or offered for sale by the seller in the base period to any of his purchasers but that he sold or offered for sale in the base period to purchasers Y and Z a casting which is substantially the same as the casting to be priced at net prices of 7¢ and 8¢ per pound, respectively. Then, to all purchasers except Y and Z the seller would have to price the casting in question under the pricing formula method set forth in § 1421.166 (b). To purchasers Y and Z the seller's maximum price would be 7¢ and 8¢ per pound, respectively (subject to the provisions of § 1421.166 (a) (3) on overtime).

(i) Description of the gray iron casting;

(ii) The maximum price prior to the price increase;

(iii) The new maximum price.

(iv) An explanation of the higher price (in terms of the pricing method and of the appropriate cost factors reflected in such pricing method): *Provided*, That if the price of the gray iron casting previously has been reported pursuant to this subparagraph (2) without objection from the Office of Price Administration, the seller shall not be required to report subsequent sales or deliveries at the same or a lower price.

(d) *Exceptions.* Any person who, by order of the Office of price Administration, Washington, D. C., or any of its Regional Offices, has been granted an adjustment of, or exception from, the maximum prices established by the General Maximum Price Regulation on sales of gray iron castings (this does not include orders granting a method of pricing under § 1499.3 (b) of the General Maximum Price Regulation), may continue to sell and deliver gray iron castings at prices not to exceed the maximum prices specified in such order and in accordance with the terms of such order.

(e) *Maximum prices in lieu of those set forth in paragraph (b) for castings which cannot be priced under paragraph (a).* Notwithstanding the provisions of paragraph (b) of this section, where the seller delivered a casting at any time before August 1, 1941 which is identical with the casting for which a maximum price is sought, and if such casting cannot be priced under paragraph (a) of this section, he may, if he so chooses, in lieu of determining the maximum price of such casting under paragraph (b) of this section, use as his maximum price for such casting the price at which he last delivered the identical casting before August 1, 1941, after adjusting such price in accordance with the applicable customary charges, discounts, quantity differentials and allowances in effect for him between August 1, 1941 and February 1, 1942: *Provided*, That (1) the seller may, in computing his maximum price of a gray iron casting under this paragraph, add to the maximum price of such casting which would otherwise be arrived at, an amount to compensate for the cost of overtime labor, such amount to be separately invoiced and computed in the manner set forth in paragraph (f) of this section, and (2) where a casting is sold or offered for sale on or after March 31, 1944 and the maximum price therefor is determined under this paragraph, the seller may not thereafter determine the maximum price for such casting under paragraph (b) of this section.

[Paragraph (e) amended by Am. 6, 8 F.R. 13722, effective 10–11–43, and Am. 7, effective 3–1–44]

(f) *Method of computing overtime addition permitted under paragraphs (a), (b) and (e) of this section.* The addition which may be made to compensate for the cost of overtime labor (both direct and indirect shop and clerical labor) incurred in producing gray iron castings, as provided in paragraphs (a), (b) and (e) of this section, shall be computed [12] as follows: The seller shall (1) elect to compute overtime on a calendar monthly or a calendar quarterly basis, and such election shall be final, i. e., the seller may not shift from a monthly to a quarterly basis if he has chosen a monthly basis, and vice versa (the calendar month or calendar quarter, whichever is selected, shall be referred to in this paragraph as the "period"), (2) determine the overtime premium (as used in this paragraph, the term "overtime premium" means the excess of total payments to labor incurred in producing gray iron castings in a period above the payments which would have been made for the same period if no overtime were paid) per dollar of sales of gray iron castings for the period immediately preceding the period in which the casting in question is priced, by dividing the overtime premium during such preceding period by the total gross sales of gray iron castings invoiced during such period, except that if the casting in question is priced within 15 days after the close of the preceding period, the next preceding period shall be used, (3) reduce such overtime premium per dollar of sales to reflect the percentage by which average straight time hourly earnings during such applicable preceding period exceed the average straight time hourly earnings during the payroll-period (the time element in a "payroll-period" may not be the same as that in a "period") immediately preceding February 1, 1942, and (4) apply the resultant rate in (3) to the maximum price of the casting which would otherwise be arrived at under paragraph (a), (b) or (e) of this section: *Providing, however*, That before overtime labor cost as specified in the foregoing, may be applied and added to the maximum price of a casting which would otherwise be arrived at under paragraph (b) of this section, such maximum price must be reduced to the extent that it already reflects any overtime labor costs.

[Paragraph (f) added by Am. 6, 8 F.R. 13722, effective 10–11–43 and amended by Am. 7, effective 3–1–44]

(g) *Maximum prices for gray iron castings sold pursuant to short orders.* (1) Notwithstanding any provision to the contrary contained in paragraphs (a) to (f) of this section, inclusive, the maximum price of a gray iron casting sold pursuant to a "short order" as defined in the following subparagraph (2) shall be determined by multiplying the shipping weight of the casting by twice the seller's average price per pound for gray iron castings in the calendar year of 1942: *Provided*, That (i) the seller may add a set-up or starting charge for the short order of $8.00 for non-cored castings or $12.00 for cored castings, (ii) credit terms, discounts and allowances shall not be more onerous to the purchaser than those customarily used by the seller on February 1, 1942, (iii) transportation charges or allowances shall be made at rates prevailing at the time of delivery and shall be computed in accordance with the seller's customary practice on February 1, 1942, and (iv) the seller shall, not later than March 31, 1944, file with the Iron and Steel Branch of the Office of Price Administration, Washington, D. C., a statement of his average price per pound for gray iron castings in the calendar year of 1942. As used in this subparagraph, the term "average price per pound" means the price computed by dividing the seller's total gross sales of gray iron castings, less returns and allowances, by the total weight of gray iron castings shipped.

(2) The term "short order" means an order for the purchase of a gray iron casting where the shipping weight of the casting multiplied by the quantity ordered does not exceed 200 pounds: *Provided*, That (i) if the casting is produced or is to be produced on a production run whereby the 200 pound limitation is exceeded or will be exceeded, the order shall not be deemed a short order, (ii) orders shall not be split into small quantities for the purpose of classification as short orders, and (iii) if an order is received for a number of different patterns of gray iron castings, the order shall be deemed a short order with respect to each pattern for which the requirements hereinbefore specified are met.

PART 1389—APPAREL

[MPR 506,[1] Amdt. 2]

MANUFACTURERS' PRICES FOR STAPLE WORK GLOVES

A statement of the considerations involved in the issuance of this amendment is issued simultaneously herewith, and has been filed with the Division of the Federal Register.*

Maximum Price Regulation 506 is amended in the following respects:

1. Item (6) in section 1, paragraph (a) is amended to read as follows:

(6) Gloves with leather palm and canton flannel or jersey back. However, grain leather palm gloves are not covered by this regulation.

2. The word "upward" in the first sentence of section 6 (c) is deleted.

3. Instruction 1, which precedes the tables in Appendix A, is amended to read as follows:

Instructions. 1. Prices are stated per dozen pair of gloves. On shipments weighing 100 lbs. or more, the seller must prepay or allow transportation costs to the city of destination. However, where such shipments are made at transportation rates higher than freight rates, the seller must allow or prepay only that portion of the transportation cost which is equal to the freight cost on such shipments. On less than 100 lb. shipments, the seller need not allow or prepay any transportation costs.

4. The reference to footnote number 2 which follows item ten, "10 oz. Men's double gauntlet", in Table 1 of Appendix A, is deleted, and footnote number 5 is substituted.

5. Table 8 is added to Appendix A, after Table 7 and before Table 9, to read as follows:

TABLE 8—FULL LINED CANTON FLANNEL MITTENS

Men's 14½ oz., knit wrist [1]	$2.02½
Men's 16 oz., knit wrist [1]	2.17½
Men's 20 oz., knit wrist [1]	2.30
Men's 20 oz., open top ("smelter's mitten")	2.50

See footnotes at end of document.

6. Tables 10 and 11 are added to Appendix A, after Table 9 and before Table 12, to read as follows:

TABLE 10—FULL LINED JERSEY GLOVES, OPEN-WRIST ("SLIP ON")

Men's 13½–14 oz., plain shell	$2.30
Men's extra-large, 13½–14 oz., plain shell	2.40
Women's 13½–14 oz., fleece out plain shell	2.10
Men's 13½–14 oz., cut presser fancy shell	2.42½

TABLE 11—MISSES' AND CHILDREN'S SINGLE THICKNESS JERSEY GLOVES

Ages up to 5, 9 oz. plain, knit wrist	$1.30
Ages 5 to 10, 9 oz. plain, knit wrist	1.32½
Ages 10 to 15, 9 oz. plain, knit wrist	1.35
Ages up to 5, 9 oz. plain mitten, knit wrist	1.10
Ages 5 to 10, 9 oz. plain mitten, knit wrist	1.12½
Ages 10 to 15, 9 oz. plain mitten, knit wrist	1.15

See footnotes at end of table.

[12] An example of the method of computing overtime labor costs in accordance with the requirements of § 1421.166 (f) is as follows: Assume that total overtime premium paid to labor involved in the production of gray iron castings for the period immediately preceding the period in which the casting in question is priced amounts to $1,000; that total gross sales of gray iron castings invoiced during such preceding period were $20,000; that the percentage increase of average straight time hourly earnings during such preceding period over average straight time hourly earnings during the payroll-period immediately preceding February 1, 1942, was 10%; and that the maximum price of the casting established under paragraph (b) of § 1421.166 is $200 without the inclusion of any overtime. Then:

(a) Total overtime premium per dollar of sales of gray iron casting

$$\frac{\$1,000.00}{\$20,000.00} = \$.05 \text{ per } \$1 \text{ of sales}$$

(b) Total overtime premium per dollar of sales of gray iron castings reduced to reflect average straight time hourly earnings in the payroll period immediately preceding February 1, 1942.

$$\frac{\$.05}{\$1.10} = \$.045 \text{ per } \$1 \text{ of sales}$$

(c) Permissible overtime labor charge = $200.00 × $.045 = $9.00

(d) New maximum price of casting $200.00 + $9.00 = $209.00

The $9.00 charge must be shown separately on the invoice.

If the original maximum price of $200.00 under paragraph (b) of § 1421.166 already included a charge of, say, $4 for overtime labor cost, then:

(c) In the above example would be $196 × $.045 = $8.82

(d) In the above example would be $196 + $8.82 = $204.82

*Copies may be obtained from the Office of Price Administration.

PART 1360—MOTOR VEHICLES AND MOTOR VEHICLE EQUIPMENT

[RO 2B,[1] Amdt. 11]

PASSENGER AUTOMOBILES

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Ration Order No. 2B is amended in the following respects:

1. Section 1.4 is amended to read as follows:

SEC. 1.4 *Where and how to apply for a certificate for a 1942 car.* (a) Application for a certificate for a 1942 car shall be made either in person or by mail to the Board serving the area in which the person applying will ordinarily keep his car, or to the Plant Area Board or Plant Area Panel serving the establishment in which he works, if jurisdiction to act upon automobile applications has been conferred on the Plant Area Board or Panel by the District Director. Exceptions to this are the American National Red Cross, agencies of the Federal Government, persons who require cars for experimental purposes and body builders who propose to alter the cars obtained. These persons must file applications directly with the Office of Price Administration, Washington, D. C., as provided in section 3.1.

(b) A separate application shall be filed on Form R-213 for each 1942 car whether new or used. The applicant shall personally sign the application unless he is physically unable to do so. He shall supply all the information required by the application and any other information which the Board may need to verify statements on his application in regard to his need or eligibility for a 1942 car or to the serviceability of his present car.

(c) In the case of a used 1942 car only, an applicant must also submit a written statement with his application, giving the following information about the specific used 1942 car he wishes to acquire: make; body type; serial number; engine

number; current or previous license plate number and state of last registration. In the case of a dealer-owned car which has not been operated on individual private plates, the applicant must also submit the clearance statement issued to the dealer for that specific car.

2. Section 1.5 is amended to read as follows:

SEC. 1.5 *When and how a certificate is issued and used.* (a) If the applicant is applying for a new 1942 car and the Board determines that he is eligible, it shall indicate its approval on the application and shall forward it to the appropriate District Director for his action. The District Director may, within the limits of the monthly quota set for his district by the Office of Price Administration, issue a certificate on Form R-214.

(b) If the applicant is applying for a used 1942 car and the Board determines that he is eligible, it shall issue a certificate to him on Form R-214.

(c) The person to whom a ration certificate has been issued shall use it within fifteen days from the date on the certificate, but not thereafter, unless additional time is allowed by the Board. The allowance of any additional time shall be noted on the face of the certificate.

(d) A certificate for a used 1942 car may be used only to acquire the specific car described.

(e) Any person may deliver a 1942 car to anyone permitted to acquire it under this Ration Order 2B.

(f) If the certificate is used to lease a car, the certificate holder shall sign the certificate and surrender all of its parts to the lessor. The lessor shall keep all parts of the certificate for his permanent files. In any other case the parts of the certificate shall be signed by the certificate holder and shall be disposed of according to the instructions on the certificate.

3. Section 1.6 (a) (1) is amended to read as follows:

(1) A member of the armed forces who is on active duty with any branch of the United States Army, Navy, Coast Guard or Marine Corps (including their component women's organizations such as the WAC, WAVES, SPARS and Marine Reserves) or anyone who has received a Certificate of Fitness, DSS Form 218, from a Selective Service Board.

4. Section 1.6 (a) (4) is hereby revoked.

5. Section 2.7 (b) is amended to read as follows:

(b) He may use a car for the purpose of demonstrating it to a person who is interested in purchasing the car.

6. Sections 2.7 (c) and 2.7 (d) are hereby revoked.

7. The third sentence of section 2.8 (a) is amended to read as follows:

This section shall not apply to a car registered for use by a dealer; to a car acquired and set aside before January 2, 1942 by the dealer for his use, even if a clearance statement has not been issued for this car under section 1.9a; to a demonstrator car set aside and used before January 2, 1942 by the dealer or his employee for the purpose of demonstrating it to prospective customers; or to a car which the dealer has sold or contracted to sell to a person who has delivered a Certificate or Government Exemption Permit to him.

8. A new paragraph (e) is added to section 4.3 to read as follows:

(e) No person shall deliver a new 1942 car on a certificate authorizing the acquisition of a used 1942 car.

9. The following definitions are added to section 4.10;

"New 1942 car" means any 1942 passenger automobile (regardless of mileage) which has not been transferred to any person for use.

"Used 1942 car" means any 1942 passenger automobile (regardless of mileage) which has been transferred for use at any time to a person other than a dealer, or which a dealer has registered for his use or for which he has obtained a clearance statement.

This amendment shall become effective March 1, 1944.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 1364—FRESH, CURED AND CANNED MEAT AND FISH

[MPR 367,[1] Amdt. 4]

HORSEMEAT

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Maximum Price Regulation No. 367 is amended in the following respects:

1. Section 1 (b) is amended to read as follows:

(b) On and after August 16, 1943, regardless of any contract, agreement or other obligation, no person shall sell or deliver, and no person in the course of trade or business shall buy or receive, any horsemeat item or product containing horsemeat, unless such item or product has been specifically designated in section 6 (b) and a maximum price established therefor, or unless a maximum selling price has been authorized for sale of such item pursuant to the provisions of section 10 of this regulation. However, this prohibition shall not apply to the sale of any product containing horsemeat if the seller has filed a maximum selling price for such product pursuant to the provisions of Order No. 49 under the General Maximum Price Regulation, relating to sales of pet food and has complied with the provisions of Food Production Order No. 7, issued by the War Production Board on January 19, 1943, providing a limitation on sales of products for animal consumption.

2. The undesignated headnote above the table contained in section 6 (b) is amended to read as follows:

[All prices are on a dollars-per-hundredweight basis except these prices specified for brains, cheekmeat, heart, livers, lungs, melts and tongues which are on a cents-per-pound basis: the price for any fraction of a hundredweight per pound shall be reduced accordingly.]

3. Subdivisions (ii) and (iii) of section 6 (c) are amended to read as follows:

(ii) *Independent wholesalers.* Where an independent wholesaler delivers horsemeat to the place of business of the buyer and the expense of such delivery is borne by the independent wholesaler, he may add 25 cents per cwt. to the price specified in paragraph (b) of this section 6.

(iii) *Slaughterer.* Where a slaughterer delivers horsemeat to the place of business of the buyer and the expense of such delivery is borne by the slaughterer, he may add 25 cents per cwt. to the price specified in paragraph (b) of this section 6.

4. Sections 10 through 13 are redesignated 11 through 14 respectively.

5. Section 10 is added to read as follows:

SEC. 10. *Maximum prices for products which cannot be priced under section 6.* If a maximum price for any pet food product containing horsemeat has not been established under section 6 of this regulation, any seller may apply to the Office of Price Administration at Washington, D. C., for a maximum price, setting forth in an application, (a) a description of the product for which the maximum selling price is sought, including, where appropriate a description of the nature and degree of processing to which the product has been subjected; the brand name to be used, if any; the weight and type of package; the number of packages to a shipping unit and the weight of the shipping unit. In addition to the foregoing, the seller shall indicate the price requested, and the method used in determining the requested price.

(b) An itemized breakdown of the current costs involved in the preparation of the product according to his own system of accounts or regularly prepared operating statements (that is, direct costs such as ingredients used, packaging materials and direct labor; and indirect costs, such as factory overhead, selling, and administrative costs, together with an explanation of the allocation of the indirect cost factors; and freight if the item is to be sold on a delivered basis).

*Copies may be obtained from the Office of Price Administration.

[1] 8 F.R. 4918, 5341, 6048, 10660.

In each case the seller shall indicate whether the cost item is an actual or estimated cost.

(c) The method of distribution to be employed by the seller in marketing the commodity (i. e. whether it is to be sold to wholesalers, retailers, general stores or others).

(d) Where any item of expense set forth in the application is an estimated amount, the applicant shall file with the OPA, Washington, D. C., within 90 days but not earlier than 60 days after his maximum price has been authorized, a statement showing the actual amount of that item of expense based on records maintained since the date of the authorized price.

(e) The formula of the item being priced showing separately each ingredient, including moisture, the aggregate of which will account for at least 95% of the total weight.

This amendment shall become effective March 4, 1944.

NOTE: The record-keeping and reporting provisions of the amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 1373—PERSONAL AND HOUSEHOLD ACCESSORIES

[MPR 499,[1] Amdt. 1]

CERTAIN IMPORTED SWISS WATCHES

A statement of considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 499 is amended in the following respect:

Section 4 is amended to read as set forth below:

SEC. 4. *Retail price tags.* On and after December 27, 1943, no importer or wholesaler shall deliver any pin-lever, cylinder, or Roskopf watch unless the retail price tag described below is attached to it, and on and after January 10, 1944, no retailer shall offer for sale, sell or deliver such a watch unless such a price tag is attached to it. If you are a retailer and do not know the ceiling price for any untagged watch, you should apply to the nearest OPA District Office to ascertain the ceiling price so that you may place a tag on each watch.

The tag must be durable and must be securely attached to each watch. It must contain in easily readable lettering a statement of the type of movement (i. e. whether a pin-lever, cylinder or Roskopf), the number of jewels, either the size of the movement expressed in lignes or a statement that the size of the movement is under 8¾ lignes or 8¾ lignes or over, and the retail ceiling price exclusive of tax. The ceiling price for the watches in "waterproof" or "gold" cases may not be charged unless the tag so indicates. The type of movement may be stated by using the symbols "P" for pin-lever, "C" for cylinder, and "R" for Roskopf. The words "jewel" and "ligne" may be abbreviated to "J" and "L". The word "waterproof" may be abbreviated to "W." If the case contains gold, the tag may contain the symbol commonly used in trade to designate that type of gold metal, for example, "RGP" may be used to designate a "rolled gold plate" and "GF" a "gold filled" case. The tag may not be removed until the watch has been sold to the retail purchaser.

A tag in the following form will be sufficient:

4J over 8¾ L, PL, W
Retail ceiling excl. tax—$17.00

This Amendment No. 1 shall become effective on the 4th day of March 1944.

PART 1393—ICE

[MPR 154, as Amended, Amdt. 7]

ICE

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Section 1393.3 is amended to read as follows:

§ 1393.3 *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration having authority to act upon the pending request for a change in price or to give the authorization. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

This amendment shall become effective March 4, 1944.

CAST-IRON BOILERS AND CAST-IRON RADIATION

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 272 is amended in the following respects:

1. Section 1356.268 (a) (3) is amended to read as follows:

(3) *Unlisted items.* The maximum price for any model or type of cast-iron boiler sold or offered for sale by a manufacturer prior to August 1, 1942, which is not listed in the sheet prices set forth or referred to in paragraph (e) of this section, shall be an amount not more than the net price which was charged or would have been charged by the manufacturer on a sale made on February 18, 1942, to the same purchaser or class of purchaser for like quantities, types, and sizes of cast-iron boilers plus 5 percent.

2. Section 1346.268 (b) (2) is amended to read as follows:

(2) *Unlisted items.* The maximum prices for sales by jobbers or purchasers from them of any model or type of cast-iron boiler, which is not set forth or referred to in paragraph (e) of this section, shall be the highest sheet price published by the jobber during February 1942, plus 5 percent or, if the jobber had no published sheet price for any model or type of cast-iron boiler which is not set forth or referred to in paragraph (e) of this section, the maximum price shall be the cost of such cast-iron boiler to the jobber plus a percentage mark-up on the cost not in excess of the percentage mark-up over such cost which the jobber received on the greatest portion of his sales of cast-iron boilers during February 1942, calculated upon the basis used by each jobber during February 1942.

3. Section 1346.268 (e) is amended to read as follows:

(e) *Sheet prices for cast-iron boilers.* (1) Sheet prices for cast-iron boilers for the following group of manufacturers shall be the prices set forth in the price sheet which bears the date of issuance designated below plus 5 percent.

Chapter XIII—Petroleum Administration for War

[PDO 14, as Amended Feb. 26, 1944]

PART 1529—MARKETING PETROLEUM

The fulfillment of requirements for the defense of the United States has created in certain areas a shortage in the supply of motor fuel and fuel oil for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest to promote the national defense and to provide adequate supplies of motor fuel and fuel oil for military and other essential uses.

Petroleum Distribution Order No. 14 is hereby amended and reissued as follows:

§ 1529.2 *Petroleum Distribution Order No. 14*—(a) *Definitions.* (1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Motor fuel" means liquid fuel, including Diesel fuel, used for the propulsion of motor vehicles or motor boats and shall include any liquid fuel to which Federal gasoline taxes apply except liquid fuel used for the propulsion of aircraft.

(3) "Fuel oil" means any liquid petroleum product commonly known as fuel oil, includes Grades Nos. 1, 2, 3, 4, 5, and 6, Bunker "C", Diesel oil, kerosene, range oil, gas oil, or any liquid petroleum product used for the same purposes as the above designated grades.

(4) "Supplier" means any person who regularly receives or refines motor fuel or fuel oil for redelivery.

(b) *Deliveries for specified uses.* Each supplier shall, within the limits of his supply, make withdrawal or delivery of motor fuel or fuel oil when such withdrawal or delivery is requested to satisfy the requirements of;

(1) The Army and the Navy of the United States, the Coast Guard, the War Shipping Administration, the United States Maritime Commission, and the Foreign Economic Administration; and

(2) Any person using or supplying motor fuel for non-highway farm uses who presents valid E, R, or bulk coupons or ration checks, issued pursuant to Ration Order 5C of the Office of Price Administration, to the extent of such uses only.

(c) *Appeals.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him may file an appeal setting forth the pertinent facts and the reasons why he considers himself entitled to relief. All appeals shall be filed in triplicate.

(d) *Appeals and correspondence.* All correspondence and appeals filed under paragraph (c) shall, unless otherwise directed, be addressed to the District Director of Distribution and Marketing, Petroleum Administration for War at:

(1) 122 East 42nd Street, New York, New York, if the motor fuel or fuel oil is to be delivered or used in the State of Florida (west of the Apalachicola River).

(2) 1200 Blum Building, 624 South Michigan Avenue, Chicago, Illinois, if the motor fuel or fuel oil is to be delivered or used in the States of Ohio, Kentucky, Tennessee, Indiana, Michigan, Illinois, Wisconsin, Minnesota, Iowa, Missouri, Oklahoma, Kansas, Nebraska, South Dakota, or North Dakota.

(3) 245 Mellie Esperson Building, Houston, Texas, if the motor fuel or fuel oil is to be delivered or used in the States of Alabama, Mississippi, Louisiana, Arkansas, Texas, or New Mexico.

(4) 320 First National Bank Building, Denver, Colorado, if the motor fuel or fuel oil is to be delivered or used in the States of Montana, Wyoming, Colorado, Utah, or Idaho.

(5) 855 Subway Terminal Building, Los Angeles, California, if the motor fuel or fuel oil is to be delivered or used in the States of Arizona, California, Nevada, Oregon, or Washington, or the Territories of Alaska or Hawaii.

(e) *Violations.* Any person who wilfully violates any provision of this order or who, by any act or omission, falsifies records kept or information furnished in connection with this order is guilty of a crime and upon conviction may be punished by fine or imprisonment.

Any person who wilfully violates any provision of this order may be prohibited from delivering or receiving any material under priority control, or such other action may be taken as is deemed appropriate.

(f) *Area of applicability.* The provisions of this order shall be applicable to any person located in the States of Alabama, Arizona, Arkansas, California, Colorado, Florida (west of the Apalachicola River), Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Mexico, North Dakota, Ohio, Oklahoma, Oregon, South Dakota, Tennessee, Texas, Utah, Washington, Wisconsin, and Wyoming, and the Territories of Alaska and Hawaii.

Chapter XV—Board of War Communications

[Order 19-B]

PART 1714—INTERNATIONAL RADIOTELEPHONE COMMUNICATIONS

Whereas, The Board of War Communications has determined that the national security and defense and the successful conduct of the war demand the termination of certain international radiotelephone communications;

Now, therefore, by virtue of the authority vested in the Board by Executive Order No. 8964, dated December 10, 1941 (6 F.R. 6367) Order No. 19-A dated March 17, 1943 (8 F.R. 3535), is hereby amended to read as follows: *It is hereby ordered as follows:*

§ 1714.1 *Termination of certain international radiotelephone communications.* From and after the date hereof, (a) non-governmental business radiotelephone calls between the United States and Great Britain shall be permitted subject to the prior approval thereof from the Office of Censorship. No personal radiotelephone calls shall be permitted between the United States and Great Britain.

(b) No non-governmental business or personal radiotelephone call shall be made to or from any foreign point outside of the Western Hemisphere other than Great Britain unless such call is made in the interest of the United States or the United Nations and unless an agency of the United States Government sponsors such call and obtains prior approval therefor from the Office of Censorship: *Provided, however,* That this provision shall not apply to American press calls or radio broadcast programs, or to such other press calls and radio programs as may be specifically approved by the Office of Censorship.

(c) No calls of any nature, over the radiotelephone circuits under the jurisdiction of the United States, no matter where such calls may originate, unless sponsored and approved as provided in paragraph (b), shall be permitted to, from, or on behalf of, the following thirteen countries: Egypt, Finland, France, Iceland, Iran, Ireland, Latvia, Lithuania, Portugal, Spain, Sweden, Switzerland, and Turkey.

(d) Personal calls other than those prohibited in the foregoing paragraphs may be completed between two points in the Western Hemisphere.

Subject to such further order as the Board may deem appropriate.

Nothing herein shall apply to existing regulations governing the use of cable, telegraph, or radiotelegraph communications.

BOARD OF WAR COMMUNICATIONS,
JAMES LAWRENCE FLY,
Chairman.

Attest: February 19, 1944.

LAPEL BUTTON FOR HONORABLE SERVICE

RULES OF ELIGIBILITY AND DISTRIBUTION[2]

1. The following personnel are authorized to wear and are entitled to the issue of the lapel button for honorable service subsequent to 8 September 1939:

a. All military personnel who have served honorably in active Federal service in the Army of the United States since 8 September 1939, and who are, or have been, honorably discharged, retired, or transferred to an inactive status.

b. Officers and enrolled members of the Women's Army Auxiliary Corps, whose separation from the service was under honorable conditions.

2. One lapel button will be issued to the personnel named in paragraph 1*a* at the time of retirement, transfer to inactive reserve status, or honorable separation from the service. The discharging or transferring authority will arrange with a custodian of buttons for such issue.

3. All personnel who are eligible to receive and wear this lapel button under the provisions stated above and who have not previously been issued a button are authorized to make application therefor, either:

a. In person at any Army installation, other than ports of embarkation, or

b. In writing to any Army installation, other than ports of embarkation.

4. Personnel, other than officers, applying for this button will present a discharge certificate, certificate of service, or War Department special order announcing retirement. Officers applying for the button may, in lieu of either of the above-mentioned certificates, present one true copy of orders or other instrument relieving them from active duty.

5. Notation of the issue of a lapel button will be made on the reverse side of the discharge certificate or the certificate of service. No other record will be required.

6. Duplicate buttons may be sold by the officers detailed as custodians of stocks of lapel buttons to any applicant presenting documentary evidence of honorable discharge, relief, or retirement, and certificate that the button originally issued has been lost. The notation required by the foregoing paragraph will be modified to show such sale. Issuing officers will collect the cost of the button from each individual to whom a duplicate is sold and deposit such collections as of the last day of each month with the disbursing officer serving the installation. PARTIAL REVOCATION OF FIRST FORM WITHDRAWAL

DECEMBER 31, 1943.

THE SECRETARY OF THE INTERIOR.

SIR: From recent investigations in connection with the Prosser Creek Reservoir site, the withdrawal of the hereinafter described lands, withdrawn in the first form prescribed by section 3 of the act of June 17, 1902 (32 Stat. 388) by Departmental order of October 18, 1940, no longer appears necessary to the interests of the project.

It is therefore recommended that so much of said order as withdrew the land hereinafter listed be revoked, *Provided,* That such revocation shall not affect the withdrawal of any other land by said order or affect any other order withdrawing or reserving the land hereinafter listed.

Respectfully.

H. W. BASHORE,
Commissioner.

I concur: February 10, 1944.

FRED W. JOHNSON,
Commissioner of the General Land Office.

The foregoing recommendation is hereby approved, and it is so ordered. The jurisdiction over and use of such lands by the Bureau of Reclamation shall cease upon the date of the signing of this order.

This order, however, shall not otherwise become effective to change the status of the lands until 10:00 o'clock a. m. of the sixty-third day from the date on which it is signed, whereupon the lands shall, subject to valid existing rights, become subject to such application, petition, location, or selection as may be authorized by the public-land laws in accordance with the provisions of 43 CFR 295.8 (Circ. 324, May 22, 1914, 43 L. D. 254) and 43 CFR part 296, to the extent that these regulations are applicable.

The Commissioner of the General Land Office is hereby authorized and directed to cause the records of his office and of the local land office to be noted accordingly.

Coal Mines Administration.

[Order CMA–22]

BELLE VALLEY COAL CO., ET AL.

ORDER TERMINATING GOVERNMENT POSSESSION

I have been advised that the mining companies listed in Appendix A have entered into wage agreements with their employees in conformity with a basic wage agreement between the Progressive Mine Workers of America and certain Illinois producers, heretofore approved by the National War Labor Board, and that there no longer exist any work stoppages or threats of work stoppages because of labor disputes at said mines. Based upon such advice, and after consideration of all the circumstances, I find that possession by the Government of the mines of such mining companies is not required for the furtherance of the war program.

Accordingly, I order and direct that the possession by the Government of the mines of the mining companies listed in Appendix A, which is attached hereto and made a part hereof, including any and all real personal property, franchises, rights, facilities, funds, and other assets used in connection with the operation of such mines, be, and it is hereby, terminated and that there be conspicuously displayed at those mining properties copies of a poster to be supplied by the Coal Mines Administration and reading as follows:

NOTICE: Government possession and control of the coal mines of this mining company have been terminated by order of the Secretary of the Interior.

Instruments of agreement and certification having heretofore been executed and filed with the Coal Mines Administration by each of said companies, the appointments of the operating managers for their mines are terminated, as provided by section 25 (f), as amended, of the Regulations for the Operation of Coal Mines under Government Control.

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice of issuance of special certificates for the employment of learners under the Fair Labor Standards Act of 1938.

Notice is hereby given that special certificates authorizing the employment of learners at hourly wages lower than the minimum rate applicable under section 6 of the act are issued under section 14 thereof and § 522.5 (b) of the regulations issued thereunder (August 16, 1940, 5 F.R. 2862) to the employers listed below effective as of the date sepcified in each listed item below.

The employment of learners under these certificates is limited to the terms and conditions as designated opposite the employer's name. These certificates are issued upon the employers' representations that experienced workers for the learner occupations are not available for employment and that they are actually in need of learners at subminimum rates in order to prevent curtailment of opportunities for employment. The certificates may be cancelled in the manner provided for in the regulations and as indicated on the certificate. Any person aggrieved by the issuance of the certificates may seek a review or reconsideration thereof.

FEDERAL COMMUNICATIONS COMMISSION.

[Docket No. 6576]

CHESAPEAKE AND POTOMAC TELEPHONE CO.

ORDER SETTING HEARING DATE

In the matter of The Chesapeake and Potomac Telephone Company. Surcharges collected by hotels, apartment houses and clubs on interzone message telephone service.

At a session of the Federal Communications Commission held on the 14th day of February, 1944, at its offices in Washington, D. C.;

It appearing that The Chesapeake and Potomac Telephone Company filed with this Commission on January 22, 1944, a tariff schedule to be effective February 15, 1944, designated as follows: "The Chesapeake and Potomac Telephone Company, Tariff F. C. C. No. 15, First Revised Page 8;"

It further appearing that the above tariff schedule provides that a "service charge" not to exceed five cents may be made by hotels, apartment houses, and clubs in the District of Columbia on each interzone telephone message within the Washington Metropolitan Area from private branch exchange extension telephone in rooms or apartments occupied by transients;

It further appearing that the "service charge" for which provision is thus made is a "surcharge" of the kind which this Commission has decided in its report and order of December 10, 1943 (P–29), in Docket No. 6255, must be properly shown in effective tariff schedules filed with this Commission if they are to be collected;

It further appearing that the "service charge" provided for by the above tariff schedule may be unjust, unreasonable, unjustly or unreasonably discriminatory, or otherwise unlawful under the provisions of the Communications Act of 1934, as amended;

It further appearing that the above tariff provision may be so indefinite and ambiguous as to its application as to be violative of the provisions of § 61.55 of the Commission's Rules and Regulations requiring clear, definite, and explicit statements as to charges and related regulations;

It further appearing that the District of Columbia Public Utilities Commission has disapproved a like tariff provision filed with it with respect to the collection of a "service charge" on interzone telephone messages within the Washington Metropolitan Exchange Area;

It is ordered, That the Commission shall, on its own motion, and without formal pleading, enter upon a hearing concerning the lawfulness of the new provision contained in the above-cited tariff schedule with respect to "service charges" on interzone telephone messages;

It is further ordered, That the operation of the above-cited tariff schedule be, and it is hereby suspended until May 15, 1944, unless otherwise ordered by the Commission; and that during such period of suspension, no changes shall be made in the provisions of the above-cited tariff schedule, or in any provisions sought to be altered thereby, unless authorized by the Commission;

It is further ordered, That in the event a decision as to the lawfulness of the tariff provision herein suspended has not been made during the suspension period, and "service charges" as provided for therein become effective, The Chesapeake and Potomac Telephone Company shall, until further order of the Commission, keep, or cause to be kept, accurate account of all amounts collected from telephone users by reason of such "service charges", in which accounting there shall be specified by whom and in whose behalf such amounts are paid;

It is further ordered, That the hearing be, and it is hereby scheduled to be held beginning at 10:00 a. m., on the 15th day of March, 1944 at the offices of the Commission in Washington, D. C.;

It is further ordered, That a copy of this order shall be filed in the offices of the Federal Communications Commission with the tariff schedule herein suspended; that copies hereof shall be served upon the District of Columbia Public Utilities Commission; the Maryland Public Service Commission; the Virginia State Corporation Commission; the National Association of Railroad and Utilities Commissioners; The Chesapeake and Potomac Company; The Chesapeake and Potomac Telephone Company of Baltimore City; The Chesapeake and Potomac Telephone Company of Virginia; the Hotel Association of Washington, D. C., Inc.; and the Building Owners and Managers Association of Washington, D. C.

[Docket No. 6577]

PENNSYLVANIA TELEPHONE CORP.

ORDER SETTING HEARING DATE

In the matter of Pennsylvania Telephone Corporation; accounting.

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 16th day of February, 1944;

It appearing that beginning in the year 1940 and continuing to date, the Pennsylvania Telephone Corporation has made, and is continuing to make, charges to its operating expense Account 614, "Amortization of Telephone Plant Acquisition Adjustment" (§ 31.614 of the Commission's Rules and Regulations), for the purpose of amortizing or otherwise disposing of amounts included in its Account 100.4, "Telephone Plant Acquisition Adjustment" (§ 31.100:4 of the Commission's Rules and Regulations), without the prior direction, authorization or approval by this Commission, required by the provisions of paragraph (c) of account 100.4 by those of Account 614, and of Commission Order No. 60, adopted July 12, 1939; and that the Pennsylvania Telephone Corporation has continued to make such charges to its operating expense Account 614 despite the fact that in March, 1942, and repeatedly thereafter, the company's attention was directed to this violation of the Commission's Rules and Regulations and its Order No. 60;

It is ordered, That the Pennsylvania Telephone Corporation shall appear and show cause why the Commission should not refer to the Attorney General of the United States, for the institution and prosecution of appropriate proceedings, the matter of the violation by the Pennsylvania Telephone Corporation, its directors, and responsible officers, of the provisions of Account 100.4 (paragraph (c)) and Account 614 of the Commission's Uniform System of Accounts for Class A and Class B Telephone Companies; of Commission Order No. 60 adopted July 12, 1939; and of paragraphs (d) and (g) of section 220 of the Communications Act of 1934, as amended;

It is further ordered, That all charges to operating expense accounts which have been made by the Pennsylvania Telephone Corporation on and after January 1, 1943 for the purpose of, or in conjunction with, amortizing or otherwise disposing of amounts in its Account 100.4 be, and they are hereby suspended, pending determination by the Commission of the propriety and reasonableness of such charges; that the Pennsylvania Telephone Corporation shall cease and desist from making any such charges to operating expense accounts pending such determination, unless otherwise specifically directed by the Commission; and that the Pennsylvania Telephone Corporation shall make an appropriate annotation in its annual (Form M) report to this Commission for the years ended December 31, 1940, 1941, and 1942, which shall state that all charges to Account 614 in those years have been questioned, and are under investigation, by this Commission;

It is further ordered, That three certified copies of the suspending entries, and of the annotations, required by the immediately preceding ordering paragraph, shall be filed with the Commission on or before the 22nd day of March, 1944;

It is further ordered, That an investigation be, and the same is hereby, instituted into the account performed, and the accounts, records, and memoranda kept by the Pennsylvania Telephone Corporation with respect to all entries made to its Account 100.4, and related entries;

It is further ordered, That a hearing on the above matters shall be held beginning at 10:00 a. m. on the 22d day of March 1944 at the offices of the Commission in Washington, D. C.;

It is further ordered, That the hearing provided for by this order shall be conducted jointly with any hearings involving similar matters which may be ordered for the same time and place by the Pennsylvania Public Utility Commission;

It is further ordered, That copies of this order shall be served upon the Pennsylvania Telephone Corporation and upon each of its directors and officers for the period beginning January 1, 1940 to date, upon the Pennsylvania Public Utility Commission, and the National Association of Railroad and Utilities Commissioners.

By the Commission.

[Supp. Order ODT 20A-71]

CERTAIN TAXICAB OPERATORS

COORDINATED OPERATIONS IN ROME, N. Y., AREA

Upon consideration of a plan for joint action filed with the Office of Defense Transportation by the persons named in Appendix 1 hereof (hereinafter called "operators") pursuant to General Order ODT 20A (8 F.R. 9231), a copy of which plan is attached hereto as Appendix 2,[1] and it appearing that the operators propose, by the plan, to coordinate their taxicab operations within the area of Rome, New York, so as to assure maximum utilization of their facilities, services and equipment, and to conserve and providently utilize vital equipment, materials and supplies, and to provide for the prompt and continuous movement of necessary traffic, the attainment of which purposes is essential to the successful prosecution of the war, *It is hereby ordered*, That:

1. The plan for joint action above referred to is hereby approved with the exception of section 5 (i). The operators are directed to place the plan into operation forthwith, subject to the following provisions, which shall supersede any provisions of such plan that are in conflict therewith.

2. Each of the operators shall forthwith file a copy of this order with the appropriate regulatory body or bodies having jurisdiction over any operations affected by this order.

3. The provisions of this order shall not be construed or applied as to permit any operator named herein to alter his legal liability to any passenger. In the event that compliance with any term of this order, or effectuation of any provision of such plan, would conflict with, or would not be authorized under, the existing operating authority of any operator named herein, such operator forthwith shall apply to the appropriate regulatory body or bodies for the granting of such operating authority as may be requisite to compliance with the terms of this order, and shall prosecute such application with all possible diligence. The coordination of operations directed by this order shall be subject to the operators possessing or obtaining the requisite operating authority.

4. All records of the operators pertaining to any transportation performed pursuant to this order and to the provisions of such plan shall be kept available for examination with inspection at all reasonable times by accredited representatives of the Office of Defense Transportation.

5. The plan for joint action hereby approved and all contractual arrangements made by the operators to effectuate the plan shall not continue in operation beyond the effective period of this order.

6. Any operator duly authorized or permitted to operate taxicabs within the area herein described, and having suitable equipment and facilities therefor, may make application in writing to the Division of Motor Transport, Office of Defense Transportation, Utica, New York, for authorization to participate in the plan. A copy of each such application shall be served upon each of the operators named in this order. Upon receiving authorization to participate in the plan, each such operator shall become subject to this order and shall thereupon be entitled and required to participate in the plan in accordance with all of the provisions and conditions of this order, in the same manner and degree as the operators named herein.

7. Communications concerning this order should refer to "Supplementary Order ODT 20A-71" and, unless otherwise directed, should be addressed to the Division of Motor Transport, Office of Defense Transportation, Utica, New York.

8. This order shall become effective March 4, 1944, and shall remain in full force and effect until the termination of the present war shall have been duly proclaimed, or until such earlier time as the Office of Defense Transportation by further order may designate.

Issued at Washington, D. C., this 26th day of February 1944.

No operator participating in the plan shall be denied or refused further participating without the prior approval of the Office of Defense Transportation.

3. The provisions of this order shall not be construed or applied as to permit any operator named herein to alter his legal liability to any passenger. In the event that compliance with any term of this order, or effectuation of any provision of such plan, would conflict with, or would not be authorized under, the existing operating authority of any operator named herein, such operator forthwith shall apply to the appropriate regulatory body or bodies for the granting of such operating authority as may be requisite to compliance with the terms of this order, and shall prosecute such application with all possible diligence. The coordination of operations directed by this order shall be subject to the operators possessing or obtaining the requisite operating authority.

4. All records of the operators pertaining to any transportation performed pursuant to this order and to the provisions of such plan shall be kept available for examination with inspection at all reasonable times by accredited representatives of the Office of Defense Transportation.

5. The plan for joint action hereby approved and all contractual arrangements made by the operators to effectuate the plan shall not continue in operation beyond the effective period of this order.

6. Any operator duly authorized or permitted to operate taxicabs within the area herein described, and having suitable equipment and facilities therefor, may make application in writing to the Division of Motor Transport, Office of Defense Transportation, Saginaw, Michigan, for authorization to participate in the plan. A copy of each such application shall be served upon each of the operators named in this order. Upon receiving authorization to participate in the plan, each such operator shall become subject to this order and shall thereupon be entitled and required to participate in the plan in accordance with all of the provisions and conditions of this order, in the same manner and degree as the operators named herein.

7. Communications concerning this order should refer to "Supplementary Order ODT 20A–74" and, unless otherwise directed, should be addressed to the Division of Motor Transport, Office of Defense Transportation, Saginaw, Michigan.

8. This order shall become effective March 6, 1944, and shall remain in full force and effect until the termination of the present war shall have been duly proclaimed, or until such earlier time as the Office of Defense Transportation by further order may designate.

Issued at Washington, D. C., this 28th day of February 1944.

C. D. YOUNG,
Deputy Director,
Office of Defense Transportation.

OFFICE OF PRICE ADMINISTRATION.

[MPR 188, Order 1298]

UPHOLSTERED FURNITURE

AUTHORIZATION OF MAXIMUM PRICES

Order No. 1298 under § 1499.159b of Maximum Price Regulation No. 188, Manufacturers' maximum prices for specified building materials and consumers' goods other than apparel.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order Nos. 9250 and 9328, it is ordered:

(a) *Purpose of this order.* The purpose of this order is to provide suitable methods for setting maximum prices for articles of upholstered furniture whether or not they use metal spring construction. The techniques provided in the order are the same as the existing pricing methods contained in Maximum Price Regulation No. 188 with slight variations which are largely designed for the pricing of articles of upholstered furniture in which metal spring constructions are again being used because of the War Production Board's recent release of steel. As far as practicable, this order sets the maximum price of an article of upholstered furniture containing metal spring-filling on the basis of an article which the manufacturer previously made containing metal spring-filling for which a maximum price has already been established.

(b) *Relationship of this order to other provisions of Maximum Price Regulation No. 188.* This order modifies the pricing provisions of § 1499.153 through § 1499.158 of Maximum Price Regulation No. 188 and establishes maximum prices for the sale and delivery by manufacturers of articles of upholstered furniture after the effective date of this order. For these sales and deliveries, the reporting provisions of §§ 1499.153 through 1499.158 and all other provisions of Maximum Price Regulation No. 188, shall apply.

(c) *Maximum prices.* This paragraph outlines seven pricing situations likely to confront a manufacturer and contains four methods by which his maximum price for an article of upholstered furniture may be set. Each situation is described in a heading and a maximum price is to be computed under the applicable method which is named in the paragraph following it.

(1) *Reintroduction of an article previously priced.* The maximum price for an article of upholstered furniture containing metal spring-filling which is the same as any article for which a maximum price has already been established shall be the maximum price of the article already priced. This is true of any article of upholstered furniture of any type the production of which was suspended and is resumed. Any article of upholstered furniture containing metal springs is not considered, for the purposes of this order, to be the same as an article which does not contain metal springs.

(2) *Reintroduction of an article previously priced, with minor changes.* The maximum price for an article of upholstered furniture, whether or not containing metal spring-filling, which differs from any article for which a maximum price has already been established only by reason of minor changes in material, design or construction which do not reduce the cost of materials or prevent its offering fairly equivalent serviceability, shall be the maximum price of the article already priced. For the purposes of this order, any article of upholstered furniture containing metal spring-filling differs by more than minor changes from an article of upholstered furniture which does not contain metal spring-filling.

(3) *Introduction of an article previously priced, with substantial changes involving metal springs.* If a substantial change is made in an article of upholstered furniture for which a maximum price had previously been established in metal spring construction by varying the number, kind or placement of metal springs, the maximum price of the changed article shall be computed under the second pricing method of Maximum Price Regulation No. 188, as outlined in § 1499.156. If a substantial change is made by the introduction of metal springs in an article which has been manufactured with solid filling or substitutes for metal springs under the restrictions of War Production Board Order L–135 and which was previously made with metal spring-filling, the maximum price of the article being priced shall be computed under the second pricing method, as outlined in § 1499.156 of Maximum Price Regulation No. 188 using the original metal spring-filled article as a base.

(4) *Introduction of an article previously priced, with substantial changes, (other than those involving metal springs) due to shortage of materials or parts.* Where changes of materials or parts due solely to shortages are made in an article of upholstered furniture for which a maximum price had been previously established, whether or not it contained metal spring-filling, the maximum price of the changed article shall be computed under the second pricing method of Maximum Price Regulation No. 188, as outlined in § 1499.156.

(5) *Introduction of metal springs in an article never made with metal springs before.* The maximum price of an article for which a maximum price has been established without metal springs which is being produced for the first time containing metal springs shall be computed under the second pricing method of Maximum Price Regulation No. 188, as outlined in § 1499.156. Included here are articles which have always contained solid filling and articles containing solid filling or substitutes for metal springs produced for the first time since War Production Board Order L–135 was issued. Not included under this subparagraph are articles produced with springs prior to the issuance of War Production Board Order L–135, subsequently changed under this War Production Board order, and now again produced with springs. These last named articles are priced under subparagraph (3) above.

(6) *Introduction of a new article, or introduction of an article previously priced, with substantial changes, (other than those involving metal springs) not due to shortage of materials or parts—*
(i) *New articles.* The maximum price of an entirely new article of upholstered furniture, whether or not it contains metal springs, will be computed under the third pricing method of Maximum

[1] Filed as part of the original document.

Price Regulation No. 188, as outlined in § 1499.157.

(11) *Substantial changes other than those involving spring-filling or shortages.* If any substantial changes other than those specified in subparagraphs (3) and (4) above are made in an article of upholstered furniture, whether or not containing metal springs, for which a maximum price has already been established, the maximum price of the resulting new article shall be computed under the third pricing method of Maximum Price Regulation No. 188, as outlined in § 1499.157.

Articles chosen as comparable articles having unit direct costs nearest above and nearest below the unit direct cost of the articles being priced under this subparagraph need not be articles currently being sold but shall be selected from among articles the manufacturer has previously included in a report under § 1499.156 or § 1499.157 of Maximum Price Regulation No. 188, filed with the Office of Price Administration in Washington, D. C. He may have included the unit direct cost of the article either for the purpose of pricing it or for the purpose of using it as the old or comparable article upon which the maximum price of another article was based.

(7) *Introduction of articles which cannot be priced by any of the methods outlined in the paragraphs preceding.* The maximum price for any article or group of related articles of upholstered furniture which cannot be established under subparagraphs (1), (2), (3), (4), (5), or (6) above, shall be determined under the fourth pricing method of Maximum Price Regulation No. 188, as outlined in § 1499.158.

(d) *Adjustment charge provided by Order 1052 may not be used by manufacturers in computing maximum price of new or changed articles under this order.* In computing the maximum price of a new or changed article under this order, the maximum price of the old or comparable article without the adjustment charge must be used. After the maximum price of the article being priced has been properly computed under this order (using the existing maximum prices of the old or comparable articles without adjustment charge) the 5% adjustment charge provided by Order No. 1052 may be added.

(e) This Order No. 1298 shall become effective on the 28th day of February 1944.

Issued this 26th day of February 1944.

Acting Administrator.

[Maximum Import Price Regulation,[1] Order 8]

SALES OF IMPORTED MANUFACTURED GOODS

Exception relating to sales of imported manufactured goods priced prior to issuance of Amendment No. 2.

An opinion accompanying this Order No. 8 has been issued simultaneously herewith and has been filed with the Division of the Federal Register. For the reasons set forth in that opinion and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Orders No. 9250 and 9328, *It is hereby ordered,* That:

(a) Notwithstanding the provisions of the Maximum Import Price Regulation, any importer, primary wholesaler, secondary wholesaler, or retailer, who has applied for or has obtained an approved maximum selling price for imported manufactured goods from the Export-Import Price Branch, Office of Price Administration, Washington, D. C., prior to March 2, 1944 under paragraph (d) of section 8 of the Maximum Import Price Regulation, may sell or deliver such goods at the approved price within sixty days after March 2, 1944.

(b) Notwithstanding the provisions of the Maximum Import Price Regulation, any importer, primary wholesaler, secondary wholesaler or retailer, who had properly established a maximum price for imported manufactured goods prior to March 2, 1944 under paragraph (a) or (c) of section 8 of the Maximum Import Price Regulation by applying to his permitted total landed costs either the same dollars-and-cents mark-up or 75 percent of the percentage mark-up included in the price for his first sale after March 31, 1942, may sell or deliver such goods at that maximum price within sixty days after March 2, 1944.

(c) This Supplementary Order No. 8 shall become effective March 2, 1944.

MILK IN CERTAIN AREAS IN COLORADO

2d Revised Order No. G-7 Under Supplementary Regulation 15 of the General Maximum Price Regulation, Amendment No. 1. Adjusted maximum prices for fluid milk sold at wholesale and at retail in certain areas in the State of Colorado.

Pursuant to the Emergency Price Control Act of 1942, as Amended, Supplementary Regulation 15 to the General Maximum Price Regulation as Amended, and for the reasons set forth in the accompanying opinion, 2d Revised Order No. G-7 under Supplementary Regulation 15 of the General Maximum Price Regulation is hereby amended as follows:

1. Paragraph (b) is amended by adding thereto specific maximum prices for the "Colorado Springs Area" and the "Pueblo Area" as follows:

Size of glass or paper container	Colorado Springs area: Wholesale	Colorado Springs area: Retail	Pueblo area: Wholesale	Pueblo area: Retail
	Cents	*Cents*	*Cents*	*Cents*
½ pint	3½	5	3½	5
Pint	6	7	6	7
Quart	11	13	11	13
½ Gallon	21	25	21	25
Gallon	41	48	41	48

2. Paragraph (c) (2) is amended by deleting therefrom the exception in parentheses immediately following the word "El Paso" and inserting in lieu thereof the following: "(except the Colorado Springs Area)", and by further deleting therefrom the exception in parentheses immediately following the word "Pueblo" and inserting in lieu thereof the following: "(except the Pueblo Area and the hamlet of Rye in Pueblo County and all that area lying within a radius of five miles thereof)", thereby making said paragraph (c) (2) read as follows:

(2) "Area 2" means all that area in the State of Colorado contained within the counties of Alamosa, Chaffee, Cheyenne, Conejos, Costilla, Crowley, Custer, Dolores (except that portion contained in Area 1), Eagle (except that portion contained in Area 6), Elbert, El Paso (except the Colorado Springs Area), Garfield, Grand, Gunnison (except that portion contained in Area 1), Kit Carson, Kiowa, Jackson, Lincoln, Morgan, Park, Phillips, Pueblo (except the Pueblo Area and the hamlet of Rye in Pueblo County and all that area lying within a radius of five miles thereof), Rio Blanco, Rio Grande, Routt (except that portion contained in Area 1), Saguache, San Miguel (except that portion contained in Area 4), Washington, and Yuma.

3. Paragraph (c) (5) is amended to read as follows:

(5) "Area 5" means all that area in the State of Colorado contained within the County of Lake (except the mining town of Climax and that portion of Lake County contained within Area 6) and the hamlet of Rye in Pueblo County, and all that area lying within a radius of five miles thereof.

4. Paragraph (c) is further amended by redesignating subparagraph (7) thereof subparagraph (9) and adding two new subparagraphs designated (7) and (8) to follow immediately after subparagraph (6), and reading as follows:

(7) "Colorado Springs Area" means all that area in the State of Colorado lying east of a line drawn north and south through a point one mile west of the most westerly boundary of the municipality of Manitou, Colorado, and south of a line drawn east and west through a point four miles north of the most northerly boundary of the municipality of Colorado Springs, Colorado, and west of a line drawn north and south through a point one mile east of the most easterly boundary of the municipality of Fountain, Colorado, and north of a line drawn east and west through a point one mile south of the most southerly boundary of Fountain, Colorado.

(8) "Pueblo Area" means all of that area in the State of Colorado lying east of a line drawn north and south through a point three miles west of the most westerly boundary of the municipality of Pueblo, Colorado, and south of a line drawn east and west through a point three miles north of the most northerly boundary of the municipality of Pueblo, Colorado, and west of a line drawn north and south through a point three miles east of the most easterly boundary of the municipality of Pueblo, Colorado, and north of a line drawn east and west through a point three miles south of the most southerly boundary of the municipality of Pueblo, Colorado.

Effective date. This Amendment No. 1 shall become effective as to the community of Rye, Colorado, on the 16th day of February 1944, and as to the Colorado Springs and Pueblo Areas the same shall become effective retroactively as of the 16th day of November, 1943, the date upon which the 2d Revised Order No. G-7 was issued by this regional office.

Notice is hereby given that a declaration or application (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by The Commonwealth & Southern Corporation ("Commonwealth"), a registered holding company.

Notice is further given that any interested person may, not later than March 8, 1944, at 5:30 p. m., e. w. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declaration or application, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said declaration or application, which is on file in the office of said Commission, for a statement of the transaction therein proposed which is summarized below:

Commonwealth proposes, subject to the approval of the Commission, to pay a dividend of $1.25 per share, an aggregate of $1,852,000, on the outstanding shares of its preferred stock. The dividend was declared on February 19, 1944 and is payable on the 28th day after approval by this Commission, to stockholders of record at the close of business on the 14th day after such approval. The pending application is similar in substance to three applications approved by the Commission in 1943 covering proposed distributions to preferred stockholders (see Holding Company Act Release Nos. 4383, June 24, 1943; 4560, September 13, 1943; and 4709, November 26, 1943).

Applicant considers sections 11 and 12 (c) of the Act and Rule U-46 as applicable to the proposed transaction.

By the Commission.

NATIONAL POWER AND LIGHT CO., ET AL.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 25th day of February, A. D., 1944.

In the matter of National Power & Light Company, Lehigh Valley Transit Company, Pennsylvania Power & Light Company, The Edison Illuminating Company of Easton, Applications No. 8 and 9.

Notice is hereby given that joint applications have been filed with this Commission by National Power & Light Company ("National"), a registered holding company, and its subsidiary companies Pennsylvania Power & Light Company ("Pennsylvania"), Lehigh Valley Transit Company ("Transit") and The Edison Illuminating Company of Easton ("Edison Illuminating"), pursuant to the applicable provisions of the Public Utility Holding Company Act of 1935 and the Rules and Regulations of this Commission promulgated thereunder. All interested persons are referred to said documents, which are on file in the office of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

National states that the proposals contained in the applications are made as further steps in compliance with the order of the Commission dated August 23, 1941 directing the dissolution of National and in carrying out its "Plan Dated as of May 7, 1942 for compliance with section 11 (b) (2) of the Public Utility Holding Company Act of 1935" as supplemented by Amendment No. 4 thereto dated February 15, 1943. The proposals are as follows:

(1) Transit will sell and Pennsylvania will acquire 15,469 shares of the $7 preferred stock of Pennsylvania now owned by Transit and pledged under its first, and refunding and improvement mortgages at a price of $97.50 per share or an aggregate consideration of $1,508,227.50 plus accumulated and unpaid dividends.

(2) Transit will sell and Pennsylvania will purchase a steam generating station and certain related electric equipment located at Allentown, Pennsylvania for a cash consideration of approximately $1,900,000.

(3) Transit will, out of the proceeds arising from the above transactions, retire all of its First Mortgage Bonds in the principal amount of $1,890,750, which bonds are redeemable at principal amount plus accrued interest.

(4) Transit will deposit with the Trustee under Transit's refunding and improvement mortgage the remainder of the proceeds, such proceeds to be used for the purchase and cancellation of bonds secured by said Refunding and Improvement Mortgage in accordance with the terms thereof.

(5) Edison Illuminating will surrender for redemption to Transit or, prior to such redemption, will sell to the public at market price $72,000 principal amount of the First Mortgage Bonds of Transit now owned by it and with the proceeds, together with other monies available will retire 4,317 shares of its capital stock now owned by National at par of $25 per share or an aggregate amount of $107,925.

(6) National will transfer to Pennsylvania, as a capital contribution, the remainder of the capital stock of Edison Illuminating consisting of 8000 shares and Pennsylvania will accept such contribution subject, however, to obtaining from this Commission an order issued pursuant to sections 3 (a) (1) and 3 (a) (2) of the act exempting Pennsylvania, as a holding company, from the provisions of the Act on the ground that Pennsylvania, after the acquisition, will be predominantly a public utility company.

It appearing to the Commission that it is appropriate in the public interest that a hearing be held with respect to said matters and that said application shall not be granted except pursuant to further order of this Commission; and

It further appearing to the Commission that evidence bearing on the matter recited above, and upon the questions to be determined, is contained in the record of proceedings before the Commission in *Pennsylvania Power & Light Company, et al.*, File No. 32-164 and File No. 59-29;

It is ordered, That a hearing on such matters under the applicable provisions of the said act and the rules promulgated thereunder be held on March 23, 1944 at 10:30 a. m., e. w. t., at the office of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such date the hearing room clerk in Room 318 will advise as to the room where such hearing will be held. At such hearing cause shall be shown why such applications shall be granted. Notice is hereby given of said hearing to the above named applicants and to all interested parties, said notice to be given to said applicants by registered mail and to all other persons by publication in the FEDERAL REGISTER.

It is further ordered, That William W. Swift or any other officer or officers of the Commission designated by it for that purpose, shall preside at the hearing in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the rules of practice of the Commission.

It is further ordered, That any person desiring to be heard at said hearing or proposing to intervene therein shall file with the Secretary of the Commission on or before March 21, 1944, his request or application therefor as provided by Rule XVII of the rules of practice of the Commission.

It is further ordered, That, without limiting the scope of the issues presented by the said applications otherwise to be considered in this proceeding, particular attention will be directed at the hearing to the following matters and questions:

(1) Whether the proposed transactions: (a) Constitute steps in compliance with the order of the Commission dated August 23, 1941 issued pursuant to section 11 (b) (2) of the act, directing the dissolution of National, (b) are fair and equitable to all persons affected thereby, and (c) are in conformity with the applicable provisions of the act and the rules, regulations and orders thereunder.

(2) Whether, in the event the transfer by National to Pennsylvania of the capital stock of Edison Illuminating is approved, Pennsylvania shall be granted exemption as a holding company from the provisions of the act.

(3) Whether the accounting entries in connection with the proposed transactions are in conformity with the standards of the act and the rules promulgated thereunder.

(4) Whether, in the event the applications are granted, it is necessary to impose any terms or conditions to insure compliance with the standards of the act.

It is further ordered, That in the interest of expeditious procedure all evidence with respect to Pennsylvania Power & Light Company, Lehigh Valley Transit Company, Edison Illuminating Company of Easton, National Power & Light Company and Electric Bond and Share Company contained in the record of the proceedings in *Pennsylvania Power & Light Company*, File No. 59-29, and in *Pennsylvania Power & Light Company*, File No. 32-164, so far as relevant to the issues above stated, shall be incorporated in the record of the proceedings herein ordered, and shall be regarded as evidence duly adduced in the present proceedings, subject to the same objections and exceptions preserved in the record of the proceeding in which first introduced.

By the Commission.

SELECTIVE SERVICE SYSTEM.

[Operations Order 26]

REGISTRANTS IN VIRGIN ISLANDS

ASSIGNMENT OF SERIAL AND ORDER NUMBERS

Pursuant to authority contained in the Selective Training and Service Act of 1940, as amended, *I hereby order:*

1. The provisions of the Selective Service Regulations, Second Edition, concerning the assignment of serial numbers and order numbers shall not apply to the assignment of serial numbers and order numbers of registrants under the jurisdiction of local boards in the Virgin Islands. The assignment of serial numbers and order numbers to such registrants shall be made in accordance with this operations order. As used in this order, the words "local board" mean a local board in the Virgin Islands of the United States and the word "registrant" means a registrant under the jurisdiction of a local board in the Virgin Islands of the United States.

2. Registrants under the jurisdiction of local boards in the Virgin Islands of the United States shall, for the purpose of assignment of serial numbers and order numbers, be considered as registrants of one registration group. Order numbers shall be assigned as hereinafter provided to such registrants from the National Master list—First Drawing, October 29–30, 1940 (Form 169).

3. The local board shall assign serial numbers and order numbers to registrants for whom it receives or completes a registration card on or before March 14, 1944, in the following manner:

(a) After the local board has transcribed from the registration card (Form 1–F) to a white registration card (Form 1) all of the information needed to complete the white registration card (Form 1) as provided in § 618.11 of the Selective Service Regulations, it shall place all of such registration cards (Form 1) together. On March 15, 1944, the local board shall thoroughly shuffle or mix such registration cards (Form 1) so that the location of any card in the pile—and the number it later receives—will be purely a matter of chance.

(b) (1) The local board shall then put on each registration card (Form 1) a serial number in the space marked serial number. The card that is first in the pile after the shuffle shall be numbered "1", the next card "2", and so on. Each card shall have one, and only one, whole serial number, such as 2691. No letters or fractions shall be used in the first serial numbering of cards. Whether pen or rubber stamp is used, the serial number shall be in black ink.

(2) If errors are made in serial numbering the cards or other irregularities occur, they shall be corrected in the manner prescribed in paragraphs (c), (d), (e), (f), and (g), whichever is applicable.

(c) A local board shall use a serial number only once. If a card is canceled because of duplication, transfer, or any other reason, the serial number on that card shall not be put on another card.

(d) If a check of the cards shows that a card was not given a serial number, the board shall, if any numbers were skipped, give the card one of the skipped numbers picked by lot; or, if no numbers were skipped, the board shall give the card the number following the largest serial number already used by the board.

(e) If two cards have the same serial number, the board shall pick one of the cards by lot to keep that number. It shall renumber the other card as prescribed in paragraph (d).

(f) If the local board has two registration cards (Form 1) for the same registrant, the cards should be treated just as if they were cards for two different registrants.

(g) If a card has on it two serial numbers, neither of which is also on another card, the board shall give it the smaller of the two numbers. If either of the numbers is on another card, the board shall give to the card having the two numbers the number not on another card. If both of the two serial numbers are on other cards, the board shall number the card as prescribed in paragraph (d).

(h) While, or after, serial numbering its registration cards, the local board shall make out a list of Registrants (Form 3–B) in quadruplicate. Registrants shall be listed in order of their serial numbers, with the registrant having Serial Number 1 at the top of the list. All numbers from "1" to the largest serial number used shall be listed, whether or not each number was given to a registrant.

(i) (1) When the local board has completed the actions provided for above, it shall on March 15, 1944, assign each registrant an order number by use of the National Master List—First Drawing, October 29–30, 1940 (Form 169). The greatest care must be used in the assignment of order numbers because the order numbers establish the order in which the registrants will be considered for selection for service. The registrant whose serial number appears at the top, or nearest the top of the National Master List shall get Order Number 1. The registrant whose serial number is next closest to the top of the National Master List shall get Order Number 2. The registrant whose serial number is third closest to the top of the list shall get Order Number 3, and so on until each registrant has an order number. Order numbers must be assigned in sequence; no order number shall be skipped. Serial numbers on the National Master List which are not held by any registrant of the particular local board are simply crossed off the National Master List and ignored. It is suggested that the local board shall as its first step in the assignment of order numbers mark the order numbers opposite the applicable serial numbers on the National Master List.

(2) Example: Suppose the National Master List begins:

258
7
8225
119
634

and that a certain local board's largest serial number is 2,104 and that for some reason it has no card serial numbered 119. Then:

Serial Number 258 gets Order Number 1.
Serial Number 7 gets Order Number 2.
Serial Number 3225 [should be cancelled].
Serial Number 119 [should be cancelled].
Serial Number 634 gets Order Number 3.

(3) Before the order numbers are placed on the registration cards (Form 1), the local board must be sure that its assignment of order numbers without exception agrees with the order in which the serial numbers on its cards appear on the National Master List. The oversight of one serial number will upset every order number below it, and if the order numbers have been placed on the cards before the mistake is found, blotched cards will be the result.

(4) When the local board is sure that its assignment of order numbers is correct, it shall enter them on the registration cards (Form 1) in red ink in the place designated.

(j) (1) If a local board has two cards for the same registrant, the card whose serial number comes earliest in the National Master List shall be given its proper order number. The other card shall be marked "Canceled. Duplicate."

(2) If a registrant is registered with two local boards, each board shall put an order number on the card it has, just as if he were registered with only one local board.

(k) As soon as order numbering is completed, the local board shall place the order numbers in the first column and will otherwise complete all four copies of the List of Registrants (Form 3–B). The local board shall then post one copy of such DSS Form 3–B in its office, file one copy, furnish one copy to the press, and forward one copy to its State Director of Selective Service.

4. The local board shall assign serial numbers and order numbers to registrants for whom it receives or completes a registration card on and after March 15, 1944, in the following manner:

(a) After the local board has transcribed from the registration card (Form 1–F) to a white registration card (Form 1) all of the information needed to complete the white registration card (Form 1) as provided in § 618.11 of the Selective Service Regulations, it shall then place the smallest unassigned serial number upon such registration card (Form 1).

(b) The local board shall then find from the National Master List—First Drawing, October 29–30, 1940 (Form 169) what the registrant's order number would have been if his registration card (Form 1) had been completed prior to March 15, 1944. The local board shall then assign such registrant the order number which precedes the order number which would have been assigned to him had his registration card (Form 1) been completed prior to March 15, 1944, and shall add a letter to it. For example: If his order number would have been 84 had his card been completed prior to March 15, 1944, the local board will assign him Order No. 83–A.

WAR PRODUCTION BOARD.

DENTALIUM LABORATORIES AND DENTALIUM PRODUCTS, AND PARA-CHROME RESEARCH LABORATORIES, INC.

CONSENT ORDER

Myrtle Dustoor, Herman Ampel, Leon Mogul and Sydney Metz, doing business as Dentalium Laboratories and Dentalium Products, and Para-Chrome Research Laboratories, Inc., all located at 333 West 39th Street, New York, New York, are engaged in the business of manufacturing and distributing dentures. By a letter dated December 13, 1943, from the War Production Board, they were charged with having violated Conservation Order M-199 of the War Production Board by having purchased approximately 7,000 ounces of silver and having processed approximately 12,500 silver rings during the period September 28, 1942, through October 4, 1943. Hearings before a Compliance Commissioner have been held during which the respondents conceded that they purchased and processed 1,000 ounces of silver in violation of Conservation Order M-199.

Wherefore, upon the agreement and consent of the Regional Compliance Chief, the Regional Attorney, and upon the approval of a Compliance Commissioner, *It is hereby ordered*, That:

(a) Deliveries of material to Myrtle Dustoor, Herman Ampel, Leon Mogul and Sydney Metz, individually, or doing business as Dentalium Laboratories or as Dentalium Products or otherwise, or to Para-Chrome Research Laboratories, Inc., their or any of their successors or assigns, shall not be accorded priority over deliveries under any other contract or order, and no preference rating shall be assigned, applied or extended to such delivery under any preference rating certificate, preference rating order, general preference order, or any other order or regulation of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(b) No allocation to Myrtle Dustoor, Herman Ampel, Leon Mogul or Sydney Metz, individually, or doing business as Dentalium Laboratories or as Dentalium Products or otherwise, or to Para-Chrome Research Laboratories, Inc., their or any of their successors or assigns, shall be made of any material the supply or distribution of which is governed by any order of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(c) Nothing contained in this order shall be deemed to relieve Myrtle Dustoor, Herman Ampel, Leon Mogul and Sydney Metz, individually, or doing business as Dentalium Laboratories or as Dentalium Products or otherwise, or to Para-Chrome Research Laboratories, Inc., from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board.

(d) This order shall be in effect from February 24, 1944, to March 24, 1944, both inclusive.

Issued this 17th day of February 1944.

M. GLOSSER & SONS

CONSENT ORDER

David Glosser and Solomon Glosser of Johnstown, Pennsylvania, are partners in the firm of M. Glosser & Sons, with offices at 630 Elder Street and a sales room at 80 Messenger Street, Johnstown, Pennsylvania, and are engaged in the business of dealing in electric motors, new and used machinery, scrap and used copper, steel warehouse products, plumbing and heating materials. An investigation conducted by representatives of the War Production Board on or about March 25, 1943, and July 12 to 14, 1943, disclosed that the aforementioned persons failed, in numerous instances, to conform to the provisions contained in Limitation Order No. L-79, General Preference Order P-84, General Preference Order M-9-a and Supplementary Conservation Order M-9-c-4, issued by the War Production Board. The aforementioned persons have admitted their failure to comply in all instances with the provisions of these regulations, and have consented to the issuance of this order.

Wherefore, upon the agreement and consent of David Glosser and Solomon Glosser, the Regional Compliance Chief and the Regional Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered*, That:

(a) David Glosser and Solomon Glosser of Johnstown, Pennsylvania, partners in the firm of M. Glosser & Sons, and doing business under that name or under their own names or any other names, their successors or assigns, are hereby prohibited from accepting deliveries of, receiving, delivering, selling, transferring or otherwise dealing in any new metal plumbing equipment or any new metal heating equipment which is now or during the term of this order may be controlled by Limitation Order L-79, unless hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve David Glosser and Solomon Glosser of Johnstown, Pennsylvania, partners in the firm of M. Glosser & Sons, or under their own names or any other names, their successors or assigns, from any restrictions, prohibitions or provisions contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on the date of issuance, and shall expire ninety days from date thereof, at which time the restrictions contained in this order shall be of no further force or effect.

Issued this 27th day of February 1944.
